Let Hartman Feather Your Nest
HARTMAN*S LEGAL GUARANTEE

We Unreservedly Guarantee every article sold by us to be exactly as represented and described in our catalog.

We Guarantee our prices to be lower than those of any other concern for goods of equal quality.

We Guarantee to ship each and every article on approval and if within 30 days from receipt of the goods anything is not perfectly satisfactory for any reason whatever, we will accept their return, and when the goods are returned to us, we will refund all money paid on them including payment of freight charges both ways.

HARTMAN FURNITURE & CARPET CO., Chicago, Ill.

When you order goods from HARTMAN'S, you deal with a National Institution, whose success was founded on honesty, protection and integrity 61 years ago. Our Guarantee assures the same principles today. It is backed by our wonderful retail organization, our enormous Mail-Order Plant, and the indorsement of the strongest banks in the UNITED STATES.

AS TO OUR RESPONSIBILITY

THE VERY FIRST FACT WE WISH TO DRIVE HOME is that the HARTMAN FURNITURE & CARPET COMPANY was established in 1855. The year of 1916 marks our 61st anniversary. On the following pages you will find photographic reproductions of our immense Chicago mail-order plant and a few of our great chain of retail stores, forcibly illustrating our progress.

SO VAST AN ENTERPRISE AS OURS has taken sixty-one years to build and the investment of many millions of dollars. Yet, even time and money could never have accomplished such tremendous growth if we had not ALWAYS dealt fairly and honestly with our customers. Success of any kind is generally MERITED. We must GIVE in order to GET. After a fruit tree ceases to bear fruit we chop it down and use it for kindling. It is a natural LAW that if you want to succeed you must give others the BEST that is in you ALL THE TIME. That is why, after sixty-one years, we are today the LARGEST home-furnishing organization in the world. We have succeeded MOST because we have served the people BEST. The little acorn of business honesty and good faith that was implanted into the heart of our business 61 years ago, could not help but grow into the giant oak of today—because the best interests of our customers has always been our first consideration. We gave them, always, the best that was in us, in every respect. In return our customers gave us their utmost confidence and helped us to grow.

YOU HAVE EVERY RIGHT TO KNOW something about a firm and the RESPONSIBILITY of the firm you are thinking of doing business with before you pay out hard-earned money on any purchase. With this in mind let us state a few simple facts:

SUCH WONDERFUL GROWTH AND SUCCESS AS OURS CAN GROW OUT OF ONLY ONE CONDITION. Years ago we started out with the firm determination in our hearts to please and satisfy EACH and EVERY customer, no matter who they were, where they lived, or how big or small their purchase might be; and we have followed this policy unfalteringly in every case, regardless of possible loss to us. Then, when we started to grow and we numbered our customers in the thousands, our success did not make us less conscientious; and now, after many years, with over a million and a half customers on our books, we are PROUD to say that success has still not changed our policies. Fair, honest dealing is still our motto. It is our inseparable principle—it is the corner-stone of our business. It is even more than this—IT IS THE SECRET OF OUR TREMENDOUS SUCCESS—it is the secret for the implicit CONFIDENCE with which our customers honor us after once dealing with us; and there will be no exception anywhere at any time toward anyone. Time has taught us that it is better to have your KINDLY FEELING than your money. Therefore, you are safe, absolutely, in dealing with us, because we guarantee your satisfaction; because we are here to STAY; because you are dealing with the LARGEST HOME-FURNISHING ORGANIZATION IN THE WORLD; in fact, because it is Hartman's, which means HEADQUARTERS.

FOR OVER THREE-SCORE YEARS we have been in business. We have succeeded. We have grown to be the largest home-furnishing organization in the world. The 61st year of our business career finds us a PERMANENT establishment—AND IN BUSINESS TO STAY! By honest, square-deal methods we have grown from a modest beginning to our present unquestionable supremacy with more than a million and a half customers on our books. You will find "Hartman" homes—"The Nests that Hartman Feathered"—in every nook and corner of the United States; from the Great Lakes to the Gulf of Mexico; from the Atlantic to the Pacific Ocean. We have a combined capital of over $12,000,000. Any bank, any newspaper, any farm paper, or magazine will testify to our responsibility, for our organization today stands out alone and supreme—a commercial giant, towering head and shoulders above any and all competition.

THE TREMENDOUS SIZE ALONE of this institution is sufficient guarantee of our honesty of purpose. The PERMANENCY of our enterprise, the FINANCIAL SOLIDITY are both irrefutable proof that time and test have found no flaw or weakness in us, and substantially proves that our honesty and responsibility are both beyond question.

DURING OUR SIXTY-ONE YEAR BUSINESS JOURNEY millions of satisfied customers have been proven conclusively and to their own satisfaction that our service was the best, most efficient and courteous; our methods and policies honorable; our ability to serve the widest in scope; our credit-system extremely generous; our values honest. Nowhere else in the world will you find another institution like this—one which has found its way so THOROUGHLY into the homes and hearts of the people.
OUR UNMATCHABLE BARGAINS AND LOW PRICES. When you look through this Catalog and see how low our prices are for the high quality of the goods we offer—or if you compare these prices and qualities with other houses or your home town dealers’ prices, say to yourself, “There is a reason for such high quality at such low prices.”

There IS a reason for it and a GOOD one: Situated as we are in the very heart of the greatest furniture market in the world, we have the finest facilities for picking the very cream of the goods on the market. Then, do not forget this: We buy in THOUSANDS where other firms or retail dealers buy in hundreds or dozens. We buy more at one time than most retail furniture houses buy in years, because we buy for our immense mail-order plant, and our great chain of retail stores. Buying this way (in the largest quantities known) we can afford to sell at a lower price than any other furniture concern in this country, and save you considerable money on almost any article you select; and you get the best that enormous buying power and experience can command.

We bring the cream of the world’s furniture markets right into your own home where you can comfortably select the things you want to beautify your home. Nothing but the finest furniture is EVER ASSEMBLED BY ANY ONE CONCERN.

Think what this means: The world’s best—the largest range for selection—brought right into your own home. No one else can give you such an UNLIMITED variety to choose from—no one else can quote you such bargain prices or such generous, easy credit terms.

REMEMBER THAT YOU CAN TAKE A YEAR TO PAY YOUR BILL IF YOU WISH IT.

A Hartman purchase means that you’ll have the FINEST, the BEST that an experienced group of buyers could POSSIBLY find after thoroughly searching all through the furniture markets of the entire world.

ON THE INSIDE FRONT COVER of this catalog you will find our guarantee printed in full. Read it carefully before looking through this catalog. It is the strongest guarantee possible to frame—and protects you absolutely—you take no chance whatever—you risk positively nothing. We have always bought only thoroughly dependable merchandise, which we are not afraid to guarantee. That is why we fully pledge ourselves to return your money and whatever freight charges you have paid both ways, if, for any reason whatsoever, you are not satisfied with your purchase; or if you find the goods unsatisfactory or misrepresented.

We are in business to STAY, and we CANT AFFORD to have dissatisfied customers. You are the sole judge and jury in this decision, too. We put the furniture in your home and you can use it, examine it, show how family can inspect it, and judge its value and beauty. Until you say that you are satisfied with the goods we do not consider that the sale has been made.

WE EXTEND LIBERAL CREDIT TO EVERY-ONE—EVERYWHERE. Your income makes no difference. It doesn’t make a particle of difference where you live or how much you earn, we extend you the invitation to beautify your home and enjoy the comforts of a finely-furnished home while you are paying for it.

On page 1 you will find our terms, giving first payment and monthly payment according to the amount of your bill. A glance will show you how EXTREMELY LIBERAL these terms are, and how easy it is to have a beautiful home and pay for it in small monthly payments which you will never miss. Hartman’s is the safest modern method of extending credit known. Experience has taught us that we can trust implicitly the people who build and love their homes. We know that people who are buying home-comforts are the kind we want for customers, and the kind we are glad to trust to the fullest extent. In extending you credit we do not quibble; we do not ask questions; there is no red tape about our system whatsoever; there are NO EXTRA CHARGES of any kind; no mortgage to sign; no interest to pay. We do not ask you security or recommendations; we have no collectors—all payments are made by mail, and no matter if your order is small or large, it will receive the same care, prompt, and attentive attention.

OURS IS A CONFIDENTIAL, DIGNIFIED CREDIT, FREE FROM ANY AND ALL OBJECTIONABLE FEATURES.

All you have to do is to make out your order on one of our printed order-blanks and send it, together with the first small payment, AND THAT IS ALL THAT THERE IS TO IT. After that you pay the small monthly payment as due.

And TO FURTHER show you how liberal our system is, we add this: If monthly payments cannot always be made because of sickness or loss of employment, we will GLADLY help you out by waiting a reasonable length of time until you CAN pay.

It makes no difference who you are or where you live, all you have to do is to write us if you are not satisfied and we will take care of any and all adjustments—and all adjustments are entirely at your option. We ask no questions; there will be no unpleasantness, no delay, no red tape, no arguments. If we can’t save you money and sell you the right kind of goods at the right price and please you thoroughly, we won’t argue the matter with you at all. We will return every penny you sent us, and any transportation charges you have paid out. We built this business by FAIR DEALING, and we will continue to deal FAIRLY and HONESTLY with EACH and EVERY customer. Thus you see that you risk absolutely nothing whatever in ordering anything pictured or described in this catalog.

This is our guarantee, and back of it is a 61-year honest mercantile reputation, our $12,000,000 capital, and the solemn pledge of the greatest home furnishing organization in the land. You can repose your confidence when you deal with Hartman’s. We do not want a dissatisfied customer at any price.
How to Start an Account

Please refer to the index of this catalog, which gives the page numbers of all articles we offer. Pick out the goods you want. Write your order plainly on one of our printed order blanks. Go over the order to make sure that all is clear and complete. Be careful to sign your name in full and write your address plainly. Give your post office address, name of County and State; also the railway station to which you wish your goods shipped. Give the catalog number of each article you want. When an article is listed in several sizes state size wanted. Also mention color you desire. Figure up the total of your bill, then refer to page 1 of this catalog, which shows you how to determine your payments and how much each payment should be. We can not open a charge account for accounts less than $5.00.

Take a Full Year to Pay

We trust you absolutely and give you plenty of time to pay for the things you select. Remember that the size of your income has no bearing whatever on the size of the order you send us. With credit as easy to get as it is from us, there is no reason in the world why you should worry when you have long wished for. So, if you really desire a beautiful home, this is your opportunity—select from this book and send in your orders at once.

You will find that our modern method of extending credit is quiet, dignified and confidential. There are no embarrassing or disagreeable conditions connected with the way we do business, as you will find out, after trading with us. We give you a square deal, and expect a square deal from you.

All Dealings Confidential

When you order goods from us they are shipped to you marked with plain tags. We do this because, as a rule, our customers do not want their local dealer to know from whom they are buying. He gives no liberal credit, his prices are high, and his assortment does not compare with ours. This is why people prefer to buy from us, because we make our open-charge-account credit strictly confidential. Every precaution is taken to insure each transaction being held private. We even address letters to you in envelopes that do not bear any mark of our being a credit-giving house. No one need feel embarrassed, however, because they buy on credit, but most people prefer to keep such affairs to themselves. Credit is a thing one should be proud of; because, it shows you are trusted and are considered honest by those who extend the credit.

How to Send Money

The safest and most satisfactory method of sending money is by post office money order, express money order or bank draft. Either of these may be made payable to the firm, using the full name as given. It is not advisable for you to send us your personal check, because there will be a charge at this end for collection. Should you send cash, it should be by registered letter. If payment is made by money order or bank draft, and it should be lost in the mail a duplicate may be easily procured and the money not lost. If you live on a R. F. D. route, give your letter and money to the rural mail carrier, have his money order number and send it to us. Write your name exactly the same way each time you write to us; it will enable us to reply promptly and will eliminate mistakes.

Our Stock Ready to Ship

We carry the largest finished, ready to ship stock of house-furnishings in the United States. A large percentage of the goods you order from this catalog will be shipped in one shipment, direct to you from Chicago, instead of coming from various points.

All goods, whether shipped from Chicago or factories, or warehouses, are carefully inspected before being packed. We take every possible precaution to see that goods reach you in perfect condition. Occasionally, it is necessary to ship large, bulky articles "knocked down." Shipped in a "knocked down" state, you save money on the less freight charge, and the large articles are easier to handle, thus saving them from possible injury.

No Cash Discount Allowed

We quote one price to all, whether you pay us cash or buy from us on credit. We wish to pay cash are just as welcome to our bargains as credit customers. It is simply impossible for us to give any discount whatever, because our catalog prices are figured with only one small percentage of profit added to the special low factory prices we obtain through our great quantity buying power. You pay us nothing middling profits as this is entirely done away with. There is nothing added for the credit we extend, and, as our price on every article we sell is lower than that of dealers and mail order houses, you can see that it is absolutely out of the question to allow any discount for cash.
WE ACCEPT ORDERS FOR ANY AMOUNT, but we do not open charge accounts for less than $5.00. Should you wish to order small priced items amounting to less than $5.00, please send the full amount with your order, We advise you to order goods amounting to more than $5.00, as it is more profitable to you; besides you get the advantage of our long time credit. We also suggest ordering the Goods C. O. D., because we sell on open-charge-account, credit-terms. We take all risk by allowing customers to have full possession of the Goods before they are paid for, and if after comparison and inspection, you decide not to keep them, the goods may be returned to us at our expense, as per our legal guarantee, and any money you have paid us as well as freight charges paid out by you will be promptly refunded.

CUSTOMERS PAY THE FREIGHT WHEN THEY RECEIVE THE GOODS, EXCEPT WHEN WE SHIP GOODS to any prepaid station where there is no agent to collect the freight charges, these charges must be prepaid by you. Figure the freight charges to some town near you, which is equally distant from Chicago; by referring to page 14 for table of freight rates. Look over the freight rates carefully, if your point is not mentioned take the nearest town to you as a basis, and you will have no trouble in estimating the charges. In the case of prepaid stations, include the extra amount for preparing freight with your order so that we can prepay the freight for you.

We are MORE than glad to answer customers' letters at ALL times; glad to give you any information about our prices, terms and freight rates. However, correspondence and time may be saved if you will READ THE INFORMATION PRINTED ON THE FRONT PAGES OF THIS CATALOG. The wish to avoid, as much as possible, all unnecessary correspondence in order to keep our expenses down so that we can always quote our low prices. It requires an enormous army of clerks to answer letters from over a million customers, and we ask you to cooperate with us by studying the information and instructions printed in this catalog. If you will observe the rules we have outlined, we feel confident we can adjust all matters satisfactorily.

IT IS VERY IMPORTANT that you be careful and inspect your shipment BEFORE accepting it from the transportation company. This should always be done so that they can be held responsible for damages or shortages which sometimes occur. Should you discover either, SEE THAT YOUR AGENT MAKES NOTATION GIVING THE CONDITION OF GOODS ON THE RECEIPT EXPENSE BILL he gives you for freight pay. BE SURE to have the agent write the nature of the damage or shortage, if any, in full, for with this agent's notation on the expense bill, you are then in position to secure satisfaction. Send the expense bill with its notation, to us, and we'll take up your claim immediately and do all in our power to protect you from any loss.
The Views on this and following Pages give a splendid Idea of the Immense...
Size of the Hartman Concern and the completeness of its Organization.
Let Hartman Feather Your Nest

Here are Interior Views of Our Administration Building

A BUSINESS CONCERN as large as Hartman's cannot afford to be SMALL in anything, nor can we afford to misrepresent anything; therefore when we unreservedly guarantee EVERYTHING we sell, and GUARANTEE your satisfaction, we KNOW that we can please you. We KNOW that we can save you considerable money on furniture, and we KNOW that after you have once dealt with us you will THINK OF HARTMAN'S when you next think of buying furniture.

It is, and always has been, A PERSONAL OBLIGATION with us to please a customer in EVERY respect, and to this we pledge ourselves fully.

THE PICTURES on this page are photographs of some of the departments of our great mail-order plant, which covers an entire city block and has a frontage on four important streets. These offices are used exclusively for the transaction of business with our vast army of customers located in cities and towns, villages and farms, all over the United States. It is here that over a million and a half happy families send orders for things they want—buying by mail, on our modern open-account-credit plan, the furnishings that make their homes beautiful, their farms profitable, their surroundings pleasant, and their lives more enjoyable.
LET HARTMAN FEATHER YOUR NEST
where correspondence from our million and more customers is handled

YOU WOULD ENJOY visiting our big mail-order plant in Chicago. But, since only a few of our customers come here, we reproduce photographs of our beautiful buildings, and some of their interiors, for the benefit of all who desire to know what their present or prospective trading place looks like. If you could see these great structures and study their wonderful arrangement, we know you would be wonderfully impressed. They are the finest, most modern, best equipped mail-order merchandising buildings in the United States, and if you ever visit Chicago, we extend to you a cordial invitation to call on us and inspect our wonderful institution.

OUR MODERN OFFICES marvelous shipping facilities, convenient location and fireproof construction of our buildings, make the handling of your mail orders rapid, economical and absolutely safe. Every modern office and warehouse appliance known has been installed, permitting us to handle every order with ease and with the highest possible degree of satisfaction to our customers. All this reduces our working expenses and naturally contributes to the reduction of our prices. In every manner possible we always strive to reduce the cost of home-furnishings, and other goods we sell, to a point that no other concern can equal.
HARTMAN'S

THE BANK LETTERS PUBLISHED ON THE FOLLOWING PAGES show you CONCLUSIVELY how the prominent officials of the GREATEST, STRONGEST banks in the United States bear official and personal testimony to the financial responsibility, honest mercantile reputation, and absolute DEPENDABILITY of the Hartman Furniture & Carpet Company.

THESE EXPRESSIONS WERE MADE only after a long business acquaintance and close association; and every man and woman in the United States may accept WITHOUT QUESTION the statements of these great banks with their total of many millions of capital and surplus.

WE NOT ONLY GUARANTEE, BUT WE INSIST on your complete satisfaction in every transaction with us, and back of that pledge, is not only our enormous capital, running up into figures that are several millions of dollars MORE than any concern in our line of business, but a deep sense of our MORAL obligation as well.

IT IS AGREED, UNDERSTOOD AND GUARANTEED that all goods you order from us must measure up in every particular to our claims, and more—they must prove as MONEY-SAVING and VALUE-GIVING as we claim them to be. We leave the decision entirely in your hands.

IF YOU ARE NOT SATISFIED IN EVERY PARTICULAR in your dealings with us, you are at perfect liberty to return the goods AT OUR EXPENSE, and we will immediately, without ARGUMENT or DELAY, either send in exchange any other article you wish, or refund your money—TOGETHER WITH EVERY PENNY you have paid for freight BOTH WAYS. A fairer, squarer offer never was made by ANY firm; and you can see that you risk NOTHING in dealing with us; and you can see how genuine is our desire to make a friend of each customer.

THREE SCORE YEARS AGO WHEN WE STARTED OUR BUSINESS we knew that our success depended in a large measure upon our customers' confidence in us. We realized that it was within our power to make or break that confidence. Millions of people have since given us their utmost confidence and in return we always give them a fair and square deal and have treated them in the fairest way we know how. We will do the same by you. Send us your order and let us prove it.
HARTMAN'S IN BUSINESS TO STAY
ON PAGES 6, 7, 8, 9, 10 AND 11 YOU SEE PHOTOGRAPHS
of our great Chicago mail order plant and our chain of big retail stores in the principal cities of the United States. We show you these actual photographs that you may better realize the great size of our concern. Look at all these buildings carefully. To build up so great an enterprise has taken many years and the investment of many millions of dollars. The very vastness of this enterprise is your most binding guarantee. It means that for sixty-one years we have been here, and it means THAT WE ARE IN BUSINESS TO STAY!

IT STANDS TO REASON that such a great enterprise as ours, serving over a million and a half customers, could never have been built if we did not give the people BETTER values at BETTER prices and BETTER treatment than they could possibly get anywhere else. Since we have been in business we have made beautiful a great many homes for the wage-earners of the country; people in every walk of life, who were shrewd enough to avail themselves of our liberal credit terms, and enjoy a fine home, while paying for it.

SO GIGANTIC A SCALE OF DOING BUSINESS and our enormous growth tell their own story. WE HAVE ALWAYS MADE GOOD! We will ALWAYS make good, and we will always back up every word we say. It is worth something to know that you are sending your order and your money to a firm that has given over sixty consecutive years of successful service to the public. You take no risk—you are not EXPERIMENTING when you deal with Hartman's.
To Whom It May Concern:

It affords us much pleasure to certify to the very high standing in this community of the Hartman Furniture & Carpet Company. They have had an account with this Bank for over eleven years, and we have always had with this Bank for over eleven years, and we have always had an account with the Bank and our business establishment between the Bank and our business establishment has been most satisfactory.

The Company's capital is large, their financial responsibility strong, and, in our opinion, prospective purchasers need entertain no hesitancy whatever in having their orders accompanied by references.

The officers of the Company are very well known and very favorably known to us, the business ability and their part of any contract into which they enter will undoubtedly be carried out to the letter.

Yours very truly,

Jno. Hartman
President

To Whom It May Concern:

The Hartman Furniture & Carpet Co. keep a very satisfactory account with us, and we have dealt with them for many years, and we have always found them gentlemen of the highest standing, strict integrity, and the Company experienced, and we cheerfully recommend the Company to anyone desiring to do business with a thoroughly reliable concern.

Very respectfully,

Edw. E. Hamann, Jr.

First National Bank of Omaha

To Whom It May Concern:

We are pleased to state that the standing of the Hartman Furniture & Carpet Co. of this city, is excellent.

They have had an account with this Bank for good banking and their credit. Our dealings with the Company have been most satisfactory, and we have found them to be business men of good standing and our reports relative to them have been favorable, and we regard the Company, under its true standing, as good for its business needs.

J.M.B.
Vice-President

Drovers Deposit National Bank

To Whom It May Concern:

Our experience indicates that the business is conducted along progressive lines and the management and thoroughly honorable lines and the management, and thoroughly honest lines and the management, and thoroughly reliable lines and the management, and thoroughly reliable lines and the management, and thoroughly reliable lines and the management.

The Company occupies a very large and modern plant and in its ilk, it is considered one of the leading houses of the country. Its capital is in the hands of the officers of the Company are good and our reports relative to them have been favorable, and we regard the Company, under its true standing, as good for its business needs.

Yours very truly,

Jno. D. Hamman
Vice-President
LET HARTMAN FEATHER YOUR NEST

TO WHOM IT MAY CONCERN:

The Hartman Furniture Company established at Peoria one of their chief stores five years ago, since which time they have done a large and successful business, with steady increasing trade.

They have kept an excellent book account with us, and their large cash resources enable them to purchase goods to the best advantage, thus giving the trade the benefit.

The Managers of the Company are well and favorably known to us, being men of high moral standing and excellent business ability.

We take pleasure in recommending purchasers to them, and in our opinion they need have no hesitancy in accompanying their orders with remittances, as we consider them perfectly responsible.

Very truly yours,
FRED FEATHER
President.

THE BURNS NATIONAL BANK

TO WHOM IT MAY CONCERN:

The Hartman Furniture & Carpet Company have been raised instances of ours for a great many years. We esteem them very highly indeed, and because of that business relationship we are in a position to speak favorably of the splendid character and large business interests of this firm. They have stores in Chicago and this city and other cities, and all their business transactions have been an unbroken record of steadfast fidelity to high business ideals.

Mr. J. L. Hartman is a gentleman of high character and possessive of large wealth, and gives his entire and exceptionally able attention to this business. It affords us much pleasure to commend them to your most favorable consideration, believing as we do that any order you send to them will be attended to in your entire satisfaction.

Very truly yours,
J. L. HARTMAN
President.

The Rates Given Below are per one hundred pounds. As we could not print the rates to all cities, we have selected prominent cities in various sections of each state and give the rate to those cities. If the name of your city does not appear in the table below, you may obtain a very fair idea of the rate to your city by noting the rate to the city which is situated nearest to you.

We Always Pack and Ship Our Goods So As To Secure the Lowest Possible Freight Rates. Railroads charge for freight according to the kind of article and to the distance from your place of business, and the freight rates vary according to the distance and the kind of the goods.

Our Credit Terms Make It Easy For You To Purchase

With credit as easy to get as it is from Hartman's, there is no reason in the world for people to live in poorly furnished homes. It must not be forgotten that home happiness depends be easily and economically acquired by this broad, liberal credit your occupation may be—or what your earnings are—you can with us—after you have received the benefits of a charge account are sure that you will at no time order home furnishings elsewhere. A trial order and comparison will settle that question.

THE CARPETS AND RUGS shown on the following colored pages are the product of the most reliable mills which have established a wide reputation for high quality, best design and beautiful colors in floor coverings. We buy these goods at decisive savings in large lots. It is the demand of our great army of over a million customers and our enormous capital that gives us the power to buy these big bargains at a price which permits us to offer them to you at our low prices.

WE WANT YOU TO KNOW that not only did our mammoth purchasing power enable us to buy our present line of rugs and carpets at a saving but our prestige in the market is so great that we practically had the choice of all the new and best designs.

WHEN YOU ORDER A RUG carpet or any other floor covering from this catalogue you have new patterns and colorings to choose from. So that you can prove all this to your own satisfaction, you can take ample time to compare prices and quality, as we will send any rug, carpet or curtain to you for examination. All you have to do is send your order—receive and take the goods in your home—let your entire family see, use and judge them—give them any test you please—then, if you are thoroughly satisfied—satisfied that the price, quality and all are just exactly as we tell you—buy them on our liberal easy payment plan. But, if for any reason whatever, you are not pleased, return the goods to us at our expense and we will be more than glad to refund your money, including the freight charges. Our policy is to satisfy.

THE FIRST IMPRESSION in buying a rug or carpet is usually made by its appearance. If the pattern is pleasing and the color combinations harmonious, the sale is usually made—but greatest care should also be given in examining the actual quality of the materials that enter into the manufacture of the goods. A rug of beauty is often like human beauty, "only skin deep," but our entire business policy is based upon a more substantial foundation than appearance. We are sure of the quality before we offer the article for sale.

THE RESULT is that you take absolutely no chances when you buy by mail of us—you are positively sure of getting the most desirable product of the best looms. We couldn't afford to ship carpets, rugs, etc., to customers unless we were pretty sure the goods would prove themselves worthy of making the order a home tide sale—so you see we rely upon the Quality and Price as well as our liberal credit treatment to make your order steady, satisfied customer.

ACTUAL COLORS SHOWN The following pages faithfully describe, describe, describe, illustrate, in actual colors, our rugs, carpets and draperies so that you may get an idea of how beautiful our line really is. You have our binding guarantee as to low price, excellence and lasting quality. Now, with all these assurances, don't you think you can feel just as safe—just as satisfied—in doing your buying by mail as though you were in our establishment to make your choice?

SAVE MONEY Our offer of low price bargains makes up a great sale of floor covering and curtains. If you are in need of such goods, you will make a very wise purchase by sending us your order for whatever your wants in this line might be.
**About Ordering Carpets**

** HOW MANY YARDS ** Figuring out the number of yards of carpet necessary to cover a room is a somewhat difficult task for the inexperienced and often leads to confusion through errors. In order to simplify matters for our customers and to relieve them of the trouble of figuring how much carpet they need, we have prepared and printed on this page a table showing the amount of carpet that is required for various room sizes. Measure the length and width of your room in feet. Then refer to the table printed below, and you can quickly tell just how many yards of carpet you need.

** TO GUARD AGAINST ERRORS ** we ask you, when ordering, to send us a diagram of each room that you wish carpeted. On this diagram plainly mark the length and width of your room in feet and inches. If your measurements are correct, there can be no errors. In ordering, be sure to state which way of the room you wish the strips to run.

** PROJECTIONS—BAY WINDOWS, ETC. ** In cases there are any bay windows, fireplaces or alcoves, or projections in your rooms, be sure to include them in a plainly marked diagram. Show their exact location and be careful to give us exact measurements of such irregular places. These measurements should be given separate from measurements of main room. If you feel that you cannot figure the exact amount of carpet, if your room is odd-shaped, having a bay window, fireplace, or alcove, give us the measurements in feet and inches, and we will be pleased to quote you the price of any quality of carpet you wish.

** WE MAKE NO CHARGE ** whatever for matching and sewing carpets that are to be made without a border. On carpets made up without a border, however, we make a small charge of $1.50 a yard to cover a part of the cost of sewing on the border by hand. You’d agree that this is a very liberal offer, as it does not cover the cost of the work to us. Remember, this charge of $1.50 a yard is for bordered only—plain carpets are supplied absolutely free.

** IF YOU WANT A BORDER ** around the Brussels, Velvet or Axminster carpet you order, be sure and allow for the main carpet widths which are 27 inches wide. The diagram shown on this page is of a room 12 feet 6 inches by 9 feet 9 inches, and if you will follow instructions given we do not think you will experience any trouble in ordering enough carpet and border to fit your room.

** Waste in Matching Carpet Explained**

For the benefit of those who do not thoroughly understand why there is a waste in cutting carpet so that the pattern of each strip matches, we wish to submit the following explanation: The figure on the edge of one strip of carpet must match the figure in the pattern of the strip adjoining. If several strips of different colors are used, a different figure will be cut from each strip. If the matching figures are to be cut, the strip must be broad enough to carry the entire pattern. The line will be cut from both sides of the line, and the carpet will be cut to the next figure. The waste must be cut off in order to make the carpet fit your room exactly. On carpets without borders, this excess is left on end of carpet and must be turned under when laid.

No. OK2531. "ADIRONDACK" BRUSSELS RUG

No. OK2532. "ADIRONDACK" BRUSSELS RUG
ELEGANT "ADAMS" ROOM SIZE BRUSSELS RUG

It is one of the most beautiful patterns ever woven. The hand-drawn design of red, green, brown and tan are harmoniously blended as depicted on the Brussels rug. The center medallion is filled with a conventional floral design in exquisite colors, while throughout the border and outer border are floral sprays in natural colors. The outer border is of a unique pattern. It is extra heavy, as the yarns of the finest quality worsted yarns are woven tightly and give a beautiful appearance. All colors are absolutely fast.

UNSURPASSED QUALITY. The cotton yarns which are chosen in the production of our lace curtains have long, strong fibres, which insure good wearing quality. This is a point worthy of consideration, because you are certain of securing the kind of curtains which every particular housewife should demand. Service is an important factor, for the reason that when you buy lace curtains you do so with the intention of having them last for a long period of time. The bleaching and every one of the processes of finishing tends to increase and improve the wearing merit of our lace curtains.

"HARTMAN'S COLUMBIA" VACUUM SWEEPER

Has Perfect Brush Adjustment—Operated by Foot. New Slotted Hinged Nozzle and Spring Nozzle Clamp. Noiseless Fibre Bearings

ABSOLUTELY NEW. "Hartman’s Columbia" vacuum sweeper is absolutely new in the line of vacuum cleaners. It possesses features that are not found in any other vacuum cleaner on the market. It is a very easy machine to use; it is absolutely reliable. Another feature is the noiseless filter bearings and baffles, lifting rods, the steel frame dust bag, with opening dust pan, the pressed steel top and the three-piece rear cover. There are four drive wheels on the brush, three belted and a 12-inch motor.

NEW FEATURES. Among its new features are the following: Perfect brush adjustment, new slotted hinged nozzle and spring nozzle clamp, wheels lifted— which does away with tire trouble, noiseless filter bearings and connecting rods. All metal parts are heavily nickel plated. This machine is the result of many years’ experience in vacuum cleaner building and is made by experts in the most perfectly equipped vacuum cleaner factory in the world. The considerable facilities and economies control of the manufacturer producing "Hartman’s Columbia" makes it possible to sell this machine at a price that permits us to offer it to our customers at the remarkably low price shown below.

No. OK9278. Price $4.89

"HARTMAN'S IDEAL" VACUUM SWEEPER

Three Bellows Pumps Extract The Dust From The Carpet, And The Revolving Brush Removes The Lint And Threads, Etc.

"HARTMAN’S IDEAL" is an indestructible cleaner. Not one particle of the "ground-in" dust can safely escape the brush and the ordinary carpet sweeper, which retails the "Hartman’s Ideal." Its three bellows pumps create powerful suction for extracting dust from beneath carpet and floor. So revolving brush effectively removes all surface dust. The superior quality of construction is another point in favor of this machine.

REAL ECONOMY. In the purchase of a vacuum cleaner, your choice should be the steel clad, indestructible cleaner. Great care has been exercised in selecting strong and durable. It will last a long time with ordinary use. It is designed so the revolving brush can be easily and safely detached for removing wrappings. Dust receptacle is of liberal size and has shaped-bearings, enamel painted front and lower frame painted and sanitary.

MODEL "P" VACUUM CLEANER

A Combination Cleaner and Sweeper That Comes Complete With The Brush Attachment

THE METAL TOPS are made of carefully selected, rust-resistant steel. Three coats of high grade enamel are then applied, each coat baked on separately. These metal tops are sturdy, yet delicate enough to produce a continuous even suction. In addition, it is fitted with a large revolving brush that will do all work as well as any carpet sweeper. This brush is full sweeper size, having a range of 6 to 8 inches, with spiral type action. It is instantly adjustable to brush deeply into matting or ripples over the surface, or can be raised entirely out of the way. All new style one finger. Not necessary to slide or drag Noble and front end of machine over carpet. When brush is not needed, it can be run off and out of sight—kept off the floor and machine from the floor. We advertise these results by supporting front end of machine in a bag, putting one end of bag over carpet and raising the back. Shipping weight, about 18 pounds.

Price $4.98

"HARTMAN'S GUARANTEED" VACUUM CLEANER

We Trust You

THE VACUUM will always admit itself to correct position when attached. It is large, long and cleans close to baseboard. Covers large area at each stroke. Height of "Hartman's Ideal" is lowest possible in a combination cleaner and sweeper and easily passed under low furniture. Perfect bearing reduces noise and effort to operate. Wheels are of the best type, turning silently and smoothly.

No. OK1988. Price $5.98

This Is A Combination Cleaner And Sweeper Of Merit At A Low Price.

- Brush Wheel—Tubular friction with geared wheels to give positive drive.
- Front Supporting Wheels—Make the machine stand perfectly and definitely in position. No wobble, no摆动. All supporting wheels are sealed for life, are lubricated at factory and are sealed for life.
- Dust Collector—Large dust bag is made of heavy material, and dust is collected safely and easily.
- Felt Bumper—A heavy bristle pad over front and sides of machine prevents it from sliding or scratching furniture.

From this detailed illustration and the explanation printed in paragraphs therewith, it is seen that this combination cleaner and sweeper possesses

A MASSIVE ROCKER

Made of Solid Oak In An Attractive Up-to-date Smart Design

ILDHOOD SHOWS THE MAN very much as the young indicates the day. Yet there is a difference that is vital. Human strength has not the power to alter the fact that human power can often influence the man if the young signs that are not favorable. A child's home is

like a house that figures in the last accounting. You illness helps you be made an ideal spot for every member of the family. Remember if you are not pleased with

each other, you can return it to us and we will cheerfully refund.

The A ROCKER as this one will help to make your home complete. It is

a sturdy built piece of furniture, with substantial solid oak in color, finished. The arm, front legs and front seat are cut from four-inch stock. Particularly observe the swell shape front rail and the attractive carving on

top and front legs. The front springs under the seat, over which is set a back of polished black leather, made to look red and white like the genuine leather.

The covering of the seat and back is of imitation leather, made to look red and white like the genuine leather.

It is roomy, being 36 x 24 inches. The distance between

arms is 27 inches and the height of the back from the

top is about 27 inches. Shipping weight, about 200

pounds.

No. 1P278. Price $5.45

SOLD OAK

Rockers As Illustrated

THE BEST at the highest price is no more to be desired, from a standpoint of value, than the "cheapest" at the lowest figure. We list all grades of merchandise and in each grade we state emphatically that we offer the best quality at the lowest price to be secured through any of the various channels of trade. This is a pretty strong statement, but we can back it up every word of it in every instance. See the rocker illustrated to the right as a convincing example.

IT IS MADE in a substantial manner, all finished parts being constructed of thoroughly seasoned solid oak, the balance being of seasoned hardwood. The seat covering on the front and back are well cushioned and beautiful in style. The finish is a richly glossed golden oak, so perfect as to require no special comment. The seat is sure and roomy and ever appears comfortable after all springs, while the springs themselves are all of the type found in the best models. A beautiful finish and the lowest price, made possible by the experience of years, gives us every right to expect the most splendid proportions of style that is, to fully appreciate its worth you should see this fine chair of furniture in your home. Order it on approval.

MEASUREMENTS. The seat measures approximately 27 inches wide, 24 inches long. The front seat measures 19 inches high, 26 inches wide, and 26 inches long. The armrests extend about 17 inches in length, and 25 inches in height. Particularly note the correct setting of the front seat, the true value of the rocker, and the firmness of the springs. We have selected the materials in order to render the best. It is entirely in line with what we ask. Shipping weight, about 75 lbs.

THE UNITED STATES occupies an almost unbelievable area in comparison with the 1 transcontinental, 2 firm of Europe, powerful domains cover little more than a handful of our states. If you were to take all of Europe and place it across the surface of this country, you would be disappointed at the relative sizes of the two. Europe, with its vast expanse of land, is dominated by a powerful monarch. In contrast, the United States is a republic, governed by the people. Yet in spite of this, the organization of our country, the United States, is one of the most significant in the world. The fact is, we are building an empire, a nation, on a scale of satisfaction to our customers, and we find that as every person is satisfied, the more orders we receive, the greater is our business.

This Fine Parlor Rocker is Finished In A Rich Golden Oak.

The Artistic Frame is Lavishly Carved As Illustrated.

This excellent rocker features a delightful design, combining comfort and beauty. The quartered oak is solid, sturdy, and elegant. The seat is supported by six springs and is filled with excelsior moss. The covering used on the seat and back is imitation Spanish brown leather, which gives a wonderful sheen and a luxurious feel. Measurements are as follows:

- Arms: 41 in.
- Seat: 17 in.
- Back: 25 in.

These measurements reflect the marvellous size of the model. It weighs about 60 lbs. No. 1K2225.

EST: $5.

The Test of Time.

There is no test as positive and as holding as that of old Father Time. He gets the truth and shows the spotlight on the best of everything. Time is the one factor that will not harbor misrepresentation, and this is why we so proudly point back to our record of thirty-six years of successful business in this field. Our principles have been based upon fair and square treatment to our customers. That has been the very essence of the House of Hartman and the guiding star of our business career. Satisfaction is a very big word, yet it was never so big that we could not point out the results of our careful selection, Quality, moderate prices, service, and credit, and an ironclad guarantee demand an equal share of attention and have earned their admittance in everyone's respectation.

In presenting the mammoth value on this page we want you to consider that the finest care has been exercised in maintaining our reputation for superior results, in fact, we have gone an extra step, if possible, to make this a lasting opportunity of unusually tremendous significance to our customers.

The Important Facts

The tests have been conducted on durable genuine quarter-sawed oak and the balance of parts of substantial solid oak. The finish is a very high grade. The carvings are of a very high grade, far above that usually found in rockers. The seat is full shaped, as-secure as well as attractive. There are six springs under the seat, supported by strong steel slats. The upholstery is made of Spanish leather. The armrests have been worked to dress up the genuine Spanish leather. The finish is very rich, which closely resembles the genuine Spanish leather. The seat is full shaped, as-secure as well as attractive.

THE MASSES. NOT THE CLASSES.

Abraham Lincoln once said: "The people. There is a little episode that is typical in this great man that will bear repetition. He happened to be within earshot of a woman who complained to her companion: "What a lonely man the President is." Lincoln turned to her, smiled, and said: "Madam, God loves lonely people; that's why He made so many of them."

A martyrized President was of the people. He was a thin, poor man who made good. There are hundreds of anecdotes who belong to the masses whom we want to tip make good." We cater to the masses, not the masses and particularly seek to serve the hard working people of this country.

LET US AID YOU to furnish your home. Permit us to send this rocker to you upon approval. We know that you will be elated with it, because it is one of the newer and better conceptions in the art of furniture building. It is made of solid and quarter-sawed oak, in a fine golden color. The arms are of quarter-sawed oak, while balance of rocker is of rift oak. The upholstery is imitation Spanish brown leather, which not only looks like real Spanish leather, but which gives extraordinary service. One of the features of this rocker is the loose, removable spring seat. The carvings, likewise, are very lavish, the pattern on the inside of the panel supporting the arm rests being a lavish, well-carved design. Observe the shape and the attractive points across the top and the back.

THE PROPORTION throughout is very generous, as shown by the measurements which we give below.

The extreme height of the rocker from the floor is 38 inches; the height of the back from the seat being 35 inches. The seat is In x 18 inches. The width of the arms is 10 inches, and the width of the back 18 inches; width of panel under the arms is 14 inches. The materials that enter into the construction of this rocker are the very best, obtainable at a price like this. Shipment weight, about 55 pounds.

No. 1K861, Price $6.65

Genuine Quarter-Sawed And Solid Oak Rocker In A Rich Golden Color. You'll Be Well Pleased With It.

There Are Six Springs In The Roomy Seat

The man who makes big money but who doesn't save it, or invests it, or use it, is one of the few who are wise, for worse than that the wages earner who puts aside part of his income, even though it be comparatively small, will, at the same time, help the working man and woman of this country. We can, too, if we will give it the opportunity, for not only enable him to do more with the new prices that we quote, but increase through our liberal credit plan. By this system we give you an opportunity of adding a part of your income to your savings account, and, besides, when you buy from us you are investing your money into something that is enriching your home and therefore you have a permanent investment.

THE FRAME: The arms and posts are made of attractive. The back is of quarter-sawed oak; the finished parts are constructed of quarter-sawed oak. The remainder of the frame is made of solid hardwood. The front legs are of quarter-sawed oak, handsomely carved, as you will notice from an examination of the illustration. It is the rich, golden-colored oak which harmonizes so well with all surroundings. The upholstery is imitation Spanish brown leather, which not only looks like real Spanish leather, but which gives extraordinary service. One of the features of this rocker is the loose, removable spring seat. The carvings, likewise, are very lavish, the pattern on the inside of the panel supporting the arms being a lavish, well-carved design. Observe the shape and the attractive points across the top and the back.

THE SEAT: The seat contains six strong springs and is overlaid with either reddish-brown or brown filling with lifts covering. The entire frame is of solid oak. The seat measures 19 x 20 inches. The height of the back is approximately 1 inch. Notice the shaped, tapering arms, each supported by three rills. The construction of the rocker throughout is very substantial and the design is indeed out of the ordinary. The weight, carefully packed for shipment, is approximately 10 pounds.

CHICAGO 77
The Rich Carvings On The Frame Of This Rocker Enhance Its Attractive Appearance

THE DESIGN of this massive rocker is of a type that is in keeping with the progress that we have made in furniture construction; and once you see it in your home you will agree that it is an extraordinary value for the money. One of its predominating features is the nicely shaped back and the removable slip seat. The elaborate carvings on the ears and front posts are of a pattern that should appeal to lovers of artistic home furnishings. All of the exposed parts are made of durable seasoned solid oak, the wide arms being constructed of genuine quarter-sawn oak. These arms are gracefully shaped, and the carved posts under the arms are finished golden. The back is divided into two panels, the lower one being set off with a neat ruffling across the top. The seat is supported by six steel spring units, each being reinforced with corner blocks.

THE UPHOLSTERY is of a durable quality, Wood fiber is used as a base, with oil or similar material as a covering, over which is placed an imitation Spanish brown leather which resembles the genuine Spanish leather, has good wearing qualities. The measurements are as follows: Extreme Width 31 inches, extreme height about 41 inches, width of seat from floor 17 inches, height of back seat about 30 inches, width between arms 21 inches. The seat is 14 x 20 inches, the arms about 18 inches. Our liberal guarantee of satisfaction applies to this rocker.

We feel entirely that you will be more than pleased with the value here offered, and we are not obliged to keep in stock, therefore, you are advised to send for this rocker upon approval, with the understanding that if it does not meet your demands, you are not obliged to keep it. Shipping weight, about 90 lbs.

MORRIS CHAIR
Made of Quarter-Sawn and Solid Oak, in Golden Oak Color, Seat Contains Six Springs Supported by Steel Channel Bars.

THE ILLUSTRATION of this handsome piece of furniture does not exaggerate its beautiful lines. It is made of thoroughly seasoned, kiln-dried solid oak, the arms being reinforced of genuine quarter-sawn oak. Cushions placed on five inches of Spanish moss, which looks like the genuine Spanish moss and is exceptionally durable. The seat is supported on six heavy steel coil springs, resting upon steel channel bars. The back, likewise, is reinforced by steel bars. The filling used is woodNova and moss, adding to the comfort and qualities of this handsome piece of furniture. The lavish carvings on the frame cannot be exaggerated until you view this substantial Morris chair.

THE BACK can be adjusted to five different positions. This back is made in two-panel sections, with very attractive ruffled top. Under the back a panel are two panels, as shown in the illustration, and the front post are 5 inches wide, front rail 5 inches wide, and the carved arm rests on either side of the back, likewise measuring 5 inches. From these dimensions you can plainly see that on a heavy Morris chair, destined to serve its owner a thoroughly satisfactory manner. It stands 45 inches high with the back in first position, measure 5 inches from the floor to the seat and 28 inches from the seat to the top of the back.

**QUARTERED AND SOLID OAK MORRIS ROCKER**

**Fitted With Patented Adjustable Recliner**

**Attachment And Special Foot Rest**

**A FEATURE of this rocker is found in the fact that you can adjust the back to four different positions without raising the seat. Another point of advantage is that the foot rest slides on metal eye and can be pulled out to different lengths and swung from side to side. By this arrangement, if foot rest is extended and you wish to change your position, your feet resting on the floor, it is not necessary to pull foot rest back. Move to the other side and it is out of the way, without the inconvenience of moving the entire chair.

**GENUINE QUARTER-SAWED OAK** is used on the arms and front legs; the panels and legs only; all other parts of the frame are constructed of durable hardwood. You can have your choice of glazed golden or fumed finish, as you desire. When ordering, please state which finish you prefer. The curved foot rest is lovely shaped and measures 5 inches at the widest point and are approximately 31/2 inches long. The arms are made from 4-inch stock and measure about 27 inches in length. This rocker is furnished with 5 tempered coil springs. The filling is two or three layers covered with jute. You can have your choice of either imitation black or imitation Spanish brown leather, both of which are made to resemble the real leather. When ordering, be sure to give the correct number to insure your receiving the upholstery you desire, including weight, about 60 pounds.

**No. 1K2275. In imitation Black Leather... $7.88**

**No. 1K2276. In imitation Spanish Leather... $8.25**

**Notice The Small Illustration To Left Which Shows How Foot Rest Can Be Pulled Out And Swung From Side To Side**

**No. 1K2275. In imitation Black Leather... $8.25**

**No. 1K2276. In imitation Spanish Leather... $8.75**

**THE BACK can be raised or lowered without the occupant's leaving the seat.** When not in use the back can be set erect and the foot rest folded and slid under the seat, as shown in the small illustration below. The platform base is carefully joined and fitted with two extra strong tubular springs of fine oil tempered Bessemer steel.

**Can Be Adjusted Without The Occupant's Leaving The Seat. The Back Reclines And Foot Rest Extends.**

**A Very Comfortable Piece of Furniture With Six Coil Springs In The Seat.**

**THE LINING are the ver-**
THE STANDARD OF TRUTH  

Before advertising became a recognized factor in the commercial world, there were many industries of this country that adopted a standard of truth. As the industries continued to grow toward their present colossal size, the standard of truth in advertising was adopted as a standard that no reliable house should be allowed to deviate. Years ago we established the Hartman standard of truth. We did so because we felt that such a standard was the only one worthy of our patients. The result of this policy is the great success we have achieved and the feeling of security and safety that our customers have gained. We know that when we make a statement we are making an article that there can be no question regarding its truth. This feeling of security in buying merchandise is a protection to the uninformed buyer and a double protection to those more critical in their purchases. If you are in search of a morris chair that is to your liking, in justice to your own interests, you cannot afford to ignore the standard of truth which we offer herewith. Read the paragraph to the right for full particulars.

**PERFECT REST.** After a hard day's work, you will sink into the soft, roony, luxurious depths of this comfortable Royal Easy Chair with a sigh of contentment. Then by a finger pressure on the push button, you will adjust the chair back to the angle most comfortable to you. Put your feet on the foot rest, stretch out, relax, and read, rest or "take a snooze" in the most grateful comfort. You can lean your whole weight on the back of this Royal Easy Chair in any position with perfect safety—something you cannot do in so-called "gravity" reclining chairs. Exclusive, patented Royal Push Button on right arm operates the noiseless, concealed mechanism, which adjusts chair back to position you wish. Guaranteed never to break or get out of order.

**THE FOOT REST** is out of sight when not in use. In this foot rest is a hidden basket for newspapers, books, periodicals, etc., the basket part being made of metal to insure added strength. This chair is a wonderfully substantial model, as shown in the large illustration. It can be furnished in golden or fumed oak or mahogany finish, as you prefer. State finish that you desire. The oak chair has genuine quarter-cved oak arms and front rail, with solid oak side rails, slats and front posts.

"Royal" Chairs Are Advertised Nationally And Are Likewise Used Nationally

**UPHOLSTERING** is the admirable imitation Spanish leather, which looks very much like the genuine Spanish leather. There are springs in the back and 4 springs in the seat. This construction is a guarantee of great strength as well as a source of comfort to the user of this fine Royal Easy Chair. Particular attention was given to the design of the frame and the few simple lines. The comfort and the simplicity of this chair are presented. It comes complete with casters, as shown. Examine the smaller formations around this page to make yourself familiar with the advantages of this number.

An Artistic Design

Guarantee

Durability is the first consideration, with us in the manufacture of every piece of furniture. We strive for lasting effects in design and finish. We believe that the man who will use and not abuse is the best customer we happen to have. We make no heartier recommend than the guarantee given in this leaf. It is a guarantee, a kind of insurance upon the value of your furniture investment. The guarantee is good for as long as you own the article. We are not making a toy, but a piece of furniture to be used and enjoyed. We guarantee to keep it in repair for as long as you own it, and to replace it for nothing if it should wear out.

CREDIBILITY

is embodied in this guarantee. We guarantee to refund the price paid if after the guarantee expires the article should break or fall apart. The term of the guarantee is three years from the date of delivery. It is a guarantee, a guarantee for the buyer, a guarantee for the manufacturer, a guarantee for the dealer. We guarantee to repair the article free of charge if it should wear out or break. We guarantee that the article will be worth its weight in gold if you should sell it after the guarantee expires.

WHEN YOU BUY from HARTMAN'S it matters not whether it is a high-priced article or one of the low-priced articles shown on this page, one wonderful thing holds good—low prices. We take just as much pride in the thoroughly satisfying our customers as when the very cheapest item is purchased as when the highest priced article is ordered—so have no hesitancy in sending for this rocker.

In Design

this exceptionally low-priced rocker is very pleasing. It is thoroughly dependable in construction and an article which will give the greatest satisfaction. It has a strong sturdy shaped seat.

THE SEAT is a combination leatherette cushioned bottom, which adds comfort to the rocker. It is easy to carry, it is not too heavy, it is not too strong, and it is easily carried. A good way to turn the money.

WE WERE SURE when we contrived for a big lot of these excellent rockers, that they would be exceptionally good chairs. The high back with its broad top panel and the high legs make this a most comfortable seat. This is made of solid oak with glossed golden finish. Shipping weight, 24 pounds.

A HANDSOME DESIGN which is
winning
nuch favorable comment. You can place it in
your home with the absolute assurance that from
it you will get many years of service comfort and
satisfaction. It suggests a degree of richness and
firmness comfort that will improve the most
inviting furnished home.

IF YOU STUDY
the illustration, you will
see how this frame is the realization
of your dream ideas. It is unquestionably
beautiful, and the most tasteful design you ever
look on so low a price. Look at the massive arms and back with the
flat quartered oak frame, and the 1/4 inch diamond tufting. The seat is
Mahogany upholstered and contains a set of thick oil-tempered, elastic
springs and is large, roomy and restful. It is a rocker that is different
from others because of its design and distinctive individuality. Seat and
upholstered with imitation Spanish brown leather.

DETAILS. The frame is made throughout of solid and quartered
oak, in golden or fumed finish, or can be ordered
in mahogany and built to a measure which will give it great
width and long wear. The best oil-tempered steel springs are used
and are not. The frame has massive front pillars and solid oak-supported
shaped arm. The top and side quartered oak panels of the back give
rocker a very high-class appearance. It is mounted on oak run

ROCKER NEWS WELL WORTH READING

A BARGAIN ROCKER in the true meaning of the term. Sides of back are enriched by ruffling and seat front set off with neat pleats and tassels as shown. Frame made entirely of kiln-dried hardwood, exposed parts finished in imitation mahogany. Upholstered in imitation Spanish leather. Height of seat from floor 16 in.; width 16 in.; depth 26 in.; weight about 60 lbs. No. 1K2296. Price in imitation Spanish Leather (as illustrated). . . $7.95

WELL WORTH THE PRICE. A royal palace might be fitted with more elegant furniture, but it is not likely to have more comfortable rockers than this one. The frame is made entirely of kiln-dried hard- wood, with the exposed parts finished in the rich mahogany color. This rocker has the seat, supported on strong steel bands to prevent sagging. The filling is fine and even, and it is placed on the imitation leather that wears well and looks like the real thing. Measurements are: Height of seat from floor 17 in.; width of back 26 in.; depth 28 in.; seat 18 in. width; 21 in. depth; over all 38 in. Shipping weight, about 60 lbs. $7.95

Note These Extremely Low Prices. Exposed Parts Beautifully Finished in Mahogany

A STYLE WORTH WHILE. We have taken most of the good points of this type of furniture and combined them in this beautiful rocker. The frame is made entirely of kiln-dried hardwood, with the exposed parts beautifully finished in mahogany. There are five springs in the seat, supported on steel bands to prevent sagging. The seat is 21 in. deep, and the top of which it is placed, is the imitation leather, made to look like the genuine. Measurements are as follows: Height of seat from floor, 17 in.; width from seat, 26 in.; depth of seat, 21 in. Width of seat, 21 in.; width overall, 38 in. Shipping weight, about 60 lbs. $8.45

THE FRAME is made entirely of kiln-dried hardwood, the exposed parts being of handsome mahogany finish. Upholstering is imitation leather, as are the seat and back. The filling is fine and even, and is placed over the steel springs in the seat. These are supported on steel bands, as in the previous rocker. The filling is fine and even, and it is placed on the imitation leather that wears well and looks like the real thing. Measurements are: Height of seat from floor 16 in.; width of back 26 in.; seat measures 28 in. deep. Width of seat, 38 in.; weight, about 60 lbs. $8.45

The Back Reclines By Means Of The Automatic Spring And Knob Adjusting Device Shown Here

Foot Rest Holds Under the Seat When Not In Use.
Exposed Wood Parts Finished In Mahogany.
Five Springs In The Seat Supported On Steel Bands

The Style of this comfort-giving Morris rocker is shown to advantage in the illustration above. Although the picture was made from an actual photograph of the rocker itself and looks like we feel so enthusiastic about this offering that we are sure that after seeing it in your home, you will see it more thoroughly impressed with it than from a mere examination of the illustration shown on this page. The design is of the sort that will appeal to all pure judges of artistic home furnishings. The ruffling across the top of the back, as well as across the seat front, is set off to either side by an attractive rosette, which gives it the artistic finishing touch of style. The back is divided into two sections, as shown. The large arms are well padded to add to its comfort-giving qualities, as well as its attractiveness. It has the beauty of many regulation style rocking chairs and in addition possesses the new reclining back adjustment which we explain in detail below. Read this over carefully for the full details of operation.

BACK RECLINES by means of an automatic spring and knob reclining adjustment on either side of the rocker. Merely turn the knob to adjust the back to the position that you prefer. By this device, it is not necessary to leave the chair to adjust the back to the angle that is desired. The foot rest, which is shown in the illustration of the rocker, to the left may be folded underneath the seat entirely out of sight when not in use. That you may have a better understanding as to the proportions of this Morris Rocker, we list the measurements below: Height of the seat from the floor is 18 inches, the height of the back from the seat measures 21 inches and the height of the back from the floor is 35 inches. The seat measures 20½ by 30½ inches, the width of the seat being 21 inches. It is in every way a splendid value for the money. Order this handsome rocker to be sent to you on approval.

Shipping weight, about 70 pounds.

The elegant steel wire construction also gives additional strength. The well-padded seat, arm and back are filled with wool and either sea moss or coir fibre. The seat is made of oak, and the arms, back and seat are upholstered with Buffered imitation Spanish brown leather. The arms and rails are finished in imitation leather, and the seat is covered in imitation leather. The price is $11.95.

Here Is A Finest Solid Oak Rocker In The Rich And Popular Fumed Oak Finish. Not the Jacobean Twist From Posts Show In Illustration.

SPLENDID ROCKER

An Excellent Substantial Model Made With Comfortable Seat And Back Construction.

WITHOUT DOUBT this is one of the best values in a good rocker that we have ever seen in all the years of our merchandising experience. The illustration to the right, taken from our actual photograph of the rocker, itself. To appreciate it properly, you must see it in your home. Upholstered in imitation leather, it is a genuine Spanish leather and will give you long and satisfactory service.

SOLID OAK is used on the exposed parts of the frame, having the handsome fumed oak finish. Jacobean twist front posts are about 24 inches wide. There are 9 springs in the seat and 9 springs in the back, giving a full spring construction. Mahogany back and seat are finished in the finest wood, with burlap back. The square arms measure approximately 12 inches and set 8 inches above the seat. The proportions throughout were designed to insure comfort and safety as well as hand-fashions and appearance and the designers' efforts were well rewarded in the finished product.

DIMENSIONS. Height over all 46 inches, length of back 28 inches. Seat depth from floor 12 inches, width over all 27 inches, distance between arm 20 inches, seat measures 20 by 20 inches. Order this rocker and benefit by our easy-to-pay credit terms. Shipping weight, carefully crated, is approximately 12 lbs.

REAL ROCKER BARGAIN

Splendidly Upholstered And Has Durable Spring Construction. Legs and Runners Are In Fumed Oak Finish.

DO IT NOW. "Never put off till tomorrow what you can do today." This bit of philosophy can aptly be applied to your household requirements. Of course, it were necessary for you to pay all cash for the goods you need, this time-honored slogan might not apply. But recall the fact that when you deal with us your word is as good cash. That is why we trust you. If we had any doubt to your sincerity, surely we would not offer to send this rocker on approval. Take advantage of this chance to order and "do it now."

HERE'S A ROCKER that is made for genuine comfort. Just how luxurious is the soft, low roll, think of coming home at night all tired out and sinking into its inviting seat. It has a patented spring construction, having a spring seat and back. The upholstering is Italian Spanish brown leather, which looks like the genuine article, and wears wonderfully well. The frame is of rock-hard hardwood, the legs and runners being finished in artistic fumed oak. Note the overstuffed construction over the roll-arms, the gracefully shaped sides enclosing the pillow roll and a comfortable pillow roll head rest. You will never regret having ordered this fine rocker. We protect you by our legal guarantee.

MEASUREMENTS. The extreme width of the seat is 37 inches. The width across the back is 27 inches; height of back from seat measures 37 1/2 inches, whereas the extreme width across the arms is 26 1/2 inches. In presenting this piece of furniture to you we want to impress you with the fact that its construction is exceptionally rigid, being made to withstand everyday wear. It is graceful in style as well. We are offering you in this rocker every penny's worth of value that it is possible to offer at this exceptionally low price. Shipping weight, approximately 70 pounds.

SECURE THE BENEFIT of buying from this great house of bargains. When you go into your local store to make a purchase, remember that the accessorist has made up his mind to sell you. He is going to do all in his power to make a sale, and in his desire to do so he is likely to say something attractive to multi-color rooms, or the unscrupulous dealer and make other false statements. All men will not do this, but some are too fair to make wonderful remarks. Don't buy from unscrupulous dealers because you can't have confidence in what they tell you.

YOU CAN BUY Turkish rockers in your home town, no doubt, but you will not find the equal of this one at our prices. The frame is made entirely of kiln-dried hardwood with the exposed parts exterior finished in a rich mahogany color. The back is exquisitely diamond button tufted. The head, back, arms, feet of arms and seat are artistically tufted as shown in the illustation herewith. The carved claw feet are of a striking design. The upholstery can be either imitation black or imitation Spanish brown leather, both of which is of wonderful resemblance to genuine leather and wear remarkably well.

THE SEAT has six strong springs supported on steel bands to prevent sagging. It is filled with too and cotton and is equipped with spring coil rocker springs. The measurements are as follows: height of seat from floor, 17 inches; length of back from seat, 29 inches; depth of seat, 15 1/2 inches; width of seat, 21 inches; width overall, 35 1/2 inches. Comfort, appearance, durability and low price are the features of this fine Turkish rocker. Shipping weight, about 90 lbs.

No. 1K2206. Price in imitation Spanish leather... 12.35

Diamond Tufted Back

Has Nine Springs In Roomy Seat Carved Claw Feet

No. 1K2207. Price in imitation Black Leather... $12.35
No. 1K2208. Price in imitation Spanish Brown Leather... $13.45

DIAMOND TUFTED BACK

No ORDER is too small for us to handle, nor is there any price that is too small to be eagerly welcomed at any time. Please remember that. No matter what your requirements may be, don't you hesitate to write us in order to save a step on the plan of an inquiry. And also bear this important fact in mind. We have built up this business largely on the strength of service as an ever-increasing value. All correspondence is courteously handled, and all our customers are served at the quality and low price. A fine value for the money.

TAKE THIS ROCKER as an example of value-giving comfort. It carries an expert finish and a beautiful grade of Turkish rockers ordinarily and at considerably smaller price. The frame is made entirely of kiln-dried hardwood, and the exposed parts externally finished in a rich mahogany color. The back, upholstered back is diamond tufted and is edged in beautiful styling, as are the arms and front of seat. The back pillow is set in with a unique steel-rivetted design, for the sake of strength and beauty. The sturdy carved claw feet add elegance to this rocker.

THE SEAT of full spring construction, having nine springs, is supported on wood slats. The filler is 100% cotton and tufted and upholstered. The height of the seat from floor to seat, 17 inches; the height of the back from the base of seat is 28 inches; width of seat 21 inches; with overall 35 1/2 inches. You can have this curious article on our liberal, long time, easy terms. Just as speedily as the merchant or agent shall be enabled to deliver the same.

FOUR PIECE LIBRARY SET
An Unequalled Value For The Money

NO. 5K937. PRICE COMPLETE

QUALITY IS THE FIRST CONSIDERATION IN MISSION FURNITURE. Each piece of this massive four-piece library suit will find strictly dependable in quality; in fact, you will find every detail of construction fully up to the standard of the best makers of mission furniture. This style of furniture has become immensely popular, and it is in use in the homes of those who require the best in style and comfort.

WE WOULD like to call your special attention to the flawless oak finish we put on these pieces, which is obtained by special treatment, producing a rich, dark effect, which is extremely popular. It is a finish that shows to advantage the beautiful natural grain of the oak.

MADE OF THOROUGHLY SEASONED HEAVY OAK

This library set is made throughout of substantial thoroughly seasoned heavy oak, the wood is carefully selected, and each piece has a full box frame with seats securely fitted and joined to the massive corner posts. The seats in all the three chairs are of solid oak, saddle shape. The panel backs are high and broad, the table has a 36 x 22 inch top with full leg trim, polished ends and a broad lower shelf complete with convenient drawer in center. You can’t afford to overlook this big values!

WE INVITE the most critical comparison of this splendid four-piece suit, with any other suit offered by other dealers. If you desire to purchase one or more pieces separately, you may do so, but we strongly urge the purchase of the entire suit, as they match perfectly.

**MISSION DESIGN 4-PIECE LIBRARY SET**

**Made Of Solid Oak In Fumed Finish**

*THE TABLE* is exceptionally well made for one marked at so low a price. It is constructed of genuine, well-seasoned solid oak and finished in the popular fumed color. The roomy top measures 26 x 40 inches in size. Has a convenient, stationary drawer fitted with two drawer knobs (cut shows only one). It is typified mission in style, the straight line effect being apparent throughout. Has shelf below 8 inches wide, two panels on either end as illustrated. The legs are cut from 5-inch stock and the rim measures 1½ inches deep. It is fitted with, “domes of silence” instead of casters, preventing the tearing of rugs or marring of hardwood floors. Shipping weight, carefully packed, is about 60 pounds.

No. 5K1007. Price ............................................. $6.10

*Order Any Or All Of These Pieces On Credit*

**No. 5K1007. Table With 26x40 Inch Top**

**Price ............................................. $6.10**

**ARM CHAIR** is made to match the other pieces on this page. Is of correct mission design, substantially constructed of thoroughly seasoned solid oak in the rich looking fumed finish. The seat is supported on 4 slats, with wood fibre and jute filling. The back is built with 4 steel slats supporting it. The upholstry used is imitation Spanish brown leather, which looks like real Spanish leather and gives the utmost satisfaction. Stretcher across the front seat is added in an attractive manner. Measurements are as follows; Entire height 33½ in., extreme width 21½ in., distance between arms 19 in., height of seat from floor 19½ in., of back from seat 21½ in., width of back 15½ in., seat measures 38½ inches; arms are 2½ in. wide. Fitted with “domes of silence” instead of casters. No tearing of rugs or marring of floors, a feature that will appeal to the particular housekeeper. Shipping weight, about 50 pounds.

No. 5K1006. Complete Suit of 4 Pieces

**Price ............................................. $25.00**

**This Table Fitted With “Domes of Silence”**

No. 5K1008. Arm Chair

**Price ............................................. $4.85**

**THE ROCKER** is a duplicate in style, construction and material of the arm chair described above. The only vital difference is found in the frame which of course are not possessed by the chair. The total height, therefore is different, the rocker measuring only 33½ inches overall. The fumed finish, solid oak frame, the simple mission design, the attractive imitation Spanish leather upholstery, all combine to make this a desirable rocking chair for the mission room. Strong stone construction under the seat and the fitted legs supporting the back. Shipped wt. about 48 lbs.

**Price ............................................. $5.15**

**Your Credit Is Good Here**

Chair And Settee Fitted With “Domes of Silence”

No. 5K1010. Settee As Illustrated Above

**Price ............................................. $8.90**

**See Page 1 For Terms**

**THE SETTEE** is illustrated to the left. This photograph shows the straight line effect that is characteristic of the mission pattern. But it does not show the rich fumed finish presented by the article itself. It is made from the finest solid oak used in construction, but it cannot convey the rigidity of this piece of furniture and the good workmanship carried to make it. For that reason we ask you to send for this settee in person, so as to examine yourself of its neat appearance and dependable quality. We are so sure that you will be pleased with it that we are glad to allow you to take it home at no risk. If you are not satisfied in every way, remember you are entitled to keep it.

**THE SEAT** measures 18 inches wide by 18 inches deep. It sets about 18½ inches from the floor and is supported by 1½ plaited slings resting on 2 channel bars. The back measures 26 inches high, from seat and is finished with interlaced steel bars. Wood fibre and jute filling is used in the upholstery, over which is placed imitation Spanish brown leather. It is made to resemble the real Spanish leather and gives every appearance of being as genuine.

A Year To Pay Your Credit Is Good

Substantially Built Throughout

See Page 1
24x36 In. Table Top

Observe the Magazine Racks on Sides of Table

Order This Set By No. 5K973.

THE ARM CHAIR illustrated above is a true mission model, harmonizing perfectly with the other pieces of this handsome three-piece library set. It is made of solid oak, in the rich fumed finish. Upholstered over four springs with horsehair, moss and felt. Covering is the popular imitation Spanish brown leather, which looks and wears like real leather. Measurements are: Seat, 19½ inches wide, 18 inches deep; front posts, 11½ inches; arm, 21½ inches; back, 18 inches wide; 32 inches high above the seat.

THE TABLE is unique in design, yet very practical in construction. It is made of solid oak in a fumed finish. It has a 23x36 inch top, which is just the right size. It is fitted with easy sliding drawer with mission design drawer pull and very convenient magazine racks at either side. Observe the striking style and construction, excellent workmanship and striking style make this table a piece of furniture well worth having. This is a remarkable bargain and makes a very convenient set at a low price.

THE ROCKER is built exactly along the same lines as the chair illustrated and described to the left. Solid oak, fumed finish, imitation Spanish brown leather upholstered, resembling the genuine leather. Next cut-out wood panels on both sides of the upholstered back. Good strong rocker. Upholstered over four springs. Shipping weight of complete set is approximately 150 pounds. Order it upon approval and if it does not please you in any way we will gladly refund your money.

No. 5K973. Three Pieces, Complete $16.95
The Table is illustrated directly above and shows the elegance and simplicity of this line of Mission design piece of library furniture. The table top is made of quarter-sawn oak and measures 26 x 42 inches; the balance of the table being constructed of thoroughly seasoned and kiln-dried solid oak. The substantial book shelf at either end and the storage lower shelf are desirable features, as they give added strength to the table and at the same time afford additional space which can be placed books and magazines. The pieces are made to match those on the backs of the chairs and rockers and the magazine rack. This table comes in the attractive finished oak finish and in an apple finish. If you do not order the entire set of six pieces illustrated and described on this page, we would particularly urge you to choose this table and one of the rockers and the arm chair to make up a desirable set. The pieces are so reasonable and in terms so liberal that you will want more the trifling sum that we are asking for the weight of table, about 40 lbs.

No. 5K974 Price $7.75

Full Quarter-Sawed Oak Arms

The Table is of a design that
we know will appeal
to you. The top measures 26x36
inches. A feature of this model is
the Jacobean or Charles II twist
tape rope design, which is used on the
legs and on either side of the shelf.
This improves its appearance to a marked extent, as you will agree
after seeing this table in your home.
In made of seasoned solid oak in the
attractive fumed finish. The legs
are cut out of 2-inch stock, making
them strong and substantial. The
shelf is another handy feature of
this table, measuring 7 1/4 inches
wide. The panel ends are of attrac-
tive design, the center one being
artistically shaped and possessing
grooved edges to conform with the
chair and rocker. This is constructed
with 1 1/4-inch rim all around. How-
ever, such a design should not be
without an attractive set.

CHAIR AND ROCKER. Fine
quarter-sawn oak is used on the arms
of both chair and rocker, balance of
both chairs being seasoned kiln-
dried, solid oak, fumed finish. Each
has three back panels, center one
nearly shaped and grooved to corre-
spond with top panel, attractive bot-
tom panel and front rail. Six springs
in seat, wood fiber filling with soft
top. Rocker, with imitation Spanish
brown leather which looks like the genuine and wears very
well. The Jacobean twist rope used

A FINE QUARTERED OAK VENEERED COUCH

Has Very Attractive Carvings On The Frame

Finished In The Popular Golden Color

This Couch Measures 26x74 Inches. Has Hard Edge. 19 Hand Tied Springs, Securely Fastened. Claw Feet.

FIND QUARTER-SAWED OAK VENEER COUCH

Is Full Spring Construction. Finely Upholstered

Finished In Rich Golden Oak

Size 27x75 Inches. No. 2K573 Price $13.75 Has Spring Edge. Diamond Tufting.

THE DESIGN of this couch recommends itself to all those seeking beauty in their household furnishings; for, without question, it is one of the most artistic couches to be secured at a moderately low figure. The frame is made of substantial hardwood, veneered with genuine quarter-sawed oak. The moulding, as shown in illustration above, conforms to the curved lines of the couch itself, giving a very harmonious effect. The finish of the wood is the rich golden oak, so popular the country over. Order it on approval according to our liberal credit terms as explained on page 1.

UPHOLSTERING is the attractive imitation black leather which looks like genuine leather. It has a spring edge and full steel spring construction, having 24 springs in the body and 4 springs in the head. Over these springs there is a covering of heavy duck canvas and a fine tow and cotton filling. This couch measures 27x75 inches, which is just the right size for comfort. It has deep, diamond tufting, as illustrated, with an extra row of tufting buttons just below the edge. Shipping weight, about 150 pounds.

No. 2K573. Price $13.75

Note the Beautiful Style of This Number
Figured Quarter-Sawed Oak Veneer Frame

Full Spring Edge Construction
Use Your Credit

This Couch Measures 27 x 76 Inches. Has Steel Spring Construction. This Handsome Couch Is Upholstered In Imitation Black Leather

FULL STEEL CONSTRUCTION. There are twenty-four springs in the seat and back in the head, making twenty-four in all. These are covered with leather metal casings and extra fine cat's-eye spring padding. Over the top there is the imitation leather upholstery with deep diamond tufting, in full double pronged tufting, insuring both comfort and durability. Remember that the couch has a full spring edge construction.

THE FRAME OF THIS COUCH is made of thoroughly seasoned kiln-dried hardwood, faced with beautifully quarter-sawed oak veneer. It is finished in a beautiful golden oak with a high gloss finish. The picture also taken from an actual photograph of the couch itself, but you must really see it to enjoy its elegance and beauty. Shipping weight about 229 lbs.

ABANNER 5-PIECE PARLOR SUIT OFFER

This Splendid Suit Comes Handsomely Finished In a Rich Mahogany Color

Artistically Carved Top Panels On All Pieces.

Is Very handsomely Designed

In this Parlor Suit we are offering you one of the most pleasing designs in a suit of unusually good character, both in point of appearance and construction. While the prices are exceptionally low, the suit is made with due regard to great strength and durability—the quality being there just the same as if it cost more than the price we ask. Every home should have one of these fine parlor suits. Hartman brings the price away down—saving you many dollars.

Coverings are made of durable high finish materials, and no matter which you select will be charmed by the appearance of your parlor suit when you put it in your living room. It's perfectly natural, though, that the more you invest for the upholstering of your parlor suit, the better quality of fabric you require, and for that reason we suggest that you order one of the genuine leather coverings. The back of each piece is diamond tufted, each tuft being secured by a steel-pressed upholstery button. The seats are constructed with a setting of “Monarch” oil tempered steel springs.

The Frames are constructed in a serviceable manner, being put together most substantially. Every joint well mortised and dovetailed. The top panel on back is adorned with a deeply carved head and rich scroll design, which greatly enhance the beauty of this elegant suit. The arms of the divan, arm chair and rocker are completed with a beautifully carved head at the front. The Birch used in the construction of these 5 pieces has been thoroughly seasoned and kiln-dried, and is finished in rich mahogany with a high finish. This suit is made to last and will give good service.

We want you to take advantage of our generous credit plan, which is freely offered to our friends and customers, and order this magnificent suit now. Have it shipped to you on approval—examine it closely and you will find it to be the bargain we claim. We doubt if you could duplicate this parlor suit at your local dealer’s store or from any other home furnishing concern at the low prices we quote, and an extra added feature to this wonderful saving in price is our liberal credit terms and furthermore, you get a year’s time to pay. Shipping weight of entire set, about 255 lbs.

Be sure to specify the upholstering that you desire us to supply.
THE FRAME AND UPHOLSTERING. The frame is made of heavy mahogany, the back and arms are joined by mortise and tenon, and the sides are dovetailed. The frame is solid, and the upholstering is guaranteed to be free from defects. The back and arms are solid mahogany, and the seat is supported by four strong posts. The upholstering is made of high grade materials, and the finish is excellent. The frame is guaranteed to remain in good condition for a long time.

THE MASSIVE FRAME is of fine mahogany, with heavy scroll-shaped arms and legs, which terminate in hand-carved claw feet. It is "Monarch" upholstered, containing steel spring construction with stay, cotton and wool fiber filling; the backs are diamond tufled and the seat is large and comfortable. The price is $37.50, which is a big value for such a fine suit of家具.

Genuine Quartered Oak, Walnut Veneer or In The Mahogany Finish at $35.75

Your Choice Of Imitation Black Leather At Above Price Or Of Other Coverings as Quoted Below:

Hand Rubbed And Polished Finish

A Design That Will Always Attract

EXAMINE THE ILLUSTRATION of this beautifully proportioned, expertly designed parlor suite. It is of a style that must appeal to those who have a keen appreciation of true furniture style. If you order it upon approval, place it in your parlor and see if it among your home surroundings you will realize how advantageously it will enhance the appearance of your household appointments. You can have your choice of genuine quartered oak, walnut, quarter-sawed oak, or mahogany finish, as you prefer. Each piece is hand-rubbed and polished, giving a rich, lustrous finish. When ordering, be sure to specify the wood that you desire. You can also have your choice of upholstery black, Spanish leather, genuine black or Spanish leather or floral design tapestry at the prices which are noted at the bottom of this page. Each one is an excellent value at our very reasonable figure.

SPRING CONSTRUCTION. There are 5 oil tempered springs in the seat and rocker and 8 oil tempered springs in the seat of the settee. These are placed two inches with cotton top. The web bottom used on these pieces is similar to that found in the most expensive parlor suites. This construction adds comfort and lasting qualities. We direct your attention to the graceful shape of the arms, the curved lines of the backs and the pleasing contours of the front posts. Observe also the diamond tufting on the backs. These are secured with steel pronged upholstery buttons, having the latter firmly and securely. Take advantage of our liberal credit terms.

MEASUREMENTS. The settee measures 41 inches high. The seat is 19 inches deep. The arm is 15 inches and the depth 20 inches. The chair and rocker each has a six inch long seat. These seats are of particularly attractive appearance with long, sweeping arms, as illustrated. This suit has our best upholstered back and seat cushions, and genuine leather, hand-sewn and guaranteed. Polished weight, carefully packed is about 260 pounds.

Large, Comfortable Spring Seats and Mahogonized Birch Frames

Substantially Built To Give Lasting Service

tylish and Artistic Parlor Suit

We Feel Sure That You Will Be Pleased With This Fine Suit

The Lumber used is mahogonized birch, the choice of dull or hand polished and polished finish. Tow and cotton are the materials utilized in a filling, over which is placed imitation black or Spanish leather, genuine black or Spanish leather or tapestry as quoted below.

SPRING CONSTRUCTION. The chair and rocker each contain six springs under the seat. The settle is made with 12 springs. Strong steel slats support these springs adding resiliency and strength to these pieces. Observe the rich Colonial pattern of this set. The back panels are very shapely and artistic in design.

MEASUREMENTS are as follows: The extreme width of the chair and rocker is 23 in., the total height being 37 in., the chair seats are 17 1/2 x 18 in. The sofa seat is 77 1/4 x 39 in., the extreme width of the sofa measuring 42 in. You can see from these dimensions that it is a suit well proportioned and roomy in size. Shipping weight, complete, about 175 pounds.

THE CHAIR is a handsome, massive piece of furniture that
grace the finest home. It is made of fumed oak
upholstered in handsome imitation Spanish leather over full
size seat and back. Height of back, 36 in.; height of arm
from seat, 19 in. Shipping weight, about 75 lbs.

No. 2K579. Price...

THE SOFA presents a fine appearance and resembles many models
sold for more than we ask. You will acknowledge this
when you see it right in your own parlor and examine its graceful
workmanship and handsome upholstering. Like the chair
it is covered with imitation Spanish leather over a spring seat
back and has an artistic fumed oak frame. Length, 52 in.; size
seat, 41 x 20 in.; height of back from floor, 36 in. Ship-
ning weight, about 15 lbs.

No. 2K580. Price...

THE ROCKER is made to match the other two pieces listed above
and is just as comfortable, just as strongly made,
just as handsome in appearance. It is beautifully upholstered in
imitation Spanish leather over a spring seat and back, and has a fine
fumed oak frame. Its size is the same as the arm chair
described above. Shipping weight, about 50 pounds.

**CHOICE OF QUARTER-SAWED AND SOLID OAK OR GENUINE MAHOGANY VENEER, UPHOLSTERED IN IMITATION SPANISH BROWN LEATHER, AS SHOWN**

**THE ROCKER.** Genuine quarter-sawn oak, with solid mahogany veneer, used on the chair-top, arms, and entire front of the rocker, the panels being of solid mahogany. This rocker has heavy springs supported on steel band-iron, securely fastened. Mahogany Spanish brown leather is used in upholstering this number. This covering wears a close resemblance to genuine Spanish leather and is preferred for an excellent wearing quality. The beautiful Colonial scroll feet and Colonial arms are made to correspond with those of the rocker. Weight, about 60 pounds.

No. 2K599, Price $10.85

**THE CHAIR.** The general construction of this piece is the same as the rocker. It likewise can be ordered in either oak or mahogany finish. The rocker has genuine quarter-sawn oak veneer top, arms and entire front, with solid quarter-sawn oak panels, the balance of the frame being constructed of seasoned solid oak. When ordered in this wood, it comes in either golden or figured finish, as you wish. Stain finish preferred. It desired in mahogany finish, order as above. When so furnished, the top, arms and entire front are constructed of genuine mahogany veneer, the balance of the frame being of mahogany. The seat, having 7 heavy springs, supported on steel band-iron, securely fastened. Mahogany Spanish brown leather is used in upholstering this number. This covering wears a close resemblance to genuine Spanish leather and is preferred for an excellent wearing quality. The beautiful Colonial scroll feet and Colonial arms are made to correspond with those of the rocker. Weight, about 60 pounds.

No. 2K599, Price $10.85

**THE DUOFOIL.** As shown in your choice of stained or polished oak or mahogany finish, the construction being the same as described in both the chair and rocker above. The seat has a spring support made of steel crimped springs, unrolling in the front and back, and supported on mahogany frame. The arms and back are covered with high grade leather. Springs, crimped to the hardwood frame, are interlaced into these crimped wires. It is made with 15 crimped wire springs in the seat, securely fastened on top. The seat is covered with high grade leather, and the back with mahogany finish. The frame is made of solid oak, the back and seat being securely fastened with crimped wire springs. Weight, about 100 pounds.

No. 2K596, Price $31.65

**Wonderful Brass Bed Value**

Has 2-Inch Posts and New Polet Finish

**THIS BRASS BED** is an enormous value at the price we ask and is beyond comparison. The finish is the New Polet style, which is a satin finish on the posts, fillers, and top and bottom cross rods, and bright finish monta. The bright brass ornamentation forms a very striking contrast to the satin-finished parts. The bed is of the continuous post style, with 2-inch posts, making it very massive. The posts are unusually large and imposing. The design of the bed is one of our new patterns for this year and is sure to meet with much favor with our customers. You should not delay in sending your order, for you can buy it on our liberal credit terms shown on page one.

You can have your choice of ordering this bed in any size: 3 ft., 3 ft. 6 inches, 4 ft. 6 inches, and 5 ft. at the same price. Be sure to state size when ordering. This is an elegant bed and is of a design that is fine enough to be placed in the best rooms of the bed advertised. No. 3K1598. Price...

A Very Substantial, Artistic Bed at a Genuine Bargain Price

WE DON'T EXAGGERATE
Silver-tongued salesmen and "hot" advertising writers are in the habit of tossing words to impress you for the moment, but when you stop to think, these remarks you are often left feeling a bit skeptical. They are not all lies, however. There is a genuine reason for our methods, but a word to the wise would be an unwise one.

TO PROVE IT we are going to tell you the facts about this particular bed and then we are going to ask you to put it up against our terms or Page 1 of this Catalogue. Then if it is not all we claim, or if we have exaggerated one fact we want you to return the bed back and we want you to give us back the money that you paid for it. Surely you can't ask for a better offer than this.

TELL US whether you desire the white or green, or Vernis Martin finish. It is in one size only—4 foot 6 inch. The continuous posts are 1 1/4 inch in diameter and the filling rods 5/16 inch in size. It is a ten inch bed, the head end and foot ends are 55 inches high. Particularly graceful lines and balance established at the finish, in the resting position, and on the posts as well as at the cross rails. It is one of the values for the money that you will find. Shipping weight 12 lbs.

2-INCH STEEL POST BEDS

In the production of these beds the manufacturer has successfully attained strength without weight. Cold rolled, burnished steel tubing is used. This lessens the freight cost and gives the housewife a lighter article to handle, reducing the marring of floors and tearing of rugs and carpets. The steel surface is bright, smooth and is highly polished. The finish which this kind of surface takes, approximates perfection. Have one of these beds sent on approval.

THIS MODEL illustrated to the left is made with 2-inch continuous tubing: all manufactured by advanced modern process explained above. The design is of a kind that will appeal to those of particular taste. It is a good bed at a very reasonable price. The tubing used measure 3/16 inch, the upright tubing being decorated with chills as illustrated. Head end is 52 inches high, foot end 36 inches. Comes in your choice of white or green enamel or Verne Martin (gold bronze) finish. Made in the following widths: 2 ft., 3 ft., 4 ft., 5 ft., 6 ft., 7 ft., 8 ft., 10 ft. In ordering please mention finish and size desired. Shipping weight about 72 pounds.

These are Cold Rolled, Burnished Steel Tube Beds. Head end measures 58 inches high; foot end 26 inches high; shipping weight about 70 pounds.

Price...

Lighter Than Iron Beds

$9.45

STUDY THE ILLUSTRATION of this simple and attractive bed. It has the earmarks of the more expensive brass beds and still possesses economical qualities at a moderate price. The high quality cold rolled, burnished steel tubing used in lighter in weight than the iron bed posts and still possesses great strength and durability. The housewife will appreciate the fact that it is built in weight and therefore easy to handle without sacrificing its massive and pleasing lines.

WHEN ORDERING please tell us whether you prefer the white enameled, green enameled or Verne Martin (gold bronze) finish. Also mention whether you desire this bed in the 2 ft., 3 ft., 4 ft., 5 ft., 6 ft. size. The continuous posts measure 2 inches in diameter. All filling rods measure 1 1/16 inches in diameter. The head end stands 36 inches from floor, the foot end measuring 38 inches in height. We have no hesitancy in giving this bed our highest endorsement. Shipping weight about 80 pounds.

Price...

$9.85

Corner bend on continuous post is practically perfect. Upright fillers tightly cold fitted into sockets which have been electrically welded to bed frame. By this electric welding method metal rod ends are fused into bed frame, resulting in a solid piece of double thickness in most rigid strength.

$10.45

TAKE YOUR CHOICE of white enameled or Verne Martin (gold bronze) finish. This is made exceptionally high grade. Comes in 2 ft., 3 ft., 4 ft., 5 ft., 6 ft. widths. Weight per piece is 72 pounds. Shipping weight about 72 pounds. When ordering please mention finish and size that you desire and weight. Pillars are 2 inches in diameter; top, bottom and filling rods 1 1/16 inches in diameter. The head end measures 58 inches in height, the foot end measuring 38 inches. We recommend this bed as an excellent value at a figure. Price...

ORDER THIS CONTINUOUS STEEL POST BED

IF YOU WANT A GOOD VALUE FOR YOUR MONEY

possesses Massive 2\(\frac{1}{2}\)-Inch Posts

The years are quite

Blessed is the opinion that we should devote eight hours to work, eight hours to play,

and eight hours to rest.

In years gone by, it may have been possible to many to so

by their time, but in America, to-day, the proportion of work and play is quite

out of kilter, most of us do take the allotted eight hours for sleep. In

most of us need that amount of rest to properly perform our daily tasks.

Surely there's a deal of satisfaction when you retire at night to both

at a nicely furnished bedroom—it gives you a sense of repose and refreshment.

in the morning after a refreshing slumber, what an invigorating return to open

evens upon a room beautifully and comfortably equipped! This fine looking bed will

to complete the beauty and comfort of your sleeping room. Order it on our approval

and we are positive that you will be mighty well pleased with your purchase. Read

through this for full particulars concerning this number.

THIS MASSIVE BED has great big 2\(\frac{1}{2}\)-inch continuous steel pillars as shown

In the large illustration on this page. And we want to

 impress you with the fact that the bed itself really looks like a fine example noble

than it is. We believe that if you were to attempt to purchase a similar bed elsewhere

you would have to pay more money. In preventing this number we have made a tremendous

effort to give our customers an out-of-the-ordinary bargain and we have succeeded

admirably. It comes in full size only, which is 3 feet 6 inches wide. The head is

beautiful white enamel or Vernis Martin (gold finish), as you choose. In ordering, please

tell us which you desire us to send you. The bottom rail is 2-inch and the slant rods

are 1\(\frac{1}{2}\)-inch wide. The height of the head end is 36 inches and the foot end measures

2 feet in height. The continuous pillars are adorned with artistic chisel, as are the foot

ends, as shown. It comes complete with covers. The customers that we have in this

this with the fact that we devote an entire page to its presentation. It

value well worthy of serious consideration. Shipping weight, about 50 pounds.
Upright Fillers, Tightly Cold-Fitted Into Sockets Which Have Been Electrically Welded To The Bed Frame.

In these models the manufacturer has successfully produced light weight, high quality, cold rolled, burnished steel tube beds. They are lighter in weight than iron beds and yet are wonderfully strong. This lighter weight reduces marring of floors, tearings of rugs and carpets and likewise reduces the freight cost. This steel is about one-third the thickness of the old gas pipe. Be sure to mention in your order which finish you prefer to have us send to you.

All Have Massive 2-Inch Pillars

THE CORNER BEND on this model is true and even and you will be highly pleased with it in every way. Read the details of construction explained at the top and bottom of this page for a fuller understanding of the advantages of this model. The corner head is true and even and the upright fillers are tightly cold fitted into sockets which have been electrically welded to the bed frame, resulting in one solid piece of double thickness.

CONTINUOUS Pillars measure 2 inches in diameter. The two top rods as well as the bottom cross rods each measure 1 1/16 inch in diameter, the upright filling rods being of the same size. You may have your choice of white enamel or Verde Martin (gold bronze) finish. This design is made in 5 ft. 6 in. and 4 ft. 6 in. sizes. Please state the finish and size that you prefer when sending us your order.

The steel surface is bright, smooth, and as highly polished as the blade of a saw. The finish which this kind of surface will take is superior in every way. The enamel used on them flows on these beds almost as smooth as glass.
This COLD ROLLED BURNISHED STEEL TUBE BED is a WONDERFUL MODERN ACHIEVEMENT in brightness, beauty, strength and inexpensiveness.

A STEEL BED in a popular design. This is not merely a statement, but a fact. In this number, the manufacturer has successfully made a light, high quality, Cold-Rolled, Burnished Steel Tube Bed. He has succeeded where others failed. It is lighter than the iron bed, yet is wonderfully strong. In other words, it has strength, without weight. This is a feature of two-fold advantage; it lessens freight cost and increases the household, a lighter article to handle. This lighter bed reduces the wearing of floors and tending of rugs and carpets. The steel is about 1/2 the thickness of the old gas pipe, and the decrease in weight is proportionate to its size. But do not be misled as to the magnitude of its proportions. It is a mammoth looking bed yet an extremely graceful one. The continental posts are 2 inches in size, the cross rod and fillets likewise measuring 2 inches in diameter. The head- and foot-ends 52 inches from the floor, the foot end 35 inches high. Those rod measurements include casters. We offer this extraordinary number in the full size, which is 8 ft. 6 inches in width. Our experience in the sale of beds dates back many years. We have bought and sold hundreds and hundreds of them in a comparatively short time. But never in the history of our experience have we seen an offering that can compete with this one in a steel tube bed. The value is stupendous at this incomparably low figure. Shipment weight, about 30 pounds.

No. 3K1724

THE WONDERFUL FINISH is explained in the paragraph to the left. But you cannot appreciate how fine it really is, unless you see the finished product. The crinkled used iron on this bed as smooth as glass. You can have your choice of White Enamel or Vernis Martin (gold) finish, as you desire. When you send your order, kindly tell us which finish you prefer. In describing this wonderful bed, we have explained how light it is to handle, in proportion to its size. But do not be misled as to the magnitude of its proportions. It is a mammoth looking bed yet an extremely graceful one. The continental posts are 2 inches in size, the cross rod and fillets likewise measuring 2 inches in diameter. The head- and foot-ends 52 inches from the floor, the foot end 35 inches high. Those rod measurements include casters.

SUBSTANTIAL BEDROOM FURNITURE

THESE PIECES are inexpensive, yet attractive in design. The dressers, chiffonier and commodes are all made of durable hardwood to which is applied the American quartered oak finish, which is its imitation of genuine quartered oak. The color is the popular golden in nice gloss finish.

THIS DRESSER is made with scroll feet and sharply Colonial design mirror standards to set it off from the ordinary. These standards support the heavy 2-1/2-inch French bell plate mirror. The base top is of a nice size, measuring 48-1/2 inches. The two top drawers are over-long and like the two full length drawers below are fitted with round wooden knobs and locks. It is made of hardwood in American quartered oak finish, made to resemble the genuine quarter-sawn oak. Glossed golden color. Comes complete with mirror. Shipping weight, about 115 lbs.

No. 3K1148. Price $13.75

PRINCESS DRESSER

Shown to the right is made in the same attractive design as the Colonial dresser. The American quartered oak finish is applied to the hardwood, giving the appearance of true quarter-sawn oak. The base top measures 48-1/2 inches and the large French bell plate mirror is fitted with round wooden knobs and locks. It is made of hardwood. Glossed golden finish. This Princess Dresser is nicely fitted with two full length drawers below, all fitted with round wooden knobs and locks. This Princess Dresser is nicely fitted with two full length drawers below, all fitted with round wooden knobs and locks. Comes complete with mirror. Shipping weight, about 115 lbs.

$19.75
Order this fine bedroom suit and make a handsome saving. We will send it to you on approval.

Nicely made of durable hardwood finished in American quartered oak.

You will get a bargain if you send us your order for this fine bedroom suit, for we believe that at this price it will be found hard to equal. It has been carefully constructed and was designed by our merchandising department to be a bedroom suit that would be a substantial, durable set and yet sell at a low price. We think we have accomplished our purpose very thoroughly and we feel that to overlook this offering is to pass up a real good value. Take advantage of the liberal offer this page contains. You are entitled to every advantage this book offers and we invite you to buy this handsome bedroom suit or anything else you may desire and take a whole year to pay.

It is our popular model and one of the neatest bedroom suits ever built for the amazingly low price. It is made throughout of durable hardwood, to which is applied a finish in imitation of quarter-sawed oak, that closely resembles the real wood. All drawers are constructed so as to slide in and out very easily. The joints are expertly fitted as well as every mortise, brace, hinge and moulding.

See page 1 for our liberal year-to-pay credit terms.

With the saving you make buying this suit you can have more to furnish your bed room and take a year to pay.

The price is very low for all three pieces.

The bed is 60 inches high at head end and is 4 feet 6 inches wide. It has mould, three- ply, built-up panels at head and foot. The carved ornaments on the head and foot ends, together with the unique post tops, make this bed decidedly artistic in appearance. It has stout corner posts, heavy side rails and bed slats, and is a bargain at our price.

The dresser has two top drawers and two long deep drawers below. The top of the dresser has straight side and front edge and is 33 1/2 inches in size. The base has panel ends and strong corner posts. Has a large French beveled mirror measuring 22 x 15 inches. The mirror standards are scroll design and mirror frame is decorated with artistic carving.

The commode included in this bedroom offer has top measuring 30 x 13 inches, with sliding cut edges. Has long deep top drawer, commodious cupboard below, fitted with two doors and panelled ends. Top is fitted with sharply angled front and strong towel rod.

It is for sale complete on our easy credit terms with over a year to pay, as indicated on page one of this catalog. Suit comes restored, fitted with attractive drawer pulls, locks and keys, shipping weight, about 500 pounds.

No. 3K1752. Price, complete suit of 3 pieces $22.85.
HE DRESSING TABLE like the other pieces shown on this page, is made with genuine quarter-sawn oak front and top, the balance being of rotary cut oak, glazed golden finish. All Three Pieces Are Beautifully Finished In A Rich And Very Attractive Golden Color. Note The Pretty Carvings.

Order Suit By No. 3K1637. Price, $26.75

THE DRESSER is made throughout of thoroughly seasoned and kiln dried oak, golden color. The single end panels are of durable solid oak and the back panel is 2-ply lumber. The attractive serpentine shaped base top adds greatly to the appearance of this dresser. The shapely mirror frame standards, and neat carvings shown, combine to make this dresser one that demands your attention. To be sure, it is not overly lavish and it is its very simplicity that will appeal to all critical buyers. The base top measures 35 1/2 inches and the French bowed plate mirror is 20 x 18 inches. Total height is 60 1/2 inches. The two overhung top drawers and the two full length drawers below afford ample capacity for the needs of anyone. Round wooden knobs used on the drawers. Observe the French shaped feet and the neck panel across the bottom of this dresser. Complete with hardwood casters.

THE BED is very well constructed in a workmanlike manner and made throughout of thoroughly seasoned and kiln dried oak, golden color. The panels in both the head and foot ends are made of 2-ply lumber. You will observe that the carving at the top of the bed and that across the footer end harmonize beautifully with the embellishment appearing on the dresser as well as the commode. Like these other two pieces, the finish is a rich golden color, which will be found to be very appropriate with all surroundings. Next French shaped front bed are attractive in appearance as is the entire design of this piece of furniture. The rails are 12 inches long, the slats are 4 feet, 4 inches, this being a full sized bed, and the height over all is 66 1/2 inches. This bed is furnished with hardwood casters.

THE COMMODE is the counterpart in style of the dresser shown and described above. The tail bar standards are gracefully curved to correspond with the mirror frame standards on the dresser. The deep carving is made to match perfectly the shapely serpentine front of base top corresponds with the dresser in perfection. This commode has a full length top drawer and a double door cupboard below, as illustrated. Drawers and cupboard door both fitted with round, wooden knobs. It is made throughout of thoroughly seasoned and kiln dried oak. The single end panels are of solid oak. While the back panel is 2-ply lumber. The finish is a rich golden color to match both bed and dresser. The base top measures 29 x 17 inches, being just a nice size, and the height is 17 inches from the floor to the extreme top. This commode is fitted with hardwood casters. The shipping weight of these three pieces, all carefully packed to insure safe arrival, is approximately 296 pounds.

No. 3K1637. Price, Suit, Complete, $26.75

Notice Our Low Price
**THESE MAGNIFICENT BEDROOM PIECES ARE OF FAMOUS “HARTMAN” QUALITY**

**Price:**

- $9.75

**ALL ARE SPECIAL LEADERS.**

The wonderful values given on this page are made possible through a very fortunate purchase, and we can therefore offer them to our customers at prices lower than those usually quoted by any other housefurnishing concern in the country for merchandise of this quality. This suit is made of hardwood, to which is applied a finish in imitation of quarter-sawed oak, that closely resembles the real wood. We particularly invite you to compare this suit with any similar ones, and see that much greater values are given here than anywhere else.
THREE-PIECE BEDROOM SUIT

$30.65

Very Stunning Colonial Design
Substantially Constructed of American Quartered Oak In The Rich And Attractive Golden Color

TAKE A YEAR TO PAY

We Trust You

Order Above Set By Following Number
No. 3K1644. Price . . . . $30.65

THE DRESSER is the latest production of one of the largest furniture factories in America, as are the bed and commode forming this extremely attractive, highly serviceable bedroom suit. The dresser is constructed throughout of durable thoroughly seasoned hardwood, to which is applied a finish in which genuine quarter-sawn oak, which very closely resembles the red wood. The rich, golden color adds greatly to its attractive appearance. Three-ply, built-up stock is used in the back and drawer bottom, in the applied quarter cut veneered, holds this piece of furniture perfectly square and very rigid. The base measures 20x38 inches and the French bevel mirror with rounded top is 27x42 inches in size. Colonial arms to which the mirror corresponds with the handsome corner posts in the base. Features a high gloss finish, with overhanging top drawers and two full length drawers below, as illustrated. Rounded wooden knob.

NAPOLEON BED is made of the same durable materials as the dresser and the Napoleon posts have been beautifully with the shapely contour of the dresser posts. This very massive bed is made of thoroughly seasoned hardwood, to which is applied a highly figured imitation quarter-sawn oak finish, bearing a remarkably close resemblance to genuine quarter-sawn oak. The high gloss golden oak finish enhances the appearance of the bed, making it exceptionally pleasing to the eye. The height of the head end is 52 inches, and measures 51 inches in width and 2 feet 6 inches long. It is constructed throughout in a well-proportioned manner, all parts being carefully cut and firmly joined. The panels are made of three-ply built-up stock which will not split or crack. Like the dresser and commode, it comes complete with casters.

COMMODE is also constructed of kiln-dried hardwood, finished in a rich imitation quartered oak, and is noted above, this finish bears a wonderfully close resemblance to genuine quarter-sawn oak, so much so that the average person could not tell the one from the other. Comes in a golden color to match the other pieces of this set. The base measures 18x30 inches, which is just a size and weight sufficiently large for the needs of anyone. This commode stands perfectly solid, this substantial construction is due to reason of a system of interior bracing. Although this construction does not appear from the outside, it is but another example of our sincerity in presenting to you merchandise that is not skimped in any way. The back and drawer bottoms are made of three-ply stock. Two full depth drawers and double deep cornet in base. Rounded wooden knobs. Shipping weight of complete set, about 345 pounds.

The Dresser Has A 20 x 38 Inch Base and 20 x 2 Inch Bevel Flat Mirror As Shown

The Bed Measures Full 5 Feet In Width

The Price For Credit Terms See Page 1 Of This Catalogue.

Proof by our liberal offer and have this fine set of furniture sent to you. You are protected by our legal guarantee, and are taking no chances whatever. Ship. wt. about 210 lbs.

Set No. 3K1653. Price, complete without Mirror on Commode (as illustrated) $32.75

Made of Genuine Quarter-Sawed and Solid Oak
In Bungalow Design

SIMPLICITY OF STYLE in bedroom furniture is here to be desired when such simplicity results in the execution of such a suit as the one illustrated on this page. It is the kind of furniture that is particularly adapted to summer use—whereby it gets its name. The Bungalow design has met with great favor among the practical women of today. They see in it not only tastefulness and beauty, but its sanitary feature as well. For this furniture can be kept clean with great ease.

THE DRESSING TABLE illustrated to the right is made of substantial solid oak and comes either in a golden or fumed finish as you prefer. In order to comply with your preference. Like all of the other pieces in the set it is built in the mission style, Bungalow design. The top of the base is a convenient size, being 20x36 inches, and the drawers which are fitted with maple wheel casters. Shipping weight about 365 lbs.

No. 3K1000. Price $13.50

No. 3K1001. Price $21.65

STUPENDOUS VALUES

CHIFFONIER is a typical mission piece in solid oak. It is made of durable solid oak and comes finished in either glazed golden or fumed as you prefer. Please state your preference in filling out your order. There are two top drawers and two full length drawers. A French beveled plate mirror set into a square frame rests between two mission designed standards and measures 34x9 inches. This is a very finishing piece of furniture, standing 60 inches in height; the top of the base is 28x34 inches. It is built by thoroughly experienced makers and is a very exceptional value at our extraordinarily low price. It is guaranteed good for three years, and is sold under our legal guarantee of absolute satisfaction or your money refunded. It is shipped with maple wheel casters. It weighs about 155 lbs.

No. 3K1003. Price $9.25

No. 3K1005. Price $22.35

Bed No. 3K1002. Price $13.75

This striking bed is an excellent example of real Mission furniture. It is made of durable solid oak and comes either in glazed golden or fumed finish. You can have your choice of either golden or fumed finish. It stands 48 inches high at the head and, comes in full size only, which is 7 ft. 6 inches. The posts measure 1-1/2 inches and the rails are all 1-3/4 inches in size. It is a bed that you will be mighty glad to own and one which we endorse very highly. It is fitted with maple wheel casters. It weighs, packed for shipment, about 352 lbs.

No. 3K1002. Price $13.75

No. 3K1003. Price $9.25

No. 3K1005. Price $22.35

EDRESSER shown above is built of genuine solid Oak in Mission style. Bungalow design. Golden glass or fumed finish. There are two 28x18 inch; and two full length drawers below, all fitted with wood drawer pulls. Base is a good quality beveled edge French plate mirror; fitted with maple wheel casters. A very exceptional value. Shipping weight about 170 lbs.

No. 3K1004. Price $22.85

PRINCESS DRESSER corresponds exactly with the above dresser shown in the above golden or fumed finish. It is a good quality beveled edge French plate mirror measuring 34x19 inches. It stands 70 inches high and has a large glass top. These drawers have wooden drawer pulls. Fitted with maple wheel casters. Shipping weight is approximately 175 lbs.

No. 3K1004. Price $22.85

No. 3K1005. Price $22.35
THE BED is made with artistic turned posts as illustrated. Although this bed is deeply in style, it is substantial in construction. You can order it in genuine selected quarter-sawed oak in golden gloss finish or bird's-eye maple. Please mention which you desire. Has sanitary metal side rails—a very commendable feature.

YOU SHOULD order this number if you want to combine appearance with fine workmanship. The posts are 42 inches high and the width is 4 feet 6 inches; this being a full sized bed. Is equipped with maple wheel casters. A great value at the price. Shipping weight about 350 pounds. No. 3K1180.

Price $21.95

THE CHIFFONIER is shown directly below. This is likewise made of selected quarter-sawed oak except the posts, standards and mirror frame in golden color, gloss finish or can be had in bird's-eye maple—state which you prefer. Two top drawers with octagonal raised panels, four full length drawers below.

IT IS of the Tudor period. Has bird's-eye maple, maple wheel casters, octagonal shape French bevel plate mirror measures 18 x 26 inches, height 60 inches, plank base top dimensions are 20 x 36 inches. Turned standards and feet. The shipping weight, carefully packed, is about 129 pounds. No. 3K1181.

Price $22.65

THE DRESSER is illustrated above in the large picture. It is a fine example of the William and Mary, or Tudor period bedroom furniture, bringing out the gracefully turned mirror frame, standards and the artistic turned legs. The moulded mirror frame, of octagonal design, corresponds with the octagonal raised panels on the two top drawers. And be sure to note the heavy plank base top. There are two full length drawers below. For further particulars about this dresser, read the paragraph on the right.

Price $24.85

THE PRINCESS DRESSER is an art of grace and beauty. Like the other pieces in this page it is designed in the true Tudor period with turned mirror frame standards legs. You can order it made of genuine quarter-sawed oak (excepting the posts, stands and mirror frame) in golden gloss finishes in handsome bird's-eye maple. When ordering please state which you prefer. One of features is the stunning moulded mirror frame shown in the picture above.

THIS VALUE is appreciated thoroughly by the only seeing princess dresser itself. The mirror frame, of the two draws have octagonal raised panels to correspond. There is a full bevel, mirror drawer below. These draws are fitted with wooden knobs. Maple wheel casters. Weight, 180 pounds. Shipping weight about 173 pounds. No. 3K1183.

Price $27.85
the Stylist Adams Period In Your Choice of Ivory Enamel, Waxed Golden or Fumed Oak Finish

The Handsome Bed is shown directly above. This full size bed is designed in conformity with the popular eight line idea which characterizes the Adams period furniture. The panels are constructed of 2-ply built-up stock which lessens the tendency to warp or split. The five slat design in the head and foot ends gives this bed a stately appearance. You can order it in your choice of ivory enamel, waxed gold or fumed oak finish as you prefer. We have shown you these pieces which appear when actually ordered in the bedroom. Order this bed on approval and place it in your room for a thorough appreciation of its beauty. Height of head end, 42 in. Shipping weight, about 115 pounds. $11.95

The Attractive Dresser is illustrated directly above. Like the remainder of this fine bedroom furniture, it is designed in accordance with the popular straight line idea which prevails in Adams period furniture. It is made of thoroughly seasoned and kiln dried solid oak throughout, with the back, ends and drawer bottoms made of 2-ply built-up stock which lessens warping and splitting. This dresser is made with five drawers; two full length, two narrow drawers below and three smaller ones above, the center top drawer being set off with neat period straight line decoration. The base top measures three inches in size, and the French plate mirror is 5x7 inches. We give you your choice of ivory, waxed gold, fumed oak or ivory enamel finishes. In ordering please advise which you prefer. The trimmings used on this dresser are unique in style. They are made of brass and are as shown in the illustration. They correspond with the trimmings on the chest and dressing table described above. Shipping weight, 125 pounds. $16.75

This Is A Splendid Bargain Offered In A Substantially Made Dresser Constructed of American Quartered Oak With Heavy Plank Top, Oblong Mirror And Graceful Standards

Scroll Design Mirror Standards Have Carving At Top

THE WORKMANSHIP of this desirable piece of bedroom furniture is of a quality that we might dependably consider worthy of the name. The originality of its design and the fine craftsmanship of its construction make it a genuine American colonial in every respect, and the determined effort of our best draftsman to interpret this style in modern terms has given it a beauty and function that can be surpassed only by those who have the means to supply it.

THE MIRROR is a good quality French beveled plate measuring 24"x14" inches. It is a reproduction of the type of mirror which was used in colonial times. It is made in the same manner, with the same materials, and is of the same size as the mirrors used in colonial houses. It is a true reproduction, and when you compare it with the other mirrors on the market, you will find that it is the only one that is truly Colonial in design.

For the sake of completeness, we have included a photograph of the dresser itself, which will give you an idea of how it looks in reality. You will see that it is a well-made piece of furniture, and that it is suitable for any room.

Colonial Dresser

The Money Problem confronts every human being. The man who makes his money do the greatest amount of work is the man who achieves the fullest measure of success. We are in business to make money, to do the greatest amount of work. By doing so, we like to see that in a natural way, the better we give to our patrons the more rapidly our business grows. The size and type of this writing institution is directly responsible to the fact that we have offered such solid values to our customers.

The Beautiful Dresser is a typical Hartman value. It is made of thoroughly seasoned hardwood and the attractive imitation quartered oak. This is made to resemble genuine quarter-sawed oak and to the average eye looks just like the real quarter-sawed oak. The octagon shaped mirror frame and French bevel plate mirror give this dresser a very cheap appearance. The style is enhanced by the Colonial mirror standards and corner posts, as well as the two overhanging top drawers. This is a perfect Colonial design and is built upon lines sufficiently large to prove a practical piece of furniture. The finish is the rich golden oak.

The Base top measures 19x28 inches, the French bevel plate mirror being overhanging top drawers which afford ample capacity. Back, bottom and sides. The glasses on this piece of furniture is even-thickness and is ideal to all critical judges of household furniture. Shipping weight, carefully packed, is about 120 pounds.

Princess Dresser

This Is A Very Attractive American Quartered Oak Dresser. Has Heavy Plank Top. Swell Lower Drawers.

The Time To Buy. When you are really in need of furnishings for your household, then is the time to fulfill your requirements. We do not advise you to purchase merely because our merchandise is low in price. We will say frankly, however, that because of our liberal offers at times the great number of articles in this room offer such low rates that it is well to place your order early to avoid possible disappointment. It costs us little to have just what you want and we would not enter the selling amount it requires. For this reason it is to your advantage to send us your order without delay, if you see some article that suits your fancy. Take for example this fine Princess dress.

This Princess Dresser is made of hard wood to which is applied a finish in imitation of genuine quarter-sawed oak. It has a heavy plank top measuring 28x46 inches and an attractive long French bevel plate raising measuring 30x46 inches. The mirror rests between two gracefully shaped Colonial standards, as shown in the illustration. There are two straight overhanging drawers in the top and two full-length drawers below, the latter being made with massive swell front. The corner posts are of beautiful Colonial design to conform with the shape Colonial standards above. Princess dresser as fitted with wooden drawer pulls as shown. Base height, 31 inches.

No. 3K1771. Price...$12.95
A NEAT COLONIAL DESIGN

In An American Quartered Oak Dresser of Substantial Construction. Has Overhanging Top Drawers As Illustrated.

THE RICH STYLE of this Colonial Dresser is not often found in dressers selling at so low a price as we quote here. Every housewife who likes good, high grade furniture in her home will be immensely pleased with this article, and we have now known a better model to be made that could be sold at lower figure. The chiffonier, too, which we offer to match this dresser, and which is shown on another page, is equally as big a bargain. If you want to swell pieces for your bedroom, study these very carefully.

AMERICAN QUARTERED OAK finish is made on hardwood of an attractive grain used on this dresser to imitate genuine quartered oak. The rich golden finish is very popular. It is made with a square edge top, which measures 32 inches wide by 20 inches deep. A French beveled plate mirror is finished and is 24 inches wide by 22 inches high and supported by nice curved Colonial scroll standards.

SIDE PANELS are of full length and are solidly mortised to front and back posts. The four deep drawers are equipped with locks and turned wood pulls. The two upper drawers are of small and convenient size. The front posts are curved in Colonial arched effect. Shipping weight about 125 pounds. If you desire to purchase the chiffonier to match this dresser, refer to No. 3K1772 shown on page 181, the price of which is given below.

TRIPLECTATE MIRROR

Is The Feature Of This American Quartered Oak Dresser. A Fine Value At This Price

THE LUMBER used in this dresser is substantial hardwood, to which is applied a finish in imitation of quartered oak. It bears a close resemblance to the real wood. It has three stand-up top drawers and two full length drawers below. The neatly shaped front posts terminate in Colonial scroll feet, as illustrated. Drawers are fitted with round wooden knobs.

TRIPLECTATE MIRROR enables you to observe your reflection from the front as well as left and right profiles at the same time. This is easily accomplished by placing side mirrors slightly forward on small picture to the left. This is a very desirable feature in a low priced dresser.

MEASUREMENTS. The base top measures 14 inches wide and 10 inches deep. All three mirrors are French beveled plate, the center one being 22x11 inches in size, the side mirrors each measuring 22x8 inches. The center one is of neat design. Fitted with locks, key and catches. Shipping weight about 20 pounds.

There are two tumbler shaped drop drawers and two full length, overs, as shown, all fitted with wooden knobs. Price $22.85, less freight.

STUNNING PATTERN. The above dresser is designed to meet the modern and very stylish Adams period. An artistic piece of furnishing, as well as a splendid value. Comes in four choice of genuine mahogany veneer or bird's-eye maple with an attractive molded and polished finish. When ordering please state which finish you desire us to send. The top measures 34 inches wide and 24 inches deep. The French bevel plate mirror is of a neat shape with rounded corners at the top and a flat bevel. Brass trimmings to match finish. Shipping weight, about 210 lbs. Price $25.45.

COLONIAL DRESSER. Expertly constructed of genuine quarter-sawn red oak throughout and durable materials. You can have your choice of genuine quarter-sawn red oak finished in either genuine mahogany veneer, bird's-eye maple or figured walnut. When ordering kind of finish which you desire us to send. Has a 21 1/2-inch base and 21 1/2-inch French bevel plate mirror. A true colonial design with shaped top drawer. Two full length drawers lined with painted wooden panels as illustrated. Comes complete with brass, key and casters. Shipping weight, approximately 265 lbs. Price $26.50.

STRIKING PRINCESS DRESSER. In beautiful Colonial design. Genuine quarter-sawn oak is used on the front, top and sides, the sides are made of threeply rotary cut solid oak, glass golden finish. Also comes in imitation Circa cavum finish. Base which is designed 24 x 30-inch. French bevel plate mirror 24-inch height. Three covers for drawers and two full length wood well drawers. Gracefully curved Colonial front posts and mirror frame. Single molded molding. 1 1/2-inch plank top. Shipping weight, about 216 lbs. Price $23.65.

GENUINE QUARTER-SAWED OAK. For a really handsome piece of furniture. Takes pride in the construction of this exceptionally artistic and graceful Princess dresser. The beauty of this model is the immensely large dressing table top of quarter-sawn red oak. The back is sturdy, the height of the table is 30 inches, the front is 24 inches. The dressing table does not have drawers, but it has a large mirror, which can be raised and lowered. Price $25.95.
NEAT COLONIAL DRESSER

Of Massive Proportions. Made Of American Quartered Oak Has 45 In. Heavy Plank Top And Ronded Mirror Frame

BEFORE YOU STUDY the illustration of the dresser shown to the left, you can gain some idea of the excellence of this wonderfully built, thoroughly substantial article. Its companion piece, it is made of hardwood, to which is applied a finish in imitation of quarter-sawn oak, which looks like the genuine wood. It has a face rounded mirror, beveled, heavy standards, massive planked top and corner posts. The excellent construction of both dresser and chiffonier is such as to appeal to you.

THE BASE particularly we wish to call to your notice, because it measures 45 inches across, being 21 inches deep. The surface of the mirror is nice and large, measuring 22½ x 2 inch and is of a good quality French bevel plate. There are the small top drawers made to resemble four, as shown in the picture and two full length drawers below. These are as roomy, affording sufficient space for the needs of anyone. They are easy to slide in and out, and are fitted with round wood knobs.

AND NOW that you know the details of this superior piece of furniture, we want a word about its price. We consider it one of the greatest offerings that we have ever made. In fact, we want you to shop around and see if you can find anything like it at our exceptionally low figure. Then you will really appreciate what a wonderful value it is, and we know you will send in your order. Shipping weight about 156 pounds.

Quarter-Sawn Oak Dresser With Serpentine Front And Very Attractive French Bevel Plate Mirror, 42x21-Inch Top

THE GREAT DIFFERENCE between homes is not confined to the exterior, or outward appearance, by any means. The secret of saving a great many houses that appear to be almost identical from the outside seems to reside after stepping inside that you will marvel at the distinction. What makes this difference, we ask? Is it the amount of money spent on the furnishing? Not always. Because we have seen many homes finished by Hartman's with really very handsome equipment that surpass others which cost twice have been expended. The taste of the individual coupled with the home from which you buy, very largely determines the attractiveness of your home. Furthermore, when you buy from us you are taking no chances. You can place the goods in your home and if they don't measure up to your opinion of what they should be, ship them back and we pay all expenses.

ON THE OTHER HAND if the goods you buy please you, you can always make your payments a little at a time as explained in detail on Page 1 of this bargain book. Order this dresser and let us offer to the fact. It is substantial in every sense of the word. Quarter-sawn oak is used on the entire front, base top and mirror frame and standards, the sides being quarter-sawn solid oak. Pseudostyle shaped front is carried out on the drawers and top with the mirror frame designed to correspond. The finish is a high gloss golden oak, which harmonizes as well with the usual surroundings. There are two drawers and two full length drawers, all fitted with turned wooden knobs. The shape of the dresser enhances the appearance of this high-class piece of bedroom furniture.

THE ARTISTIC DESIGN is further improved by the French design of the dresser, corner posts and base top which is carried through. The mirror is a perfect model of grace and beauty. The top is rounded, measuring 42 inches wide and 21 inches deep. The French bevel mirror is because of a good size, being 22½ x 2 inch. When this dresser was executed, the designer and maker never expected our limited hopes in producing a model to sell at this price. In fact, it should be sold for more money. But both the manufacturer and customers have obtained a point to give you something better, something finer than usual. And it is with a sense of pride that we present this model to you at this figure, shipping weight, about 156 pounds.

Be Sure To State Finish Preferred

WE GUARANTEE IT if we sell it. That is the policy of this concern. It applies to every single article of furnishing that we offer to our enquired list of customers the country over. You see, if we do not feel that we can guarantee an article, we will not list it. On the other hand, if you find an item in any one of our books, it must be good enough to be endorsed and guaranteed by this institution. For this reason you are taking absolutely no chances in any way, no matter what you decide to buy from us.

TAKE YOUR CHOICE of substantial, durable hardwood, to which is applied a secret satin finish imitation Circassian walnut, which closely resembles genuine Circassian walnut and is difficult to detect the difference of mahogany finish or of genuine quarter-sawed front, top and sides. Solid walnut. Top of base measures 22.72 inches, height of base 26 inches. Side extension top drawer and two long small front drawers, all fitted with two drawer pulls. A top Colonial model. Mirror frame sets between two artistically designed standards in fine French beech plate measuring 22 x 22 inches. Gracefully curved colonial corners. Weight of dresser, 192 pounds.

THE CHIFFONIER to match this dresser can be ordered at prices quoted below. It is a very imposing piece of furniture that can be dressed up in imitation Circassian walnut, mahogany finish or made of genuine quarter-sawed and solid oak, golden edge to match the dresser. Top measures 22 x 22 inches and French beech plate measures 14 x 14 inches. There are two small extension top drawers and four full height drawers below with small spaces for use. Fitted with turned wood drawer pulls, lockers, back-plates. Shipping weight, about 190 pounds.

SUPERB CHIFFOROBE

- QUARTER-SAVED OAK OR "IMPERIAL" CIRCASSIAN WALNUT

A Remarkable Value

This article is one that will prove a source of real comfort in the home, as well as being an article of beauty. It contains a large, roomy wardrobe compartment, as in the smaller illustration below. This is fitted with four divided, top drawers, four drawers below and one large drawer across the bottom. The design is strictly Colonial and the posts and tops are extra heavy. It combines the latest feature of angle bracing, making the case absolutely solid and rigid. You can have your choice with plain panel carved door at the prices quoted below.

MADE of durable solid oak with genuine figured quarter-saved oak front, post fronts and top edges in your choice of tured or golden finish, or if you prefer, you can have the Circassian walnut finish, as illustrated. This is made of the finest substantial material with the natural figure accentuated and having a soft satin-finish. Looks like real Circassian wood. The drawers are full depth and easily sandpapered inside, fitted with round wooden drawer pulls. Note the graceful frame standards and the artistically curved Colonial corner of the shaped mirror frame and the heavy planked tops. The illustrations are given below.

DIMENSIONS. This chifforobe stands 68 inches high and the combined top measures 43.25 inches. The lower top is 20x32 inches and the upper one 20x24 inches. The top French beveled plate mirror is 12x16 inches and the full length door mirror of French beveled plate is 12x18 inches. It comes complete with casters. The shipping weight carefully crated is about 249 pounds.

A FINE CHIFFOROBE

- QUARTER-SAVED AND SOLID OAK

VERY SUBSTANTIAL

Three Pieces In One

This Chifforobe is expertly built in every particular, i.e., it is made of durable solid oak with genuine quarter-saved oak front. This gives it a very "classic" and rich appearance. Golden or Circassian finish. In buying this piece of furniture you are virtually getting a wardrobe, a desk and a chifforobe all in one, and at a much lower price than if they were bought singly.

DESK COMPARTMENT is fitted with pigeon holes and sliding top, folding lid. Above this compartment is a 16-inch French beveled plate mirror. The wardrobes are finished inside and fitted with sliding beveled plate mirrors having four coat and pants hangers. The construction of the fine chifforobe is what is known as the "framed-in" construction, which renders it very substantial and rigid.

MEASUREMENTS. The height of the chifforobe is 68 inches, having a total width of 48 inches. The desk lid is 41x24 inches wide and when opened out gives ample space for a writing desk. The trunks are of wood as illustrated. Note the artistically curved mirror frame and the beveled French beveled plate mirror is set, also the Colonial shaped feet. In this and every other article mentioned, included, shipping weight, about 200 lbs.

No. 4K664. Price $26.95

This Chifforobe Serves the Purpose of a Chiffonier, a Wardrobe and a Writing Desk. All in One Article. Order It on Approval.
Iron Crib In White Enamel or Vernis Martin Finish As Desired. At This Price

STRONGLY MADE Iron crib, in your choice of white enamel, or Vernis Martin (gold bronze) finish as you prefer. You also have the selection of two sizes at the prices mentioned. When ordering be sure to state finish desired and give correct number. This is a drop-side crib that is well worth the money. Comes complete with link fabric spring, insuring comfort to the baby.

MEASUREMENTS. The corner posts are 3/4-inch in diameter, filler and 1-inch top and bottom cross rods on either side measure 3/16-inch, whereas the top cross rods at the head and foot are each 3/4-inch in size. The height of the head and foot rails in the same, each being 21 inches from the floor. This is a practical crib at prices this are expressly reasonable. Shipping weight about 45 pounds.

Size 2 ft. 6 in. x 4 ft. 6 in. only. Made With 1 1/2 In. Square Pillars

Enameled Panel Steel Crib In Your Choice Of Two Sizes At The Prices Quoted Below

THE MOTHER who does not possess a crib of this type does not realize what a comfort she is depriv- ing herself and her child. It is a safeguard to your little ones not only during the night, but is also a protection to the child throughout the day. Because you can pick up the crib and place him in the crib while you are busy in some other part of the house, with a fencing that is as rigid as the safety sliding side that can be lowered or raised with ease, yet never to the detriment when raised, because the very young child can not operate it.

THE PANEL is decorated with kindergarten pictures beautifully colored. This crib has full continuous posts measuring 3/4 inch in thickness. The top and bottom rails at head and foot are 3/4 inch, the panel measures 4 inches wide and 1 1/2 inches thick. The sliding side has 11 spindles, each of which measures 3/4 inch. 3/16-inch top and bottom rails. Head and foot end 12 inches high. Beautified Vernis Martin (gold) bronze finish. Link fabric spring is furnished with this crib. Small size, 2 ft. 6 in. wide. Shipping weight, about 72 lbs. Larger size, 3 ft. wide and 5 ft. long. Shipping weight, about 84 lbs.

This Is A Full Sliding High Side. Latter Raises And Lowers On Strong Metal Nickleed Rods As Shown

This Side

Raisers And Lowers Is Full Sliding High Side Has Metal Nickleed Rods

3. 3K1862, 2 ft. 6 in. wide. Price $7.85

The
SANITARY SLAT FABRIC BED SPRING. The illustration to the right tells a story without words. It shows clearly and decisively the superior, durable construction of this exceptionally fine bed spring. It shows how the strong slat fabric is interwoven to produce the desired effect. The spring is firm yet resilient and will give no end of satisfactory service. The sanitary feature is of great importance. Being made of metal it will not harbor dirt, filth or vermin. There are 53 oil tempered helical springs which join the horizontal slats to the end rails as shown in the accompanying illustration. 61, 1/8 inch malleable corner rise, 11 inch straps and 1 1/2 inch tubular frame. An enlarged view of the corner casting is shown above. This spring is made by one of the best bed spring factories in the world. Each spring is carefully inspected before it is shipped, and passes the most rigid examination possible. Shipping weight, about 20 lbs. State whether springs wanted are for iron or for wood beds; also give width.

No. 3K1809. Price complete $5.85
Steel Spring With Double Arm Casting

The Highest Rise Spring Made. Has High Rise of 7 Inches

TUBULAR STEEL SIDES measure 1/2 inches in diameter. The exceptionally fine bed spring has heavy steel angle ends, firmly riveted to heavy double arm protected malleable steel corner castings throughout out by use of magnetizing glass. Through this construction the fabric is elevated 7 inches above the side rails of the bed, giving a box spring effect, and making it an exceedingly comfortable spring. The double arm steel fabric consists of turned steel malleable wire, well corded through body. Observe the heavy, strong edge rails on each side. To support the fabric, a series of 24 copper coils is used. These are interconnected and locked to six long wires running lengthwise and four running crosswise. The cross wires of the support extend to the side edge, and are firmly attached which reinforces the spring surface. The soft tempered helicals connecting the support on the end rails are used to relieve the strain upon the fabric, making it resilient and extremely restful. The finish is a bright gold chrome. Shipping Weight about 65 pounds. State whether wanted for iron or wood beds; also give width.

No. 3K1838. Price, only... $6.95

Crown Spiral Wire Steel Spring

THESE CROWN SPRINGS are dependable in every way and in every instance where springs are involved, we quote them at a price that will save you money. These spiral springs are made in the Crown factory and the inspectors are constantly supervising their manufacture. They are made of standard steel springs with the continuous winding spirals and are exceptionally smart.

They are fitted on both sides with our patent interlocking top. Of course we do not recommend this spring in preference to our more expensive one because it is not as desirable; but for the price it is a bed spring that will give full value for every cent of its cost. State whether springs wanted are for metal or wood beds; also give width. It is sure also to give the correct number to insure receiving the style that you prefer. The shipping weight is approximate 63 pounds.

No. 3K1860. Spiral Spring. Price... $2.45
No. 3K1861. With Woven Wire Top. Price... $3.15

20 Year Guaranteed Steel Bed Spring

YOUR CHOICE of this excellent steel bed spring is in the two styles which we quote below. It is guaranteed for a period of 20 years as indicated. All metal and springs work must be of a very high grade to stand back of a guarantee of this length. The grade of high carbon steel wire is used being oil hardened at 900 degrees Fahrenheit; 60 continuous wind, extra heavy spirals are attached to steel flat bottom. Angle steel side rails. Extra heavy 4-inch border wire is used and double crimp top construction. It is finished in oxidized copper, presenting a very attractive and pleasing appearance.

When ordering state whether springs wanted are for metal or wood beds; also give width. It is sure also to give the correct number to insure receiving the style that you prefer. The shipping weight is approximate 65 pounds.

No. 3K1862. Spiral Spring. Price... $6.75
No. 3K1863. With Woven Wire Top... $7.03

25 Year Guaranteed Steel Springs

ALL METAL AND SPRING WORK GUARANTEED 25 YEARS.

All Coils Are Joined By Helical Springs With Steel Center

THIS BED SPRING is one of the best constructed springs ever devised. It is made of the best grade of highly tempered carbon steel wire. It contains the highest single case grade and heavy 6-inch border wire. The heavy angle steel side rails make it exceedingly strong and substantial. All of the coils are pinned to another at the top by several helical springs with a steel cap as shown in the smaller illustration at the right. An extra brace gives it extra additional strength, and acts as a restraining device which makes it "come out" in its original shape. All metal and spring work guaranteed 25 years. Black japanned finish, shipping weight about 70 pounds.

State whether springs are wanted for iron or wood beds; also give width.

No. 3K1864. Price, only... $8.98
**GUARANTEED BED SPRINGS**

We Have The Exclusive Sale Of These Nationally Advertised Products Among The Credit Mail Order Houses Of America.

**THE WIT-EDGE** is a feature found on No. 3K1840 and 3K1841 springs illustrated and described on this page. This is one of the very desirable factors of the Englander products and is a point of advantage that deserves especial mention. The small picture to the left shows a mattress placed upon a spring having the famous WIT-EDGE. Look this over carefully and observe how this edge holds the mattress in place.

All Springs Come in Following Sizes: 3 ft., 3 ft. 6 in., 4 ft., 4 ft. 6 in. State Size Wanted and Whether for Metal or Wooden Beds.

**ENGLANDER WIT-EDGE SPRING**

**THE ADVANTAGES** of the WIT-EDGE are explained in the paragraphs at the top of this page. This feature is possessed by the spring illustrated at the right. With these patented upright extensions on either side the mattress not only will not spread or shift from side to side, but furthermore add a reinforcement to the springs, giving added strength and comfort. It is a bed spring guaranteed by us and backed up in every way by the Englander factories.

**YOUR CHOICE** of all sizes for beds. When ordering state size that you desire. The Englander WIT-EDGE spring is reinforced by your firm steel. The tempered steel blocks are connected to the fabric by 3K1840. These come in natural sizes. Each side of the spring is 3K1841. Will keep the edge straight and firm as in a very desirable point. Other features of importance are covered in the following paragraph.

**KANE KORE KABLE EDGE**

A FEATURE of this spring is the KANE KORE KABLE EDGE. This is a core of round cane, light, in very strong, which is introduced into the edges of the spring shown to the left. This core core reinforces the springs in the points of contact to the fabrics the edges of the spring; the core of the fabrics and the edges of the springs. This spring comes in all sizes and is made for metal or wooden beds. State size and your choice for metal or wooden beds.

**SIDE RAILS** are heavy tubing. 11/16-inch diameter. There are fastened to the iron center blocks which elevate the fabric 5 inches above the floor. These blocks are connected to the angle and edge by 6K helical springs. The angle and edge are very substantial, being constructed of 2K16 5/16-inch strips of steel bands through the center and on each side. These bands each measure 6 inches wide. This spring comes in all sizes and is made for metal or wooden beds. State size and your choice for metal or wooden beds.

**ENGLANDER WIT-EDGE SPRING**

**READ OVER** the details of the WIT-EDGE explained at the top of this page for a full and complete understanding of one of the important advantages of this spring. It provides the comfort, resilience and neat appearance of a fine house with none of its inventory features. These patented upright side guards offer complete protection to strain and wear which the edges of ordinary springs cannot resist. It is guaranteed by the Englander factories as well as by ourselves—a double guarantee of satisfaction.

**ORDER IT** in your choice of all sizes for metal or wooden beds.

When ordering please state the size that you prefer. The fabric is double woven, reinforced by 2K16 5/16-inch strips of steel bands and is attached to 2K16 5/16-inch helical springs by 6K tempered steel bands. 11/16-inch tubing side rails are fastened to the metal by 6K1840 corner blocks which elevate the fabric 5 inches above the floor. It is a spring that will not go down easily, and order it on easy credit. Shipping weight about 78 pounds. No. 3K1842. Price...

...$8.85
FAMOUS THE WORLD OVER

Select The Englander Couch Bed at This Price. One Of The Largest Selling Couch Beds on The Market

**This Couch Bed** can be used as a 10-cushion bed or as a single, covered couch. It appears as a regular bed (Fig. 2) and will add to the comfort of any room. Its motion is all that is needed to transform the couch into a luxurious bed (Fig. 3). (Couch cover illustrated is not included.)

**This is Carefully Constructed** of thoroughly reliable materials and the workmanship is of the highest grade. It is sanitary, noiseless in operation, and is a product of a factory which enjoys world-wide recognition for the manufacture of beds of the highest standard. The Englander illustration in the left (Fig. 5) shows how a single motor can easily transform this model from couch to bed or bed to couch. If you have ever had a guest spend the night and were at a loss to know where to accommodate him, without a spare room, you will appreciate the value of a model like this. It is a safety device you are protected against the worry incident to an unexpected guest, but allows it comfortably for use throughout the day. Warranted by us and backed by the Englander guarantee.

**QUARTERED OAK**

Used On The Front Of his Combination Bookcase And Writing Desk

**MISSION DESIGN**

**E A R L Y A L L**  of us, at some time or other, are overtaken with sickness. Nor does it always come at a time when we are in the best position to pay the doctor’s or druggist’s bill. Our easy payment, long time credit plan is a Godsend to the unlucky that finds itself facing such a condition. It is like a health insurance policy in that it enables you to use your money for other purposes when the necessity arises. And that is one of the many good reasons why you should buy from us in preference to purchasing your school goods for cash.

**SELECT THIS ARTICLE**  If you wish a combination bookcase and writing desk of superior design, rich construction, excellent materials and superb workmanship. Genuine quartered oak is used on the front, the balance being of seasoned kiln-dried solid oak. You can have your choice of fumed oak or flashed or glossed golden finish. In ordering please state which finish you desire us to send. This design is typically Mission, with lattice-ill over the glass in the doors and t(@ty decorations on the desk fall correspond. Both the upper and lower sections are furnished with pigeon compartments, the upper one having shelf, as illustrated.

**THE DESK**  is complete with pigeon holes, as illustrated. There is space at the sides for books. Below the desk compartment is an easy sliding, full length drawer. Wood knobs on drawer and compartment doors. The latter are equipped with reliable spring latches. The dimensions throughout are designed to be of sufficient size to comfortably care for the requirements of the average home. The height is 62 inches, the width 30 inches and the depth 16 inches. It takes no chances in ordering this combination bookcase and writing desk on our approval plan. If it does not please you, we do not ask you to keep it. Shipping weight, about 150 pounds.

No. 5K946
A Mission Style Bookcase
In Neat Sectional Design

THE STYLE of this piece of library furniture is that of a sectional bookcase. It looks like a bookcase of that type, but is not built in sections, being constructed in one unit. Although you can not add to it, as in the case of the sectional type, it is built large enough and roomy enough to amply provide for the demands of the average family. Genuine Quarter-sawed Oak is used on the entire front, presenting a rich and pleasing appearance. You can have your choice of golden or fumed finish, as you prefer. When ordering specify the finish you desire.

THE CLIDES with which this bookcase is fitted protect the rugs and carpets as well as the hardwood floor.

The case stands 58 inches high from the floor, measure 221/2 inches wide and 141/2 inches deep. It is made with 4 doors and as many shelves, the latter being constructed of 3 ply veneer. The back panel, likewise, is made of 3 ply veneer to reduce the chances of warping and splitting. The doors are fitted with wood knobs. Three top sections are 113/4 inches high inside; bottom section measuring 15 inches in height, inside. All are 291/2 inches wide (inside measurement). This is a typical mission pattern at a price that is within the reach of all. Shipping weight about 15 pounds.

No. 5K1027. Price $14.95

Combination Bookcase And Convenient Writing Desk

Genuine Quarter-Sawed Oak

Quarter-Sawed And Solid Oak Combination Bookcase And Writing Desk

SOLID QUARTERED OAK is used in the glass door frame; the desk lid is made of three-ply veneer, showing the handsome quartered oak side when the desk is closed, and rich solid oak to correspond with the inside, when the desk is opened ready for use. The balance of this substantial and useful piece of furniture is made of thoroughly seasoned kiln-dried solid oak, golden color. The desk is fitted with 5 pigeon holes and small drawer. There is one roomy drawer beneath this writing desk and a spacious cupboard below the drawer. Notice the elegant design appearing on the desk lid and cupboard, the tautly rowed above the mirror and bookcase compartment and the neat carvings surrounding the top. Drawer is fitted with round wooden drawer pulls. The bookcase compartment contains 4 adjustable shelves. Heavy solid feet at front enhance its beauty.

MEASUREMENTS The height of this combination bookcase and writing desk is 48 inches, the width being 34 inches. The French bevel plate mirror with rounded corners at top measures 11x10 inches. The working surface of the desk is 24x17 1/2 inches. The size of the crystal glass in the bookcase compartment is 12x14 inches, inside measure overall of the bookcase compartment being 16x17 inches. The width of the colonial legs is full 2 inches. It comes complete with locks, key and casters. Shipping weight about 160 pounds.

No. 5K1016. Price $12.45

Combination Bookcase And Writing Desk Of Quartered And Solid Oak

This combination affords the purchaser the use of two articles of furniture combined into one handy bookcase as well as a convenient writing desk. The glass frame is made of quartered oak, the desk half face of veneered quartered oak. The top back is constructed of solid oak and the unders of solid oak veneer. It is a very substantially made piece furniture and comes in your choice of golden or finished oak. In ordering please state which finish you desire to have on send. We get your attention to the massive proportions possessed by this piece and the attractive embellishments on the desk lid as well as the mirror. The bookcase compartment is fitted with four drawers constructed of three-ply veneer. The back panel is like that of three-ply veneer lumber.

DECK SECTION is made with the usual interior construction, possessing nine pigeon holes and one small drawer, which is a great convenience. Above the desk is a 12x11-inch French bevel plate mirror and below the desk section are three easy sliding drawers fitted with round wooden knobs. Brass plated hardware. Measurements are as follows: Depth fall, 34 1/2x34 1/2 inches; extreme height, 66 inches; extreme width, 33 inches; extreme depth, 11 inches inside height, 47 inches inside depth, 13 1/2 inches. The size of the glass in the door is 41x14 inches. Space above the desk and bookcase sections form handy shelves. Shipping weight carefully packed is approx. 150 pounds.

No. 5K1017. Price $14.35

Neat Carvings A Stylish Design
QUARTERED OAK

Is Used On Front Of This Mission Bookcase and Desk. Also Comes In Mahogany Finish

THIS COMBINATION is a practical one for every family. Contains commodious bookcase compartments, as you can see by a glance at the illustration of this neat piece of furniture. It is of true mission design with scroll-shaped front feet. Genuine quarter-sawn oak is used in the front of this bookcase, the edges being of durable seasoned solid oak. You can have your choice of golden or fumed finish, or if you prefer you can order this combination bookcase and writing desk in mahogany finish. Both the birch and golden oak are ready with two heavy coats of glossy finish. When ordering please tell us whether you desire this model in mahogany finish, or in oak. If desired in oak, state whether you prefer the golden or fumed finish, as this will simplify the filling of your order.

THE DESK compartment is complete in its construction. It is equipped with pigeon holes containing several divisions and racks. Observe the neat "clam-shell" desk lid, as shown in the picture. The bookcase section has four adjustable shelves and the drawer is fitted with wooden knobs. A highly polished is provided below the drawer for storing stationery, letter box and the like. The height is 42 inches and the width is 59 inches. Clear, crystal glass is used in the top of the bookcase door, which measures 11 x 18 inches, the same being true of the glass used in the compartment over the desk section, this likewise measuring 11 x 18 inches. The depth of the ends of this combination bookcase and writing desk is 13 inches.

THIS CASE comes complete with locks and key, as well as casters. (The locks shown in the illustration are not included.) We recommend this excellent mission design piece of library furniture as being one of the best values that we have ever had the pleasure of offering to our customers. The illustration is taken from an actual photograph of the case itself and shows the neat and attractive lines of this style. Shipping weight, about 11 pounds.

QUARTER-SAWED OAK

And Solid Oak Combination Bookcase And Writing Desk In Rich Colonial Design

YOU BELIEVE in some people, yet you distrust others; you have confidence in some stores, yet you are skeptical about others; you ignore catalogs, yet others interest you and hold your attention. What is it? Because we have learned the basis of discrimination. You know right well that the concern of your favor to others, the house that will do all that human power can do to satisfy you. That is why we never offer our customer, and continue to add to our ever-increasing number. We guarantee satisfaction, and live up to the terms of our guarantee every day throughout the year. In looking over the decoration, illustration of this superior combination bookcase and writing desk, bear the above in mind, and also remember that if, after receiving it, it does not please you to the smallest detail, you are not obligated in any way to keep it.

THIS COMBINATION bookcase and writing desk is of beautiful Colonial design, with straight door glass in the bookcase compartment and with three stained drawers beneath the writing desk. The lumber used is in substantial solid oak, with the exception of the glass door frame, which is genuine quarter sawed oak. Desk full has quarter sawed oak veneer front. The pilasters at each side and at the sides and top are also of substantial solid oak. It is cut out as to give the appearance of the front of genuine quarter sawed oak. The inside of the desk compartment is fitted with pigeon boxes and inside desk construction. Particularly observe the handsome mission design on lid, and above the bookcase compartments, both of which harmonize perfectly. The easy sliding, roomy stationery drawers are fitted with round wood drawer pulls. They are set off on each side with heavy end pieces as shown.

DIMENSIONS. The case stands 29 in. high and measures 51 in. in width. The really decorative portion of the front is 26 inches, the dimensions being 11 x 9 inches. From these sizes you can see this is a piece of furniture of very substantial proportions. Such an article in the house encourages reading for happy writing desk and convenient place to keep papers of importance. It can be used for secrets, locks and keys. The locks and keys are not included at the price we quote. You will be sure to be well pleased if you send us your order without delay.

HARTMAN'S

FOR CREDIT TERMS SEE PAGE 1 OF THIS CATALOGUE
HARTMAN'S "JEWEL" IMPROVED SECTIONAL BOOK CASES

This page shows another view of the great value we give and are in the form of very finely built "Jewel" sectional bookcases. No argument from us as to convince you of the merits of the expansion bookcase. You will quickly see that it is the most practical bookcase that could be placed in the modern home. The jewel is both permanent and expansive—a bookcase that is always complete, yet permits growth by the addition, at any time, of sections that match perfectly and which we always carry in stock. This bookcase, consisting of one or more sections with top and base, makes a complete library case, fine enough for any home.

When you wish to increase it you can easily do so. If you have books of large or small size, you can order sections that will suit the size of your books and fit perfectly.

Desk Section. You can use a desk section with a desk, and if you have a complete library case and desk combined, this desk is fitted with writing lid, pigeon holes and pen tray. You can build up these "sections" in any combination you desire, can have more frames than others which you may place upon the latter ones and ornament. Our Jewel sectional bookcase is carefully built, the cabinet work being done by trained workmen. It is made of selected material with oak finished Early English, finish to match, and polished mahogany, which is wanted.

To begin a complete set of jewel units you should start with the sections. Each unit is illustrated. Each section, top or base, and base or a section of any required size, can be ordered at a time of your choosing.

This picture shows top, center and bottom "Jewel" units.

A Very Exceptional Offer

Choice of Oak or Mahogany Birch

Extra Quality "Jewel" Sectional Bookcase

Every Family who desires to begin building a modern home should begin by providing a sectional bookcase. The Jewel is one of the best constructed sectional library cases on the market and at the prices we quote you can save the purchaser several dollars. The sections can be arranged with a few books in each, or to suit, with three or four section bookcases, adding to the collection as they are needed and it is possible to do so. In this manner you can have a large library and a handsome set of bookcases.

Oak or Mahogany

The extra quality Jewel sectional bookcases are constructed in the best possible manner, the case, drawer, and all parts being of solid oak. The finish is polished golden or in mahogany-colored, beautifully polished. The fitness, height, and sliding doors of bookcases are finished and treated with brass locks; top is bevelled, rounded, and plated brass. Sections fit together absolutely perfect. As a result, sections can be added one by one to the others, to keep them exactly alike.

Desk Section

The desk section shown in the illustration is like a top section, continuously arranged with desk with book drop lid from which a drop is cut. The desk is arranged with pigeon holes, book bins for and stationary sets. Desk lid is supported with a strong steel frame fit with both top and lid. To any one desiring large expansion of the bookcase, a considered library case.

THREE BIG VALUES IN MISSION LIBRARY TABLES

Elegantly Designed Solid

Oak Library Table

For Less Than the Usual Price

IF YOU WANT an inexpensive library table that will surely give you, this is the table for you. Never before have we been able to offer such a good, substantial table in a strictly Mission style at such an extremely low price. You will have immediately upon looking at it the quality that you expect for a table at an lower price, and you will greatly appreciate the bargain when you get it in your home. We know what a rare bargain this table really is at this low figure and you will find it so, too.

DETAILS. The top measures 42x28 inches and is securely fastened and mortised to the box frame. There is a built-in square shelf below. There is a very convenient feature and the finish at each end are most attractive, as may be seen in the illustration. All in all, it is a beautiful, solid table, which also has a more handsome table in this particular style, at any price. The corner of this table will appeal to all admirers of Mission furniture, and at one price it is a most desired bargain. You will be proud to have this table made to your own size, and the finish of the stone to give that in a short time you wonder how you ever got along without it.

BOOK SHELVES at the sides

This provides an excellent place for magazines, books and periodicals, while the shelves can be installed for many articles. It is practically a library table and book shelf combined—two pieces of furniture in one. A combination of practical and useful, which is the whole purpose. As a writing desk it provides extra convenience.

Genuine Quartered Oak Table With Writing Desk

THIS TABLE is an outstanding design and one of the finest Mission style, combination library tables offered at this very low price. Nearly its finished lines and rich Mission design as shown in the illustration. The legs are finished in Mission style with square and oak, and it is exactly fitted to the article in size and color post, which is one of solid oak. As a writing desk it provides every necessary purpose.

DESCRIPTION. It can be ordered finished in either Golden or Fumed Oak. It is extra well constructed and finished throughout. The top of the table measures 18 inches long by 28 inches wide. The solid wood book shelf under the table can be of generous size and can be placed as to prevent the book from being spilled. By raising the desk lid you have access to a large open desk. Wooden drawer pulls of square design, harmonizing with the general style of the table, are carried in a single price, about 12% round.

Has Extra Large Quartered Oak Top, Measuring 48x28 Inches.

Finished in Golden or Fumed Oak

$12.45

OUR PRICE is very low when you consider the construction. Strongly put together and well made on your order. Your home is not complete if you do not own one of these fine tables to furnish, your credit is good here, always.

CONSTRUCTED in as fine a manner as this table is made, it is constructed with the utmost care to prevent any happening. We believe it to be a very good bargain, and that it will give you many years of service.

Solid Oak Library Table With Quartered Oak Top

LOOK AT THE DESIGN of this table and see if it is not the most convenient of any you have seen. We cannot help but think that it will be with book shelves, large top and spacious drawer. This is a well above table offered at the comparatively low price with a year to pass, either with its size, its massiveness, quality of lumber and well designed, it is just a bargain. You will notice by sight at the illustration that the Mission idea has been perfectly carried out and that it is a table unusually old in design. If you have furniture to build, the Mission lines you cannot select a better model than this very table.

IT IS MADE of solid oak, quarters oak top, in a style that is both extremely popular and a model that will be an ornament to any library.

- A Splendid Value For You

**FOR 6 FT. SIZE**

#### HIS PICTURE was made from a photograph taken from the ar-|e itself. It is an extension table that is not only elaborate yet possessing sufficient grace to the particular housekeeper. It is made of thoroughly seasoned lumber to which was applied a finish in imitation of quartered | oak that looks very much like the real one; golden color. The size of the top is 45x45 inches and the nearly rounded shape box measures 4 inches deep.

#### LL CORNERS are carefully mitered. The slides used in the top are made of seasoned hard maple and are warmed as to service. The legs are made of maple wood and are of a good size, measuring 5 inches in diameter. The simple rounded miters are set off at the bottom with a rim as shown in the illustration. When ordering be sure to state whether you want this table to | extend to 6, 8, 9 or 10 feet. Shipping weight 120 pounds.

Note The Low Prices 42-INCH TOP A Fine Value

Let Hartman Feather Your Nest

THE LOW PRICES make this table one of the most remarkable values ever offered by any institution. We placed a contract with the manufacturer for a large quantity of this particular design, and we obtained them at prices that enable us to offer them to you at these tempting figures. Select the size that you require and order it sent upon approval. It will go forward without delay.

HEAVILY BUILT thorough a h- out of well seasoned hardwood, to which we applied a finish in imitation of the genuine quarter-sawn oak. It is offered, not as a remarkably high price, but as a fine value. The pedestal is non-removable. The wood used in constructing the top and base is joined by the mortising machine, which lessens splitting and warping.

6 OR 8-FOOT LENGTHS

Made Of Solid Oak 42-INCH TOP Golden Oak Finish

America's Easiest Credit Terms -

THE DESIGN of this dining table is not overly elaborate, but is sure to appeal to the taste of those who prefer the simple patterns in dining room furniture. The severe, straight lines of the pedesta are enhanced by a neat molding, shown in the illustration, and are set off to advantage by the very attractive Colonial, scroll design legs. For full particulars concerning this model read the following paragraphs.

THIS TABLE is made of solid oak throughout, in a rich golden oak finish. The top measures 42 inches in diameter, and can be ordered to extend to either 6 or 8-foot lengths, as desired, at the prices which we quote under the illustration. In ordering, be certain to specify which you prefer, so as to insure your receiving the correct size.

Headquarters For Household Furnishings

THE TOP measures 42 inches in diameter, a deep box rim, is fitted with elegant sides and extra extension leaves. It is well made and is not only simply because of its artistic appearance. In this extension table you secure a serviceable article made in a splendid Colonial furniture factory by skilled workmen who thoroughly understand and practice the art of table-making.

WE GIVE YOU the use of your table in your own home, passing judgment on it after you have cared to inspect it with your friends and neighbors. If, after inspection, you are not satisfied with your purchase, you can return it and receive your money back, according to approval, or if your guarantee or satisfaction is your position. Shipping at about 25-

Fitted With It's a fine thing to have a smooth running extension, which prevent "sticking" common among modern fitted dining tables. It is with straight rim, which measures 2-1/2 inches in size; pedestal is 7 inches square, which is not a size that support the 42-inch top, gracefully shaped scroll design legs measure 10 inches and are made from 8-ply built stock.

THE LEGS extend about 1 inch from pedestal. This dining table is fitted with 4 casters as shown, workmanship of this table is of a grade that would expect in fine furniture, but we ask. We recommend it to you as typical of the Hartman line, and the shipping weight, etc.

Take A Whole Year To Pay

CREDIT TERMS

THE DESIGN of this dining table is not overly elaborate, but is sure to appeal to the taste of those who prefer the simple patterns in dining room furniture. The severe, straight lines of the pedestal are enhanced by a neat molding, shown in the illustration, and are set off to advantage by the very attractive Colonial, scroll design legs. For full particulars concerning this model read the following paragraphs.

THIS TABLE is made of solid oak throughout, in a rich golden oak finish. The top measures 42 inches in diameter, and can be ordered to extend to either 6 or 8-foot lengths, as desired, at the prices which we quote under the illustration. In ordering, be certain to specify which you prefer, so as to insure your receiving the correct size.

**DINING TABLE** is an article of furniture that should be purchased with care. It is used for meals each day, and, therefore, must be a strong, durable piece. That point is one which has been taken into consideration in the manufacture of the tables we offer here. It is very rigid and made to withstand hard and constant usage. You need a strong table to order this one.

**URGE** you to read every word of description concerning the table. Then use these tables to good for it upon arrival. If you are not satisfied in any way, do not return it. We will refund every penny of the transaction has been spent. If you want to make your payment, send your credit terms as shown on page one of this money-saving catalogue.

### SOLID OAK

This dining table is made of substantial solid oak, thoroughly seasoned and kiln-dried to a high gloss finish. It is heavy and substantial and is designed with smooth running extension slides, permitting the table to be extended to 8, 8 or 10 feet long as purchased. The illustration was made from an actual photograph of the table itself and shows how effective it really is.

**DEEP DESIGN** is designed to enhance the surroundings of any room in the home. The pedestal is beautifully shaped, is large and substantial and is fitted with curved legs ending in a splendid golden color. It adds to this handsome, serviceable, and useful article of furnishing room furniture. It is a real bargain for the money.

**Order This Table**

**THE DRUM** is shapely and massive as well, measuring 5 inches in diameter. It is of standard size, 2½ inches in thickness. The table is fitted with Hartman-built easy running slides, which prevent it from slipping or moving. A medium-priced dining table in fact, this table is far superior in many ways to those usually found at these prices.

**WHEN YOU BUY** receive the benefit of many years' experience in merchandising hard stock and low prices and liberal terms. Secure this three-month advantage and reflect this saving in your room furniture. Order it today, at a price of $13.95. Shipping is free. Carefully packed, 114 lbs.

**America's Easiest Credit Terms**

**VALUE GIVING** means substantial business-building. For many years we have devoted ourselves to the study of household furnishings and have given the matter of value our earnest consideration. The result has been the building of a business that towers above any other similar merchandising concern in America. Order this handsome table sent to you on approval.

**This Table** is a sample of Hartman's values: it is very artistic and at the same time it has the large and construction of much more costly ones. All parts are joined in a careful workmanship manner. The wood is seasoned, kiln dried, genuine solid oak, and other rough or fumed finish.

**Our Buying Power Saves You Money**

**THE PEDESTAL** measures 4½ inches wide; is neatly finished with a gold collar, 1½ inches wide, and on a platform, shapely designed, made of heavy 2-ply oak. It measures about 2 inches thick. Diagonal measurement from platform height, extreme width being 2½ inches. Colonial scroll feet and portico platform are inches thick.

**THE TOP** measures 4½ inches wide and can be extended to 8 or 10 feet as desired. Prices of these sizes shown under the illustrations. Please mention the size you require. Fitted with patented easy running slides. Attractively shaped to harmonize with other rooms. Absolutely free from knots, splits, checks, all essential features of practical merchandising.

UNIQUE DESIGN IN A SOLID OAK DINING TABLE

Take Your Choice of 6 or 8 Foot Lengths and of Fumed or Golden.

THE STYLE of this dining room table is very unique, and attractive as well. It is a Mission type, with Williams and Mary design pillars standing out to rest within the seven square inches of the drum. This illustration shows this style to great advantage and will give you a clear idea of its very happy design. And yet the picture, at first, does not do justice to the table itself. To thoroughly appreciate the value that we offer in this model, you must see it in person, as that you can examine it in your home. Thoroughly seasoned, kiln dried solid oak is used throughout in your choice of golden or fumed finish. Please write us which finish you desire us to supply to you.

THE PEDESTAL is square in shape and immense in appearance. Each face measures 9 inches across. The feet are very strong, the maple extending 10 inches from the finish. At the large end, where they are attached to the drum they are made thicker and are 10 inches in length. The pedestal is 14 inches high.

THE PEDESTAL

ALL MEN ARE EQUAL before the law. Likewise all men are entitled to the same respect as the one who earns very little per day for his efforts. But some men are content to earn very little, while others are content to save very little. The latter are the men whom we respect and trust, and who are a credit to the community. They are the men whom we respect and trust, and who are a credit to the community.

In This World you will find two distinct classes of people: those who think and those who do not think. Money doubtless greatly increase the number of thinkers; but in the end it is the result of thought. On the other hand many persons have taken into legacies and fortunes, who are rich, but do not fully appreciate the use of money because they do not know how to think. Others are poor, but think, things but rich in thought. These are the people who have the insight into life and reality which. Such persons are their own study and labour who despise the fame, because they feel that is a value. They are the people who buy from us on credit because they realize that for no doing they are making their money fulfill its greatest purpose, and at the same time are enriching their homes and their surroundings.

GET THIS SOLID OAK SIDEBOARD AT ONCE

HAS FRENCH BEVEL PLATE MIRROR, HEAVY CLAW FEET AND DRAWER LINED FOR SILVERWARE

WHEN WE STATE with all the emphasis of our vast organization that this is the greatest sideboard bargain that we have ever offered, we mean exactly what we say. It has all of the important advantages of the high priced ones sold by others, and possesses all the beauty, substantial construction and satisfaction giving qualities that you have a right to demand in the furniture for your home.

HOW IT IS MADE. This massive sideboard is honestly made at every point in its construction. The wood is thoroughly seasoned, kiln dried, solid white oak. The graceful serpentine drawer fronts, the heads on the supports and the ornaments on the extreme back top are thoroughly seasoned, quarter sawed oak. It stands 39 inches high, 12 inches wide and 21 inches deep. The attractive French bevel mirror measures 24 x 14 inches. The end panels are three-ply rotary cut oak, displaying a fine large fancy grain.

You Can't Afford to Miss This Great Value

OTHER FEATURES. The upper drawer is carefully lined for silverware. This is a feature well worth considering. All drawers are large and roomy. The heavy claw feet not only add to its strength, but will enhance the beauty of your dining room equipment. Sideboard finished in a rich golden color, is easily set off with wood knobs and strong hardwood casters. Drawers fitted with strong locks and key. There is a handy shelf at top and a smaller shelf on each side supported by the standards. Below the two drawers at the top is a full width linen drawer and a large cupboard with two doors, each ornamented with carved designs.

EXAMINE THE PICTURE. The illustration shown on this page will give you a better conception of the excellence of this magnificent sideboard than any amount of lengthy description. Examine the picture. Then send us your order. Place the sideboard in your dining room, examine it carefully, use it as you approve, and if for any reason it fails to meet with your entire satisfaction, ship it back at our expense, and we will refund every cent that it has cost you. Can you ask for any fairer proposition than that? If you decide to keep it, you can pay for it in small installments as outlined in detail on page one. Shipping weight about 110 pounds.

Handsome New Substantial Sideboard
Made Of Seasoned and Kiln Dried Oak
Attractive Serpentine Top Drawers
Observe the Very Striking Carvings

BUSINESS METHODS have changed materially in the last sixty years. When we first opened our doors we found our competitors all operating practically from door to door. They all figured that the only way to achieve success was to preço it as much as an art and they thought a reatment would give. Our policy was different. We estimated that by treating in large quantities we could buy for less and thereby sell for less. We found that this theory was correct, because our sales exceeded our fonished hopes. Realizing that this was the proper policy to pursue we have been operating along these lines ever since. The more we sell the more we can buy, the cheaper our prices—and as our business increases the greatness of our values naturally improves in proportion. You don't have to look far to become convinced of the truth of our assertion. For this fine new design carved oak sideboard is an excellent example of substantial value.

LOOK AT THE PICTURE. That is sufficient to convince you of the value of this fine piece of dining-room furniture. It is made throughout of thoroughly seasoned and kiln dried solid oak in the handsome golden color. The beautiful serpentine top drawers are made of quarter sawed oak, and are lined for silverware. This sideboard has three-ply single end panels and is trimmed with wood knobs and hand made casters as shown in the illustration. Particularly note the strong bold carvings at the top, on the panels of the doors below and on the front posts. There is a large full length lower drawer below the two top drawers. Above the latter is a heavy top measuring 42x21 inches. On this top are two attractive standards which support the side brackets on either side of the mirror. The French beveled plate mirror is of attractive outline and measures 24x14 in. Observe that the massive rollers on the standards correspond with those on front posts.

SEND US YOUR ORDER. It seems almost impossible to believe that you can have this elegant sideboard in your own parlor, in this short time. It will do to you a pleasure to order and you will be the better for it.

If it does not come up to your expectations, or if you are not pleased with it in every way, drop it back at our expense and we will return every penny it has cost you. If you care to keep it, make your payment according to our liberal terms as shown on Page one of this bargain book. Shipping weight about 100 pounds.

Beautiful Golden Oak Finished Sideboard

Observe the Deep Cut Hand Carvings

AND YOUR ORDER FOR THIS SIDEBOARD
Assess Base Measures 42x21 Inches
2 Quarter-Sawed Oak Top Drawers
Elegantly Enhanced By Rich Carvings

AT THE LIE. All honest men and women in America should do all in their power to "swat the fly" of the repulsive dealer, mail order house and merchant in every kind of trade. He does not deserve the patronage of those whose hard earned cash he tries to obtain through false representation. For 66 years we have been building up our business upon honesty and fair dealing. Our methods have earned the support of countless men and women in every section of this country because they have reason to believe that the house of HARTMAN is built upon a solid foundation of truth and reliability.

Every statement that we make concerning this artistic sideboard can be depended upon in every way. A sideboard made of thoroughly seasoned and kiln dried oak, the serpentine top drawers are constructed of thoroughly seasoned the quarter sawed oak. One of these drawers is lined for silverware. The heavy wooden, double top is 42x21 inches. Below the heavy top drawers are two roomy cupboards and a large linen drawer below. The side panels are made of 3-ply rotary cut lumber. This sideboard has a heavy, 3-ply back. The attractive French beveled plate mirror is 24x14 inches.

HAND CARVINGS. Deeply cut, embellish the exterior top and base as well as the design on the sides of the mirror. The handy shelf above this mirror is full length. Being finished in a rich golden color, this sideboard is very pleasing to the eye. It is trimmed with wooden knobs and hardwood casters. The front legs are of claw foot pattern, to harmonize with the elaborate carvings. See page 1 for terms. Shipping weight is about 260 pounds.

TWO EXTRAORDINARY BUFFET BARGAINS

ARTISTIC COLONIAL BUFFET IN AMERICAN QUARTERED OAK FINISH, HAS 21 x 42 INCH PLANKED TOP AND LARGE MIRROR

THE HOME is the anchor of a man’s life. If you want to stop a ship, you drop the anchor. A man wants refuge from the temptations of the outer world in the home which he regards as his own. It stands to reason, therefore, that the house should be a place of rest and comfort. Enhance the appearance of your household with the right kind of furnishings and your home will be a "haven" for yourself and family. A buffet such as this is one way in which one will help to equip the home as it should be. Beeindr by it not only gives you an article of merit from the standpoint of value, but is a remarkably attractive piece of furniture.

THE MATERIAL is substantial and the craftsmanship excellent. Strong hardwood is used in building this buffet, to which is applied a finish in imitation of hand-carved quarter-sawed oak. This finish looks like the real quarter-sawed oak and will give good service. The design is a true Colonial model as shown in the picture on the left. The curved pilasters supporting the top are of the same material as the other pieces of furniture designed to correspond with the artistic corner posts. There are two top drawers under the heavy planked base top, one in the side for silver, and one center drawer, cupboard on either side, also a full length linen drawer below. Round wood drawer pulls. Comes complete with casters. Below give the dimensions of this number.

MEASUREMENTS: The top of this attractive buffet is 21 x 42 inches; having a very suitable square size for average family use. The French beveled plate mirror is 10 x 28 inches and the height over all is 56 inches. The posts measure 1% inches wide. Order this excellent piece of dining room furniture on approval. It is a real bargain. Shipment about 2 weeks.

No. 4K923. Price $14.85

AN ELEGANT WELL MADE COLONIAL BUFFET WITH RICH AMERICAN QUARTERED OAK FINISH HEAVY PLANKED TOP

WE BELIEVE that the working people of this country deserve every consideration possible to make them happy in this move, too. We practice what we preach. Our great mass of employees are all well paid and well cared for. Their comforts consist of rest rooms, house-rooms, dining rooms, and every feature that could be desired to add to their convenience. Those working for others we want to serve, likewise, but we serve them in a different way. We fulfill their household requirements and give them a year or two which to pay their bills. No further than that, we search the world’s markets for the best values that can be procured and give our customers the benefits of our vast purchasing power and easy credit terms.

AS PROOF of our stupendous value-giving, your attention is directed to this magnificent, heavy, planked top buffet. Its lines are graceful, its workmanship is excellent and will prove a wonderful value at the price. The lumber used is seasoned hardwood, to which is applied an imitation quartered-oak finish in a rich golden color. This finish closely resembles the genuine quarter-sawed oak that it takes the eye of an expert to detect the difference. The large French beveled plate mirror measures 10 x 28 inches and is gracefully rounded at top, as shown. The attractive top is supported by 4 artistic Colonial design pilasters to match the Colonial pattern posts. Also observe the shapely, scroll ornament between the doors on either side.

THE PLANK TOP measures 20 x 42 inches. It is made of 1 inch chestnut core with two dovetail cross-laid veneers on top and bottom and 1% inch under strip mortised on around outside. There are 2 straight front, overhanging top drawers, one of which is really lined for silverware. Below these top drawers is a full length drawer, as shown, for linen, below which are 2 compartments; the latter, as well as the drawers, are all fitted with rounded wooden knobs. Ship wt. about 175 lbs.

No. 4K924. Price $15.95

ORDER ON APPROVAL
Well Constructed Of American Quartered Oak In The Rich Golden Finish. Has Overhung Top Drawers And 20 x 42 In. Base

THE LUMBER used in the manufacture of this reasonably priced buffet is seasoned hardwood, to which is applied a finish in imitation of genuine quarter-sawed oak. This finish looks like much like the real wood. The rich gloss golden color is used on this design. The overhanging top drawers, large middle drawer and roomy lower cupboard compartment are among its features. It is typically Colonial in style: with heavy, Colonial cornice and scroll plinths which are shown in the illustration. The drawers and cupboard doors are fitted with round wooden knobs and it is completed with covers. It is a piece of dining room furniture you will be glad to own.

THE LINES of this buffet answer the appeal of the buyer who seeks refinement in his home. The construction is dependable, both as to materials and workmanship. In fact, we consider this article of furniture that deserves special mention. And to back up every claim of good, sound craftsmanship, we repeat our money-back guarantee if you are not satisfied in every way. The base is of a generous size, measuring 42 inches in width and 26 inches in depth. The good grade French bevel plate mirror measures 10 x 50 inches. Comes complete with locks, key and casters. Shipping weight, about 155 pounds.

No. 4K986. Price $15.65

This BUFFET is made entirely of seasoned solid oak, with the exception of the uniquely designed door panels, which are quartered-oak veneered. Choice of fumed or golden finish. Roughly 90% of the materials are used. The base top is 3/4 inches thick and measures 30 x 44 inches. Mirror is French beveled plate, 32 x 28 inches in size. The upper left hand drawer is lined for silverware. It is fitted with wood knobs and hardwood casters. A Hartman value, through and through. Shipping weight, about 175 pounds.

Has Quarter-Sawed Oak Door Panels

PREPAREDNESS. Perhaps no one subject has been more generally discussed than that of national preparedness. The disastrous results of the lack of preparedness have been deplored by some of the countries involved in the European conflict. The matter of the country's readiness for war directs our attention to another important factor in our daily life and that is the preparedness of the home. Every household is a haven of rest. As such it should receive the attention that it deserves. Prepare it by furnishing it in such a manner as to make it a source of comfort at all times.

THIS BUFFET will help you in the fulfillment of your desires for a beautifully furnished domicile. It is made throughout of seasoned and kiln dried solid oak, with substantial large grained genuine quarter-sawed oak door panels. The end panels are 3-ply rotary cut solid oak which shows a large grain and it has three-ply back panel which gives the added needed strength. You can have your choice of rich golden or fumed oak, State which you prefer.

THE TOP is a plank effect measuring 42 x 20 inches. The French beveled mirror is 24 x 10 inches in size. A shelf across top is supported by extra heavy hand-sawn posts. Possesses two top drawers, one lined for silverware, a large open drawer in the bottom and spacious cupboard. Trimmed with wooden knobs and hardwood casters. Nicely set off at top with carving as illustrated. Observe the elaborate embellishment between the cupboard doors. Shipping weight, about 150 pounds.

NCHES WIDE. This buffet is made of quartered oak with the exception of end panels, which are of substantial oak. Base top is five-ply built-up and quartered oak veneered by a Flamm top, 1/2 inch thick. This large top measures 24 1/2 inches. French bevel plate mirror is 17 1/2 inches. The Buffet is made of quarter-sawed oak veneered. Two top drawers, one for a silverware compartment, and full length linen drawer across bottom. Choice of golden or fumed oak finish; drawer bottoms also three-ply stock and finished inside. Round ten knobs. An attractive Colonial design. Shipping weight 295 pounds.

$33.75
ELEGANT BUFFET OF QUARTERED OAK

Very Massive Planked Top Swell Shape Center Drawers
Top Measures 48x22 Inches

THE SUCCESSFUL CONCERN is the one that truly understands that it is as important to “listen eloquently” as it is to “speak eloquently.” We have always “listened eloquently” to the suggestions of our customers. We have prided them with their ideas, and are always on the alert to improve our facilities to further complete satisfaction.

QUARTER-SAWED OAK is used in building it, and you can have your choice of golden or blushed finish. Please advise which you desire. The top measures 48x22 inches, which makes this a very large and impressive piece of furniture. The design is strictly Colonial, and one that makes this buffet suitable for any dining room. Note the attractive scroll pilasters on either side of the pillars and either side of base.

THE MIRROR is a French bevel plate, measuring 36x10 inches; plank top, two top drawers fitted with hooks, right hand drawer being lined for silverware. Three swivel plate center drawers, with cupboards on either side afford ample storage space. Full length linen drawer at bottom. All drawers and doors are fitted with round wooden knobs. Height, 55 inches. It has maple wheel casters. Shipping weight, about 225 lbs.

Send Us Your Order For This Fine Buffet
HANDSOME BUFFET OF QUARTER-SAVED OAK

Has a 3-Drawer Cabinet
And Has a Heavy Plank Top
Measuring 48x24 Inches

The Distinction of owning such household furniture as this magnificent buffet cannot be measured with any other feeling on earth. It gives you a sense of pride that is a precursor to the restorer of a real home. It is made of genuine quarter-saved oak in true Colonial design and can be ordered in either golden (finely finished) or stained color. In ordering kindly state which you desire.

It is without any question one of the handsomest pieces of dining room furniture we have ever had the pleasure of offering our customers at this low price.

The Style of this buffet is superb. The large French bevel plate mirror measuring 18x6 inches, sets between two concave shaped standards which rest on a Colonial base of likens to support the top shelf as shown. The heavy plank base top is a notably feature and measures 21x18 inches. Below this top are two top drawers, one of which is lined for silver, below which is a full-length drawer for base. Either latter are three compartments, the center one concealing three shallow easy pull drawers as illustrated. These drawers and compartments are all finished off with beveled square knees. The base is attractively finished with curved panel at the bottom, giving a finished look to the entire piece. It stands 54 inches high. The Colonial corner posts enhance its being a marked degree. Maple wheel centers. Shipping wt., about 225 lbs.

BUY THIS BUFFET AT OUR LOW PRICE

Made of Quarter-Saved Oak, Measures 48x23 Inches

Drawers Are Swelled Shape

The Convenience of having plenty of ready money is recognized by everyone, but there are times when you may not feel that you have enough surplus cash on hand to purchase the very article that you would like to secure. On the other hand, there is no reason, even though you have the money, why you should pay cash when Hartman's offer such liberal credit.

This Buffet is really a remarkably handsome piece of furniture at a price that will positively astonish well informed buyers. Beautifully grained quarter-saved oak is used in its construction; seasoned and kiln dried solid oak being used in the ends. There is a full-length shelf across the top, supported by scroll shaped pilasters, terminating in carved claw feet. The small shelves on either side are mortised to fit into these pilasters giving a very pleasing effect. The top is surmounted by lavish carvings in scroll effect.

The Mirror is nicely shaped, is a fine French bevel plate measuring 18x18 inches. The plank top presents a handsomely grained surface measuring 23x23 inches. Swallowed in shape and rounded as well as the full length top drawer. The three drawers in the center are of swirl design, presenting a very charming front; all drawers fitted with round wooden knobs. The compartments on either side are fitted with solid glass doors with attractive three-ply quarter-saved oak grilles work. These doors likewise are fitted with round pulls, and swing on carefully fitted hinges. The total height is 68 inches. Shipping weight about 240 lbs.

These fine bargains are record-breakers

Genuine quartered oak combination in a fine buffet and china closet

Every home should possess a buffet, as it is a desirable addition to the dining room, but a combination buffet and china closet answers a double purpose and for that reason is even more to be desired. The one illustrated here is an exceptionally handsome piece of furniture and is highly recommended by us for its decorative appearance and service-giving qualities. It is extremely artistic in its lines. Observe the attractive carvings on the top, which are skillfully executed. These add to the appearance of this handsome piece of furniture. Another feature is the rich wood scroll used in the door, as shown in the illustration. Observe also the French shaped legs, carried claw front feet and the neat curving on the apron across the front.

Quarter-sawn oak is used throughout in the construction of this excellent combination buffet and china closet. The lumber used is thoroughly seasoned and is made as to give the kind of service that you have a right to demand when you purchase a piece of furniture at this price. The finish is an attractive golden oak, which is found in so many homes, because it harmonizes so beautifully with most surroundings. We feel sure that you will be more than pleased if you send us your order for this model. It is sold under approval and you can make your payments as outlined in detail on Page 1 of this catalog. Remember, there is no liberal guarantee of satisfaction applies to this desirable piece of dining room furniture.

The china section. At each end of this buffet is an enclosed compartment and are fitted with double doors. Each is fitted with two center drawers fitted with brass knobs, locks and key. The latter door below is likewise fitted with wood, wooden knob, as shown. The base top measures 40 inches wide and 16 inches deep. You thus see that this is a good sized article that will command attention and enhance the appearance of your dining room. Boasting on the base is a neatly designed frame enclosing an 18-inch French bent plate mirror. This mirror is shaped in a pleasing design that harmonizes with the general style of this article.

We know that we will make a friend of you if you permit us to place this handsome and attractive piece of dining room furniture in your possession. It will always remind you of the great benefits to be derived from this institution and its matchless values and everlasting methods. Should it not entirely please you in every way, we will refund every cent that you have paid out in the course of the transaction. This is a value article of Hartman's and one that we are proud to offer to our many friends and customers. You make a wise selection when you choose this combination buffet and china closet. Shipping weight, about 155 pounds.

No. 4K975. Price $18.95

A combination quarter-sawn oak china closet and buffet offer

Your dining room is a room where greater interest is taken than displayed in any other room in the house. It should contain that very fruitfulness. Every home should be equipped with attractive dining room furniture which should be as different as the patron wishes to order. This is made of material and the low prices at which we offer it, as well as the extreme grandeur and richness, being a buffet and china closet combined. Its construction is excellent, and a glance at the illustration will enable anybody to see how it is made. AT EACH END is a compartment for china, fitted with an individual bent glass over and large shelves. These are supplied with a turnable glass over, and the glass used is of double strength. The center compartment is of large size and has a door fitted with wood grille, wood center panel and steel door panel. These are two separate doors above the compartment, a baring key box and strong drawer pulls. At extreme bottom of center division is a large drawer for books. These drawers and compartments provide ample space for placing all articles used in the average dining room.

Quarter-sawn oak is used in building this elegant combination buffet and china closet and in all splendid finishing. It is beautifully finished, golden finish, four eight and solid. All the finish is of superior finish. The top panels are of mahogany, placed as shown in picture and the doors are at bottom with scroll slits. The top is an oval article, being graceful in contour as illustrated. It is fitted by handsome Colonial standards.

Generous size will be found throughout this article. The plank base is 18 inches deep and is 45 inches wide. The French plate mirror is the top has deep beveled edge and measures 18 inches in size. It could not set a better place of dining room furniture for the money. If you find the counter one, it is more probable that your dealer has not received any and your purchase will be a very large one. The mirror is too small for a very large space and is the best bargain, giving you two for the price of one. We have five of these combinations in large quantities and can cut the finest cost. Better make your order quickly, for it's a very great bargain. Shipping weight, about 175 lbs.

No. 4K976. Price $25.00

This is an improved model

The Improved Model is built on the same lines but is fitted with the best materials. It represents the most up-to-date style and is a very fine piece of furniture.
COMBINATION BUFFET AND CHINA CLOSETS

HEAVY PLANKED TOP
48 INCHES WIDE

QUARTERED
AND SOLID
OAK. FUMED
OR GOLDEN

THIS COMBINATION buffet and china closet is made of genuine quarter-sawed oak throughout, except the tops, which are of seasoned solid oak, glazed or waxed golden, or fumed finish. There is a compartment on either side for chinaware; these compartments each contain 2 adjustable shelves and are set off with heavy 1/4 inch planked tops, which form two very convenient shelves. Between these compartments is a French bevel plate mirror measuring 10 x 11 inches. The upper drawer is lined for silverware and set under the planked top, which forms another handy shelf. Two deep cupboards, both below and full length drawer across bottom. Round wooden knobs throughout. State finish desired.

MEASUREMENTS. This combination buffet and closet measures 6 feet high, 3 feet wide, and 1 1/2 inches deep. Is a genuine Mission style, as you can readily see by glance at the illustration. It is well constructed in every way. Every detail having received careful consideration. Comes complete with maple wheel cutters. You can make no mistake by ordering it on our approval plan. Refer to Page One of this catalogue for further particulars. Has fancy Mission decoration in center of back panel (articles shown not included). It weighs packed for shipment, about 40 lbs.

No. 4K977. Price. ........ $26.45

No. 4K735. Price. ........ $27.85

THE BUSINESS OUTLOOK is great. We are not optimists through theory but through experience. When others about us have said that business was bad and that the people were not buying, we looked at our record of daily shipments with a smile of contempt, and well we might, because our business has been steadily increasing during the months that others complained. Such a condition is not an accident. It is the result of serving the people not as others have served them, but in the unique Hartman way that's easy to get and easy to pay. Such values as these explain the reason for our giant strides.

THIS MODEL combines utility with beautiful design and substantial construction. The entire case is made of first class materials. Genuine quartered oak is used in building it, being finished in high grade, glazed, golden, or fumed, as you prefer. Please state which you desire. It is a double-top construction. The upper section has bent glass ends and center glass doors, the latter made with grille work to correspond with the base. This base, in addition to the china cabinet with bent glass ends, is made with two drawers, each being lined for silverware. Equipped with shelves, as illustrated. This case is trimmed with wood knobs and casters.

BASE TOP measures 45x17 1/2 inches. Two Colonial pilasters rest upon this spacious top and support the upper section. Behind these pilasters is a fine French bevel plate mirror measuring 43 1/2 inches. The Colonial pilasters on either side of base harmonize with those above, as well as the Colonial scroll front feet. Next carving across center of back guard. Base back made from built-up stock. Height, 72 inches. From the dimensions quoted you can gain a fair idea as to the size of this great big combination buffet and china closet, but to really appreciate its massiveness and beauty, send for it upon approval, and satisfy yourself that it is all we claim. (All articles mentioned included.) Shipping weight, 260 lbs.

**YOU EAT TO LIVE.** There are two classes of people in this world—those who live to eat and those who eat that they may live. One doesn't have to be a glutton to enjoy one's meals, and even though you do not live because of the pleasure you derive from your food, there is no reason on earth why your meals should not be enjoyable. Did you ever consider the effect that pleasant surroundings have upon the appetite? A shabby, poorly appointed dining room is enough to take away the desire for food from even a hungry person. But there is no reason for any family to have an incompletely fitted unpleasant dining room because they can buy just what they want from us, and can pay for it on our liberal credit plan.

**FINE WORKMANSHIP** characterizes this neatly designed piece of dining room furniture. The entire front and top shelf are made of genuine quarter-sawed oak, presenting a rich, handsome grain. It is finished in a beautiful shade of golden oak and is placed in an attractive manner. It can be had either with or without the mirror top at the prices quoted below. The oval mirror is a good quality French beveled plate. Cabinet comes complete with interior adjustable shelves, made of three-ply beveled, fabricated with a spring push button catch on the door, as illustrated.

**MEASUREMENTS.** This china cabinet stands 72 inches high with the mirror ornamented and 36 inches high with the back board. In 36 inches wide and 15 inches deep. The mirror is 21 inches, and the interior shelves are 23 inches deep. (The crotch ornament is not included in the prices quoted.) If you are perfectly satisfied with this china cabinet, pay it in small amounts. The shipping weight is approximately 12 pounds.

Is Well Made Of Hardwood
And Has Wood Grilled Doors In China Cupboard

Use Your Credit

Equipped with
Roomy China Cupboard, Large Bins, as Well as Convenient Drawers and Large Sliding Bread Board.

THE TIME a n e a n of a meal are eliminated when using this elegant new "Comfort" Kitchen Cabinet. As a time saver it is a wonder, as a labor saver it is unparalleled; as a convenience in the kitchen it is supreme. It is a new model this year, embracing many desirable features.

THE CONSTRUCTION is unusually durable. The frame is 8 inches high overall, is well made in every detail; each section has been nicely put together to withstand hard service. The lumber used is hardwood with a rich golden finish, having a soft brown effect. Has wood knobs and handles. It does not occupy a large amount of space, yet is large enough to be thoroughly practical.

THE TOP affords plenty of room, as illustrated, upon which various articles can be placed. The china cupboard is large and spacious, and is fitted with grilled wood doors. The crystal glass and silver you select the contents of the cupboard.

JUST BELOW the cupboard are three utility drawers, useful for storing smaller articles. The center one being divided to give the appearance of two small drawers. Beneath the center drawer is a large sliding storage bin. The space above the working top is very roomy, permitting you to rest bottles and other articles used in the preparation of your meals.

THE BASE top measures 26 inches wide by 21 inches allowing all the room that you will require. Under this top is a 17 4/8 inch bread box that can be easily extended at will. There are four sized drawers for cutlery, table accessories, and the like, below which are two large sliding foot mounted with bolt-safe.

THE LEGS are very solid, being bolted, and plenty long, to easily support the weight of the cabinet. A noble touch to top this cabinet has been built not alone for appearance, but for the kind of service that you will expect of a cabinet of this price. Shipping list price $9.95.

Solid Oak Kitchen Cabinet

A Well Made Kitchen Cabinet
With 41x26 In. Top. A Good Value

MOST MEN are not vitally concerned as to the method of running the household. But their evening incommodities take another turn, should it not be harmonious and pleasant. The question of how the meal is prepared does not interest him nearly so much as how it tastes. The matter of when you start to prepare the meal is the actual point of interest. The matter of what is being made does not bother him just so long as it is ready when he returns home, after the day's tasks are done. But you women who have the responsibility of the management of the household must ardently consider these matters. Therefore, it is to your interest to possess a kitchen-cabinet such as this, because it will save you time, labor and vexation.

SOLID OAK is used in its construction, being thoroughly seasoned and nicely finished in an attractive golden color. The top section is fitted with two full-length shelves, affording ample room for dishes, glassware, etc. This compartment has two doors of clear crystal glass, set off with artistic lattice work. The table top measures 41x26 inches. Under this top is a handy bread-board. To the left of the base a roomy cupboard is found with shelf at top. The doors to this section, as well as to the cutlery drawer on the right and the cupboard doors in the top, are fitted with wooden knobs. Flour bin fitted with wood drawer pull. The base has paneled sides as illustrated.

MEASUREMENTS are as follows: Height of this kitchen cabinet is 67 inches. Size of table top, as mentioned above, is 41x26 inches. The bread board is 17x21 inches. The door bin has a capacity of 46 pounds. Cabinet sets solidly on the floor, and is built so that sweeping under it is an easy matter. (Articles shown not included.) Shipping weight, about 170 pounds.

SOLID OAK

KITCHEN CABINET

$15.65

There is plenty of room to store kitchen utensils and the price is low.

EVERY HOME needs a kitchen cabinet. There are hundreds of times when a cabinet will prove to be a wonderful convenience and labor saver. It matters not how large or small your kitchen may be, or whether you live on a farm, in a flat, or on your own home, you will find a handy kitchen cabinet, such as the sanitary solid oak model which we offer here, an absolute necessity. Thousands of households, who have experienced, say, that a good kitchen cabinet is a great household convenience which they always strongly endorse.

THIS CABINET is built to render a great degree of service. It embodies all the best features that could possibly add to the convenience and labor-saving value of an up-to-date kitchen cabinet. It is constructed of seasoned solid oak with an elegant finish that lasts. The hardware trimmings are of copper. Stands 62 inches high overall and is full 42 inches wide. The top contains 5 dozen granite-tinted base bin with shelf attached; good-sized china closet with two doors, each of which has a wood panel with self glass; at the top. Below this section is found a 5-lb. sliding door bin and two spice drawers. Articles shown are not included at our price.

THE BASE has a working top of 68 inches below which is found a sliding bread board, 18 inches in size, a cutlery drawer, bread or cake drawer and large cupboard for cooking utensils, closed with a door which contains wire rolling pin rack and wooden pan rake. The lower part of the base is made in a neat design and keeps just in itself to give the cabinet great strength. Every feature of this cabinet is modern, made to last very well. Shipping weight about 208 pounds. $15.65

FINE CABINET

MADE OF SOLID OAK

$19.45

No kitchen is complete without a comfort cabinet. Order one without delay.

WHEN YOU PURCHASE a kitchen cabinet you should always consider the instant value of your kitchen. In offering you this excellent article for sale in your kitchen, we do so with the full knowledge that each of these features is embodied in this solid oak cabinet, which we have found to be one of the best cabinets on the market. It will give the maximum amount of comfort and satisfaction. If after you receive it you don't feel it to be all the claim, we are ready for obligation to refund it.

SOLID OAK is used in the construction of this medium-sized kitchen cabinet and it comes in the finish you specified. It is an attractively arranged top which has a center-located china closet with white stained bin, closed with a drawer and a wood panel and a panel art glass. There is a 5-lb. sliding door above the closet with either attached with a glass and wood panel door. There is a sliding sugar bin and divided upper drawer made to appear like three small drawers, height overall 90 inches.

THE BASE has a white wood table top which is of good size, measuring 18 inches, immediately below the top is a sliding bread board, 36 inches, below which is found either upper drawer or shelf, in the illustrations. The lower section of this is divided into three compartments, each of which has its own individual door. The center compartment is for utensils and sugar, while the compartments to either side precede the sliding drawer for pots, pans and kitchen utensils. There is a sliding top on the right side of cabinet which shef, which can be removed for meat, fruit, etc. This cabinet is deeply built and comes complete with pictures, etc. Articles shown are not included at our price. Shipping weight about 208 pounds. $19.45

Solid Oak
Throughout

STANDS 72 IN.
High

THIS CABINET stands 72 inches in height and 42 inches in width, whereas the usual width of kitchen cabinets ranges from 24 to 30 inches. The middle section measures 21x16x11 inches inside. The upper compartment is 15x16x11 inches. Base stands well above the floor, a distinctive, sanitary feature. Base top measures 25x12 inches. Cabinet is made of solid oak throughout in a lock-joint framed-in construction which insures absolute rigidity. Backs and bottoms of 3-ply built-up stock, grooved and glued in all four sides. Beautiful roll front slides easily into cabinet, out of sight. Sliding top fitted with trip catches which lock it when pulled out. Top furnished with nickeloid or indestructible porcelain covering at prices quoted.

THE VALUE of this cabinet cannot be over-estimated. Tilting, airtight flour bin. Non-warming bread board. Heavy wired wire shelves and racks. Prettily colored, heavy chipped glass jars in top doors. Seven glass jars furnished free. Glass sugar receptacle with patented dispenser in bottom. Cabinet finished with four coats of satin waterproof finish. Upper and middle compartments finished with three coats of best blue-white enamel. When ordering please mention whether you want the nickeloid or porcelain top. Shipping weight, carefully packed, about 210 pounds.

A Very Practical Addition To The Home

A HANDY BREAD BOARD

METAL BREAD AND CARE DRAWER WITH SLIDING VENEER TILTED TOP

This Cabinet Is Sanitary In Every Detail

SHOWN IN CLOSED, CLOSED, ROLL FRONT OPENED
ENAMEL-LINED
Solid Oak Kitchen Cabinet With Polished Metal Sliding Top. Has Many Other Desirable Features

NO MATTER how hard you try to figure your expenses, and regardless of just how your calculations work out on paper, remember that many extras arise of which you never dream. Keep a little reserve fund on hand to take care of these unexpected demands. When you buy goods from us you pay only a trifle at a time and are not forced to skimp or stint on your living in any way whatsoever. Order this exceptionally fine kitchen cabinet and pay for it according to our confidential easy credit plan.

ITS FEATURES embody the following: Tilting metal and glass flour bin with art glass cupboard door, white enamel lined cupboard to right with art glass doors to match (lower top section also white enameled), 4 sanitary glass spice jars and metal rack, glass coffee and tea jars and swiveling glass sugar bin and easy sliding side roll curtains. These curtains keep out the dust; also do not hinder working surface, as do ordinary hinged doors. Base has 25x18-inch polished metal sliding working top, handy kneading board, wire enamel rack on inside bottom cupboard door, sliding metal mesh-proof cupboard bottom, removable wire shelf, metal bread and cake drawer with automatic sliding cover for utility drawers. Trimmings attractively nickel.

IS SANITARY in every way. This one feature was foremost in the mind of the designer who conceived this superb kitchen cabinet. The wood used is strong solid oak in a beautiful golden color waxed finish. (Only articles mentioned are included.) Complete with casters. Height of cabinet is 48 inches. Shipping weight, carefully packed, is about 180 pounds.

No. 4K995. ...$25.95

SOLID OAK
Kitchen Cabinet With White Enamel Lined Top. Can Be Ordered With Metal Or Porcelain Sliding Table Top

THE LUMBER used is seasoned solid oak, rich golden, satin finish. Base has a cutlery drawer with three partitions, two lined drawers, one metal bread box with sliding lid, large cupboard space with sliding doors, and shelf in center; one large door with wire rack for rolling pin and pans, one bread box 10 by 14 inches, Meat block 13 by 8 inches, 1 1/2 inch hard maple casters.

THE CANOPY or top section has a silverware drawer, nicely lined, one 6-inch, tilting flour bin with sifter attached, one large china closet, one large compartment with rolling curtain, one 8-lb. sugar bin, one 6-lb. coffee salt and pepper spice jars with wire rack, one hook spring, one kitchen reminder, one set of recipe cards and pocket, one ticket and coin tray.

THE DOORS are paned and emblazoned with art glass as illustrated. The hardware is made of copper in the latest proved patterns. When ordering be sure to state whether wanted with white porcelain or metal top, giving correct number. Wire mentioned are included. Height 70 inches. Base top (closed), 48x26 in.

This is a thoroughly sanitary kitchen cabinet in every way. Shipping weight about 250 pounds.

No. 4K997. With Metal Top. ...$28.75
No. 4K911  Price . . . . . . . . . . . . . . . . . . $33.75

This is the finest Kitchen Cabinet we offer in our line of Comfort Cabinets, and the arrows show you its many features. It is made of selected Solid Oak and is 72 inches high by 48 inches wide. The Table Top, when pulled out, gives a working space of 48 x 35 inches. It is a wonderful value.

No. 4K911. Made of Solid Oak with Sliding Nickeloid Table Top and White Enamel Lined Top. Price $33.75

THE TOP is white enamel lined and has a large 24 lb., white enameled metal automatic swinging flour bin with removable squirter, and is fitted into a section with a handy shelf at the top. The door to this section has on the inside a daily reminder, a three-compartment milk or ice ticket tray and a spring clip for bills,1 spices or your cook book. The closet cupboard is fitted with an art glass door, while the auxiliary metal, enamel lined cake box, which can be lifted out of cabinet, has three removable wire shelves and is fitted with a panelled wood door. The lower part of top which contains sugar jar and spice jars can be concealed by a disappearing, sliding roll front. We furnish with this cabinet an 8 x 12 glass sugar jar, 1 glass spice jar, glass coffee jar, glass tea jar, which have aluminum tops, and glass salt jar.

THE BASE is strong and substantial and has a sliding Nickeloid table top, which when pulled out gives a working space of 48 x 35 inches. Below the table top is found a large, removable bread board, divided utility drawer, large utility drawer and bread drawer with ventilated, sliding, metal lid. On other side is found a large cupboard with removable wire shelf in center and sliding shelf at bottom with protection rail. The doors of these cupboards have pull-out on the inside. A handy rolling pin rack is provided in the cupboard. The entire cabinet is made of selected solid oak, finished in a light polish, dull rubbed to give a velvety appearance. Exceptionally well finished and designed throughout. Stands 72 inches both from floor. The handles have a copper finish. Shipping weight about 275 lbs.

No. 4K911. Made of Solid Oak with Sliding Nickeloid Table Top and White Enamel Lined Top. Price $33.75

The Ball-bearing Action Gives
Smoothness of Operation and
No Noise

The Stand is of French leg type with graceful lines, easy to keep clean and made of the best iron, properly braced, handsomely grained and exceptionally durable. It has a full ball-bearing steel Pitman, high balance wheel; the improved ball-bearing action giving our customer a machine that for ease of motion, smoothness of operation and lack of noise in motion is not excelled by any machine on the market.

The Cabinet of our Columbian "T" is absolutely durable, because of the fact that all wood parts are attached directly to the stand. It is made of selected Quarter-sawed Oak of the choice grade and elegantly finished with rich varnish. It has four drawers, large and roomy, with inverted-drawer pulls. The entire cabinet is beautifully polished and will be in keeping with the finest furniture in any home.

Guaranteed 10 Years

ATTACHMENTS
They are the neatest in appearance, the easiest understood and a greater variety in style and number than are given by any other house. They come in a velvet lined, highly polished box with a special receptacle for each attachment, so that they cannot be mixed up or lost. Each and every piece of our attachment set is made of solid steel, polished and nickel plated. The full set consists of the following: Reel, bobbin winder, bobbin, needle plate, hand foot, brailer, large and small screwdriver, shuttle foot, thread cutter, cutting plate, four hoppers of assorted colors and one package of needles. They are warranted steel throughout. This machine with its free accessories is a far greater value than was ever offered by any other concern. Shipping weight of machine about 125 pounds.

Improved "A" Columbian Sewing Machine

FOR A MODERATELY PRICED good quality sewing machine; one that is reliable and guaranteed by the manufacturers and ourselves; there is none to surpass this Columbian "A" for the money. When you stop to consider that machines of this style have been sold for many years and are giving satisfaction today, and have for years, you come to the conclusion that they are pretty good machines.

THE CABINET is made of solid oak and is nicely varnished. It has four drawers, the front panel is adorned with rich carvings, while the drawers on either side are fitted with neat ring pulls. The edges are expertly rounded. It is fitted with a high arm which when opened gives ample space for resting a large quantity of material. The table of machine is made to give plenty of working room and is not concaved, as is often the trouble with inferior brands of sewing machines.

STRONG STEEL WORKING PARTS. Every working part is hardened in oil and has a good surface, that is scarcely affected by years of hard use. The accurate fitting of these superior parts gives the machine the light running qualities so much sought after and well known to exist in our Columbian models. The fine head is of the Improved type and is finished in black enamel and ornamented with decorative decorations. The stand is of a heavy design, under shuttle, automatic bobbin winder, ball bearing steel pitman, steel drawer runners and automatic drawer locks which do away with keys are possessed by this machine.

TEST IT AT HOME by letting us ship it to you on approval. Before you have used it ten days you will find all we claim for it. Although the Improved Columbian "A" has all of these desirable qualities we do not claim that it is as fine a machine as the more expensive models. In fact, we recommend one of the better designs for the fullest measure of satisfaction. We will say that for the money it is an excellent value. Shipping weight, 129 lbs.

Columbian "B" Improved Sewing Machine

THIS MACHINE is a four-drawer, drop head, hand lift type. The cabinet work is attractive in appearance, with swell front table, carved arms, raised carved drawer pulls and finely carved center piece. The wooden stand is a full solid golden oak with quarter-sawed oak veneered lid. THE STAND made of a good quality of oak, iron and even has ball bearing steel pitman. Sewing head is high arm, 2½ inches high and finished with three coats of black enamel and decorated with transfer in gold and silver. This machine is made to give plenty of working room and is not concaved, as is often the trouble with inferior brands of sewing machines.

IMPROVEMENTS. Square motion, post feed, strong take up, slide movements, strong, short needle, self threading, plain reinforced shuttle, self setting needle, automatic hand winder, automatic stitch regulator, loose pulley, winding bobbin, easily adjusted tension, are embodied among the improvements. Steel drawer runners eliminate old style wooden drawer runners. Locking device has secret spring which, when pressed, automatically releases lock on drawers. No keys required.

FURNISHED FREE with machine is a set of accessories and attachments and full comprehensive instruction book. This machine is guaranteed for ten years against defective material or construction. We do not advise you select the Columbian "B" in preference to the higher priced machines, but will state that for money it is a very satisfactory article.

Shipping weight, about 125 pounds.

Has Numerous Time And Labor Saving Conveniences.

Steel Automatic Drawers. No Keys Required.

His Machine is equipped with a splendid system of sewing mechanism. Has an instant appearance, a high grade cabinet made of fine solid, golden oak and quarter-sawn oak veneered lid; finish, golden, high gloss.

Four large drawers fitted with separate wooden pulls, raised ornamentations on pilasters and panel door. All parts of cabinet—drawers, panels, table and back—are fastened separately to stand, insuring exceptionally strong construction. Sewing head very high to the head is strictly high arm, being 5½ inches above the table, to accommodate heavy and long sewing. In fact, will do all your work in the very best manner and with the least amount of time, effort, and trouble.

Steel Bar Automatic Lift

enables you to open and close machine without touching head, enabling you to open and close machine without touching head, enabling you to open and close machine without touching head, enabling you to open and close machine without touching head.

If you want the machine ready for work, simply raise the lid and bell covers come up automatically. When through sewing, turn the lid back; bell drops automatically. You see all of the lift is a short, steel bar 7½ inches long above the table. It counteracts the wood so that both table surface is secured. It is practically noiseless. When machine is raised, the drawers lock automatically; no keys are required. If you want the drawers unlocked when the machine is closed, use the secret spring. Press down the secret spring near the back of the machine, and both drawers are unlocked. This arrangement protects the cases against the meddling fingers of the mischievous children.

“COLUMBIAN” CABINET SEWING MACHINE

Made Of Hand Rubbed And Polished Quarter-Sawed Oak.

Ample Space For Sewing Utensils Provided On Pockets Inside Door.

A Rack Is Also Provided For Spools, Scissors, Bobbins, And The Like.

THE GRACEFUL LINES of this cabinet when closed resemble those of a beautiful music cabinet. Attractive Colonial details are used throughout.

When you order the Columbian Cabinet Sewing Machine you secure an exquisitely beautiful cabinet of furniture and a high grade sewing machine—two pieces of furniture at the same price.

The cabinet is made of all solid oak and quarter-sawed oak veneer, fully paled with a three-coat, high grade finish, in golden color. Curved mantels; raised and wreath design in the door. Higher than other cabinets, being rich height for comfort and efficiency. Sewing machine case raised above the floor for use.

Sufficient space for sewing utensils provided in large pockets on inside of door. Also rack for spools, res, bobbins, etc.

DRIVING WHEEL steel driving rod and pedal for treadle are same size as in regular drop head machines, making it easy running. Three distinct sets of ball bearings are used in steel ball race.

When you lift lid back head comes up automatically. When you turn back the lid, head drops out of sight. Sewing head has silver and gold color on top of black enamel, which adds greatly to its appearance. A very efficient sewing head in every way.

GUARANTEED to do the most perfect kind of stitching. Guaranteed for 10 years. Comes complete with full set of fine steel attachments, accessories and instruction book. Order it and if you don’t find it, all we claim, return it at our expense and your money will be refunded in full. You are sure to be well pleased with this high grade machine.
IMPROVED COLUMBIAN "G" SEWING MACHINE

Has Drop Head, Panel Front, Four Drawers, Steel Bar Automatic Lift, Is Ball Bearing, High Balance Wheel, Steel Pitman, French Leg Stand, Steel Automatic Drawer Locks.

Steel Drawer Runners, Best Side Tension Has the Automatic Tension Release Head

FREE
Full Set of Greist Accessories and Attachments

Fitted with strong, short needles which are interchangeable with the Singer No. 27 or Free Sewing Machine needles.

Automatic Lift. The steel bar automatic lift is a newly patented device. All that appears above table is steel blade three inches long which is embedded into the wood when lid is down so that it is not seen. Platform on which head rests is always brought up strongly and firmly to eliminate vibration.

The Head equipped with side tension, automatic tension release, independent take-up, self-threading shuttle, self-setting needle, automatic bobbin winder, looper arrangement, etc. Accessories and attachments on introductory page of this section. Shipping weight, about 125 pounds.

No. 7H828. Price 26.85
SEND US AN ORDER and we'll place this elegant machine in your home on approval. All we ask is this opportunity of convincing you that it is one of the lightest running sewing machines you ever saw. We feel absolutely positive that it is capable of satisfying your sewing machine needs. If you do not find all of this to be true, ship it back at our expense and we will refund your money.

This Machine Is Built Along Mission Style, Six Drawers, Drop Head, Steel Bar Automatic Lift, Panel Front, Steel Drawer Runners

GUARANTEED FOR TEN YEARS

Latest Type Side Tension, Automatic Tension Release Head

Inlaid Tape Measure

No Keys Required

THE LINES of the Improved Columbian "K" are strictly mission throughout. This is to fulfill the demands for the beautiful mission style of woodwork which is so popular in other pieces of household furniture. Has six drawers, drop head, steel bar automatic lift, panel front, steel drawer runners, steel automatic drawer locks, French leg stand, high balanced wheel at rear. Pitman, each having its individual advantage!

WE GIVE a guarantee of ten years with this machine, which is evidence of our confidence in it. Has latest type of side tension, automatic tension release head, is ornamental as well as a very efficient machine.

TABLE is very attractive, presenting a plain top, as illustrated. It measures 1 1/2 inches inside. All parts of the woodwork throughout are made to correspond with this table in its massive and very stately appearance.

No Drawer Racks Drawers Run ON STEEL RUNNERS

Raised Design on Panels as Illustrated

STEEL AUTOMATIC DRAWER LOCKS. NO KEYS REQUIRED.

THE DRAWERS are perfectly square, as are the panels and pilasters, the strictly mission design with an attached and highly artistic raised effect on panel is one of the most beautiful ever put on a sewing machine regardless of make, price or name. Drawers are fitted with heavy mission style wood drawer pulls, as shown in large illustration. The woodwork is full quarter-sawn oak throughout and the finish is of a very high grade. Therefore you will have a machine that will please an ornament in your home; and also a piece of machinery of surprising beauty in every way.

SEWING HEAD is large and roomy, being 5 1/2 inches under the arm and the width of the head to correspond; in fact, this is one of the largest headed heads on the market. It is strong and substantial in its operation and is guaranteed to do any and all kinds of work in the most satisfactory manner. You are sure to enjoy this machine.

THE FEED, needle bar, shuttle and take-up are very strong. These are the very parts that make the stitch. Latest improvements will be found on this head, which include a square foursquare feed, self setting needle, self threading shuttle, independent take-up, automatic bobbin winder, bed plate, stitch regulator, etc.

No Keys Required, as drawers lock when head is dropped and automatically lock when head is raised. Secret springing of drawers when machine is closed. Full steel pilasters and accessories free listed on introductory page of this section.

No. 7K830. Price $29.75

Full Quarter Sawed Oak Cabinet, Very Highly Polished
The Fitting Problem Solved

WITH OUR LATEST "MARVEL" 16-SECTION DRESS FORM. IT IS AN ADJUSTABLE DRESS FORM THAT WILL PERFECTLY DUPLICATE THE FEMININE FIGURE.

No Reaching Inside—Just Pull Sections Out To Correspond With Your Figure. Has Arm Extensions For Sleeve Fitting, Long Body For Pinning Skirts. Skirt Length Measure As Well As Skirt Marker Insure Accuracy.

THIS FORM CLOTHES CAN MADE THAT FIT RIGHT, HANG RIGHT AND POSSESS STYLE AND AP WITHOUT ANY EXCESSIVE UNNECESSARY COST TO YOU,

"MARVEL"
16-Section Dress Form

ORDER THIS FORM and you can furnish your wardrobe with the latest dictates of fashion at a moderate cost. With the use of modern fashion books and patterns which are usually in advance of ready-to-wear clothes, you can make the snap and save. In adjustable figure garments before they are worn in the most up-to-date form. This is the most important invention that has been made in adjustable dress forms. In addition to this, you can alter the bust without affecting the waist, hips, and seat. Likewise, you can make one shoulder higher than the other—a condition that is remedied by many persons.

NOTE ESPECIALLY that this figure is divided just a trifle below the hip line; there is no other make of form of which we know that gives this advantage. It permits for pinning, altering, and widening the bust, seat or abdomen. Next to the SKIRT LENGTH MEASURE AND GUIDE this is the most important invention that has been made in adjustable dress forms. In addition to this, you can alter the bust without affecting the waist, hips, and seat. Likewise, you can make one shoulder higher than the other—a condition that is remedied by many persons.

YOU CAN adjust this form to suit the lines of a stoop shouldered or square shouldered figure with equal ease. You can adjust the waist without affecting the bust, hips or seat, or you can enlarge the bust without affecting the waist, bust or seat, or by making all of these adjustments you do not have to reach for the form in the room or tighten the set screws. You simply pull each section out to the measurements required. You see that the manipulation of this form is as simple as it is accurate, a feature with an article of this type.

Another feature of adjusting is that you can raise the bust without affecting the back, or you can lengthen the back without raising the bust. In short, you can adjust the figure just as you are with very little difficulty. This form is made according to our own specifications. Extra heavy paper mache which is used in its construction will render years of service to the owner. It is covered with a good quality of Jersey cloth. The full nickel trimmings found on this dress form add to its life as well as to its brightness and pleasing appearance.

REVOLVING STAND upon which the "Marvel" Adjustable Dress Form is mounted is made of iron and is very strong and substantial. You can adjust this form to any height that you desire. Fitted with claw and ball feet instead of casters which get out of order and cause considerable annoyance, it is designed to impress you with the fact that when you can see the dress form in this 16 sections that has the many desirable features of the "Marvel" at this low price, you are obtaining a value that is worth of its name. Shipped about 45 lbs. Note Our Low Price. No. 76165. Price $12.65.

AMOS COMMUNITY SILVER SOLD ON CREDIT TERMS

In Louis XVI Design. Made By Oneida Community

USE YOUR CREDIT
GUARANTEED FOR 50 YEARS
WE TRUST YOU

For the first time we are able to offer you the most popular pattern of the famous Community Silver—the Louis XVI. It is a beautiful design in the French grey finish with bright medallions, but is not only artistic, but a remarkable value at the prices quoted on this page.

This ware is so heavily plated and overlaid with pure silver at the wearing points that it is guaranteed for half a century. Read what the makers say in their guarantee in the box to the left.

SPOONS These Louis XVI, designed spoons are made by Oneida Community in a French grey finish, as illustrated. Come six in an unlined box.

HOLLOW HANDLE KNIVES Take a good look at the illustration shown above of this very fastidiously designed hollow handle knife. The handle is gracefully proportioned and conveniently shaped as well. The beautiful Louis XVI, design enhances its appearance so that it is one of the most artistic French grey finished knives ever seen at these prices. Has the finish of a bright medalion, as shown. To insure their protection these knives are very carefully packed in flannel and six in a line, placed to a roll. Send us your order for either the medium or dessert size quoted below, and we know that you will soon order the other size as well.

CHICAGO
A Full Line of
Guaranteed Trunks

IF YOU WANT A EXCELLENT
STEAMER TRUNK.

You may be sure of your money back on any box purchased if you are not satisfied with it. Every box is thoroughly inspected before leaving the factory, and it is guaranteed to the buyer. The antique is a guaranteed steamer trunk, and you will be satisfied with it. The box is made of high-grade oak, and the hinges and locks are guaranteed to the buyer.

RECOMMENDED FOR SERVICE TRUNK FOR YOU.

We would not advertise any article of merchandise that we could not indicate every way. We believe in our own reputation for honesty and fair dealing, and the buyers are warranted to take no risk at all with our goods. We are not trying to sell our goods to the public; we are simply trying to get our goods to the public.

"A FRIEND IN NEED WEARS WELL."

A friend indeed. Don't wait until the day you are going to travel to get your trunk, but order it now and have it ready when you want it. It is easy to make a decision in our trunk section, and when you get it you will find that it has a large box, covered with durable painted paper, and the bands and handles are made of brass, copper, and other materials. The boxes are guaranteed to be strong and durable, and the trimmings are beautiful.

A WOnder. The box itself is a wonder, the covering is made of waterproof painted cloth. The binding and banding are of strong vulcanite, and the trimmings are brass. The sides are made of hardwood and the straps are heavy. The box is made to remain firm and true, and it is covered with a flannel lining. The box is equipped with a flannel lining, and the flannel and banding are made of brass, copper, and other materials. The trimmings are brass, and the sides are of hardwood. The long and extra heavy straps are also included.

A SENSATION. This box has been made for the world to see. It has been made of the finest wood, and the design is perfect. The box is equipped with two compartments and a large number of compartments, and it is covered with cloth. The box is a sensation, and it is sure to please you.

GREAT KITCHEN CUPBOARD VALUES

By glancing at the pictures of one line of Kitchen Cupboards you will quickly see that they are all of pleasing design, and that any one of them will prove an ornament to your home. The inner construction of furniture adds greatly to make up its quality, but does not show in an illustration, therefore we refer to the strong reinforcing on the inside, smooth finish, and perfect joining of all parts, all equipped with key and lock—not with knob as illustrated. Drawers have knot, not handles.

Special Bargain

Furniture for Porch and Lawn

Solid Oak—Fumed Finish

This Porch Set is made of extra heavy, thoroughly seasoned kiln-dried solid oak, finished in a handsome fumed finish. It contains 46 pieces—front posts, notched back and shaped seat slats, back and shaped seat slats, arm pieces, back posts, shaped seat pieces, and shaped seat pieces. All parts are made to correspond in style and excellent workmanship prevails throughout. Take advantage of our low prices and liberal credit terms.

No. 1K2151, Price...$13.95

The Settee is shown directly above. It is made of thoroughly seasoned kiln-dried solid oak, finished in a handsome fumed finish. The back panels, strong shaped seat and sturdy construction are all features of this number. The front posts measure 13/16 x 2 inches. Arms are 13/16 x 2 inches. The back posts measure 13/16 x 2 inches. The seat is 36 inches long and 10 inches deep, being made with 8 piece fitted slats. The height of the back from the seat is 24 1/2 inches and height of back from floor is 30 inches. The top back rail measures 13/16 x 2 inches. Shipping weight, about 59 pounds.

No. 1K2151, Price...$2.85

The Chair shown to the right is a duplicate of the rocker pictured and described above, except for the runners. Possesses the same sturdy construction, comfortable shaped seat and artistic notched back. The dimensions are the same, as this number is cut out of the same lumber as the rocker. This is solid oak, specially kiln-dried and thoroughly seasoned. Fumed finish. Shipping weight, about 33 pounds.

No. 1K2150, Price...$2.45

The Rocker is made of solid oak, fumed finish. Contains 5 notched back slats in the back and 8 slats in the shaped seat. Posts measure 13/16 x 2 inches. Arms are 13/16 x 2 inches. The seat is 36 inches long and 10 inches deep. The height of the back from seat is 24 1/2 inches, 7/8 back rail is 13/16 x 2 inches. Shipping weight, about 29 pounds.

No. 1K2154, Price...$2.95

Rocker Settee. We direct your attention to the measurements of the settee described above for complete information concerning this rocker settee. It is exactly like the settee, excepting for the runners. The solid oak used in building it is very strong, being thoroughly seasoned and kiln-dried lumber. The finish is fumed, to correspond with the other pieces of the set. Has shaped seat and attractive notched back panel. Is a big bargain at the low price. Shipping weight, about 33 pounds.

No. 1K2154, Price...$2.95

Porch Swing is illustrated to the right. It is well made of seasoned solid oak in rich fumed finish. Contains 12 notched back panels, as shown, and comfortable shaped seat, embracing 5 slats. The front posts measure 13/16 x 2 inches. Arms are 13/16 x 2 inches in size, seat is 40 inches long and 17 inches deep. The height of the back, from the seat, is 20 inches. Comes complete with 2 surveillance chains and 2 ceiling hooks. Is very strong and well made to withstand hard usage. Makes a fine addition to any porch and is a perfect match to the other pieces of this set. Shipping weight, about 33 pounds.

No. 1K2153, Price...$3.15
### VERY SUBSTANTIAL LAWN SWING

A REMARKABLE lawn swing in many ways. It is sold with or without canopy, as desired, at the low prices which we quote on this page. By referring to the illustrations and the descriptive features brought out with the aid of the arrows, you can gain a good idea of its excellent construction. It is without question one of the best values we have ever offered. The derrick is painted red, the balance of the swing being a natural varnish finish.

MADE Substantial, non-rusting chains and ceiling hooks. The chains are adjustable and measure 22 inches.

THE BACK measures in. and rests, the rear is a 18 inches long. Both the back and ends are full-padded as are the seat. The seat is very strong, having four braces.

SOLID OAK AUTOMOTIVE PORCH SWING, FUMED FINISH

Complete With Foot Rest, Rest Chains And Ceiling Hooks. Is Self-Propelling. Measures 50 Inches In Width.

MADE OF solid oak, thoroughly seasoned and kiln-dried. Comes in various finishes with an extra coat of lacquer to protect it against unfavorable weather conditions. It is furnished with footrest attachment and footrest chains and ceiling hooks, as shown in the illustration. Has end panels and wide arm rests. The arm rests, in addition to being of bolted construction, are fastened with 2-inch heavy screws. This swing has a tie bolt running completely through the end. The method of building this automobile is such as to produce a strong, rigid construction. This swing is self-propelling and has ample space for footrest to step on and out of swing. The footrest propels the swing and the slightest pressure of the feet starts it in motion. Has a shaped seat, as illustrated. A feature of this automobile which is a great improvement is the adjustable footrest.

YOU WILL NOTICE that the footrest can be raised and bolted securely, about 2 inches above where it is regularly attached. This is provided so that it will be suitable for children or small people. The arrow in the illustration shows how this feature is accomplished. The extreme width is 50 inches, the seat measuring 17x48 inches, the distance between arms 18 inches, the distance between arms 8 inches, above seat, arm measure 11 inches above seat, length of arms 23 inches, width 11 inches. The seat construction is strengthened by the use of four braces. It is constructed of 11-inch rounded slats. Footrest drop is 17 inches, width of footrest 15 inches. The footrest chains run smooth, motion stopping weight, about 45 lbs.

9 Coil Springs in Seat
WE ALWAYS have the interests of our customers in mind when we search the manufacturing markets for articles to offer in our big line of bargains. Our offerings are high grade and the prices are absolutely the lowest possible. Join our big army of customers who stand by us because they know that by so doing they are taking absolutely no chance whatever. As an instance of price-slashing; as a sample of genuine bargain-giving; as a really great opportunity to purchase merchandise that you can feel proud to own, we call your attention to this beautiful, decorative, comfortable rocker. It goes out with our strongest and sincerest endorsement and recommendation.

IT'S A CERTAINTY that if you purchase it you will be pleased. This rocker is expertly made of fine Fibre Reed, superbly woven as illustrated, and expertly finished in the widely used and very attractive Baronial Brown—a color that "fits in" with practically all surroundings. The upholstery is attractive tapestry, with flowers and leaves predominating, all beautifully blended in natural colors to produce a wonderfully attractive effect. The button tufted pad in the seat is removable. It is covered with tapestry to match the back and padded strip forming the seat front. The shades are delicate in hue, comprising greens, old rose, yellow, blue, etc. The back is very well padded to insure comfort.

THE SEAT has nine strong springs. It is nice and roomy, measuring 21 inches between the arms. The height of the back from the seat is 24 inches, and the height of the seat from the floor is 16 inches. We wish that you could sit in it while you are reading its description; then that you could get up and take a look at the rocker itself. In fact, you can, if you desire for we will send it to you on approval, without any obligation on your part of keeping it, if you care to keep it, as we know you will, pay for it in small instalments. Shipping weight, about 25 pounds. No. 1K2223. Price $9.65

Has Removable Pad and Spring Cushion Seat

Baronial Brown Color.

Fine New Design

Tapestry Upholstered.

Very Comfortable.

Has Nine Springs in The Seat

THE ELEGANCE of this very artistic rocker will be recognized by you the minute you see it in your home. For it has the earmarks of refinement, luxury and high class appearance. It is made of durable Fibre Reed, hand-crafted finished in rich, brawny brown. This Fibre Reed is famous for its wearing qualities as well as its rare beauty. The back is rounded and the upholstered seat is shaped in a very attractive manner. Observe also the gentle flare to the arms, which gives it both grace and ease, so much to be desired in a rocking chair.

THE TAPESTRY is of a floral and leaf pattern, magnificently worked out in an harmonious combination of colors, with brown in predominance. The green shades as well as the delicate yellow and purple tints combine to produce a very artistic effect. The buttoned, tapestry upholstered pad in the seat is removable and is neatly covered with buttock buttons. Tapestry strip in front to match. There are 9 hand-tied springs in the seat, which are supported by 3 steel bands. This method of construction insures strength as well as care and comfort to the occupant. It is fitted with good, strong runners.

MEASUREMENTS. The height of this excellent rocker is 24 inches, the height of the seat from the floor being 20 inches. The seat itself measures 16 inches deep and 20 inches wide. Extreme width 25 inches. From these sizes you can gain a clear idea of the relative proportions of this exceptionally fine piece of furniture. Remember, that the illustration as shown to the left is taken from an actual photograph of the rocker itself and therefore conveys its elegance and splendor. You can order it shipped on approval and take a year to pay. Shipping weight, about 29 pounds. No. 1K2231. Price $10.55

### Extraordinary Bargains in Dinner Sets

Look at these wonderful values in Dinner Sets, pictured and described on this and the following pages, and compare them with what you have previously paid for ware of the best grade. You will see at a glance the big saving you can make and how economically you can purchase of us on our helpful open account credit plan. We made special arrangements with the leading potters of this country to place our enormous orders for their wares during the dull season, which enables them to keep their plants running. These potters are of large capacity and vast experience, as well as being producers of the Highest Character Porcelain Ware. This has an incomprehensible effect upon cost prices and is wholly due to our immense buying that we are able to sell you such good quality goods at prices frequently charged for inferior grades.

**The Beautiful 3-Inch Gold Band Pattern of this dinner set, is a duplication of the style of decoration now being used on the costliest dinner sets. It will cost many times what we quote and for this set. As the predominant style of decorating has been the past few years the gold bands of silver of dippers, and for those desiring such a set, we offer our No. 6K1952. Each piece of this set has been with an embossed design on each edge, appearing immediately below the gold bands. Which itself encircles the extreme edge of dish as shown in illustration. This gold is put on by a new process at the pottery, just before the dish is given its shine and glazing. By this method, the decorating is set on very exactly and gives to the appearance of each dish, the clay used in moulding this set is double glazed, which makes it very durable and gives it a velvet finish. You can easily by its action you may by setting this set at the price we quote and we guarantee every way, can be furnished in either, 51 piece set, weight 60 pounds, or 100 piece set, weight 120 pounds.**

---

**Special “Leader” Underglazed Porcelain Dinnerware**

**The Handsome Plain White Porcelain Dinner set, which we offer for your consideration, is one of the finest of its kind to be found anywhere at the price. It is a good plain white set, the shape of dishes being that shown in illustration, with a neat embossed design, molded at intervals on the outer edge of each piece. While there is no gold band decoration on any of the pieces of this set, the embossed pattern goes away with the steady plain appearance, which would be noticeable if the embossed had been omitted. A pure white set is often more preferable than one with decorations and for those desiring a set of this kind, No. 6K341 is one of the best they can buy at the price shown in the catalogue.**

ELEGANT SIX PIECE TOILET SET, $2.95

This set is made of fine quality white porcelain, each piece being molded in a most pleasing shape. The embossing is artistically placed on each piece of the set in a fancy pattern, while the color decoration is in a floral design of foliage and roses, beautifully brought out in brown, green or blue. The coloring is delicate and soft, being put on each piece before it is finally glazed and fired and by this modern process will not scratch or wash off. The six pieces contained in the set are: Wash-Bowl, Pitcher, Soap Dish, Tooth-brush Holder, Chamber and Cover. Extreme care is given to the packing of our crockery and dishes. The picture above shows set in green, but you can order it also in brown or blue. Shape color desired. This six-piece set weighs about 50 lbs. $2.95

No. 6K1190. Set of Six Pieces. Price $2.95

HIGH GRADE TWELVE PIECE TOILET SET, $5.95

Beautiful toilet set of white embossed porcelain, with tinted embossings as shown above, standing out in a most pleasing contrast, which make it a set exceptionally rich in appearance. Each separate piece has been carefully fired and glazed, and molded in a new and service-giving shape. It is easily handled and not clumsy.

Twelve-piece set consists of: Wash-Bowl, Pitcher, 3-piece Soap Dish, Chamber and Cover, Mug, Small Pitcher and Tooth-brush Holder. It does not contain a stop-jar, for many of our customers desire to purchase a set without these extra two pieces. Weight, about 75 lbs. Twelve-piece set contains all the pieces mentioned in the twelver set and also includes a stop-jar and cover, which are counted as two pieces. Weight, about 55 lbs. Can be ordered in blue, green or pink. Shape color. $5.95

No. 6K1186. Set of 12 Pieces. Price $5.95

"CONCORD" PORCELAIN DINNER SET WITH GOLD BORDER

ATTRACTION GOLD artlessly designed pattern encircles the edge of the bowl, forming a novel style of decoration in a most pleasing effect. Natural colorings of jade green, gold, and maroon foliage and stems form a frieze border, while the gold-colored edge is enlivened with a narrow gold band. Rich embossing, in a favorite design, completes the ornamental picture. When all together this design is exceedingly attractive and cannot help but appeal to every host, women or child. Everyone knows that nothing gives one more real pleasure than to be able to set one's table with choice of the finest character.

SPLENDID VALUE at the price we are able to offer you, will agree after seeing this set in your home. The best reason for those bargain, as previously mentioned, is our wonderful picketing power and its effect on the patronage during their fall season. It isn't necessary that you be satisfied with our descriptions of these sets because you can order the set you prefer—have it sent on approval and after you have inspected it, laid out on your table and seen every piece of it really as you will be highly pleased by its appearance. The beautiful set weighs about 15 lbs., while the 100-piece set weighs about 10 lbs. Page 320 gives list of pieces.

"BERLINE" GOLD EDGE AND FLORAL DECORATED DINNER SET

LOOK AT THE PATTERN of this set and see if it is not the most beautiful design you have ever seen on a dinner set. And now, the dishes are elaborated with borders of roses, green, gold, and stems, which extend around bowls joined together in a band border. From which, starting towards center, are groups in natural colorings. The effective decoration is most charmingly brought out by the next gold edge of the plates and background adorned by the lightly painted and colored white ornaments. These colorings are put on by a new process.

YOUR CREDIT is good with us, and the largest piece you select will have our full year to pay. Of this, the most important, we hope that you will take the greatest care with them, and which you have been charged with, will be your friends. Your friends. They have been set by the best manufacturers in the country, and no one will ever be disappointed with our work, the most beautiful set will ever be made. And before you know it, it is all paid for. One plan is just a long, simple extension of credit. In actual practice of good credit, the set of 100-piece set is an absolute piece of good quality. 51-piece set weights on the page and 100-piece set in the catalog. Page 320 gives list of pieces.

INE PORCELAIN SET. THE "YORK" WITH STYLISH GOLD EDGES

A FINE PORCELAIN SERVICE at a price as low as we ask for this set should appeal to those who appreciate a good table in dinner ware, and we urge you to consider this set before making your selection. The shape of the dishes has that conventional style which each edge is completed with a very delicate gold band. The colors of each dish is most conventional, and is highly worked out in a dainty shape effect which has been brought out in colors of terra cotta, ochre and other colors in a striking variety of our ability to offer you high grade dinner ware at low prices.

WHEN YOU BUY HERE you are sure to desire. We are the possessors of many years of service and experience in this line. We do all in our power to give you the best values that the market affords. That is why, when you buy from us, you can depend upon the quality of your dinner ware and the Hospitality of its service. We do not claim that it is the finest set in the world at the lowest price; but we do claim that we offer it at an excellent value at these figures. Printed color, 10-piece set, $7.50; 31-piece set, $16.65. Page 329 gives list of pieces.

Gold Band Set.

YOU cannot purchase at this price a dinner set that will adorn your table with more exquisite taste than the beautiful white and gold pattern illustrated on this page. There is a narrow band of gold around all edges and likewise a fine gold line as shown on the various pieces. A striking feature that adds distinction to this set is the attractive heavy solid gold effect on the handles. These gold handles place this set above the ordinary, giving it distinction and "class," such as you rarely find at these sensationally low prices. White and gold decorations, always popular, have become the favorite because they do not offend the most cultivated taste and harmonize with all color schemes of table decoration.

THE shape is the splendid new "Empress" shape, so much admired by housewives and found in the homes of the wealthiest people in the country over. It is pronounced the last word in the plainer shapes now the prevailing fashion for home use. It is the leader of its class, as you will recognize after having seen the articles themselves. All pieces are pure white, of velvety texture, of abundant size, yet dainty in modelling. The contour of the handled pieces is especially graceful, eliminating the usual "stuck on" appearance found on many inexpensive lines of china. They seem to grow out of the body of the piece, giving them the finishing touch of style. When you consider our low price, you should not hesitate to send us your order for the 100-piece set. Either set, however, is a true bargain offer at these low figures.

**DECORATED “HAZELHURST” DINNERWARE WITH NEAT GOLD EDGES**

NEW DESIGN is found on this elegant and dinner set and it is sure to win immediate favor with all lovers of fine dinnerware. Just look carefully at the pattern and you will see in what a beautiful arrangement the border and medallions are really formed. The porcelain used by the potters in making these pieces is of very fine quality and every care was exercised to produce a set that for the money can be unequalled elsewhere, and they have not succeeded in turning out such a set, for you should look before you could duplicate the pieces for our low prices. You don't have to be our word for it, either. If you don't choose -- for we will be pleased to send you a set on trial and if you don't like it, don't keep it.

THE BORDER is of a solid arrangement and yet, when you look at the glazing and firing are done, really making it retain its beautiful appearance, the design of a neat border decorated with illustrations of flowers and scroll effect, with a chain of roses and a series of very interesting representations, in colors that are harmoniously blended and pleasing as well as restful to the eye. Each dish is really shaped and the entire set is a copy of production. You really will not appreciate the beauty of this dinnerware until you take it at home. This dinnerware set consists of 5 pieces and the 1-piece set weighs about $10.45. The rest of pieces contained in each set are page 321.

**OUR FINEST DINNER SET, THE “TAVERN” WITH RICH GOLD BORDER**

**THE NEAT PATTERN of these dishes is one of the wonders that make them so desirable. A great many people are now using dishes with a plain, conservative border decoration and for those who are looking for such dinnerware, there is no better or more convenient way to recommend this set. Then consider the low prices we are quoting on such fine ware as is offered here. We ask you to make a comparison of this value with those of others and furthermore we want you to see the set first, not on your table, but in our hands and let us ship you a set of approval, so you can look it over carefully and choose the proper color and fine dinnerware.

**THE GOLD used in decorating this set is of a splendid quality and the border is neat and attractive in giving value lines and gold, covered with gold, which are defined in the dictionary shaped figures intertwined with fine lines of gold. Each dish is shaped perfectly and made to turn as it is known, and by a process where the first gold and then gold are laid. The glazing and firing are done, and the glazing is put on before the final firing is done. Then nothing is making it very lasting. Take our advice and order this set, if you want the gold or decorative pattern and a set of dinnerware that is made of a high-quality material and weighs about a pound. The 51-piece set weighs about 60 lbs. For list of pieces included in each set, see page 321.

Note The Price

THE FRAME of this dandy little go-cart is constructed of strong steel, in a way that is bound to render substantial serv
The pusher, the wheel is made of flat steel, gracefully curved as shown in picture. A wood cross handle is used to join the two sides forming frame of this go-cart. A feature of this go-cart is the shock-absorbing springs which extend the entire length of the seat. These relieve the shock of riding and make easy riding for the child. The body measures 17½ inches wide and 36 inches long. Black enamel is used in the finish of this frame and imitation leather is the material used for the upholstering; this is finished to match the finish of the frame. This material gives the appearance of real leather and will give service of the sort that you have a right to expect.

THE HOOD is of the 3-bow type. The enameled wheels measure 3 inches in diameter and each has 11 wire spokes. The wheels are fitted with 3/8-inch rubber tires and are nicely set off with plated hub caps. This is a semi-collapsible go-cart that folds up with motion. The price at which we sell this article is so low that you should not hesitate to order it if you are seeking a bargain in an inexpensive go-cart.
FOLDS FLAT

Here's A Go-Cart You Seldom Find Offered At So Low A Price It Is A Full Collapsible Model

WHEN BUYING go-carts every mother makes an endeavor to purchase a vehicle that will give the maximum comfort to the child and in that respect the model we offer here is unsurpassed for the money. Look carefully at the illustration and note how gracefully this go-cart is designed. And when you take into consideration the low price we charge, you must agree with us that it is a remarkable buy. Then you have the advantage of being able to buy it on our liberal credit plan of a year to pay. Order it sent to you on approval and when you receive it you will not find it to be all we claim and do not think that you have received full value for your money, return it to us at our expense, according to our liberal return guarantee.

THIS GO-CART is a full collapsible model, folding and unfolding very compactly, and will take up very little space for transportation from place to place. It is a fine buy at any price. It is sold at a very low price. It is sold at a very low price.

FOLDS FLAT and when not in use occupies a very small space. This Go-Cart is a new spring construction. The back is adjustable to different positions, covered with leatherette, trimmed with simulated fur. Has roomy foot tray. Has had all the extra "guts" taken out. Can be used as a play-carriage. Has a seat of black leatherette to which it is fastened. Provides comfort to the child and at the same time is a very convenient Go-Cart for play purposes.

THE NET RESULT. When you figure what you actually pay for an article, when you estimate the terms upon which you made the purchase, and what degree of satisfaction you derive compared with the expenditure, then and then only can you make a complete review and determine whether or not you made a deal worth while. These factors constitute the sum and substance of any transaction.

IN OFFERING you this fine, fully collapsible go-cart we know the net result will be so satisfactory that you will be mighty glad you made the purchase. It operates very easily, closing up into a small bundle with only one motion. Has a three bow hood with a 28-inch spread and measures 11½ inches wide. This hood is of strong black fabricoid leather or may be had in green if desired.

THE FRAME. Flat, measures 16 x 28 inches. The pushers are of 5/8-inch seamless steel tubing of great strength and are 25 inches in length. Has ebony finished wooden cross handle, 19½ inches wide, 24 inches from the floor. Back measures 11x14 inches and is adjustable to two positions: it is softly upholstered, which means added comfort to the child, a fact easily appreciated by every mother.

THE SEAT. Is soft and roomy, being 16x12 inches in size. The flat, steel springs are strong and resilient which adds life to the cart and means an easy, restful motion for the little one. Has 10-inch enamelled wheels which are fitted with ¼-inch good quality, rubber tires. Nickel plated fenders protect the cart as well as the child and also improve the appearance of the cart.

THE FOOT HOOD. Is of four bow type and matches the upholstering throughout as shown in illustration above: 16 inches high, 13 inches wide and has a spread of 19 inches, making it sufficiently roomy for perfect comfort. Length of carriage with back in upright position is 25 inches. Folds into a space of 8½ x 19 x 28 inches. Further details are given below.

THE FINISH. Has nickeled arm rests, handle corners and hub caps. The legs of arms on both hoods are framed and the footwell frame is handsomely trimmed. Other metal parts are black enamelled. A very substantial cart which we guarantee in every way. Shipping weight, carefully packed, is approximately 35 pounds. No. 7K840. Price...

SEND US YOUR ORDER

One-Motion Collapsible Go-Cart

YOUR ORDER BRINGS IT TO YOU. What is the use of being without this handy "comfy" Go-Cart when you can get it on credit. If you have longed for a Go-Cart to relieve you from the tedious task of carrying your child when you are tired and out of sorts, if you have said to yourself, "I'd like to have a go-cart, but I can't afford it just now," forget this seeming objection and take advantage of our liberal credit terms. The small sum it takes to get this great convenience and the little amount it takes to pay for it in small installments, are so thrilling that you will never miss the change.

STRONG AND SERVICEABLE. The manner in which this excellent Go-Cart is put together insures great strength and durability. It is built for hard usage and will live up to your greatest expectations. Has a padded seat to add to the comfort of the little one; padded back can be adjusted to two different reclining positions and at the same time the foot-well can be raised. The fine spring construction is another point in its favor that makes riding easy. The wide seat gives plenty of room for bedding and pillows.

IT FOLDS FLAT

EXCELLENT MATERIALS THROUGHOUT. The covering used on the hood is of fine imitation leather. The cart comes in black, green or brown. State which you desire. The automobile hood has a 5-inch spread and is equipped with rolling side curtains; ebony finished wood cross handle. Back measures 13x14 inches, wheels are 18 inches in diameter and are enameled finished, has 5-inch rubber tires. Pusher is made of steel tubing 5-in. wide. The hood back areas are nicked plated; seat rail, hub caps, fenders and handle corners nicked. Other metal parts are black enameled. The frame measures 46x27 inches.

REMEMBER THESE FACTS. When you step to consider the many great advantages that this go-cart possesses and the small amount it takes to have it, you can not afford to pass it by in justice to yourself and in justice to the comfort of your child. Shipping weight, about 25 pounds.

No. 7K351, Price $10.85

SETTLE THE QUESTION in your own mind now, once and for all, send us your order and we will ship you this fine new collapsible go-cart. Use it on approval; if you do not care to keep it, return it at our expense, according to our legal guarantee, and we will refund every penny you have paid out, including transportation charges. This liberal proposition should be sufficient evidence for you that we have unlimited confidence in the many advantages possessed by this easily dependent one-motion collapsible go-cart. Below you will find all information that you desire concerning its operation, construction and dependability.

SIMPLE TO OPERATE. There are no complicated parts to get out of order, and it opens and closes with one motion. It folds very compactly and is therefore easy to carry about. To open, simply take hold of the front rail with one hand and the cross handle of pushers with the other, draw the two together and one motion collapses it to a compact package that is extremely handy to carry about at will.

Hand Rubbed

Long Leaf Suspension
Spring Under
Seat Is Self-Adjusting
To Varying Weights

THE CONSTRUCTION of this go-cart is for baby carriages at this price. Now is this merely a nutshell of fact. The facts as stated will be accepted by after a careful test of this number. It is rigid in construction, every firmness and resiliency is well. The price is other feature in its favor. It is so reasonable that I cannot afford to overlook it. If you really are interested in a go-cart, burgundy. We urge you to read the full details in the model as enclosed in the following paragraphs. Then in to send it on approval. If it pleases you make your order as outlined on Page 1.

UNIBRAME. The pushers and frame are made of 1/4-inch steel tubing, being fitted with 3/8 rubber tires. The simple brake is another noteworthy feature. Its simplicity will be appreciated by keen buyers. Extra large side-walls are lightly polished to a fine finish and are really adapted with a black stripe. The heavy built seat and back are rarely ever found in any but the most expensive cars—yet are offered in this excellent model. The hood is large in size, having a spread of 25 inches. It is the automobile frame as illustrated. Roll ends on sides back protect child from inclement weather.

THE WHEELS as mentioned in the previous paragraph measure 12 inches in diameter and are fitted with 3/8-inch rubber tires. They are exactly balanced to insure the smoothest of the metal parts. The body is unusually large and comfortable. It is 14 inches wide between the sides and gives a good 12 inches head above the back as finish of the sides of the cart and is attached only to the seat. It moves up and down at the seat in the spoon when the springs come into play, so that the child is never on the back in case of accident. Plenty of room for children and bedding so child can be made comfortable.

THE SPRINGS. There is a long leaf suspension spring under the entire length of the cart. This is a double spring that is self-adjusting to the varying weights of different children. Two smaller and more sensitive leaves of the same take care of a very young child. With more weight the long leaf spring goes into action. This assures a perfect adjustment to the weight of a child at any particular age. No carriages have an easier rolling spring than this model. The sides are made of thoroughly wood veneer held together with a steel channel binding. Two coats of the finish are used to finish the sides and the second coat being rubbed which gives it a very high lustre.

THE UPHOLSTERING is, as a fine grade of imitation leather, in black or brown. This covering is used in the seat, well, foot and hood, the seat and back being very flexible parts. The back adjusts to three positions. This car can be folded with ease, and when collapsed measures 34 5/8 inches by 21 inches. The finish to is as follows: Nickel plated head and arm supports, cushioned bindings on sides and back, and frame covered with rubber trim and leaf. If you order this car in either black or brown enamel, when ordering please state which color you prefer. We cannot impress you too strongly with the excellent appearance of this magnificent go-cart.

STORM FRONT. If you desire, you can order the storm front to be fitted to this go-cart at an additional cost as shown below. This storm front protects the child in stormy and unpleasant weather—yet it is fitted with a window that is on a level with the child's eye when it is in sitting position. Every desirable feature imaginable is incorporated in the building of this article. Tell us to send it to you, and we feel certain that you will be well pleased with your purchase. The shipping weight of this model is approximately 55 pounds. No. 7K845, Price $12.85

$21.35

Made With Attractive Artillery Wheels. Nickeled Handle Corners

Operation. Press the pedal lever with the foot and turn body of carriage to the right, as shown in Figure 2. When completely reversed, as shown in Figure 3, lock securely as any carriage in position of Figure 1. To return body to position of Figure 1, press lever again and reverse the operation.

When Turned completely the child's eyes are protected from sun or outdoor view; and you can watch the little one. Advantages of air brush finish, used on this model, are explained above. This model has flat reed body, with half round reed rolls.

Finishes. Baronial brown, gray or ivory. Body half nickel, hood full-lined with corduroy to match. Gear black, excepting gray finish which takes gray gear. 1/4 in. wood artillery wheel, 1/4 in. rubber tire. Foot brake, nickeled hub caps, foot well, finished sides, seat and back, nickeled plated handle corners, resilient steel springs. Shipping weight about 7 lbs. No. 7K1158. Price $21.35

Has Padded Sides, Seat And Back. Hood An Body Are Flat Reed. Strong, Tubular Pusher

An Innovation in finishing is a feature of this excellent sleeper. For years artists have used the air brush to lay colors in paint so evenly that just a brush stroke could be seen. This wonderful invention has been perfected so that it can be used for finishing reed carriages, and is used on this model. It assures an absolutely even finish over entire carriage and eliminates "runs," because it does away with dipping. Besides there is no collection of varnish or enamel between the strands of reed.

This Model has flat end reed on the body with half round reed rolls. The hood is very easily adjusted to any position desired by merely releasing and tightening the screw at the side. You can have your choice of ivory, gray or Baronial brown finishes, as desired. Please state which you prefer. When the body is reversed, the length of the body is upholstered with reed to match the finish. The hood likewise is upholstered in the same manner to match the body. Made with nicely padded sides, seat and back. Back is of the reclining type.

Roomy Foot Well is also provided. The space under the foot well is enameled to match the finish of the gray carriage, the ivory and brown having gray. The 5-in. pusher is of the long tubular type. Flexible steel springs are another feature of this model. It is made with wire wheels. These measure 11 inches in diameter and are fitted with 1/2-inch rubber tires. In a positive foot brake. Nickeled hub caps used on the wheels materially enhance its appearance. Body measures 17 in. wide and 39 in. long with back down. 31 in. long with back up. Shipping weight about $2 lbs. No. 7K1157. Price $16.75

Reversible Gear Feature Enables You To Turn Body Completely Around. Protects Baby's Eyes From Sun Or Strong Wind You Can Watch Child All The Time

WHEN YOU BUY
a convenience for the child there are
several factors to be considered serious-
ly. In the first place the child's comfort must be regarded.
On the other hand, the ease with which the go-cart can be han-
dled is a matter of vital importance to the mother; and we
wish to say that in presenting this splendid new model both of
these points have been carefully considered from every angle.
This is an article which will bring equal comfort to both the
child and the mother. In ordering remember that you are
protected by our legal guarantee of satisfaction.

THE USE
of this cart will prove conclusively all of the
claims which we make for it. It is fully capa-
bilie, as shown in the small illustration to the right, being
closed, it can be carried about with ease. It has
patent ball and socket direct bearing type of gearing, and
nickeled pushers symmetrically curved. It has a 5 piece han-
dle with nickeled side grips and ferrules. One of the
best part features is the shock absorbing springs which run
the entire length of the cart. These assure an easy spring
which means quiet clumber and restfulness to the child.

THE BODY
measures 12 inches wide by 35 inches long.
There is a comfortable, padded seat and back,
the latter can be adjusted to three positions. The sides back and
seat are made of 3-ply veneer, covered with patent leather,
gold striped, set in heavy, steel channel. Borders are nickeled
as well as the fancy panel, as illustrated. The hood
is of the new, auto style with nickeled plated, tubular fixtures,
carrying out the rounded effect of the trimmings throughout.
The wheels are tin-der, being 12 inches in size; have 19
spokes and are fitted with 1/2-inch rubber tires.

MUD GUARDS. Particularly note the oval, nickeled plated
mud guards, which are not only the means
of protecting the sleeper from becoming bespattered with mud,
but are an ornament as well. Also has strong wheel brakes.
The finish is black or brown enamel with upholstery to
match. State which you prefer. Has foot well as shown in
the picture above. Refer to page 1 for our liberal cred-
terns on this elegant Pullman Steeiner. The approximate
weight, carefully crated, is about 45 pounds.

This Refrigerator Has 3 Wire Shelves

A REFRIGERATOR BARGAIN

This Is Constructed of Genuine Ash Lumber In Golden Oak Finish. Take Your Choice of Galvanized Steel or Enamel Lining At Prices Below. Is Sanitary And Economical

ADJUSTABLE SHELVES are features of the Hartman refrigerator. These shelves are genuine steel wire woven on heavy steel wire frame and heavily tinned. The ice rack is made of galvanized steel bars welded together, the strongest and most common type ice rack in the country. After passing over the ice the air falls directly into the provision compartments, displacing the warmer and lighter air, thus the warm air is forced up the flues at either end of the ice compartment, where it contacts with the ice; it is purified, cooled and again falls, thus keeping up a constant circulation.

INSIDE CASE is of odorless and tasteless lumber, matched and clamped together, well nailed and glued and fastened to hardwood cleats, making it thoroughly air tight. Outside case is nailed and glued to clamps which bind the inside case, making one of the strongest and most durable refrigerators ever built. Finished in three coats of high quality black and waterproof enamel, giving a handsome and serviceable gloss finish preserving with enamel drip cup. This prevents cold air from escaping through waste pipe. The insulation is the dead air space and non-conducting sheathing. Choice of galvanized or enamel lining at prices quoted.

SHelves are made of genuine steel wire woven on heavy steel wire frame and heavily tinned. Ice rack made of galvanized steel bars welded together. Air after passing over ice falls directly into provision compartment, displacing warmer and lighter air, forcing it up flues at either end into ice compartment where it is purified and cooled. Has inside case of odorless and tasteless lumber, sanitary and economical. Has practical syphon drip cup. Insulation is the dead air space and non-conducting sheathing. Note special handle device for padlock, shown to left.

All Sizes Are Fitted With Two Wire Shelves Except No. 7K1282 and No. 7K1287 Which Have Only One Shelf.

EXTREMELY SANITARY. This high-class refrigerator is constructed in a very careful manner so as to make it very sanitary. It is easily cleaned, is odorless and most economical in ice consumption. If you cannot have a fine, baked-on WHITE ENAMEL LINED refrigerator of more permanent order for this one and we will send it on approval. If you are not satisfied in every way, you can return it at our expense.

STUDY THE ILLUSTRATION

Note every feature possessed by this remarkably fine, low-priced article. It is constructed with an inside casing of odorless lumber, matched and clamped together in a very substantial manner. The outside case is of solid hardwood lumber.

COLD AIR CIRCULATION

In this illustration we show the way in which the cold air is circulated. This principle of cold dry-air circulation helps in the economy of ice and preserves satisfaction in the preserving of food. When you consider the fact that you can take a year to pay for your refrigerator, you should not delay sending us your order.

OTHER FEATURES.

All lift lids are supplied with our patent lift lock. Hinges and locks are all of genuine nickel-plated brass and are heavy and substantial. Wire shelves in provision chamber and galvanized iron ice chamber are of removable type for cleaning purposes. White enamel lined, baked-on steel. Look over the list of sizes shown below and decide what capacity refrigerator will best suit your requirements.

IMPROVED NEW DESIGN
HARTMAN REFRIGERATORS

HERE'S A REFRIGERATOR that has been designed for economy of space, allowing a great deal of room for ice and provision chambers, without taking up any more floor space than many refrigerators of smaller design, yet costing as much as the one. It embodies the most improved scientific principle of cold, dry air circulation which has been proved the most perfect for working great ice economy. The provision chamber is fitted with wire shelves adjustable to different heights, thoroughly sanitary and guaranteed in every way. Both the ice chamber and the provision chamber have large front doors which are the most convenient construction known in refrigerators. This is one of the largest money values ever known in refrigerators, and it preserves the food perfectly, keeping an even temperature and consuming half the quantity of cold air that is usually necessary to produce proper results in large refrigerators of this type. Order one and have an entire year to pay for it.

EXTRA LARGE HARTMAN REFRIGERATOR BARGAINS

Galvanized or Enamel Lined
A WONDERFUL OFFERING

MADE OF SOLID ASH in all the sizes at the low prices quoted below. They are handsomely finished in a rich shade of golden. Only high grade materials are used in their construction and they are extra large refrigerators, heavily built, so as to stand extreme weather. Any size is remarkably durable. The trimmings, such as locks and hinges, are made of solid brass, heavily nickel plated, and easy running casters are supplied. The ice racks are of galvanized steel, rigidly riveted together and of lasting quality. Ice chamber has front door and removable accessories in interior so as to be easily kept clean and sanitary. Construction of entire refrigerator is of paneled type and only well seasoned ash is used.

THE SHELVES are made of nickel-plated wire and easy to keep clean; they are adjustable and can be raised or lowered to suit the convenience of user. The provision chambers, both large and small, are constructed so that they will always carry a perfect circulation of cold air, which faciliates the use of an odorless box that will consume less ice and cut all high ice bills. Waste pipes are removable for cleaning. The insulation is of most satisfactory type, assuring the coldest air circulation at all times. You can order this splendid refrigerator lined with galvanized iron or elegant white enamel lining.

Page 348
White Porcelain LINED "MANHATTAN" REFRIGERATORS

IF YOU WANT SATISFACTION in a refrigerator you should select one from this page. The appearance of a refrigerator is often its most important consideration. A few large manufacturers have found that to keep the refrigerator at a desired degree of cold temperature amounts to something a household must keep in mind. There are many refrigerators on the market which require maintenance beyond all reason and are out of the question. The "Manhattan" Porcelain Lined Refrigerator is strictly constructed, beautiful in appearance and is the most economical ice-maker ever heard of.

IS WELL CONSTRUCTED. The cabinet is constructed of solid oak (smaller size in ash), finished rubber and matched in an expert manner, and fitted with nickel plated solid brass hinges and locks. The double walls are insulated with sea grass quilting and steel board lining, one of the best insulations known. The ice chamber is lined with galvanized iron, having removable ice tank with rack as dimensioned and detailed on another page of this refrigerator description, removable drain pipe and patent trap; the wire mesh shelves are removable. An air-tight top lid fits and closes perfectly and is fitted with doubled galvanized interior extension board.

SOLID OAK GENUINE PORCELAIN LINED. This refrigerator is constructed of solid oak in the two larger sizes and the smaller size is constructed of ash. In addition to the fact that it is one of the best refrigerators made, it is sold at a lower price than is often quoted by other concerns on refrigerators inferior to our "Manhattan." It is lined throughout with heavy porcelain with the exception of the ice chamber, which is in a steel chamber of galvanized steel. Its building construction will save for the housewife a large portion of the ordinary ice bill.

SANITARY AND ODORLESS. This "Manhattan" white porcelain lined refrigerator is strictly sanitary and odorless, easily kept clean, pure and fresh. Its smooth white, genuine porcelain lining, sanitary wire shelves, scientific cold air circulation make uselessness impossible, while an ordinary amount of ice is taken. Do not forget the scientifically fine points contained in our "Manhattan," and in selecting your refrigerator remember you will assist in maintaining a high standard of health in the family. It is absolutely guaranteed in every particular. Prices and sizes of the famous and popular refrigerator are quoted below.

[**WHITE PORCELAIN LINED SOLID OAK REFRIGERATOR**]

Our Highest Grade COMPARTMENT REFRIGERATOR

PORCELAIN LINED. In our "Porcelain" Refrigerator we are offering dependable quality in the materials and making of all porcelain. The arrangement of the compartments is ideal. There's plenty of room provided for ice and provisions. Good value at prices quoted below. The porcelain elements are lined with genuine porcelain for superior to any metal lining, from a sanitary point of view. Large compartment is equipped with nickel ice shelf, removable shelves; four shelves in the larger size and three shelves in the smaller size.

SCIENTIFICALLY BUILT. It has scientifically heavy porcelain lined walls with air-space and filling of sea grass quilting and steel board lining which keeps the ice from melting rapidly and serves to preserve the provisions, makes this refrigerator much more popular in every way than the ordinary kind. These points are especially satisfactory to the housewife who has learned from experience that a refrigerator which will save ice and which can be readily cleaned is the most desirable. All doors cast off by the victims are absorbed by the cold air, which circulates through the provision chamber and are carried out through the waste pipe.

THIS SOLID OAK BARGAIN WONDER is very carefully constructed by men who are experienced in refrigerator building. The one and only number is thoroughly seasoned. The walls are extra thick, air and sea grass quilting insulat-ed, the massive double walls in perfectly air tight and have solid brass nickel plated patented automatic catch and lock. Prices, sizes, etc., are quoted below.

WILL CUT YOUR ICE BILLS without the least effort, as the cold air after passing over the ice, falls directly into the provision chamber, displacing the warmer and lighter air and forcing it up the flues in each and into the ice chamber, where being in contact with the ice, it is purified, cooled, and again falls, thus keeping up a constant circulation. This principle makes a wonderful economizer in ice and means absolute satisfaction in the preserving of foods.

VITAL FACTS ABOUT "REGENT" STOVES

SECTIONAL TOP OF RANGE

It is our policy to put the very best materials and workmanship into our ranges, even though this means increasing the cost to us. Fortunately, for our patrons, this adds an extra value to the range and enables us to buy at exceptionally low cost. Therefore, you are securing the best quality without being compelled to pay any higher price. As a practical example of this principle we call your attention to the sectional top of range shown above. Many of our ranges have this sectional top feature, in addition to the many standard features made available in parts and are easily replaced. This construction also gives room for expansion from set to set.

REDUCING LIDS, COVERS, CENTERS

Some of our ranges are fitted with the convenient reducing lids. These present a very advantageous feature as they permit the use of different size cooking vessels, without exposing the entire range to excessive heat. This extra range of lid will be found on a number of our stoves. The covers and centers, shown above are made heavy and the ends are detachable, can be lifted up quickly, being a time and fuel saver, they are reinforced as shown (some being ribbed) and are of full size, as listed on the respective ranges pages.

Oven Measures Are Given On Each Page Where Ranges and Cook Stoves Are Shown

To Measure An Oven See Instructions Above These Pages

LARGE AND ROOMY OVEN

The importance of the oven to all who prepare the family meal is abundantly realized. "Regent" ranges have good ovens, being fully equipped with racks to the dimensions given on each page. They are equipped with sliding removable racks, as shown in the picture above. Such range oves are square, well balanced and quick in action. Floors are strong and possess a uniform girt to balance door, and drop doors they require a minutes' effort to be drawn out, washed and cleaned. Many of our ranges have wooden shelves, which do not heat up, and can be conveniently tipped with bare hands. To measure the oven, take entire frame on inside, measuring from frame to lick; then measure height. In cook stove always allow a little in oven doors.

Oven Thermometer

Most "Regent" ranges are equipped with this very convenient feature. It enables the user of the range to determine the oven heat without the necessity of opening the door or using any adjusting, being carefully tested before leaving the factory. It is a marvelously helpful feature furnished without additional cost on ranges where it is shown. It saves time, fuel and labor. It aids in the control of the fire and drafts and even becomes an indispensable accessory.

TOASTING OR BROILING

A great number of "Regent" ranges are furnished with this extremely convenient feature. This front side of the top can be raised or lowered with ease. It provides a very practical feature. At the same time it will be found to be of unlimited value for toasting purposes. Don't overlook the fact, also, that it has another feature worth mentioning. It presents an opportunity of adding large loops of steel and also of proofing the fire before purchasing a range, cook stove or oven. To open the door or range front up, for instance, to look over the data, and then put it on the page following. They give you in detail some of the points which have been described in the stock page. And all are points well worthy of attention. They prove in a practical way that we are on the alert to give the finest and genuine "Regent" advantage that it is possible to secure.

CHICAGO 345

HARTMAN'S FOR CREDIT TERMS SEE PAGE 1 OF THIS CATALOGUE

If You Wish a Stove to Serve the Double Purpose of Heating and Baking Order a Cast Iron Range or Cook Stove.
**LARGE REMOVABLE FIRE POT**

Our basic burner fire pots are large, both at the top and bottom. They are extra heavy and strong and can be very easily removed by pushing the strip across the front. All that is necessary is to slide them out. To determine the size of the fire pot, measure the distance from the outside to outside. These fire pots are of heavy cast iron.

**PATENT DUPLEX GRATE with shaking ring.** Single load of coke burns so very large ash pan. This grate has shaking ring as illustrated which cleans out partially filled fire pot from clinkers and ashes, turning them into ash pan below. The result is a live fire, free from both clinkers and ashes.

**AIR TIGHT SWEDGE JOINT**

This Construction
Found on Better Oak Stoves

**YOU WILL OBSERVE**! when we compare the swedge joint illustrated to the left. Notice that the swedge drum is turned and clamped down by our famous swedge body construction. This forms an air tight joint. There are no fire pot bolts exposed to the direct fire, and consequently no burning off of rivets.

**HEAVY CORRUGATED BOWLS**

This type is used on all styles of "Regent" oak and hot blast. It is a well proportioned fire pot. Notice the shape and groove. In ordering, be sure that you purchase a heater without pot large enough for your requirements. To obtain the correct measurement always take the measure from the outside to outside of the fire pot.

**HOT BLAST TUBE**

Saves 60% of Heat. Used on "Regent" Hot Blasts

**ALL OF OUR "Regent" hot blast heating systems are suitable.** It takes the air from the top, forcing the fire and heat downward. It is actually a saving of about 60 per cent of the heat that ordinarily gets up the chimney. Another economical advantage is that any kind of fuel can be used without blinding the efficiency of the heater. The heat is intensified and the gases and smoke are entirely consumed.

**YOU ARE ADVISED TO ORDER A STOVE THAT IS LARGE ENOUGH FOR YOUR REQUIREMENTS**

A Small Stove is More Expensive To Maintain Than A Large Size
A REMARKABLE STOVE FOR THE MONEY. WILL BURN COAL OR WOOD

Our "Superb" Regent Cook Stove, which we are offering at the wonderfully low price quoted, is a modern, up-to-date stove, from which you will get the utmost satisfaction. It is well made in the way that "Regent" productions are all known to be turned out with a very heavy cast bottom, firmly locked joints and well finished edges. The bottom is made for strength and durability, and is mounted on high legs for sanitation, making sweeping under stove very handy and easy. This construction makes it possible for the stove legs to carry many times the weight of the body and still remain very firm and rigid.

GREAT CARE IS GIVEN in the making of our stoves, to the materials of which each and every part is made. Exceptional care is always given to castings, and the fitting of the limbs, as well as finish and ornamentation. No customer of ours ever received a stove that has not passed a careful and rigid inspection. Before any shipment leaves our plant, it must be found absolutely perfect in every detail. Why this great care and our breadth, strong, strict guarantee as protection, you are sure to be well pleased in every way.

WE WANT YOU TO KNOW that we consider this a splendid value. It is strictly a "HARTMAN" bargain, and your experience in buying stoves at home surely will show you that such a well made large handsome Cook Stove with so many features as are employed in the manufacturing of our "Superb" Regent are not usual in cook stoves at these prices. And, don't lose sight of the fact that this stove can be had on approval, and it must give complete satisfaction or you may send it back. Does Not Take Water From Coil

The Small Size is listed for those who insist upon having it. However, we strongly advise ordering larger sizes for fullest measure of satisfaction.

CASTINGS of our "Superb" Regent cook stoves are handsomely brought out in an ornamental relief pattern very much preferred by our customers. The design, which is very pleasing, adds grace and beauty to this model and is held in strict accordance with the balance of the stove. It is very neat in appearance, serviceable and easily cleaned, and stoves usually selling at our low prices quoted below seldom have such rich designing. This model shows clearly our ability to offer wondrous values.

BURNS COAL OR WOOD. Flat grates for burning wood or coal are furnished with all sizes of our "Superb" Regent. Fuel may be supplied by either the fixed feed or swinging feed door. When ordering your stove be sure to order a size plenty large enough to fill your needs, as a small stove is more expensive to maintain than a large size in proportion to the results obtained.

YOU CAN ORDER A RESERVOIR as shown in illustration, fitted to the largest size only. Reservoir is a great addition to any stove for heating water, and we recommend that you order your "Superb" complete with this construction reservoir, which, when supplied, is made of heavy cast iron with white porcelain lining. When stove is not equipped with reservoir a large extension end shelf, as shown in lower illustration, is fitted. Bear in mind that bearing the two smaller sizes of our "Superb" are furnished with reservoir.

THE DETAILS of this stove have not received every consideration at the factory. The most valuable points are as follows:

- The handy jumbo feed door as shown on end of stove, well proportioned oval firebox, with very heavy casings: shadings and dumping grate works exceptionally well with either wood or coal. Observe the outside oven shelf, top shelf, hitter, heavy covers and centers, cutouts, and rest in fact, you will find everything necessary to make a first class stove. Touch feed permits fuel to be supplied to stove without removing cooking utensils on top. Oven door opener is operated by a slight pressure of the foot.

CASTINGS of our "Superb" Regent cook stoves are handsomely brought out in an ornamental relief pattern very much preferred by our customers. The design, which is very pleasing, adds grace and beauty to this model and is held in strict accordance with the balance of the stove. It is very neat in appearance, serviceable and easily cleaned, and stoves usually selling at our low prices quoted below seldom have such rich designing. This model shows clearly our ability to offer wondrous values.

BURNS COAL OR WOOD. Flat grates for burning wood or coal are furnished with all sizes of our "Superb" Regent. Fuel may be supplied by either the fixed feed or swinging feed door. When ordering your stove be sure to order a size plenty large enough to fill your needs, as a small stove is more expensive to maintain than a large size in proportion to the results obtained.

YOU CAN ORDER A RESERVOIR as shown in illustration, fitted to the largest size only. Reservoir is a great addition to any stove for heating water, and we recommend that you order your "Superb" complete with this construction reservoir, which, when supplied, is made of heavy cast iron with white porcelain lining. When stove is not equipped with reservoir a large extension end shelf, as shown in lower illustration, is fitted. Bear in mind that bearing the two smaller sizes of our "Superb" are furnished with reservoir.
A Great Achievement

THE IMPROVED WINNER is not constructed to take either a water front or water coil, but should you desire to heat water with it, you can secure this cook stove with reservoir tank. In the larger sizes, a reservoir tank is not a part of the stove. It is a big fuel-saver—a point which will be appreciated by the thrifty housewife. It is much cheaper in price than you would expect of a cook stove having the excellences alluded to above. In presentation it have made an extra effort to give you a value such as you do not find everywhere.

THE IMPROVED WINNER

HEAVY JOINTED TOP. The "Improved Winner Regent" has a very heavily jointed top with good heavy castings and center. It is supplied with removable hearth side, large ash pan and strong, high, French doors, cast iron legs. When furnished without the reservoir, it is fitted with a neat and skillful hearth door convenient for peeling fire.

THE FIRE BOX. The fire box is made just right, being large in size and height. The heavy lumps and thorough cremation insured long life to the parts which are directly exposed to fire. The pitched head enables the ash to be removed easily and conveniently, thus preserving the grate from rusting and keeping it in good order, and at the same time lessening the work of cleaning the front of the oven.

THE OVEN. As explained above, is made of heavy cast iron, which adds to its durability, rigidity and consequent lasting qualities. Possesses two doors, one on each side, and is fitted with even back. The fine construction around the oven is such that it is used to heat on all sides, making it practicable for baking and roasting.

RETURN FLUE CONSTRUCTION. IS MADE to meet the demand for an improved cast iron, oiled stove that cannot be thoroughly appreciated until the figures are put to actual use. The workmanship throughout is better than you would expect in a cook stove at these prices. In fact, it is of the kind of a stove that is in every way you would be proud to have in your kitchen. Although this design is simple, it is strong and handsome.

THE STOVE. The "Winner Regent" is fitted with a neat and skillful hearth door convenient for peeling fire, and is supplied with a "kicker" for opening even door with ease. The Rocl." is made to fit your needs.

OUR APPROVAL OFFER. enables you to have one of the "Winner Regent" cook stoves in your own kitchen, and we do not want you to return it if you do not desire it. In every way it is a typical Hartman's value.

You Get Excellent Service
WITH the "Favorite" Regent Cook Stove

On this page we offer our celebrated "Favorite" Regent Cook Stove, which, when compared with stoves sold by others at similar prices, will prove our claims of splendid value-giving. This in itself gives you a convincing conception of the splendid buying and selling advantage of this concern.

**SOME FEATURES**
of our "Favorite" Regent are: The heavily cast sanitary base, with all mountings carefully ground and fitted, which assures great strength and durability; useful foot lever for opening oven door, which is a great convenience when one has her hands full of utensils and wishes to open the oven door, the operation consisting of a simple touch of the foot. A handy touch feed for supplying fuel while top of stove is occupied. The "Favorite" has a return flue construction that gives good results.

**BURNS WOOD OR COAL.** Flat grates are installed in our "Favorite" Regent Cook Stoves and will burn either coal or wood. Grates are exceptionally well made, being cast of durable materials. The firebox is of oval shape, thus doing away with all dead corners. Every little detail in the construction of these parts has been carefully watched, with the result that the finished product is a model in value-giving at our low prices.

**Does Not Take Water Coil or Front**

Small size stoves are carried and listed to meet the requirements of small families only. We strongly advise ordering larger sizes for fullest measure of satisfaction.

**RESERVOIR**
can be supplied only with No. 6KI151, at per price given below. This hot water reservoir is made of heavy cast iron, with a white porcelain lining. The tank can be lifted out with ease. The heating of reservoir is arranged with a large flue, and water can be heated in an exceptionally short time.

**NICKEL TRIMMINGS**
add greatly to the appearance and attractiveness of any stove, and it is unusual to get as many parts on a stove priced at these figures. These nickel parts are all heavily plated with a good quality of nickel silver and are furnished. They should not tarnish from heat. We supply the following nickel trimmings: oven door panel, oven shelf, ash guard, towel rod, shaker and lifter.

**OUR WONDERFUL PURCHASING POWER**
enables us to secure the very cream of the market in all merchandising we sell, and by this power we can give maximum value at the minimum selling price. We have retail stores throughout the United States, and in each and every one the first thought of giving our customers the largest values at the lowest prices is exercised. We take advantage of every opportunity to work economies and reduce prices.

**YOUR CREDIT**
is a most valuable asset and you should establish it with "Hartman" before you attempt to buy any furnishings for your home. From us, you get quality merchandise with long, liberal credit, and our positive assurance of satisfaction or your money back. Under our system there is no skimping or saving to get what you need. Just buy it and pay for it as you go along, in small, easy payments. You may order without fear of what you require for your home.

**NOTE:** Smallest Size "FAVORITE" Listed Has Full 15x17½ Inch Oven.

</table>
In the "Triumph" Regent, we offer a superior cook stove at a bargain price. It is, in every way a typical Hartman value; because it gives to our patrons every possible benefit which our mammoth purchasing power could secure. In ordering it, be sure to select a size that will prove large enough for your requirements. It's to your advantage in the long run.

**THESE POINTS** make the "Triumph" a very desirable, practical cooking stove. It is equipped with improved Duplex grates, for burning either coal or wood. The swing teflloke is very handy; and, being silver nickeled, helps to brighten up the stove, as do the other nickel parts, shown in the illustration. You can order it either with or without the reservoir, as noted at the bottom of this page. Has strong, double doors on the oven.

**FLUE PLAN** of heat distribution is of highly efficient type. By the return flue construction the heat from the fire box reaches every part of the oven, giving an even, perfect circulation. Thus satisfactory baking results are assured the purchaser of the "Triumph."

**Oven Opens From Both Sides**

**THE OVEN IS STRONG.** The reinforced oven bottom adds strength and life to this stove. This oven is made of three sizes graduated as follows:

- **26-inch oven**
- **20-inch oven**

In order to give correct number of accessories according to the size oven that you require. The 20-inch oven will comfortably accommodate four 9-inch pies plates.

**THE NICKELED PARTS** embrace the oven door shelf, foot plate or "kicker" for opening oven door, door handle, and catch, ten pot stand, feel door handle and towel bar. These are all heavily plated with bright silver nickel. They set off this stove without being overly lavish and "gaudy" in appearance. In fact, the nickel trimmings are so well distributed that the "Triumph" will prove to be an ornament in addition as well as an article of practical usefulness.

**THE IMPORTANCE** of a stove can not be overestimated in the home. That is why it is to your interest to consider this vital matter very carefully. If you order the "Triumph," you will obtain one of the very best cook stoves on the market for the money. We make this strong statement because we feel confident of its great merit.

**THE HIGH BASE** is exceptionally strong; so substantial, in fact, that it could more than sustain the weight of the body of the "Triumph." The left end of this stove is constructed with a pan box, for furnishing fuel to the fire box without disturbing utensils which may be on top. The large and roomy hearth below, is of practical beauty, because it can be used as a shelf when supplying this to oven or removing pans after baking is completed.

**ABOUT THE RESERVOIR.** The "Triumph" Regent may be purchased with cast iron reservoir, with Japanned reservoir covers, it desired. Into it is set a porcelain-lined tank, which can easily be removed for cleaning. The tank has a capacity of 24 quarts. By the use of a damper the heat may be turned on or off. When turned on, water is heated by circulating the flow system of heat transmission. The "Triumph" is not constructed to take either a water or water tank for refrigerator water. In a kitchen pressure tank. Please mention whether you wish this stove with or without reservoir.

**THE DUPLEX GRATE** with which the fire box is equipped is designed to burn either coal or wood. For burning coal the grate should have the open side up. When wood is used the end rails should be reversed. We refer you to the introductory pages of the stove section for full information regarding the duplex grate, as well as other features mentioned on this page. Read them over carefully for a concise explanation of various features worthy of consideration.

**OUR GUARANTEE** is not only your protection but proof of our good faith. If, after receiving this stove, it does not come up to our representations, or if you are not satisfied you do not have to keep it. If, on the other hand, it pleases you, make your payments in convenient sums, according to the terms on Page One.
**A Steel Cooker And Baker**

ORDER THE

**“Prime” Regent**

AT THESE PRICES

BURNS WOOD, COKE, COBS — IN FACT ANYTHING

COMBUSTIBLE

---

Bailed Ash Pan Furnished Free
Accessories Include Shaker and Lifter

---

**BURNS COAL, WOOD, COKE, COBS OR ANYTHING being equipped with our heavy substantial duplex grate. Another noticeable feature is the handy pouch feed. By using this pouch feed to supply fuel, it does not become necessary to remove articles that are on the top of the stove. This is a great help and saves many fingers and hands, which otherwise may become burnt in moving hot pots to supply fuel by top feed.**

**STEEL BASE.** A strong steel base, supported by well-shaped high legs, is supplied. It is well constructed of serviceable material, and is easy to clean under. The front legs are beautifully nickel clad and fit perfectly tight and rigid, thereby making the base capable of carrying twice the weight of the body. The base of a stove is one of the many important parts to be watched when constructing high grade models, and any of our stoves with a base will be found to be very secure and firm.

**THE BODY** is of blue polished steel, made with large cooking holes, heavy top covers and long and short centers. The 4-piece sectional top is substantial in construction and is well jointed. The hot air flues are of good size, from which satisfactory results can be obtained. All parts exposed to fire are lined with asbestos board, and this fact alone insures long life to the stove. The fire box is large, well made and arranged to give the greatest possible heat with minimum consumption of fuel. The front slide draft, opposite grate bars, is of great value in starting fires, as it gives the required draft to fire box. Cast iron feed pouch, end draft door and frame. Possesses efficient return flue construction.

---

**THE RESERVOIR**

is one of the latest improved contact types. Either size can be supplied with reservoir when desired. In ordering state whether wanted with or without reservoir. On our “Prime” steel cooking the reservoir front is of cast iron with neat etched design. The top fits flush to main top of stove, thereby adding greatly to space for pans, etc. The water tank is heavily galvanized and thoroughly sanitary. A lid cover is used on this reservoir which allows it to be easily cleaned and to give the utmost satisfaction.

**THE TRIMMINGS**

are of nickel plate, being highly polished, making a very strikingly handsome stove. The following parts are furnished nickeled: The front band, ash door, drop door, box door, oven door frame, oven door panel and oven door handle, as well as front legs. These parts are very carefully and well nickelcd, so as not to tarnish, and are easily cleaned.

**THE “QUICK BAKE” OVEN**

has an asbestos protection, insuring steady temperature, and acts as a preventive against burning out. It is equipped with a balance drop door with gravity handle and operated by a spring. The door, when lowered, can be used conveniently for a rest or shelf to set articles on, when taking them out, or placing them in oven. A rack is also furnished which makes it possible to raise or lower articles in oven, to get more or less heat. A good strong catch is provided to hold door fast. Oven is of reinforced steel.

CHICAGO

"DUKE" REGENT

Cast Iron Cook Stove
BURNS COAL OR WOOD
Made of Best Southern Gray Pig Iron
Accurately Cast, Bolted and Jointed

The "Duke" Does Not Take Water Front or Water Coil

YOU ARE ADVISED TO ORDER A STOVE THAT IS LARGE ENOUGH FOR 8 TO 10 PEOPLE

A Real Bargain That You Will Do Well to Consider Before Buying

NICKEL TRIMMED.
Stove is neatly nickel trimmed; the nickel parts are: Kicker, oven door panel, front door plate, shelf, reservoir plate, & pot shelf. This metal is heavily plated with good quality burnished nickel silver, which should not tarnish from the best.

DETAILS. Our "Duke" Regent has the latest improved duplex grate for burning coal or wood. It is made of the heavy Southern gray pig iron, carefully cast, boiled and jointed. It is mounted on a heavy cast-iron, carefully ground and fitted, making it possible to carry great weight. A large puch feed is supplied, as is a cast-iron hearth. Oven door is equipped with handy foot lever opener, a feature welcomed by women because of its convenience in opening oven door quickly and easily, by the slightest pressure of the foot. The cast iron oven is large and furnished with a rack. The very convenient ash door has a sliding draft register. A hinged pit and wood end feed door, for use when burning wood, are also constructed in this model. The top is supplied with four short centers and equipped with towel rod and soap pot stand.

WHAT YOU PAY FOR when you buy a Regent stove is a low price for good materials and skilled workmanship and a moderate sum above which we add an reasonable profit. you don't pay one penny for traveling men's expenses and salaries and jobbers' and dealers' profits, as you do when you buy a stove of your local dealer. you don't pay the additional profit that many retail catalog houses add to the profit of the stove makers from whom they buy. You save all this, and you have the additional advantage of a consigned credit account.

YOU SHOULD NOT OVERLOOK the convenience of this broad, liberal credit plan. We refer you to the liberal terms stated on page 1 upon which our "Duke" Regent can be purchased. Then, bear in mind, that no matter how low the price, each and every article sold by "Duke" and "Hartman" is covered by our local guarantees. We have satisfied a vast range of customers, and they know that if it is from "Hartman" it is right. Their continued patronage is the direct proof.

WE WANT YOU TO ORDER a "Duke" Regent cook stove and have it delivered to you on your approval plan. You'll find it a mighty fine stove, and by opening an account with us you will have a long time to pay for it, in small easy payments. We will be only too glad to assume all risk of pleasing you. We will save you big money when buying and we will treat you for anything you need to comfortably and completely furnish your home.

HAS POUCH FEED AND DUPLEX GRATES.
The firebox fitted with our "over-the-pan" Duplex grates, which when revolved from one position to another form a surface for burning wood or coal. The firebox is wide and shallow and requires little fuel. It is fitted with pouch feed with Alaska nickel-plated shackle. This rich appearing cook stove is highly recommended by us, will save many years of satisfaction and coming to you fully covered by a local guarantee. Shovel free construction.

"FAME" REGENT
Celebrated Steel Cook Stove
AMARVEL for the MONEY
Large Square Oven Has Spring Balanced Drop Door With Glass Panel

**FIREBOX IS LARGE** and is properly constructed with correct ventilation, which gives it the power to stand great heat without burning out or warping the linings. It is equipped with heavy duplex grate, which can be set turned up to burn either wood or coal, the change operation being easily accomplished from the outside. When grate is turned up and end linings removed, the firebox is prepared for a wood fire. It has handy pouch feed with slide draft damper. By using this pouch feed you can supply fuel without removing any articles on the top of the stove. There is also another slide draft damper when starting a fire because of the direct draft it creates, and it also is helpful when poking the fire.

**NICKELED PARTS** are all highly burnished and are effective ornaments. The silver lustre of these fine nickle plated parts will be found to add to its appearance. The illustration shows how elegant our "Fame" looks when it is put up trimmed with these nickle-plated trimmings, which consist of double bands, front fire door, front ash door, ash door shelf, oven or frame and panel, reservoir ornament.

**HE POLISHED STEEL BODY** is strongly riveted and made of heavy grade cast steel. It has a three-piece jointed top, with large skimming holes and heavy top covers. It also has long and short legs. All hot air flues in our "Fame" are of exceptional size, which assures satisfactory results. In order to avoid warping, the top is made very heavy. The parts that are exposed to fire, are lined with asbestos board and this feature, too, gives great length of durability to the life of the stove. Everything is so built to insure its giving the greatest possible heat on a minimum consumption of fuel.

**A STRONG BASE.** Built of steel and supported by high, neatly designed, cast legs. Easy to keep floor under and around stove clean. Legs fit tight and make base firm. Great importance is attached to base of a stove, for it base is built too lightly, entire stove's quality is lessened. Any of our stoves resting on bases are very rigid.

**SQUARE OVEN** is equipped with a spring balanced drop door, in which is fitted a centered panel containing a glass section. Very convenient to see inside of oven. Latter has an asbestos lining, which prevents burning out and which insures even temperature. Made of heavy gauge steel, reinforced with cast iron brace. Back in oven is adjustable and can be raised or lowered to place articles so that they get more or less heat. Oven door has wood handle and strong catch.

**RESERVOIR** can be supplied for either size and is of galvanized iron, contact type. A contact reservoir is very desirable, for it is a fact that this style heats water with desirable results. The front panel is of cast iron and has neatly patterned design of railing. Top fits flush to union of stove and has removable cover, which gives easy access to inside of reservoir for keeping it clean and sanitary. When a reservoir is ordered it gives additional space to top of stove for placing pots, pans, etc. When no reservoir is desired, stove comes equipped with end shelf as shown in small illustration below. The "Fame" is not constructed to take either water front or water coil for heating water in a kitchen pressure boiler.

ECONOMY REGENT

NICKEL TRIMMINGS are brilliant for lasting quality. They are liberally distributed throughout, giving this model an attractive appearance. They embrace the following: Warming closet band, edge and name plate, brackets, tea pot shelves, towel rod, oven door name plate, oven shelf, hearth band, and door handles are shown. Large slide draft damper makes start of freeway easy and is handy for holding the fire. Draft register in pipe enables you to check heat around the oven.

ORDER IT IN YOUR CHOICE OF 3 SIZES

AND 4 STYLES AT THE PRICES QUOTED

EFFICIENCY was the keynote in the construction of this range. This Standard Range is made of the finest materials available, giving a beautiful and permanent product. We are proud to say that the very name of efficiency was conferred upon it. In our tests of this stove, we found that our patrons would select a base low price. Therefore the suspensions have been found in this model.

FEATURES. The duplex grate used in the construction has been a marked improvement and will burn coal or wood. Fire box is of a sufficient size to do a good fire, but for the best results we urge you to select one of the larger sizes. Has sheet iron construction. Reservoir can be supplied if desired. If a porcelain lined lift-out tank of 14-quart capacity is desired, it is best with Lids and pressure bumer instead of reservoir calor vessel, $2.50.

THE OVEN is a large, heavy cast iron set in a high cast base, as a rule. The sanitary and attractive design should appeal to you. The boiler can be supplied if you wish to heat water, and it can be furnished with the base. The legs are heavy and we carry more than the weight of this range.

Observe That Attractive Colonial Design In This Range.

This is a pipe which can easily be put into the top of the boiler and then connected to the range. The piece of this water coil is $2.50.

HARTMAN'S FOR CREDIT TERMS SEE PAGE 1 OF THIS CATALOGUE

CHICAGO 355
Can Be Ordered With Or Without High Closet Or Reservoir

Fitted With Thermometer In Oven Door.

Duplex Grate Burns Coal or Wood.

A WATER COIL may be furnished at 2.50 extra, if you desire to heat water in a kitchen pressure boiler. See page of stove sizes, etc. Plenty hot water, however, is always ready if ordered with cast iron Russian reservoir. Outer casing is of durable cast iron with removable inner tank is porcelain. Damper turns heat on or off.

NICKEL TRIMMINGS include the following: Fire door and handle, screw draft, ash door handle, top, lock, oven door handle, corner, high, closet brackets, tea shelves, warming closet door panel and handle, warming closet hands and ends. These trimmings are of well finished nickel and add greatly to the beauty of the Improved "Gem" Regent.

ON A BASE of steel, securely and well fitted to high cast legs, this range is raised to the proper height to harmonize with its well proportioned lines. There is a sanitary feature to this construction also, as the large base enables you to clean under stove with ease. The base is extremely durable, being constructed to hold a far greater weight than that of the body. The essentials of a good appearing, smooth finished range have been carried out in the base as well as the body of this stove.

CAST IRON RANGE WITH STEEL HIGH CLOSET

DUPLEX RANGE, with which the fire box is fitted, burns either coal or wood. Fire box is large and oblong in shape and given necessary draft through the sliding side draft which is directly opposite grate bars. Bottom is of one-piece braced construction.

STEEL OVEN made of gauge sheet steel. The drop spring balance oven door is very useful when lowered, serving as large shelf. An accurate thermometer is fitted in oven door. Oven is fully protected from direct heat of fire: eliminating the possibility of burning outside. Bottom is of one-piecebraced construction.

Six Hole Top of this Improved "Gem" Regent is made in sections firmly bolted together. By this system of construction, breakage caused by expansion of heat, is reduced to a minimum. A large pouch feed for pulsing is fuel without removing utensils (which may be in use on the cooking hole) which on the end of the range and is always welcome for the easy manner it affords to supply fuel. You can order this range with or without high closet and with or without reservoir at bargain prices quoted.
THE "CAPITAL" REGENT RANGE

THE NICKELED PARTS are well plated and enhance the attractive appearance of this fine steel range. They embrace the following: Nickel finish on top, front, and sides; trimmings such as to be a constant source of pleasure to the home-loving woman.

Chicago

The "Special" Regent

Polished Steel Range With High Closet

Massive Steel Base is radiantly constructed, being fitted to high box and not designed for extreme weight. To buy a range, it is not enough to choose the one you like, but it is important to determine how the stove looks, for next month look alike in pictures. 'What will the result be? How will it cook, bake and roast?' Whom are you to judge at all? Let us take the risk and then you can find out about the oven, but it is cost of each dollar because it is so in this book. That's fair enough for anyone.

The Nickeled Parts. They are all exactly distributed and give it just as fine a "flash" as more expensive stoves. The nickeled parts include the front strip and front box, oven door frame and panel, pot stand, fire door, toast box, crisscrossed on reservoir, tea pot shelf, high shelf bracket, warming shelf, name plate, hands and ends.

Roomy Steel High Closet

Is made of polished steel, and the roll from is accurately balanced, opening and closing smoothly. It has nearly designed tea pot stand on either side. This high closet door much to make this range a model of perfection, for it gives the desired modern appearance, yet does not make it look clumsy or too heavy.

Reservoir can be supplied for any size, from a 5S to 3S, if desired, and is the finest type. Duplex grate is heat on or off. Each reservoir is cast with, with a porcelain leaded tank. It is entirely hot water connection, it is advisable to order a reservoir with this range because it is not so limited to either a water coil or water from the purpose of heating water in a kitchen pressure boiler.

The Long Fire Box is a very desirable feature of our Improved "Special." This range is made in three different sizes: all of these sizes the fire box is of liberal and generous proportions. A good sized fire box is essential to power and heat efficiency; and for that reason we do not hesitate to endorse the "Special." We advise, however, that you select one of the larger sizes for the greatest measure of all round satisfaction. The fire box is also very durable and fitted with strong linings. Sheet flue construction.

Burns Coal or Wood. Our Improved "Special" Regent is fitted with a range fire box equipped with the latest improved Duplex grate for burning coal or wood, a feature we believe is known for special comment. A large pouch is provided for putting in coal, and to very handy when the stove is covered with utensils. Large stovetop gives free access to the grate, convenient for placing and lifting fire.

The Square Oven

Is well braced. The bottom is flat and braced. A tile oven, which is braced, which allows baking on the bottom, and is adaptable to different heights. For oven door Is of the spring balanced, drop type, and when pulled forward can be used as a hanger. You will be actually amazed at the work these ovens will do, as the baking will be much more delicious in the whole family.

It's Easy to Own

This range, which we offer to your consideration on this page, is so thoroughly equipped and with our liberal no-interest credit plan, you are given an extra year's time to pay.

For Credit Terms See Page 1 of This Catalogue
THE "MAGIC" REGENT
A Great Big Range Bargain For You

HIGH CLOSET

This is the modern improved type, being large and roomy. The front door is rolled back and the sides and shelves are faced with the patented "honeycomb" which is inserted on the inside. The front is made of steel, beautifully ornamented with nickel trimmings. The back of the closet is made of wood, so that it works freely up or down. A shelf located in the warming closet, is very handy for regulation of the heating powers of range. Any and cooking arranged with high closet.

FIRE BOX

A Magic Regent has extra heavy brass, well designed and fitted to the exact requirements of the range. A draft slit—hinged in back, operates above the fire, making an easily started, but hot, fire. Has worked heat fitted with ash pan. If you want more heat, turn water in a spout passed beneath ORDER A WATER FRONT. Price $5.50. See page of stove, attachments, etc.

NICKELED PARTS

NICKELED PARTS

Bailed Ash Pan Furnished Free

VISCERAL PARTS

Are: The bean shelf and door handle, ash pit door handle, hearth tray, door, band, front, and back. The fire grate, made of iron, is embedded in a malleable steel plate. A management of steel in a malleable iron plate is indispensable for roomy, smooth, weight.

NICKELED PARTS

LIDS

Bailed Ash Pan Furnished Free

THE "QUICK BAKE OVEN"

Is very spacious and practical. The arrangement of this range construction, on a square type, enables the possibility of even distribution of heat to every corner of the steel oven. The short line system does its part, making the oven quickly heated, enabling you to use the oven to the best effect. The oven is turned up, to prepare for cooking, and with the oven, various dishes can be supplied. When the oven is ready in place, it is ready to turn out.

A THERMOMETER

Is provided in every door, which tells at a glance the exact temperature of the inside of oven. After a few operations of the oven, the thermometer will become accustomed to all temperatures required for different kinds of baking and can always tell in advance when your oven is in proper condition to make excellent baking results.

THE OVEN has a drop door and when lowered forms a large shelf. Oven is large in size, door is handsomely adorned with nickelized tin under plate and no handle. The circulation of hot air in the oven is governed by a thoroughly reliable flue system.

THE HIGH CLOSET is made of heavy gauge cold-rolled steel. It opens and closes easily. It is nicely ornamented with nickel, and there are two large nickelized tasseled handles under the high closet. A high closet will be found indispensable when one has to avoid the late arrival of some member of the family. Fitted with it, prepared victuals can be kept nice and warm, ready for service in a minute's notice. The heat is readily adjusted by the draft regulator found in pipe. You can heat a closet in an instant with this novel arrangement.

THE BODY is made of heavy blue steel. heavy gauge. It is riveted together in a most substantial manner and reinforced where it is thought advisable to give additional strength.

ASBESTOS LINING. All parts which are exposed to the fire are protected by a heavy asbestos board. This not only insures longer life to the range but is a marvelous even temperature and more satisfactory operation.

THE FIRE BOX. The linings are extra heavy and well ventilated. Range has successful sheet flue construction.

OTHER FEATURES. This range is supplied with a punch feeler which is of great convenience because it enables the user to supply fuel to the range without disturbing anything that may be placed on the top of the stove. It also has a sliding draft in door to enhance the draft of the fire. The large end doors and clamping device under oven. Has heavy cast iron flue box on back of range. This is absolutely of exceptional construction.

THE NICKELED PARTS. The nickeled ornamentations consist of the following: Ash catch, ash door, fire door, knob, side crank, towel bar, soot door, oven door frame, oven door panel, oven door handle, oven door catch and latch, pipe register, trivet shelf and hinges, close closet, close panel, close edge bands, close brackets and extension hook corners. These nickeled trimmings are heavily plated and will not easily tarnish.

RESERVOIR is of the cast enameled type with lift-out porcelain tank of ample capacity. It has the latest flow flue system for heating water.

---

The image contains an advertisement for a new improved rang stove with various features and specifications listed in a table. The advertisement emphasizes the stove's durability, ease of use, and efficiency. It also highlights the nickeled parts and the reservoir's design. The text is accompanied by a diagram of the stove and a table listing the stove's dimensions and features.
**THE NEW “SAXON” REGENT RANGE**

Sold On Easy Terms  Complete With High Closet  At Low Prices

**THE “SAXON”** is an up-to-date steel range set upon a cast-iron base. It is a range well proportioned; a thoroughly dependable cooker and baker, lavishly ornamented with nickel trimmings, as shown in the illustration. All its features are the results of a thorough draught, sliding door, below pouche feed, and an efficient flue system. The heavy cast iron box on back of range, which is a thoroughly desirable construction, in every way. Oven has drop door and when lowered forms a large shelf. Has an efficient sheet flue system.

**HIGH CLOSET** is made of heavy gauge, cold rolled steel. Warm air close opens and closes with ease. There are two nickel-cased tea pot stands under the warming closet, as shown in the illustration. The body likewise is made of heavy tool steel. It is well jointed and reinforced where necessary. All parts which are exposed to the fire are protected by a substantial asbestos board. The advantage of this construction, in place of the range and likewise means a more even temperature. There are a few of these on the market possessed by the “Saxon” Regent Range.

**THE FIRE BOX** is of good size and is fitted with an improved cast-iron grate for burning coal or wood. The linings are of extra strength and are well ventilated. As stated above, this range comes complete with high closet, but may be ordered with or without reservoir at the prices mentioned at the bottoms of this page. This reservoir is of the cast-iron type with a flat or cylindrical tank of 10-quart capacity. The fire box for heating water is regulated by a free stoker, which turns the heat on or off, at will.

**NICKELED TRIMMINGS** are all carefully plated and embellish the “Saxon” Regent in such a way as to greatly enhance its attractive appearance. All parts of this range are nickel-cased, including tea pot shelves and rings, high chest, nickel-lined stoves, high chest, reservoir, towel bar, and door. Cast doors, ash catch, oven door frame, hinge, plate, nickel, handle, and hinge, are all nickel-cased and nickel-loaded. We direct your attention to the artistic design that is used in the fire and ash doors, and the ornamental appearance of the pattern that is used on the cast-iron bars. When ordering state whether wanted with or without reservoir and be sure to give correct finish.

The "Domestic" Regent

Can Be Ordered With Or Without Porcelain Reservoir
High Closet Included At Our
Extremely Low Prices

CONSTRUCTION Every little detail in the construction of this range has been given close attention with the result that an excellent range has been produced. Body made of heavy gauge blue steel, which does not require bulking. All flues are of ample size so as to heat all parts of the range quickly. They are so constructed as to give even heat around the oven, and by a flue reservoir, water may be heated in a very short time. Range is mounted on a durable cast iron base.

ASBESTOS LINING This steel range contains many desirable features which insure long life to the range and complete satisfaction in operation. It has a practical asbestos lining which protects the oven and assures an even temperature therein. This asbestos lining is a very important feature and should be given due consideration.

THE OVEN of this range is made of reinforced steel. It is well braced to prevent buckling. It is square in shape so that every inch may be utilized. The oven door drops forward and forms a large oven shelf. This door is operated by a long spiral spring enclosed in a cast iron covering at the lower right hand corner of the oven door.

FIRE BOX is of ample size and has a cast iron back wall. This back wall is well ventilated, which insures long wear. This range has sheet metal flue construction.

OTHER FEATURES, Other prominent features which go to make up the superiority of this range consist of the following:

- Pouch feed, which enables the user to supply fuel to the fire without removing anything placed on the top. The grate lifts easily.
- The splendid range is of the duplex pattern for burning either coal or wood. The sectional top with heavy covers and center are of extra strength and made with allowance for expansion and contraction. There is a poker door and draft in the end immediately under the pouch feed.

NICKEL TRIMMINGS The nickel plated parts on this steel range consist of the following: fire door, ash-pan door, oven door frame, oven door panel, oven door handle and towel bar. High closet has nickel brackets, tea pot shelves, panel on high closet door, as well as bands and ends.

HIGH CLOSET & RESERVOIR This high closet is made of heavy cold rolled steel and is braced to be roomy. The reservoir is of heavy cast iron with extra durable removable tank with white enameled lining, which is sanitary. Pipe damper enables you to turn heat on or off.

Stove is made with anchor plate construction on top. Top cut in three pieces which are interchangeable. Large fire box. Body lined with asbestos.
Handsome "Purity" Regent

Extreme Height 54½ Inches. Has Copper-Bearing, Anti-Rust Steel Body.
White Enamel Splasher Back
And Nickel Trimmed White Enamel Oven Door

The Features of the "Purity" Regent embrace a white enamel splasher on the high closet, a white enamel oven door with nickelated panel, into which is set a dependable oven thermometer. The elaborately nickel-trimmed shelves command the attention of the prospective purchaser. Construction and casting blames this stove to the proper height and makes cleaning under it an easy matter. The body is made of anti-rust, copper-bearing steel, which is better and more lasting than that usually employed.

The Oven is large in size and square in shape and by the modern sheet metal used in its construction, it is entirely heated in every corner, thereby insuring even baking results. The thermometer in the oven door will be found to be of great aid in determining in the use of fuel and, furthermore, will make it easy to order your fire and subsequent baking results. The spring balanced oven door, when lowered, serves as a convenient towel hanger.

Fire Box is oval in shape, large in size and well ventilated, assuring economy of fuel. It is fitted with three-piece fire back, punch feed, improved Duplex grate, for burning coal, wood or anything combustible. We refer you to introductory store pages for details concerning the construction and operation of the Duplex grates. This range comes in two sizes and is in your choice of four styles. When ordered with the high chest it is fitted with tea shelf. When ordered without reservoir is fitted with rear end shelf.

Observe The Graduated Lid

Nickel Trimmed embrace the following: Back guard corners, warning catch, oven door frame, panel, handle and hinges, clean-out door and panel on reservoir check. Particularly observe the pleasing design upon the fire and oven doors, all of which harmonize perfectly. We suggest your selecting the larger size as a larger stove is less expensive to maintain in proportion than a small one. Whichever one you select, however, we assure you that you will receive an excellent value for your money.

"EMPIRE" REGENT RANGE

Height To Top Of High Closet 59 In.
Comes Complete With High Closet And Also Double Oven

THE ADVANTAGES of this steel range lie in the large size, and in the steady and even heat it gives. It is attractive in appearance as well. A distinct feature of the high closet will be noted in the full-length shelf, shown in the illustration. This a double oven, the lower one being used for warming purposes only, and in addition a high warming closet, which is a great convenience for keeping prepared dishes hot and warm, when occasion requires. The detailed description of the range is given in the following paragraphs.

BAKING OVEN is well-traced and guaranteed against rusting or cracking. The oven rain is in nickel which prevents it from rusting. The upper part of the oven is fluted, and when heated to a moderate heat, it will keep the air and distribute the heat evenly. The fire is supplied with a pull-down grate for burning coal or wood. Large size fire door is provided for protection in coal ashes, and is of great convenience when the oven is cleaned. Large size draft gives you access to the oven and enables you to poke or light the fire.

FIRE BOX is of a good size, as shown in the illustration, and is well-traced and guaranteed against rusting or cracking. The fire box is fluted, and when heated to a moderate heat, it will keep the air and distribute the heat evenly. Fitted with strong fender which is extra. Heat from the fire box is sent to the oven through a flue and inserted in the fire box. This is the latest improvement in steel fire box and is a great improvement in the range. It is supplied with a pull-down grate for burning coal or wood. Large size fire door is provided for protection in coal ashes, and is of great convenience when the oven is cleaned. Large size draft gives you access to the oven and enables you to poke or light the fire.

THE DESIGN is on the front, side, and back door and frame as well as the interior frame and back door. The interior frame is completely built-in, and the back door and frame have been carefully designed to give the effect of a "baked" finish to the eye. Order this range and be sure that your satisfaction is ensured.

Removable Porcelain Lined 12 Qt. Reservoir Tank

RESEVOIR is the latest type, and is supplied with the range. It is inserted in the oven and is fitted with a lid and shelf. The reservoir is of 12 quart capacity, and is made with a porcelain lining. A fine system for keeping water warm.

NICKELED PARTS are a feature of the range. The frame, door, and back are of nickel, and the top and sides are finished to give the effect of a "baked" finish to the eye. Order this range and be sure that your satisfaction is ensured.

THE MEASUREMENTS of the "Empire Regent" steel range are shown in the schedule below. Look these over carefully for a more complete understanding of the range. The cost is ten dollars and frame below, as well as cost, satisfaction.

"WONDER" REGENT RANGE

A Splendid Steel Range With Cast Iron Base At

This fine range is fitted with duplex grate equipped with thermometer. Made with anchor plate top; plates are interchangeable.

PLenty of hot water can be secured from a strong porcelain lined lift-out reservoir. The reservoir has a 1 1/2 quart capacity and is of improved fire type, which provides a means for quick heating. The damper turns heat on or off. This range is furnished with or without reservoir.

The steel constructed oven is full size and square, and is an unequaled baker. It is constructed of heavy reinforced sheet steel, and is fitted with expansion and contraction strips, the danger of oven plate cracking being practically eliminated. The oven is fitted with tempered glass panels and thermometer in a nickel plated door. We are fitting oven door with nickel plated handle as shown in this illustration.

The fire box is extra large and is adapted to any kind of fuel. It is supplied with an improved duplex grate, which can be used for either coal or wood. When the grate is turned up and end linings are removed, the fire box is perfectly adapted for burning wood. Sheet iron construction.

Nickel trimmings. The bright parts of range are nickel plated. This range has nickel top pot shelves, nickel brackets, bands and corners and panel on high closed door, as well as parts shown in illustration.

Bailed Ash Pan
Furnished Free

Burns 22-inch Wood

Compare this fine high grade Range with other steel ranges at similar prices and you will be immediately convinced that this is positively one of the most exceptional values in the high grade range that has ever been placed on the market.

THE BLUE POLISHED STEEL WARMING CLOSET extends full length of the range body and has large capacity. This equipment has become an almost indispensable attachment to a range. It has a roll front door which rolls back out of the way, permitting the interior of closet to be exposed.

The castings of the base of our "Wonder" Regent Range are made of extra heavy pure pig iron, most carefully ground and fitted together. Extraordinary care is given to this work, being put together with the new lock edge and when once strongly bolted will not weaken or loosen. The body is built of polished steel, being perfectly plain and easily cleaned, and on account of its heavy construction is a great retainer of heat.

KEY-PLATE LIFT is another feature. This automatic lift raises the entire front section of the top, giving easy entrance to the fire. Toasting or broiling, when the section is lifted, is positively and positively an essential part of the best range that has ever been offered.
### DURABLE FIREBOX

The DURABLE FIREBOX is built large and fitted with a Duplex grate. This grate, which grates below coal and ash, is adjustable, can be changed from coal to wood or the reverse, and is serviceable for supplying coal, while top is entirely occupied. The good size slide-draft damper, opening grate bars, makes the starting of fires very easy and also is handy for poking fires. The grate is made in anchor plate sections. The top plate section over fire pit can be raised for heating or burning over the fire. Firebox are extra heavy.

### Sold Under The Famous Hartman Guarantee

This is A Very Efficient Range

Oven Rack is adjustable. Another feature is the drop spring balanced door which, when lowered, forms a convenient large shelf. Oven doors are also given an extra easy access to bottom of oven. Braced top oven plate, also bottom oven plate, none of the bottom plate, which has been designed to keep heat in oven at all times.

High Warming Closet and You have not the slightest conception of the many good uses it can be put to. It has just enough nickled trimming to set off and balance well. The roll door front is design to give even circulation of heat. The low built in construction is designed with a cast iron shoe to take care of crooked conditions, which usually eat at flue bottom, while the upper part of flue back is of steel construction. For a range, shower, or any other use, you cannot once buy to surpass this model for the money. Has about five construction.

### Accessories

Include Shaker, Lifter, and Lifter.
Our "Palace" Regent

WITH HIGH CLOSET

Cast Iron Base

RICHLY NICKEL TRIMMED. In design "Palace" Range we have not left one small detail to chance. This feature which would prevent it from being absolutely perfect, and in order to give it the richest appearance any High Grade Range on the market we have produced the "Palace" elaborately nickel trimmed. The nickel parts are all the nickel plate, the doors, doors, etc. The nickel covering entire oven door, hinge, latch and handle, low cast iron reservoir, chock, name plate and the trimming of the front and all door handles. All nickel trimming uniformly makes the "Palace" the most handsome steel range obtainable at any price at the price.

THE LARGE FIRE BOX is oval and fitted with heavy cast iron lugs. It is highly ventilated. The large cast iron pitcher is supplied with our "Improved" combination Fire Grate. All parts exposed to the heat are covered with nickel plating, polished to a brilliant finish.

RESEVER is of the latest improved type. It is cast of high quality into cast iron. Can be lifted out without opening lineal time. Free damper to heat on or off. Has 1½ at capacity. Range is furnished with or without this reservoir.

Baled Ash Pan Furnished Free

WARMING CLOSET is made of heavy gauge sheet iron. Its back and sides are formed, then welded and tooled.

THE MAIN TOP is made in three all interchangeable. Keep plate section free of heat. Plate section can be raised for broiling or turned over for the first. Top edge is from quality gray pig iron with no seams, creases, or joints. Has a highly polished surface.

QUICK BAKING OVEN. The oven is perfectly heated and ventilated, as well as it is also adjustable, the oven can be raised or lowered. Oven can be raised or lowered at any time.

THERMOMETER is for the protection of the hinge. Top is made in three pieces with interchanging parts. Lower main oven is a convenient warming closet with adjustable doors. This is heavy cast iron.

INTERESTING FEATURES. Additional features are that the oven has an attractive full nickel plated door. The reservoir casing at the front is coated with nickel and highly polished, adding exceptional finishing to the age.

If You Wish To Heat Water in the Kitchen Pressure Boiler Order A Water Front Price $2.75 Extra, Burn Hard or Soft Coal, Coke or Wood. Has Duplex Grates

"GRAND" REGENT STEEL RANGE

HAS ALL STEEL CONTINUOUS BODY FITTED TO CAST IRON BASE
Comes Complete With High Closet and With or Without Reservoir

HAS DUPLEX GRATE FOR COAL OR WOOD

STEEL RANGE PERFECTION

was achieved when our expert Range designers and builders completed our beautiful "Grand" Regent and since we have offered it for sale on our liberal open charge account plan we have been practically flooded with orders for it. It is making a reputation for itself as the fastest selling High Grade Steel Range ever placed before the public, and rather than publish a big account about it we are showing a very large colored illustration so that you can obtain a good idea of its magnificent proportions and appearance.

THE RESERVOIR has a capacity of 14½ quarts. It contains a white porcelain-lined tank, which can be easily removed for cleaning. By means of a damper handle, heat is admitted to the flue around the water tank or can be turned off when so desired. Always keep plenty of water in reservoir to prevent enamel from burning off.

THE BODY is made of continuous blue sheet steel while the base is cast iron with front and side strips attractively nickel. Duplex grates for coal or wood, sheet flue construction, anchor plate top, reinforced steel oven with moulded tempered plate glass oven doors. Accessories include shaker and lid lifter.

VISCIBIL GLASS OVEN DOOR WITH THERMOMETER

It is made in our Regent Foundry, has large elevated warming closet, immense fire box fitted with duplex grates, improved drop feed and draft, and deep ash pan with funnel feeder. Following parts are nickel: Fire door, ash pit door, front and side hase strips, oven door, oven door handle, protection rail, fire door, tea pot shelves, high closet door panel, bands, brackets and back guard ornaments.

If you want to heat water in a kitchen pressure boiler, order a water front.

HARTMAN'S

"LET HARTMAN FEATHER YOUR NEST" CHICAGO

$12.65

HARTMAN
REGENT
HOT BLAST HEATER

The Swedge Joint Securely Holds Sheet Steel Body to Fire Pot

HOT BLAST FEATURE is a heating device that deserves your consideration. It not only saves fuel but in addition produces intense heat. The air is admitted through the tube, passing in and entirely around body of the swedge. It becomes overheated, mixing with the gases arising, becomes ignited and makes perfect combustion. In this operation the smoke is burned, thereby utilizing all of the heat which passes out of the chimney in ordinary oak heating stoves.

THE SWEDGE JOINT is another noteworthy feature. Body possesses cup-shape flange which is fitted into a recessed cup on top of fire pot and is held in position by a deflector ring, thus securely fastening sheet steel body to fire pot without exposing bolts to fire, which are likely to burn off. When such burning occurs, body will "buckle," lose its shape and admit air around top of fire pot. With the swedge joint such buckling will not occur.

SCREW DRAFT register gives perfect control of fire. In addition, there are two draft dampers in ash pit door, as shown in the large illustration to the left. Combination of these enables you to regulate the heat in an excellent and satisfactory manner. The "Hartman" Regent Hot Blast will hold its fire and keep even temperature for a long period of time.

THE CASTINGS used are the very finest for the purpose, are put together with smoothest joints and carefully fitted, so as to make this heater practically air tight. Taking all points into consideration you will find this one of the best values ever offered in a hot blast heating stove. Below we give the nickel parts which embellish the "Hartman Regent Hot Blast.

NICKEL TRIMMINGS are the very best quality silver nickel and are elegantly burnished. They consist of the following parts: swing top, large reflector name plate above the front door. Colonial columns, screw draft register, foot rails, front base strip and front legs, as well as draft dampers in the ash pit door; nickel or bronze urn. Large foot rail has neat Grecian border design.

THE FIRE POT is very strong. Is heavily ribbed cast iron specially treated, and guaranteed to withstand greatest degree of heat without injury. It is very spacious and increases the efficiency of the stove. Heavy cast door front with micro windows and polished blue steel body are other features of this Hot Blast. Is mounted on heavy cast iron base, as illustrated. Draw center shaker grate for coal or wood.

SHAKER DOOR enables you to shake the grate without opening the ash pit door, thereby preventing dust and ashes from circulating around room. Legs hold it correct distance from floor to allow proper and desired radiation of heat. The proportions throughout are such as to harmonize with the scientific construction, to produce the greatest volume of steady heat from the use of the smallest amount of fuel.

A New, Up-to-date Heating Stove at a Real Bargain Price
THE "LOYAL" REGENT HEATER

A Low-Priced Oak Stove Burns Soft Coal or Wood

THE QUESTION of price is one that makes it appeal to the majority of people. But low price does not mean poor quality; it is as undesirable as bread without butter. And that is why, when we offer you a stove at prices lower than those quoted on the "Loyal" Regent that you have a right to ask whether it is of a type that will render service and satisfaction. We do not claim that the "Loyal" Regent heater will render the same service that our higher priced stove will give, but for the money we recommend it highly. It is worth every penny that you will pay for it.

THE CONSTRUCTION is of dependable quality. The joints are well fitted in a workmanlike manner. The bolts and nuts are all made to specifications and the method of building, castings, and parts are shown in the illustration to the left. The body of the stove is made of heavy gauge, cold rolled, blue polished, sheet steel, and is securely fitted into the cast parts. A good grade of cast iron is employed in the construction of the "Loyal" Regent. Possessed of a good sized flue and door, the grate, as shown, is made of a heavy cast iron bottom and large bolted ash pan.

THE NICKELED PARTS add to the appearance of this heater, and are all nicely polished and consist of the following parts: The top ring, same plate, feed door screw damper, feed door handle, foot rail and ash pit screw draft dampers, fitted with nickel or bronze rings. The grates are shown in the illustration to the right. The body of the stove is made of heavy gauge, cold rolled, blue polished, sheet steel, and is securely fitted into the cast parts. The grate is shown on this page, and is designed to be fitted to the stove with which it will fit perfectly.

THE GRATE is of cast iron, and is designed to fit the stove perfectly. The grate is shown on this page, and is designed to be fitted to the stove with which it will fit perfectly.

The grate is shown on this page, and is designed to be fitted to the stove with which it will fit perfectly.

A Good Stove for the Money.

A Low Priced Heater That Will Give Satisfaction but Not Recommended As Highly As Our Better Stoves.

Fitted With Improved Wedge Body Joint.

Handy Shaker Door

This Heater Has A Non-Clinker Grate

OF FIVE SIZES AT THE PRICES QUOTED
SELECT A LARGE SIZE FOR BEST RESULTS

THE MONEY QUESTION
Money isn't everything in this world, but it is a generally accepted medium of exchange and we must possess it in order to get along. This being the case, we wish to impress upon you the necessity of using your credit to the utmost extent. If you are in search of a moderately priced yet efficient and dependable heater, we are in a position to lend you our assistance to that man by offering him our liberal credit plan. We are in a position to lend him assistance to that man by offering him our liberal credit plan. If you are in search of a moderately priced yet efficient and dependable heater, we are in a position to lend you our assistance to that man by offering him our liberal credit plan.

THE IMPORTANCE
The importance of the swaged joint used in the construction of this heater is especially noteworthy. The body possesses a cup-shape flange which is fitted into a recessed cup on top of the fire pot and is held in position by the deflector ring, thereby securing the sheet steel body to the fire pot. In the event the bolts exposed to the heat become loose, the body will buckle and lose shape and admit air around the top of the fire pot. Such buckling cannot occur with a swaged joint. This is a vital point that is especially desirable.

THE NICKELED PARTS
With which the "National" Regent is embellished adds to its brilliancy and improves its appearance. These nickel plated parts consist of the damper lugs, swing cover, top ring, name plate, decorative side, rear dams, and damper in the ash pit door. The damper lugs are made of heavy sheet iron, and are bolted to the damper, which is securely fastened to the damper by means of an angle iron. The damper lugs are made of heavy sheet iron, and are bolted to the damper, which is securely fastened to the damper by means of an angle iron. The "National" Regent will satisfactorily burn coal or wood, and is sold at a lower price than a hard coal burning heater.

LENGHT OF SERVICE
The fire pot is corrugated to give a large amount of radiation and is made extra heavy. This in itself is a factor that adds to its service giving qualities. The fire pot also features a large door, and the damper lugs are made of heavy sheet iron, which is securely fastened to the damper by means of an angle iron. The "National" Regent will satisfactorily burn coal or wood, and is sold at a lower price than a hard coal burning heater.

**Acme** Oak Regent

An Excellent Heater

Made to Burn Soft Coal or Wood

**AN ATTRACTIVE NEW DESIGN IS REASONABLE IN PRICE AND EFFICIENT IN RESULTS**

**IT'S FALSE ECONOMY** to buy a poor heater. Don't think that an old secondhand stove will serve your purpose. Because in ninety-nine cases out of a hundred you will make a mighty poor investment. Doctor's and druggists' bills are far more expensive than the slight difference that you will pay for this low-priced article and the price that some unreliable dealer or second-hand merchant will charge for it. In fact, there are many heaters on the market selling at higher prices that will not prove as satisfactory as this one, so do not be misled by the reasonable in price of this splendid "Acme" Oak Regent. You can have it in any size quoted, on credit, taking a whole year to pay your bill.

**WORKMANSHIP AND FINISH.** There is nothing cheap about this heater except the price. All of the joints are fitted carefully in order to render them practically air tight. A generous number of bolts is used where necessary to insure permanency to the castings. Not a single stove is allowed to pass except those that have passed the most rigid and scrutinizing inspection. There is no special attention given to any one feature, but all points receive the same careful, minute investigation. It is made in the latest Colonial design, a most artistic and beautiful looking stove. It is thoroughly practical and sanitary as well, for it possesses no dirt catching designs, so that it can be kept clean with the least possible effort.

**NICKELED PARTS.** The parts mentioned below are all highly polished. They help to tone up the appearance of the heater and at the same time add considerably to its lasting quality. They are the foot role, the beautifully shaped swing cover, and the name plate over the door, as well as the screw drafts, as shown in the accompanying illustration. Nickel or brass urn. The body is made of heavy gauge cold rolled blue polished steel sheet, securely fitted into the cast parts, rendering all points air tight.

**FIRE POT.** The fire pot is to a stove what the heart is to the body. It is the life of a heater—and upon its efficiency depends the desirability of the stove itself. The fire pot of the "Acme" Oak Regent is corrugated to give the largest amount of radiation, and is made extra heavy for good hard service. This is a most important feature—and one that must be considered by every careful and scrutinizing buyer.

**FEED DOOR.** The size of the feed door deserves your consideration, for this feature largely determines the ease with which the heater is supplied with fuel. The one possessed by the "Acme" is large and is furnished with solid cast check screw damper. The ash pan is also of extra size, and is made in one piece with heavy cast iron bottom and large bailed ash pan.

**OTHER FEATURES.** Nickel screw drafts are used in the feed door, and nickel screw drafts in ash door. These enable you to regulate the heat. The two smaller sizes have one screw draft in ash pit door, while the larger sizes have two. The grate is of flat style with removable center, and aptly termed a non-clinker draw center grate. The castings are smoothly made, well fitted and nothing but first-class pig iron is used. You will find no inferior material in the castings of the "Acme" Oak. It is made upon solid, substantial cast legs and cast base strips.

A STOVE THAT POSSESSES THE FEATURES REQUIRED TO PRODUCE FUEL ECONOMY AND MAXIMUM HEAT

HEATING STOVES sold by some at even higher prices will not give you a better heat or general satisfaction than this low-priced "Royal" Regent. It is practically air-tight and can be regulated by the scald-proof registers so that an extremely hot, medium, or slow fire can be maintained. This heater will be found superior to an unreliable high-priced hard coal base burner, and will give you the satisfaction that you have a right to expect.

OUR LOW PRICE. Our immense mail-order establishment located here in Chicago in connection to the big Regent foundries and the greatest stove market in the world, and having been interested in the manufacture of stoves ranges to supply our extensive trade for so many years, we have become enormous shippers of the finest stoves to the homes of America, in America. This gives us a preferred position among these great manufacturers, and makes it possible for us to select the best on the market and get the most favorable terms. We sell Regent stoves because we are determined to have the very finest product for the money. The cost of making these stoves has been reduced to a very low figure. The materials have been bought at large lots and every expense incident to the making and marketing of these stoves has been reduced to a minimum.

THE GREAT POPULARITY of this "Royal" heater has been earned by its own merit, and with its new improvements, we feel safe in asserting that it is much better than any other of its kind at the price.

HEAVY CAST PARTS including the beautifully designed and made front and base, are, made of fine grade grey iron castings, contributing to the make-up of a heater that comes up to a high standard in every detail of construction.

FIRE POT is especially designed and gives to this heater an exceptional capacity. It radiates the heat much more quickly than the old style fire pots used by many other manufacturers, and is guaranteed to hold a good bed of fire and to prevent waste of heat. This very dependable construction makes the "Royal" Regent an extremely strong oak heater. Shaker door enables you to shake grate without opening ash pit door, and thereby keeping dust and ashes from circulating about the room.

THE LEGS hold it at the correct distance from the floor to allow just the proper radiation of heat, and the proportions throughout are regulated in harmony with the scientific construction so as to produce the greatest volume of steady heat from the use of the smallest amount of fuel.

DETAILED DESCRIPTION. The Body is made of cold-rolled steel and has swedged joints securely fastened to top and base in accordance with the latest and best methods and is practically air-tight. The Top is surrounded by a beautiful urn, as the picture shows. This "Royal" is equipped with a draw center grate, with shaking ring. Best results can be obtained by using soft coal.

THE "ROYAL" REGENT is a better heater, and is made of better materials than the ordinary oak stove. It possesses exclusive new improvements, which insure a more economical use of fuel. It's very certain that it will equal any oak stove offered by any other dealer or manufacturer at similar prices and know that it surpasses some.

NICKELED PARTS are: Top ring, swing cover, name plate, side wings, foot rails and screw door registers. The nickel is extra heavy silver-nickel plate, which will wear longer than ordinary grades, a point that is universally appreciated.
Improved "Air-Tight"
Regent Hot Blast Heaters
WITH A NEW STYLE FOOT RAIL.
POSSSESSE CAST IRON LINING ABOVE THE
FIRE POT.
AN ATTRACTIVE PATTERN.

OUR COLONIAL DESIGN
"Air Tight" Regent Hot Blast is
the most successful air tight
hot blast heaters we have ever offered. It burns chestnut coal, chestnut
coals, wood, coke and other cheap
fuels. It has a twofold hot blast principle which en-
ables the owner to get the greatest possible amount of
heat from almost any fuel. This stove is a perfect and
rich appearing parlor heater. It is fitted with latest
down draft hot blast tube suspended from the main
top shown in sectional view below.

A BARGAIN. It is one of the best constructed and
most thoroughly satisfactory heaters that price
could buy as you will agree if you make a comparison of this
value and those offered by others. Considering materials, gen-
eral finish, heating qualities and the price, it stands as a typical
Hartman value.

THE BODY is made of smooth sheet steel, with cast iron
bottom, which sits on the base, while the face
made of fine Southern gray cast iron with bottom cast in one
piece without joints.

IMPORTANT DETAILS. The grate is of draw center type,
iron strong and durable. The front
cast iron ash pit door is fitted with nickel-plated screw draft
register, enabling the user to regulate the heat and process of
combustion. Feeding fuel can be done from the top, being
fitted with large feed lid. The sheet steel body is protected
above the fire pot by a cast iron lined which extends almost to
the top of the stove. A fire can be built at right angles
and will burn over night, making it only necessary to turn on
the air the next morning to increase the heat.

THE NICKEL MOUNTINGS are extremely handsome. The
cast iron face is fitted to high legs
and is cast in a fancy design. The silver nickel-plated parts are
heavily plated and consist of the following: Facing
plate, door handles, name plate, top ring, swing top, nickel or
brass urn—just enough to ornament this stove without undue
emblishment.

PRINCIPLE OF OPERATION and the general construc-
tion of our "Air-tight" Regent hot blast is very effective. The hot blast draws in through
the top of the stove, passing down the hot blast tube, and is
discharged just above the fire in the very center of the products
of combustion. Being as highly heated state, all the gases
and carbons in the smoke are consumed by reason of the
increase of oxygen at a high temperature. The
screw draft and air-tight construction serve to
make the stove an air tight as possible. This
feature, and the great efficiency of this heater
have made it one of the most popular of our
heating stoves sold at moderate figures. It has
been tried and tested. Having stood the test of
time, we highly recommend it to you.

IT'S VERY EASY for you to possess one of
these elegant hot blast heat-
ers. We would like you to
carefully read page 1 of this
catalogue that you may fully
understand our liberal, confi-
dential credit terms. Ours is
the most liberal and confiden-
tial credit system in the world.
Select one of the larger sizes of
this stove and take advantage
of these beneficial terms.

A TWO-FOLD HOT BLAST
HEATING STOVE BURNING
COAL, WOOD OR COKE

In Economy It Will Pay for Itself
A HANDSOME NEW DESIGN

"HOME OAK" REGENT HEATER—NICKEL TRIMMED

THE SWEDGE JOINT

Securely Holds Sheet Steel Body to Fire Pot

THIS SWEDGE JOINT is a feature that you will do well to consider carefully. The body possesses a cup-shaped flange which is fitted on the fire pot with a recessed cup on top of the fire pot and is held in position by the deflector ring, thus securing the sheet steel body to the fire pot without exposing bolts to the fire, which are liable to burn out. When such burning takes place the body will buckle and lose its ability to admit air around the top of the fire pot. With the swedge joint such buckling cannot occur.

FIRE POT is of special construction. It is heavily ribbed cast iron made of especially treated iron, guaranteed to withstand the greatest degree of heat without injury. It is plenty large and roomy and increases the efficiency of the stove. Note the heavy cast door lintel with mica window and the heavy polished steel body. The construction of the "Home Oak" Regent throughout is exceptional indeed, and is a stove which you need not hesitate to purchase. It is mounted on a heavy cast iron base which is not only substantial but very handsome in appearance. Draw center shaker grate.

IS CONSTRUCTED with feed door screw draft register later, giving perfect control of the fire. In addition there are two draft dampers in the ash pit door of the larger sizes; while the two smaller sizes have only one screw draft in the ash pit door. The combination of these enables one to regulate the heat in the stove to the point of great precision and satisfaction. The "Home Oak" will hold its fire and keep an even temperature for a long period of time. It is further economical in the consumption of fuel as well as being a heater that is low in its initial cost. These are vital points in the purchase of a stove, because the purchase price in "cheap stoves" sometimes means an expense in operation.

THE CASTINGS used in building the "Home Oak" Regent are of just the right sort for this purpose. They are put together with smooth joints and are carefully screwed, so as to make it practically air-tight. Take a careful survey of the catalogue, read the details as mentioned in our description and you can't help wanting this stove at our exceedingly low figures. It combines economy, durability, appearance and price, all procurable on our easy payment liberal credit plan.

NICKELED TRIMMINGS are of a very good quality, silver nickel, and are elegantly burnished. They consist of the following parts: Swing top, sash reflector, name plate above the front door, decorative flaring side wings, screw draft register, foot rails, base strips, and laces as well as draft dampers in the ash pit door.

THE LEGS hold it at the correct distance such as to allow the proper and desired radiation of heat, and the proportions throughout are regulated in harmony with the scientific construction in order to produce the greatest volume of steady heat from the use of the smallest amount of fuel. The "Home Oak" Regent will burn any kind of fuel. The shaker door enables you to shake the grate without opening ash pit door; thereby preventing dust and ashes from circulating around the room.

OTHER FEATURES include the draw center shaker grate, which is constructed for burning either coal or wood. The shaker door makes it possible for you to shake the grate without opening the ash pit door and thereby prevents the dust and ashes from circulating about the room. This is a type of screw draft damper that saves up-to-the-minute heating stove at prices that are easily within the reach of all.

NICKELED PARTS consist of the following: Swing top, shaker plate, feed door handle, screw draft damper in feed door, foot rails, screw draft dampers in ash pit door, front base strip and front bars. Nickeled bronze urn. Observe the plain but neat design of the foot rails and attractive Colonial columns on either side of this efficient hot blast heater. Order this stove next to you upon approval.

YOU ARE ADVISED TO ORDER A STOVE THAT IS LARGE ENOUGH FOR YOUR REQUIREMENTS.

A Small Stove is More Expensive to Maintain Than a Large One.
A Satisfaction-Giving Heating Stove

THE "MAGIC"

REGENT HOT-BLAST

Observe the Attractive Nickel Trimmings

AFTER RECEIVING this or any other stove you have ordered it must "make good" in actual use. It is sold to you under the terms of our "Credit Apartment"—the only honest test— the proper way for you to find out whether you are getting the kind of heating which you are expecting. You take no risk whatever in intrusting us with your orders.

YOU PERHAPS THOUGHT at some time or other that you had bought bargains, but if you will compare this bargain "Magic" Hot Blast heater with those offered by your handyman or your store at home, you'll simply say you never saw real bargains before you saw our "Magic"—so don't forget to compare it after you have received it for trial. We want you to do this for we think you'll become as enthusiastic a customer of ours and recommend us to your friends.

OUR "MAGIC" REGENT is a magnificently designed heater of a high type Hot Blast. It is thoroughly well constructed of splendid materials. Every joint is perfectly fitted, insuring excellent results as an efficient heater. We have a right to give the finest of service in thousands of American homes, and if you buy one it will surely satisfy you.

READ THE DETAILS: Bear every one of the good points in mind in deciding to order this stove. You have our promise and guarantee that it will come fully up to the description and please you more than you expect. Consider the price — then consider the long time credit terms we give you — then — and last — take our word — you'll say our Hot Blast heater is a "magic" on your hearth.

DESCRIPTION: Every part of the heater hereon offered is of heavy gauge sheet steel, joined to a massive joint. The top is of heavy gauge sheet steel, joined to the massive joint. The front face is of a good size and fitted with mosaic panels, in order to show plainly the fire with and at the same time throw a cheerful glow in the room. The fire pot is of the improved type, embodying, extra heavy and generous in its design. The ash pot door is equipped with an air scoop and flap to complete the Hot Blast blower. It is fitted with nickel-plated reflector over the fire door, a decorative and elegant column, convenient for holding tools, and artistically designed and silver nickel stove base.

THE HOT BLAST ARRANGEMENT: In the reeding feature of this grand heating stove is the improved style by which the heat is intensified and the gases and smoke are entirely removed. It is well known that the top of the fire chamber is just above the fire bed, and this is one of the points in the construction of our "Magic" Regent that sets it apart from other stoves. It is a feature that is found only in Hot Blast Heaters. The same illustration below will give a clear idea of how our fire operates in our "Magic" Regent.

THE NICKELED PARTS: The nickeled parts of the stove are made of splendid quality silver nickel on prepared cast metal, and are as follows: Base, screw draft in ash pit door, feet rails, side wings, reflector, and nickel ornamentation on top. The brilliance of these nickeled parts give the "Magic" Regent a bright, flashy appearance.

The Bargain of All Bargains
NEW "VICTOR" VENTILATOR REGENT

A WONDERFUL VALUE. We announce here one of the most remarkable offers of ventilator heating stoves in our history. A multifaceted, self-feeding ceramic stove, capable of supplying 24x24 square inches of heat per hour, is offered at exceptionally low prices and the absolute assurance of satisfactory performance. Just think of it, you can now have this heating stove at long time, easy-to-pay credit terms, and buy it on approval from the Ventilator Department, Hartman and Company. Don't fail to secure your "Victor Ventilator."

NO RISK, FULLY GUARANTEED. Repeat again throughout this issue that you may have no qualms whatever in ordering from us, we do this to impress deeply in the minds of our customers the fact that we will not consider ordering a product unless we can tightly control the quality of the goods, and we thoroughly convinced that they have not been money and received better quality and design than they could obtain elsewhere. We give our legally executed, binding guarantees that we will satisfy you in every way or refund your money.

YOUR MONEY BACK. No matter what you select, the goods will be sent you fully covered by our regret guarantee. It is impossible to order a stove, and even if you do not find them exactly as you specified, you may return them to us and we will refund any money that the transaction has cost you.

THE MATERIAL USED. While we quote an exceptionally low price on our "Victor" Ventilator Regent, we have not sacrificed quality to do so. Splendid quality gray iron castings, through-fused, silvered, and cemented, have been used. Expert stove makers have had the perfect heater in this article and one we unhesitatingly guarantee.

INTERIOR CONSTRUCTION. This Colonial designed square base heater has a round steel interior body enclosed in a polished surface, perfectly made to order. The circulation created in this construction gives the most efficient heat distribution. The nickel trims, artistically arranged, rich appearance of the stove is improved by its polished silver nickel plate. The nickel parts are polished carefully. The top, base, and sides, all polished in reflector style, make the entire stove appear to be of one piece. The very important fact is that it is air tight, being such that the entire stove is practically air tight. The front feed door and ash pit door are built into the stove. The doors and latches are operated with a direct lever handle. The top can be adjusted for proper height with a screw. Removable top can be easily taken off for cleaning.

GRAND FEATURES. It has a large full size plate on the front of the stove, giving it a beautiful illumination effect, and is also in keeping with the appearance of a base heater. Has large ash pit with an ash pan and heavy corrugated firepot with a large grate, plus a shaker ring. The elaborate cast iron fretwork sides, and top, to improve its appearance, durability, and heating quality. Makes it a splendid heater and gives it the appearance of a base heater.

For Best Results Use Soft Coal

The Nickel Trimings Enhance Its Rare Beauty

This is a Wonderful Stove Bargain at Our Low Price

Don't Fail to Order Our "Ruby" Regent If You Want A Superior Quality, Well Made Heating Stove You Can Take A Year to Pay

For Best Results Use Chestnut Coal

FINE NICKEL TRIMMINGS

Magnificent silver nickel trimmings adorn the stove, giving it a beautiful bright appearance. The nickel-plated parts are plainly shown in the lighter portions of the illustration and are as follows: Large top dome, swinging cover, side wings, name plate, foot rails, ash door screw nuts, front base legs and three base strips. The silver nickel plating is a good grade. Being clean and bright and possessing a long wearing quality.

Features

Heavy cast fire pot, removable grate and shaking ring. Adjustable damper and fire regulator. Airtight ash pit with swing air-tight draft. Carefully fitted doors throughout. Automatic gas lid at top of spacious coal motor. Two-arm arm. Large, accessible clean-out below ash pit and large ash pan.

A Great Producer of Heat

Our Stoves Are Low in Price considering the quality. This is not due to cheap materials or for our founders are using a grade of pig iron castings, fine nickel trimmings, and employing skilled workers of high and efficient character. Our prices are reasonable largely because of certain favorable conditions in the iron and steel industry and our founders were able to take advantage of them and buy heavy in the market it was at its lowest. In the price of this "Ruby" Regent Heating Stove we are giving you the full benefit of our saving in cost, because it is our policy to do this for customers on everything we sell. It is this same policy that has induced many families to continue trading with us year after year.

The Beautiful Design We have created in the production of our "Ruby" Regent is one of the most handsome you have ever seen. In base burning stoves, feeding heating stove. Its general outline is graceful, its appearance magnificent, and it brightens the room. A wonderful design, with its richly polished nickel ornamentation and the bright glow of the fire shown through the mica doors.

For Hard Coal Only. Use chestnut hardwood only in the stove as it is constructed especially for the smoke of fuel. It has Duplex grate and two fine construction for a continuous, self-fed, chestnut coal and better results will be obtained if you follow this instruction.

Self Feeding Magazine. Under the large nickel-plate swing cover is a smoke-tight gas cover which automatically opens to the side when supplying fuel to the stove. This lid covers the top of the coal magazine, which, when filled with coal, and attended daily, will continue to feed the coal automatically so as to keep a fire going in the stove during the entire winter.

Grate and Fire Pot. Our "Ruby" Regent Base Burner has a large, well-proportioned, very durable, cast iron fire pot made of material that will withstand great heat. The Duplex grate is of a design with shaking ring, which permits the quick removal of ashes, clinkers and dead coal. The grate is constructed so that it may be removed through the front door.

Mica Illuminated. The front and side doors and the upper panel of the main body of the "Ruby" are adorned with mica which is transparent, permitting the bright fire to be plainly seen and throwing a brilliant glow throughout the room. The doors are set in grooves and lock with nickel turnbuckles.

Ash Pit and Pan. The ash pit is large, and allows for the ash pan, which is made full width so that all ashes must fall into it. Do not allow ashes to accumulate so that they rise up to the grate as there will be danger of burning out the grate.

You Will Look A Long Way Before You Find Its Equal At These Low Prices

Profit By This Chance To Buy A Fine Base Burner

The "IDEAL" REGENT HEATER

Our buyers in selecting this season's line of heating stoves exercised the markets with great scrutiny, going into the merits of the products of the best and largest manufacturers of stoves in the country. This careful investigation places us in position to defy all competition. But we do not want you to take our word for it alone. Investigate yourself, compare the values we offer with others and judge for yourself. You don't have to look any further than this page to prove the truth of our claims.

THIS FINE HEATER is one of the best base burners ever offered to sell at these sensationally low figures. The principle upon which it operates is different from the ordinary heater in that the stove has a two-flue construction which allows heat to pass down and around base before it reaches chimney, giving greatest amount of radiation possible. For that reason it is a very economical stove to use, because there is no waste of fuel. All the heat goes into the room where it is wanted. The ash pit is deep and has a hot-air tight door containing an air-tight screw draft. Has front flue clean-out and side shaker, back stove pipe flue with lid for fast kettle and all of the desirable improvements that combine to make an efficient, powerful, convenient, economical, base burning, heat radiating, hard coal stove.

DUPLEX GRATE. Duplex grate is the type used in this superior heater. It differs from the flat type in that it opens and closes in a manner to produce the very best results. This heater is self-feeding, arranged with a heavy, specially constructed, large cast-iron magazine fitted into the top and extending down to near the fire-box level. An automatic cover is furnished which closes and opens as the nickel-steel feed box is moved. If you keep this magazine filled with fuel it will retain a fire throughout the winter. Nor is it necessary to be wasteful with the coal to produce the most satisfactory results. Self-feeding stoves require but little attention and are much more preferable than any others for the parlor or living room. You simply can't go wrong if you order the "Ideal" Heater.

THE MICA DOORS improve the appearance of this beautiful and massive stove. Through the transparent glass, the warm glow of the cheerful fire bids welcome on a cold winter's night. These doors are well ground so as to fit into the grooves in a perfect manner. They are held in place by strong hinges and a simple turn knob. To get the best results we recommend that you use the Chestnut Hard Coal. The superior quality of this excellent heater demands your earnest attention. Of course you can buy stoves for less money, but like most things that cost less, they are not as desirable and when you buy you should think that you can buy this base burner on such reasonable terms, the reason why you should not have it.

NICKEL TRIMMED. The strong, massive, handsome appearance of this heater has been enhanced by the appropriate and tasteful silver nickel trimming. These controls and the stove having top dome, large, bold side ornaments, name plate, heavy foot rails, base, and screw draft and knobs. Has a beautiful ornamental brass urn. The effectiveness of these trimmings can be seen from the appearance of the illustration shown on this page, but to really judge of the artistic elegance of the stove itself you should see it right in your home.
Let Us Ship This Efficient Heating Base Burner It's THE "CROWN"

REGENT HEATER

Swell Mica Doors

Attractive Nickel Trimings

BEST RESULTS are attained if you use Chestnut Hard coal in this heater. The "Crown" is not sold as a soft coal stove. We tell you this in advance so that you will understand the kind of fuel required to secure the greatest satisfaction.

If You Keep Magazine Filled With Coal It Will Burn All Winter. A Great Convenience

THE FEATURES of the "Crown" Regent embrace efficiency in operation, beauty of design and dollar-for-dollar value. This stove has a two-flue construction which permits the heat to pass down and around the base before it reaches the chimney. This construction results in thorough and practical radiation and furthermore works an econom in that there is no waste of fuel. The heat goes into the room where it is required. This principle is different from the ordinary oak heater. The "Crown" costs more than those heaters shown in our catalog but like many things that are more costly in worth, additional cent that we ask. Our credit terms pay your money easy.

ASH PIT is deep and possesses a heavy iron screen draft. It is constructed with side shaker, front flue clean-out and base stove pipe flue with lid for tea kettle. "Crown" Regent is fitted with the improved Ransom Duplex grate. This grate is made from hard coal satisfactorily. Refer to introductory stove pages for design and operation ofl this grate. This stove is self-regulating, possessing a heavy, large iron magazine fitted into the top and extending down close to the level of the fire bed. Automatic cover closes and opens as nickedel swing top is moved. Kept forever filled with fuel and it will reek the fire throughout the winter.

NICKEL PARTS add to its staiteness as grates. These trimmings are all nickel and include: swing top, dome, handsome ornaments, name plate, foot levels, base screw draft damper as well as handles. Attractive brass or nickel urn. These nickel parts are shown in the large illustration. The bracket and "flash" can be appreciated only after you have seen the original from which this picture was made. We offer this heater in your choice of these, but urge you to select one or the larger ones for fullest measure of satisfaction as a small stove is more expensive in proportion to maintain than a large one. When ordering be sure to give correct number.

THE APPEARANCE of this handsome heater is improved by the stunning mica doors. The wide gap of the crackling fire may be seen through the doors and aids to the cozy aspect of the room which the "Crown" Regent may be placed. These doors are held in place by strong hinges and made to fit into the crown in a proper manner and are so made that they close very tightly. These are matters that deserve the attention of the prospective buyer.

You are advised to order a stove that is large enough for your requirements. A small stove is a mere extern to maintain than a large one.

May we have the pleasure of serving you? We guarantee our work. Credit Terms Page 1

**YOU ARE ADVISED TO ORDER A STOVE THAT IS LARGE ENOUGH FOR YOUR REQUIREMENTS**

A Small Stove is More Expensive Than a Medium or Large Size.
A Newly Designed Elaborately Nickeled Base Burning Stove

THE "CLASSIC" REGENT HEATER

Our "CLASSIC" REGENT is an attractive newly designed and nickeled Regent Heater, patterned expressly for us by an expert designer of parlor stoves. The massive base, the body and the nickeled trimmings, are of a pattern in keeping with the most artful surroundings. Every one will add beauty to the room in which it is placed. Once you have used it in your home, you will not find its artistic qualities, you wouldn't part with it at any price.

The material used in its construction is a thoroughly high grade. Real heavy gray cast iron is used and is a specially blended mixture that is strong and durable. Every bolt and nut is of the dependable sort. The nickeling is the silver-on-copper process, famous for its lasting quality and high recommended by the manufacturer and ours. All doors and drafts are gage tight, making the stove economical as consumption of fuel. Because with the bar check draft it is always under control.

GORGEOUSLY NICKELED When nickel trimmings, we think there is plenty of on our "Classic." The quality is of the best, being real silver nickel, highly burnished. The nickel parts are base, rear, front side wings, foot rails, ash pit doors, screw draft, pipe draft, and manhole plate. Handsome nickeled or bronze 12-inch urn.

DOUBLE PLAN OF HEATING is a great convenience as well as a big fuel saver. Coals drawn from furthest point become heated by contact with the hot air thus causing it to rise. A collar at the top of the draft is provided to which you can attach hot air pipe to the room above. By the use of the register, this heat can be utilized to shut off in the upper room as desired. Thus you secure the maximum of heat with a minimum of fuel, taking advantage of the heat that goes out the chimney in the ordinary coal stove.

MANY NEW IMPROVEMENTS are embodied in the construction of "Classic" and consist of the following: heavy cast iron fire-pot, easily removable through front doors; heavy grate wire; shaking ring and duplex center; water jacket attachment at back supplied with a 1-inch removable cover; fast damper and fire regulator; air-tight airtight damper; air-tight doors throughout; swivel top of spathey coal mouth; easy accessible clean-out below ash pit and large ash pan.
The "National" Regent

The "Volcano" Regent

The "Volcano" Regent

Choice of 5 Sizes

Will Burn Wood, Chips, Cobs, or Anything Combustible, Except Coal

The "MONO" Regent

The BODY is made of polished brass and copper with heavy castings, and is extremely substantial. Letter of the body is stamped, "Volcano Regent," and it is a large size for efficient service. The body is made in five sizes, each of which is shown in the catalogue.

MICA DOOR

The front mica door is designed to prevent the escape of heat from the hearth. It is made of mica, which is very similar to glass, and is quite as serviceable. The door has a hinged panel which can be raised or lowered, and is operated by a handle on the outside.

A Very Fine Range
For Either Natural or
For Artificial Gas.
Right or Left Over.

ORDERED BY NUMBER, SELECTING THE STYLE THAT YOU DESIRE. CAN BE FURNISHED WITH RIGHT OR LEFT HAND OVEN AT OUR LOW PRICES.

This gas range is thoroughly efficient, embracing all the good points necessary to produce a stove that will give great satisfaction. It has a blue-polished steel body made of cold-rolled steel. Has a good cast front and square baking oven, as well as an extra deep broiling oven which is equipped with a tinned rack and broiling pan. Has heavy "Klein, Kauff" front doors and cooking top, which are of gun metal finish. There are three single, one double, one simmering and one two-burner oven burners.

THE OVEN is equipped with a reliable oven burner and lighter. The burners and linings are removable. Has adjustable cocks with porcelain-in-set handles. Has convenient high shelf. The baking oven and broiling oven have spring balanced doors which operate easily and which, when lowered, serve as an additional shelf for roasting joints upon. Note the hinges on the oven and broiler doors, which are of the self-closing type, being made of wood. The burners are made in one piece, have nickel heads and are handled with adjustable mixers. It has a welded wire baking oven rack.

IS CONSTRUCTED with two-piece non-cracking top, with enough for artificial gas. For natural gas the range has closed top with fire ring cover and two or three rings. Has double steel oven bottom with asbestos lining. Has a top burner drip pan. When ordering be sure to state whether you desire your range with right or left hand oven and whether you require artificial or natural gas construction. This information, together with the correct number, is essential to manufacture.

MEASUREMENTS.
Oven measures 16x12x18 inches. Broiler is 10x12x18 inches. Height to top of stove, 52 inches. Height overall, 41 inches. Size of top, 24x24 inches. Size of pipe valve, 4 inches. This range rests upon graceful, solid cast legs, strong enough to support greater weight than the range itself. Shipping weight, 385 pounds.

ORDER NO. 8K1397. Right hand oven for artificial gas.

No. 8K1398. Right hand oven for natural gas.
Price $26.45
No. 8K1399. Left hand oven for artificial gas.
Price $24.95
No. 8K1400. Left hand oven for natural gas.
Price $26.45

This type of gas range is very popular and there is a mighty good reason why it should be. It possesses all of the advantages of the range illustrated and described above, and several additional features mentioned in this description. Has the oven and broiler so placed that you can do your baking and broiling without stooping down to see the progress that is being made. Has plenty of space, a great deal of space, for the upper oven. Has a large roasting shelf below, the convenience of which will appeal to every practical housewife. It sets high up, away from the floor, which makes cleaning under it a real pleasure.

THE ADVANTAGES of this superior range are enumerated herewith. Have them over very carefully, and after learning of its many desirable qualities, we know that you will be filled with a desire for it. It occupies but a small floor space, yet is sufficiently large to answer the requirements of any average home. Has one double, three single and one simmer burner, all removable.

Large oven and broiler. Sanitary white enamel oven door as well as broiler door.

This picture was taken from an actual photograph of the range itself and portrays in detail all of the trimmings of this fine range. The oven door lining is white enamel as is the broiler door lining as shown. It weighs, packed for shipment, about 155 lb.

No. 8K1401. Right hand oven for artificial gas.

HIGH GRADE WRINGERS

WARRANTED FOR SERVICE

Thoroughly Dependable Materials Are Used In Their Construction Fully Guaranteed

The life of a wringer is wholly dependent upon the quality of rubber in the rolls and we have taken great care in selecting our line of wringers to be sure that this most vital part is constructed of the best quality that can be offered for the money. We offer only such goods as we consider thoroughly reliable and made of dependable materials by the most skilled workmen. Our wringers are well finished and guaranteed in every way. Our cheaper grade of wringers have high-grade rubber rolls, vulcanized to the roller, and will give satisfactory service while our better grades have heavy rubber rolls which resist wear and have the required elasticity to do the best work and are recommended for service. Each wringer has a warranty tag attached, which should be preserved in case a roll proves defective within the life of the guarantee. Should this ever occur, send us the tag and defective part, with full particulars and give date of purchase. We will replace any rolls proving defective under our guarantee. Please remember that washing compounds, kerosene, etc., destroy the rubber and any roll repaired from this source will not be replaced. Leave adjusting screw when wringing heavy, thick articles and have them hooused when not using wringer.

Here's Our Famous Model “Wabash” Wringer At Real Bargain Prices

No. 8K1370. The name on the frame protects you, for the “Wabash” is thoroughly warranted. When you see the name you know that you are getting what you pay for, and after you have used the “Wabash Wringer” you will appreciate what a wonderful value it is. It will give satisfactory service according to warranty furnished with each wringer. You can have this Standard High Grade Wringer sent on approval. It is warranted for one year for family use, has exposed cast wheels, hardwood frame and an excellent value. Weight, about 10 pounds. Comes in 10, 11 and 12-inch length rolls and prices are quoted below.

HARTMAN'S HIGH SPEED ROTARY WASHER

$9.75

This Machine Can Be Operated Either By Hand Or Power. Space For Belt On Fly Wheel For Use With Gasoline Engine

When Used As A Hand Power Machine It Is Just As Easy To Operate Sitting Down As Standing Up.

It Is A Marvel At Our Low Price

No. 7K1356

Note High Speed Fly Wheel

BALANCE WHEEL of this washer is most conveniently placed at the outside of the tub, where it revolves very rapidly and easily without friction or wear. This construction enables you at all times to quickly and easily get at the working parts of your outfit.

TUB AND OTHER WOODEN PARTS are of genuine kiln-dried Louisiana Red Cypress. The tub is made in a most convenient size, strongly bound with three metal hoop bands having a diameter of about 24 inches with a large capacity which enables you to work on about eight shirts at one time.

CORRUGATED BOTTOM AND SIDES enable you to get excellent results, while the wash tub, at the same time rubbing the garments against the corrugation, and thoroughly cleaning every piece of your washing.

STRONG WRINGER ATTACHMENT is another of the many great conveniences of this outfit and is fitted to the top of the tub, enabling you to easily and firmly attach a large sized wringer.

EVERY CIRCUMSTANCE which could make for the convenience of our customers has been carefully considered. You can sit down comfortably and rest without losing any time and you achieve splendid results with great ease of operation when used as a hand power machine. This combination of efficiency and simplicity does away with all back-breaking, nerve-racking work which has previously been the lot of so many hard-working housewives. This outfit is practically a self worker, and is another example of the height of perfection reached by our factories, and MUST NOT IN ANY WAY BE COMPARED WITH THE MANY CHEAPLY FINISHED, MADE-TO-SELL BUT NOT-TO-WEAR WASHERS ON THE MARKET. Every part of this washer is made of absolutely reliable materials.

DASHER POST is a high grade equipment so built to the machine that you can wash the finest fabrics without being in any way afraid that they will become tangled or torn. This is a feature that is of importance to every washing machine user.

BALANCE WHEEL AND ALL METALLIC PARTS of this washer are carefully tested and inspected so as to guarantee freedom from flaws and insure lasting durability. This washer can also be run by belt power.

TUB, which is strongly bound by three metal hoop bands, stands firmly on five solid brass legs. The height of this washer has been carefully figured out to make it most convenient for you whether you are standing or sitting. This will please those who choose to use this washer as a hand-power washing machine.

IRON PARTS are carefully finished with enamel paints. The advantage of the enamel paint is two-fold; it improves the appearance of this washer, and at the same time protects the metal from the rust-producing elements.

IF YOU DO NOT already possess a Hartman High Speed Rotary Washer, then you are not yet familiar with the real conveniences which have been achieved by the most modern improvements in this line of manufacture. When you receive this washing machine and have actually used it, you will be absolutely astonished at the marvelous rapidity and thoroughness with which you can do your work. The only regret you will have will be that you did not purchase one of these outfits earlier, and thus save yourself many hours of drudgery. You will find our statements to be true in every detail, and you will wonder how, at this price, we could possibly afford to supply such a complete combination of convenience, efficiency and all-around reliability. Take all our other machines, this washer is equalled under HARTMAN'S IRONCLAD, ENGINE LEGAL BINDING GUARANTEE, so that you need have no hesitation but can send us your order without a moment's delay. Shipping weight is 29 pounds.

No. 7K1356. Price only $9.75
AVOID DRUDGERY with this fine washing machine. The tub of this washer is made of Louisiana Red Cypress, deeply corrugated on the inside, making an effective washing surface, finished in the natural wood with fast-acting quality of varnish, and having three steel hoops. The four-pointed dasher block is 10 inches in diameter, made of cypress, not likely to split or crack and is corrugated on outside. The GEARING is durable, being few working parts and has roller bearings which make it run smooth and easy. The high speed of dasher causes increased action in the tub, insuring the removal of all dirt from the clothes quickly and thoroughly, having an inch revolution. Has improved wringer attachment, securely fastened to the tub, admitting the use of a 12-inch roll wringer.

ALL IRON PARTS are attractively finished with enameling and prints and where necessary are heavily galvanized, so as to protect against rust. It is a singleaction washer on the rotary principle, having one oscillating rub

YOU CAN HAVE it to test it in your laundry on approval.

Shipping weight about 60 pounds.

No. 7K163. Price, only $4.50

Tub Is Made Of Cypress

Which Grows In Water And Is Not Affected By Water

down lower face has heavy corrugation and is thoroughly washable. Tub constructed of Cypress wood which grows in water and is impervious to moisture, will render excellent service. The mechanism of this splendid washer is simple in construction and with proper care will not get out of order.

CAPACITY This "Automatic" washer has a capacity of about eight shirts. It is very reasonably priced and endorsed by users all over the country. Shipping weight approximately 60 pounds.

No. 7K1357. Price $8.25

Strong Rotary Washer
The New Style Banner

This fine machine has many points of advantage whose merits are best determined after actual usage. The tub is made of Louisiana Red Cypress, deeply corrugated on the inside, making an effective washing surface, finished in natural wood with a lasting quality of varnish.

THE DASHER BLOCK 10 inches in diameter, made of Cypress, should not split or crack and is corrugated on outside. Has telescopic dasher post, which does not project through dasher block and consequently does not furnish or tear the most delicate garments. The gearing is durably constructed, has but few working parts and has roller bearings, making it work smooth and easy.

HIGH SPEED OF DASHER causes increased action in the tub, insuring the removal of all dirt from the clothes quickly and thoroughly. The lid is covered with a shield to guard against accidental injury through anyone coming in contact with the mechanism. Lid has detachable hinges with all gearing attached is enclosed in tub when shipping, thus affording complete protection to these parts. Has improved wringer attachment, securely fastened to tub, admitting of 12-inch roll wringer.

ALL IRON PARTS are attractively finished with enameling and prints and where necessary are heavily galvanized to protect against rust. Capacity, eight shirts. Shipping weight approximately 80 pounds.

No. 7K163. Price $8.45

The Extra Large Tub Is Constructed Of Cypress With Double Reinforced Cover

**Operating Handle is Adjustable To Suit The Convenience Of The Operator As Illustrated**

**"Boss" Water Power Washer**

Merely Connect The Hose To Your Water Faucet And The Washing Machine Does All The Work. Is Especially Constructed For High Efficiency on Low Pressure

**IT WILL OPERATE** with equal efficiency whether it is used on high or low pressure. That is a point of advantage that is well to bear in mind. The important fact, however, for you to determine before selecting the "Boss" Water Power Washing Machine is that you must be sure that you have at least 25 pounds of pressure. If you do not, it is necessary for you to do is to order this machine, and when you are ready to do your washing, just connect the hose to the water faucet and go about your housework with your mind at ease. You will be care-free on the day of the week that many women look forward to with dread in their hearts. We have had such success with this water power washer that we feel confident in recommending it to you in the very highest terms. You take no chances, because if it does not please you, we don't ask you to keep it.

**THE MOTOR** is the semi-principleless piston type. Instead of being hammered to their death at each reversal of the piston, the valves are softly seated by single spring, so placed and made that ordinary care will not break. Constructed of brass and bronze throughout. Has heavy cast brass cylinder rigidly set on heavy bracket having double bearing for dasher post and other guide for piston-protected metal screen before inlet port to keep dirt out of motor. Handle on dasher post releases dasher from clothes before opening and closing lid. Dasher adjusts through top of motor, is efficient proof. Eight shirt capacity. Scientifically built throughout. Motor complete as described with high-grade intake and exhaust hose. Large cypress tub, natural finish with reinforced top—corrugations on inside—express dasher, detachable lid, bolted wrench attachment, detachable hardwood legs as shown, and enclosed hardware and castings. Parts are thoroughly reliable and efficient. Shipping weight, about 65 pounds. No. 3K1136. Price $15.65

Dependable
Paint and Roofing

WHY HARTMAN'S CAN SELL HIGH GRADE PAINT AND ROOFING AT BARGAIN PRICES

It is a very easy matter for a manufacturer to say that his particular paint or roofing is the best in the world. But it is a very different matter for him to prove to his customers that they are the best.

The final test for paint and roofing is in the length of time they wear. For instance, a certain paint may vary from day to day, but we first put it on a house or barn. It may have a beautiful color and shiny luster and to all outward appearance be as fine a paint as anyone could want. But when the weather and conditions come along, then it clouds up and fades for a day or so. Again the sun comes out blustering hot and you notice something looks wrong. Your paint, your cost of paint. You examine it to find out if that has begun to blister and peel off. Also, it has begun to fade. You touch it with your finger and find that you can rub it off the paint or the wood. It wasn’t good paint, after all, was it? No. And why? Well, in the first place a poor grade of color pigments was used and also a cheap grade of inediced oil. The pigments were improperly ground, hastily mixed with the oil and the whole mixture run off into barrels and kegs and cans, labeled and put on the market as “Fine Ready-Mixed Paint”. No wonder it blisters, cracks, peels off and blows away. What comes the customer to you and asks about ready roofing. There are no end of different makes and brands of roofings on the market. They all look a great deal alike. But again the final test is in the length of service they give. Nine out of ten warps, cracks, get dry and brittle in a few months after they are laid. It can’t stand the test of time and weather. A leaky roof is bound to rust and they are a constant source of trouble and expense.

AS TO OUR RESPONSIBILITY

Now, when we tell you that REX-KOTE Ready Mixed Paints, Varnishes, Stains, Lacquers and Emulsions, and HERCULES GUARANTEED ROOFING are of a high quality, we mean that they will give you years of satisfactory service and will prove a good investment for you.

We desire to make it plain that we wish you to take into consideration a few very important facts. Consider first our responsibility. Any statement of a business firm carries weight only in proportion to the responsibility of the firm making the statement.

You can very easily and readily satisfy yourself as to the responsibility of Hartman’s. Any bank in Chicago or anywhere, and all banks run the same way, know that they would have to maintain up to the highest standard of Hartman quality before we dare go behind them with the Hartman guarantee. In other words, this paint and roofing must be so good that they would prove their quality before the customer finished paying for them. It would not do for us merely to say, “Here is a high grade paint and Hartman high quality pigments, with as it were, a guarantee that we must not only say that, but that we must also be prepared to prove every word of it and back up the statement with our guarantee or else lose the customers and money. And we don’t propose to lose either.

How did we make it so sure that REX-KOTE PAINT and HERCULES GUARANTEED ROOFING would make good under the strong claims we put forth for them? Simply because we subjected them to the severest tests that either a paint or a roofing can be put to. Mind you, more than a million and a half customers are scattered throughout the entire United States, REX-KOTE PAINT and HERCULES GUARANTEED ROOFING cover houses and barns in Maine and in the far Northwest, where they are exposed to the icy blasts of winter for months at a stretch. Likewise they are exposed to the warm, moist climate of the Southern states as well as to the dry, blistering heat of Texas and Arizona. These paints and roofings are extensively used throughout the Middle West, where there are often such sudden changes in temperature that the thermometer will swing from much as 60 degrees inside of 24 hours—a warm, sunny day followed by snow, hail and sleet. They are also used on the Atlantic and Pacific coasts, where the salt sea air is exceptionally severe on paint and roofing. And under all of these varied climatic conditions REX-KOTE PAINT and HERCULES GUARANTEED ROOFING have proved their quality by the test of time. Weather, no matter how sudden or severe its changes may be—no matter how long it may remain hot or cold, or dry or wet, the REX-KOTE PAINT and HERCULES GUARANTEED ROOFING are made for service—AND THEY GIVE IT. We are only too glad to back them up with the Hartman Guarantee, which is the strongest guarantee ever given by a responsible business concern.

It makes no difference who you are or where you live, all you have to do is to write us if you are not satisfied and we will take care of any and all adjustments and all adjustments are entirely at your option. We ask no questions; there will be no unpleasantness, no delay, no red tape, no arguments. If we cannot save you money and sell you the right kind of paints, varnishes, stains, finishes, enamels or roofing at the right price, and please you thoroughly, we won’t argue the matter with you at all. We will return every penny you sent us and any transportation charges you have paid out.

This is our guarantee and back of it is 61 years of honest merchantable reputation, our $12,000,000 capital, and the solemn pledge of the greatest home-furnishings organization in the world. You risk nothing when you deal with Hartman’s. We do not want a dissatisfied customer at any price.

The high quality, low price of our merchandise and easy terms should give one a very clear idea that makes every article listed in this catalogue a genuine bargain, hold good with our dependable “REX-KOTE” Paint and “Hercules” Guaranteed Roofing just as they do on the other $5,000 Bargains for the home.
Rex-Kote
Paints,Varnishes, Enamels,Stains, Etc.

Ready Mixed-Guaranteed

MAKES A NEW HOME
OUT OF OLD BUILDINGS

There is nothing that will add more to the attractiveness of your home than the application of a few dollars’ worth of high-grade paints, varnishes, enamels, stains, and varnishes. Our home, elegant furniture, paintings, hangings, pretty rugs all have their place in a home, yet with varnished floors, dirty walls and shabby exteriors your furnishings lose half their attractiveness.Appearances do not furnish the only reason for painting, however. Neglecting to paint has cost many a man many times what he would have had to pay for paint.
The present high cost of lumber makes it absolutely necessary to carefully preserve every stock of lumber that goes into your building by the application of the best paints, our money can buy.
Your buildings when kept in repair and properly painted not only present an air of prosperity, but actually have a greatly increased selling value.

PAINTING PAYS BIG DIVIDENDS

An investment in good paint pays large dividends by safeguarding the money you have invested in buildings.
We always advise the use of the better grades of paints on your building rather than the inferior extremely low priced kinds. By so doing you effect a greater saving because of their greater wearing qualities.

In the paint sold through ordinary channels there are usually three or sometimes four profits, divided among the manufacturer, the jobber, the salesman and the local dealer. Because these excessive business handling, each representing an individual profit, and their sum the prices down, the quality of the ingredients must be cheapened. Such paints are not worth the labor of putting on, because they last but a short time and are so thin and worthless that they do not properly protect the wood they cover.

SOLD ON LIBERAL CREDIT TERMS

Guaranteed Rex-Kote Paints and Varnishes are sold on the liberal Hartman terms of long time credit. Study the table of terms in the front of this book, you are the terms under which you can buy guaranteed Rex-Kote Paints and Varnishes. Just stop and figure how much an amount of ready cash you require to give your house, your fence, your barn, your roof, that long-needed coat of paint. Why wait until you have saved $500 or even more and then buy paint from your local dealer? Make that improvement now, prolong the life of your buildings by buying a guaranteed paint on the Hartman terms.

There are no strings tied to our offer, there is no trick about this. We trust you for the paints or varnishes you need to protect and beautify your home, just as we trust you for other goods we sell. All we care to know about you is that you are honest and that your word for it, we don’t go to your friends, neighbors and relatives to make extenuating inquiries. We have no need of such queries for we know that you will live up to our terms is all the assurance we require.

There is no more liberal and wide open proposition than ours. We trust you, we ship you a guaranteed paint, you use it, and your judgment whether or not the paint we have shipped is of the right grade is final.

If you say that the paint blistered, peals or chucks, we don’t argue, we send you new paint free of charge any time within four years from the date of the original order.

If there anything finer than this offer?

We do not govern the quality by the price, but set the price by the quality.

READ OUR IRON CLAD GUARANTEE

We unreservedly guarantee that Rex-Kote No. A1 Ready Mixed House Paints will not crack, peel, blister or chalk if applied in accordance with our directions, and that we will, any time within four years from date of your order, replace free of charge to our customers any Rex-Kote No. A1 paint that does not come up to our claims.

That’s why we produce better paints and varnishes, enamels, stains, etc., than many others.

REX-KOTE
Ready Mixed Paints—Durable Varnish

SCIENTIFICALLY MADE IN A

REX-KOTE PAINTS AND VARNISHES represent a
marvelous improvement in paint and varnish making.
Years of scientific research and practical experimenta-
tion by able chemists have achieved in the manufac-
ture of Rex-Kote Paints and Varnishes products of
proven quality, whose merits are shown by actual use.
The advanced method of manufacture and the tremen-
dous output of Rex-Kote Paint make it possible for us
to give you these superb paints at a price far lower
than you pay when you buy ordinary paints. And in
addition to the saving you make, you receive the full
protection of our strong guarantee.

ALL PAINTS AND VARNISHES are made in a high standard of
quality. They are made in one of the largest,
most modern and most scientifically equipped
Paint and Varnish factories. Nothing is left undone to
make our Guaranteed Rex-Kote products
the very acme of perfection, and we know that in offering
our scientifically manufactured Rex-Kote ready
mixed House and Barn
Paints, Enamels, Stains, and
Varnishes, we are placing on the mar-
et thoroughly high
grade paints and varnishes, and we
acknowledge these products
with our reputation of 61 years of honest and successful
merchandising.

THE FACTORY
has been equipped
with every latest saving
machinery known to
the Paint Makers: this
not only increases efficiency and cuts down the cost of produc-
tion, but ensures uniformity of product. The factory
layout is such that there is no unnecessary handling of
materials; this means a
more efficiently
and still lower cost of production.

PAINT NOW AND
PAY LATER

FINE, MODERN PAINT PLANT

THE FORMULAS

THE INGREDIENTS

after which our paints are mixed,
are old and tried through many
years of paint making. This
insures a uniform paint
all the time. We stopped experimenting years ago and
that means more saving. These formulas are worked
out carefully by chemists whose names have been
known in paint making for years, and each kind of paint
has a formula of its own. Then, when a paint is mixed ac-
cording to its formula, the chemist tries some of it, if it
gets exposed to the weather, it is subjected to sun,
rain, heat and cold, and if it appears that any changes
in the formula are necessary to better the wearing
quality of the paint, they are made, and another trial
is given, and so on until the chemist is satisfied that
with the proper ingredients he has a paint that is just
right, and such are our Guaranteed Rex-Kote Paints
and Varnishes, not an experiment but tried and proven
products.

THE INGREDIENTS used in the
manufacture of Rex-Kote Paint and Varnish
products are the best money can buy, and when we say best
we mean just that—best in every sense of the word, the
best line of oil, best turpentine, best japan
dryer, best white lead, best glues, best dry colors, best
grains. Every item of raw material needed to make our
paints and varnish-
es is scientifically tested in the labora-
tories of the fac-
tory by the most
expert Paint Chem-
ists of the country,
and is sent up to
our high standard of
quality before one item
of it is allowed into the
factory. This means
that
the finished
product when sold
to our customers is
made as carefully,
scientifically, and as
good as is possible, and we
cheerfully guarantee it by
our strong, binding guarantee.

YOUR CREDIT
IS GOOD

WY REX-KOTE READY MIXED PAINTS ARE SUPERIOR TO ANY HAND MIXED PAINTS

It has taken many years to educate builders and property owners to appreciate the
high value of good mixed paint, and actual service has had more to do toward
penning this ignorance than all the advertising in the world. Paint mixed by hand
creates a paint ground and color that is not practical. It is not practical that
where two neighboring houses have been painted at the same time, one with the
ready mixed paint and the other with the hand mixed paint, the hand mixed
paint should show the effects of the weather in about half the time and was far inferior

WHY REX-KOTE READY MIXED PAINTS ARE SUPERIOR TO ANY HAND MIXED PAINTS

with the oil, the splendid qualities of the paint are noticable improved and,
because of the fact, are the most economical. It is not practical that

WEAKENED and
ineffective by
the weather.

READ OUR GUARANTEE ON PAGE 397.
PAINT CAN ONLY BE JUDGED CORRECTLY BY A COMPARISON OF RESULTS AND PRICE

We know full well that local dealers ask $2.00 to $2.79 for other so-called pure paints and we know from the actual tests made by master painters, paint dealers’ associations and by our own and other leading chemists that Rex-Kote No. A-1 House Paint when applied presents a much finer appearance and possesses much greater wearing and preserving qualities than those other higher priced paints.

Paint good enough to be sold on easy credit terms, must, indeed, be of the highest possible quality.

So sure are we that Rex-Kote House Paint No. A-1 will make good that we unreservedly guarantee complete satisfaction from every gallon you use.

EASILY APPLIED BY ANYONE

Any hand mixed paint would require the services of an expert painter to secure satisfactory results, but because Rex-Kote being made and mixed by the most perfect up-to-date machinery in a wonderfully equipped modern paint factory, every gallon is always of the same uniform quality with every other gallon; its easy, even flowing qualities can be utilized to the fullest degree even by an inexperienced person.

In buying No. A-1 Guaranteed Rex-Kote, you are buying quality and we don’t hesitate to say to you that we know of no better product in ready mixed house paint made by any one or sold at any price, and our full guarantee of satisfaction covers every gallon.

You will make no mistake in ordering A-1 Rex-Kote Ready Mixed House Paint, made according to a formula which years of experiments has proven to be best. Its covering and protecting qualities are unsurpassed.

Don’t let your painter or any one else tell you that paint mixed by hand is better than our A-1 Rex-Kote Ready Mixed House Paint. Such statements can only be made by misinformed or ignorant persons. Our guarantee of satisfaction is your protection.

BIGGEST PAINT BARGAINS WE HAVE EVER OFFERED

From any viewpoint our fully guaranteed Rex-Kote House Paint No. A-1 is unquestionably one of the biggest Paint Bargains we’ve ever offered. First, it is guaranteed by the great Hartman Concern, with every last cent of its enormous resources; secondly, it is sold to you on credit, so that while you are paying for it you have a chance to watch how well it wears; lastly, the price at which we sell it, even on our liberal credit terms, is no higher than the prices asked by many for grades inferior to Rex-Kote House Paint No. A-1.

You should bear in mind, however, that in paints, like in other goods there are various qualities. It is much better in your own interest to always select the best. It may cost a trifle more in the beginning, yet in the end it will be much cheaper. The best grades of paint will cover more surface, will look better, will retain their color longer, will keep their elasticity for a greater number of years. The oil film, which is the real protector of the wood surface, will not dry out and crack on the A-1 quality for years and years, and we recommend to you in all sincerity that when considering the purchase of paints, you select for the greater economy and better satisfaction, A-1 Rex-Kote Paints.

We furnish it in 20 different colors, which are illustrated on page 405. Don’t forget to give name and number of the color you want. It will avoid errors.

VALUES TYPICAL OF HARTMANS
This is our second quality Rex-Kote Ready Mixed House Paint. It is designated as No. 2. It is made in our factory from ingredients carefully selected and tested. We stand behind this paint with a guaranteed quality, and we stand by it in all frankness that you will be much better satisfied with it than you ever have been with any other paint you have ever used.

Rex-Kote Ready Mixed House Paint No. 2 comes in 22 different colors, which are shown on page 465. In your selection refer to these colors and be sure that you mention the name as well as the number of the color you want.

We guarantee that this Rex-Kote No. 2 Ready Mixed House Paint will not crack, peel, blister or chalk if applied in accordance with our directions and that we will replace, free of charge to you, any Rex-Kote No. 2 Paint that does not come up to our claims.

**Rex-Kote Porch Floor Paint**

**Ready Mixed - Guaranteed**

Ordinary house paint will not do for porch floors, because it is not made for that purpose and will never give satisfaction. Our Rex-Kote Porch Floor Paint is especially made to stand the wear of outdoors. It will resist the destructive influence of rain, snow and ice, and the wear of walking over it. We have combined oils, gums and pigments in such a manner that the exterior is both elastic and dry, hard drying, yet elastic floor paint that is especially well fitted to stand extreme usage. For colors see page 465, and mention the catalog number.

Your farm buildings kept in repair and well painted are not only more pleasing to the eye, but add a selling value to your property many times the small cost and labor involved in keeping them in first-class condition.

Rex-Kote Mineral Barn Paint No. 1 is compounded by one of the most expert paint chemists in the country and possesses peculiar properties not common in ordinary barn paint. It is unexcelled as a preservative, which we recommend specially for structural iron work, barns, grain elevators and the like. It is absolutely weatherproof, under most trying conditions. It is acknowledged by all who have used it to be a most durable preservative of wood. It is ground to unusual fineness by modern up to date machinery, both minerals and oils being thoroughly ground and re-ground together. You may use it with the confidence that we stand back of it with our guarantee should it not prove to be just as we claim.

Whether you have had experience in painting or not, you can easily do a first class job with this paint if you just follow our simple directions.

One gallon of this Guaranteed Rex-Kote Mineral Barn Paint No. 1 will cover about 250 square feet of surface, two heavy coats, and sometimes much more, depending on the conditions of the structure.

Remember, this No. 1 Mineral Barn Paint is covered by our strong guarantee, and if it does not come up to our claims we will, any time within 4 years, replace it free of charge to you.

We make this Rex-Kote Barn Paint in 2 colors, bright red and brown. See the color illustrations on page 406.

Don't forget to mention the color you want.

The Kind of Brushes to Use with Barn Paint.

For painting the walls of barns, sheds, etc., use a No. 10K750 wall brush, 4 or 4½ inches in width. For fences use the same brush, but narrower, 3 or 3½ inches in width.

If a second quality paint will answer your purpose, or if you simply want to improve the appearance of your buildings where length of wear is a secondary consideration, then order this Barn Paint No. 2, which we can guarantee to give satisfaction. However, it does not compare with our No. 1 Barn Paint in covering quality, neither will it wear as well. For the slight difference in cost you will be better satisfied with the higher grade No. 1 Paint and you will be more money ahead by using it. It is, however, made good enough to be covered by our guarantee of satisfaction, and we will replace it free to you any time within three years if it should not give satisfactory wear. It is made in red and brown as shown on page 406. Colors are not so perfect as Barn Paint No. 1.

Too much stress cannot be laid on the necessity of preserving your shingle roof and protecting it against the weather. Rex-Kote Shingle Stain is a paint as well as a wood preservative—a combination of pure, strong colors, ground very fine and thinned with refined cresote and oils that double the life of shingles. It is better than paint for shingles, as it does not close the surfaces; it leaves a clear, non-porous roof, and it will not affect the rain water which runs off the roof into your cellar.

Two and one-half gallons of Rex-Kote Shingle Stain will saturate 1,000 shingles, dipping them, or a gallon will cover from 100 to 125 square feet of roof surface when applied with a brush. We furnish Rex-Kote Shingle Stain in 6 colors as shown on page 406. Specify color you want.
Rex-Kote Roof Paint is one of the best substances known for repairing roofs and keeping them in good condition. It preserves shingles, tin, iron or felt from the action of the weather and will make an ordinary roof last many years longer. It can also be used for structural iron work, iron tanks, iron shutters, steel bridges, stand-pipes and fire-escapes. It is an excellent damp-proof coating on brick and concrete cellar walls, when heavily applied on the outside of the wall.

Apply very heavily when painting the roof; a good thick coat of Rex-Kote Roof Paint is equivalent to an extra layer of felt.

Thus you will get the full benefit of the weather-enduring qualities of natural asphalt and linseed oil.

Linseed Oil Rex-Kote Roof Paint is guaranteed free from rosin. It is made from natural asphalt, linseed oil and other suitable ingredients which form a combination that is waterproof, acid-resisting and impervious to atmospheric and climatic conditions. When dried, it forms a waxy coat (not sticky and not brittle), therefore does not run when exposed to the rays of the hot sun, neither does it crack when covered by snow or ice.

Comes in black, maroon and green. Will cover about 250 square feet per gallon, one coat.

---

### Rex-Kote Black Carbon Paint

An excellent low-priced black paint for smoke-stacks, iron fences, bridges, fire-escapes, felt and composition roofs. It does not compare in elasticity or wearing qualities with our LINSEED OIL REX-KOTE ROOF PAINT, but at the price we sell it it is a very satisfactory product. Has been giving excellent service to thousands of users. For sheds or structures that in the course of a few years will be removed or torn away, it is an ideal preservative at a low cost. Will save its cost many times over by the protection it affords.

### Rex-Kote Auto, Carriage and Buggy Paint

Is a very durable and beautiful color, ground and mixed in copal varnish. It is ready for use and if applied in accordance with our simple directions will refresh your auto, carriage or buggy entirely satisfactorily. You can do the work yourself. For an automobile or carriage use about 1/2 gallon, for a buggy one quart can is usually sufficient. The paint dries with a high lustre, which it will retain for a long time, even though it is subjected to destructive influence of mud, dust, soap and water. Order by catalog number and name of color.

### Rex-Kote Black Asphalt Paint

We take the asphalt as it comes in hard form, and thin it out with California Liquid Asphalt, then temper it with Trinidad Semi-Hard Asphalt, and blend it in a boiling process with semi-volatile oils so as to keep the product in liquid form ready for use. An unequalled preservative for all kinds of iron work, felt, metal and composition roofing. A splendid damp-proof coating for cement and brick basement walls if applied on the outside of wall.

### Rex-Kote Wagon and Implement Paint

Primarily intended for repainting of farm wagons and farm implements to keep them looking new and bright. It has been conclusively proven by farm experts that ordinarily wagons and implements last about 6 years if not placed under roof and kept in paint, but that where care has been taken to give each wagon and each piece of implement one or two coats of Rex-Kote Wagon and Implement Paint in a year, they would last almost indefinitely. You will find it a lot cheaper to buy Rex-Kote Paints for your implements than to buy new implements.

REX-KOTE High Gloss Durable
VARNISHES
Fully Guaranteed

REX-KOTE High Gloss Extra Durable Floor Varnish
A varnished floor takes away 33 per cent of the drudgery of keeping the home clean, because it can be cleaned in 2 hours with a damp cloth. REX-KOTE is indispensable for floors of all kinds. Has just the right body to make it stand up under the most severe wear; dries in 6 hours to walk on it. Natural amber color. Does not darken with age, water and soap will not injure the beautiful lustre of the floor, heel marks have no effect on the elastic surface. Furniture can be moved over it without marring or scratching. A nicely decorated residence should have a smooth, lustrous floor surface. You can secure if you purchase REX-KOTE high-gloss extra-durable floor varnish. Satisfactory results will justify your selection.

$1.52 Per 1 Gallon Can
$1.50 Per 1/4 Gallon Can

REX-KOTE Extra Light Hard Oil Finish
An unparalleled light colored finish for all interior woodwork, except floors; will bring out the natural grain of the wood beautifully, dries, dust free, in 30 days and sets hard in 4 hours. Particularly adapted for new work on loose-grained or porous wood. Apply with flat 4-inch brush.
No. 10K433. EXTRA LIGHT HARD OIL FINISH
$1.50 Per Gallon In 5 Gallon Can
$1.60 Per 1 Gallon Can
$1.50 Per 1/4 Gallon Can

REX-KOTE HARD OIL FINISH
Adapted for finishing interior work of all kinds. As a side for plaster walls, when thinned out with equal parts of turpentine, it cannot be surpassed for the money. It is of light amber color, is free flowing and will dry quickly with a rich gloss. It is very suitable for new work, especially on soft, porous wood.
No. 10K434. HARD OIL FINISH
$1.26 Per Gallon In 5 Gallon Can
$1.37 Per 1 Gallon Can

REX-KOTE Inside Spar Varnish
We are willing to match this inside spar varnish against any other varnish for fine furniture, body, lustrous, firm and elasticity. No matter what you pay for spar varnish you can get nothing that will give better performance or cost less. This varnish can also be used as a protective finish in the interior of all kinds of buildings. It can be applied easily under the brush, sets, dust free, in 8 hours; dry in 18 hours, and can be rubbed to a high polish.
No. 10K435. INSIDE SPAR VARNISH
$2.08 Per Gallon In 5 Gallon Can
$2.18 Per 1 Gallon Can
$44 Per 1/4 Gallon Can
$72 Per 1 Quart Can

REX-KOTE Outside Spar Varnish
For outside use this spar varnish is recommended as very desirable. Can be used for all outdoor purposes for which varnish is used. Rapids, south, can be applied directly from the can, and the ingredients are so compounded that the product will withstand the inclemency of all weather conditions. Heat or cold will not affect it and water will not injure it. Apply over thoroughly clean surfaces with soft varnish brush 1/2 to 1/8 inches wide, according to the size of the work you are to do. Will dry with glossy surface in about 40 hours.
No. 10K436. OUTSIDE SPAR VARNISH
$2.39 Per Gallon In 5 Gallon Can
$2.50 Per 1 Gallon Can

REX-KOTE Very Fine CARRIAGE VARNISH
For finishing fine automobiles, carriages and buggies, gives a soft, resilient surface that will not scratch or dull under the wear of use. It has the ingredients so compounded that the product will withstand the inclemency of all weather conditions. Heat or cold will not affect it and water will not injure it. Apply over thoroughly clean surfaces with soft varnish brush 1/2 to 1/8 inches wide, according to the size of the work you are to do. Will dry with glossy surface in about 40 hours.
No. 10K437. CARRIAGE VARNISH
$3.34 Per 1 Gallon Can
$1.69 Per 1/4 Gallon Can
$52 Per 1 Pint Can

REX-KOTE COACH VARNISH
One coat of this coach varnish over slightly dull looking or carriage bodies will put on a new luster and preserve the paint for years. Can be used on wood, canvas, leather, alabaster. Will make the paint last longer than it will under any circumstances. One coat will make the paint last longer than it will under any circumstances. One coat will make the paint last longer than it will under any circumstances.
No. 10K438. COACH VARNISH
$3.33 Per 1 Gallon Can
$1.72 Per 1/4 Gallon Can
$50 Per 1 Pint Can

REX-KOTE WAGON AND IMPLEMENT VARNISH
Made expressly for the hard use it will be put to when applied to wagons and farm implements. A fine varnish for general outdoor work. Can be used on wagon, canvas and farm implements after a fresh coat of paint has been applied, will preserve the paint and lengthen the life of it considerably. Applied over paint that has become dulled from exposure, it will bring new life into it and save the expense of a new coat of paint.
No. 10K439. IMPLEMENT VARNISH
$1.92 Per 1 Gallon Can
$1.04 Per 1/4 Gallon Can
$44 Per 1 Pint Can
This is about the most useful product of the paint industry and is without doubt one of the most wonderful wood finishes ever produced because of its brilliancy of colors and lasting qualities. It is far superior to the ordinary wood finishes. It is so easily applied that the inexperienced can do it. It is made up at such a price as to allow you to make your own old and scratched pieces of furniture look as good as new at an expense of a few cents, and the finished work will be almost as satisfactory, and about as rich and beautiful as if it had been done by an expert painter or cabinet finisher. Indeed, the greatest merit of Rex-Kote Varnish Stains lies in this one quality—that it does not require expert handling to produce satisfactory results. It is put up by us ready for use; nothing is to be added by the purchaser; just open the can, pour a little of the liquid into a saucer or cup and brush it on the piece of furniture or the woodwork you wish to decorate, following the very simple directions we send with the can, and in twenty-four hours' time the newly decorated piece of furniture or woodwork will be ready for use. Apply with a flat 2½-inch varnish brush. You should take this finish in a well-ventilated room, as it is wonderful the effect which it produces. When you have made an oak finish out of walnut and later on, if you wish to order any stain color, this can be done with Rex-Kote Varnish Stain. We have been in the Furniture Business for 61 years and thoroughly understand the requirements of an efficient Varnish Stain—we proclaim Rex-Kote absolutely perfect.

There are 2 different natural wood finishes and one ground color. When making your selection don't fail to tell us what finish or color you want, and don't fail to order ground color when you want to change the finish of a piece of furniture from one color to another.

### No. 10K440. REX-KOTE VARNISH STAIN

**$2.00 PER 1 GALLON CAN**

**$1.09 PER 2 GALLON CAN**

**61c PER 1 QUART CAN**

**37c PER 1 PINT CAN**

#### REX-KOTE WHITE SHELLAC

Like orange shellac, the white shellac is a necessity as a first or prime coat in finishing pianos, furniture or fine interior woodwork. It should be used on such articles as are to have a color or a very light natural finish. White shellac dries in from 2 to 4 hours, comes up in tightly sealed cans ready for use. Can also be used to cover up knots in sappy woods before painting. Order by catalogue number and be sure to state that you want white shellac.

**No. 10K441. REX-KOTE WHITE SHELLAC**

**$2.24 PER 1 GALLON CAN**

**69c PER 1 QUART CAN**

**1.26 PER 1/2 GALLON CAN**

**38c PER 1 PINT CAN**

#### REX-KOTE ORANGE SHELLAC

Shellac is used by finishers as a first or priming coat on pianos and fine furniture. It dries quickly in from 2 to 4 hours, is transparent, fills the pores of the wood, and at the same time accentuates the natural grain of the wood. We do not recommend the use of liquid filler on pianos, fine furniture or any fixtures as a prime coat for shellac. Shellac is the proper substance and is much more satisfactory. Use orange shellac only on furniture, pianos or store fixtures when they are to be refinished in dark oak, mahogany or any other dark finish.

**No. 10K443. REX-KOTE ORANGE SHELLAC**

**$2.24 PER 1 GALLON CAN**

**66c PER 1 QUART CAN**

**1.21 PER 1/2 GALLON CAN**

**37c PER 1 PINT CAN**

#### REX-KOTE OIL STAIN

A very fine stain for new interior wood work. Will imitate any natural wood finish. It cannot be used over painted or varnished surfaces. If directions are followed the most pleasing results will be had. Use liquid wood filler in a prime coat on open grained woods.

Apply the stain, after 24 hours finish off with 3 coats of Rex-Kote. The finish will bring out the romance very gratifyingly. Colors in the following colors:

- **CHERRY—LIGHT OAK—ANTIQUE OAK—DARK OAK**
- **ROSEWOOD**
- **WALNUT**
- **MAHOGANY**

Don't fail to state color wanted and give catalogue number.

**No. 10K445. REX-KOTE OIL STAIN**

**$1.77 PER 1 GALLON CAN**

**54c PER 1 QUART CAN**

**99c PER 1/2 GALLON CAN**

**30c PER 1 PINT CAN**

#### REX-KOTE LIQUID WOOD FILLER

Rex-Kote liquid wood filler is what its name implies, a filler. We are not claiming it fills as good as it used to. It is a fast first coat. It dries quickly in about 10 hours, fills the pores of the wood and will save that much varnish as it has taken wood filler to put on the first coat. For sizing plaster about to be painted it is without an equal, and in fact, for any purpose as a first coat to prepare the surface for painting or varnishing liquid wood filler is the best.

**No. 10K447. REX-KOTE LIQUID WOOD FILLER**

**$1.17 PER GALLON**

**73c PER 1/2 GALLON CAN**

**1.26 PER 1 GALLON CAN**

**42c PER 1 QUART CAN**

**1.17 PER GALLON**

**73c PER 1/2 GALLON CAN**

**1.26 PER 1 GALLON CAN**

**42c PER 1 QUART CAN**

### REX-KOTE GOLD BRONZE

A rich, deep gold bronze, suitable for the many uses about the home where a gold finish is desired. Liquid and bronze powder are put in a friction top can in separate compartments; you mix the mixture just before using. If you are careful not to mix more than the required chart, you will make a small can last a long time, for the friction top of both compartments of the can closes air tight and the liquid does not evaporate. There is no banana oil used in the preparation of the liquid, hence there is no objectional odor from the gold bronze. Used on radiators, picture frames, etc., it will not tarnish.

**No. 10K442. REX-KOTE GOLD BRONZE**

**55c PER 1/2 PINT CAN**

**29c PER 1/4 PINT CAN**

### REX-KOTE ALUMINUM ENAMEL

Gives a rich silver aluminum finish to a radiator, registers, stove sits from which the nickel plating has worn off, etc. Comes in 2 compartment friction top can, which keeps powder and varnish separate until you can use it. It is put up in 3 different sizes as listed below. Apply with a soft flat brush 1 ½ inches wide.

**No. 10K444. REX-KOTE ALUMINUM ENAMEL**

**65c PER PINT CAN**

**36c PER 1/4 PINT CAN**

**20c PER 1/2 PINT CAN**

### REX-KOTE SCREEN ENAMEL

Fly screens, screen doors and screened porches should for economical reasons as well as for appearance's sake, be painted once. You will find that it pays well; you can do it yourself. Your screens will never rust and will last indefinitely. We make this screen enamel in 2 colors, black and green, and put it up in 4 different size cans.

Rex-Kote screen enamel is made just right, dries quickly, but does not clog the mesh, is extremely durable and one coat will applied will make old rusty screens look new.

**No. 10K446. REX-KOTE SCREEN ENAMEL**

**$1.69 PER 1 GALLON CAN**

**24c PER 1 PINT CAN**

**44c PER 1 QUART CAN**

**16c PER 1/2 PINT CAN**

### REX-KOTE BLACK GLOSS STOVE PIPE ENAMEL

A glossy, quick and hard drying enamel suitable for covering stovepipes, steel ranges, gas-stoves, boiler fronts, steam pipes, furnaces and furnace pipes, iron orchards or lawn rails. Will not peel or burn and dries with a rich, deep black finish. Comes up in friction top cans ready for immediate use. Apply with a soft, flat brush 1 ½ to 2 inches wide.

**No. 10K448. REX-KOTE STOVE PIPE ENAMEL**

**41c PER QUART CAN**

**23c PER PINT CAN**

Rex-Kote Artistic Interior-Gloss Enamel
Ready Mixed
Guaranteed

This is a high-grade all-purpose interior finish for walls, woodwork, furniture, beds, baby buggies, reed furniture, wood seat chairs; in fact, it can be used on anything to be finished in any color. It gives a smooth, glossy finish. Anybody can apply it and secure the same results as an expert painter. You can easily refresh the bedroom, the kitchen, the pantry, and finish the furniture in these rooms to match or harmonize. You will be astounded at the marvelously beautiful and artistic effect thus created. If you will write to us for suggestions of HOW TO MAKE YOUR HOME BEAUTIFUL we will gladly place at your service the expert advice of our paint and varnish department.

Made in 12 shades as shown on page 496. Dries hard, with a gloss finish, in several hours. For an undercoat, use a sufficient quantity of under-coat to put on the first coat of it. Using the under-coat, which is especially prepared as a first coat under white gloss enamel, will make a much better job.

No. 10K311 3 Knot Roofing Brush. .58c

Sanitary-Flat-Wall Finish
Ready Mixed
Guaranteed

The new Sanitary Flat Wall Finish is another triumph of the Rex-Kote Paint Works, made to supply the need of a delicate and attractive germ-proof wall covering. After years of experimenting we have succeeded in bringing out a hard, flat drying oil paint that never does away with the old-time, unhealthful and unsanitary kalsomine and wall paper for kitchens, library, pantry and kitchen decoration. Rex-Kote Sanitary Flat Wall Finish is washable; it is economically; its first cost is less than that of wall paper and it will last ten times as long as kalsomine and always looks better.

Rex-Kote has all the properties of paint except the high luster, which is not desired in some interior work. Rex-Kote Flat Wall Finish can also be used as a base for enameling, and is superior to all other first coatings. One gallon will cover about 200 square feet. For your benefit we give complete satisfaction.

CHICAGO 407
GUARANTEED ROOF PROTECTION

The roof is more continuously exposed to the weather than any other part of a building. Therefore, in the construction of any roofing material, its weather-proof and wear-re-

sisting qualities must receive first consideration. Hence, when we decided to enter the roofing field, we determined that we would build all our energies toward the production of roofing which could be absolutely depended upon for a combination of years of experience, skill, modern machinery and unlimited capital that could produce.

HIGH GRADE ROOFING AT MONEY SAVING PRICES

We occupy a position entirely different from the ordinary roofing manufacturer because we depend upon the continual patronage of our customers, not only for roofing but for their home furnishing requirements as well—not only for the present but for years to come. Therefore, we must see to it that you get your money's worth in every purchase.

Roofing good enough to be sold to you on small credit payment must indeed be of a very high quality—it must be a roofing without a flaw and without the slightest objection.

Our Hercules guaranteed roofing has received a very high quality of perfection in roof covering and compares very favorably with roofing sold by others on a strictly cash basis.

ABSOLUTELY UNIFORM IN QUALITY

Every inch of Hercules roofing is just exactly the same as every other inch, its quality is the most uniform ever achieved in habitual roofing. It is not only composed of truly remarkable weather-resistant materials, but is so nearly uniform in its construction and manufacture that we give it our heartiest endorsement. Our experts go on the theory that if roofing is made uniform, the same throughout, that it must give out all at one time or keep in perfect shape all the time. A chain is no stronger than its weakest link, a roofing is no stronger than its weakest inch and if there are no weak links, then how can the roofing ever wear? Hercules Roofing should give longer wear than we guarantee it to give—it's made that way.

RUST-PROOF—WATER-PROOF—WEATHER-PROOF

Our Hercules Guaranteed Roofings are proof against rain or snow, heat or cold. Climatic conditions and sudden changes in temperature have no perceptible effect upon them. They can be used in any part of the world in tropical or polar regions with equally satisfactory results. For that reason you need feel no hesitation in ordering this roofing from us. We have all grades for all purposes. Every grade is fully guaranteed.

ROOF YOUR HOUSE AT OUR RISK

Roof your house or barn at our risk, no matter where you live. We don't ask you to take our word for it, we will let Hercules guaranteed roofing prove its superior qualities to you in actual tests. We buy the roofing in accordance with our directions at our risk. Let it be exposed to all the weather and tearing strain that storms, rain, and snow can give it. Let the sun beat down on it, let the cold freeze it. While you are paying for it, Hercules Roofing will be silently proving to you its fine quality in actual service. If it does not come out unimpaired we will make good to you.

HOW TO FIND THE QUANTITY NEEDED

To find the quantity of roofing required for your house, measure the length of the rafters and multiply this dimension by the length of the building. This will give you the number of square feet needed for one side of the roof, double this amount and divide by 80; the answer is the number of rolls of roofing you will need.

Don't waste money on tin roofs that rust into holes, and wood shingle roofs that rot away.
HERCULES GUARANTEED REVERSIBLE ROOFING

1-PLY, WEIGHT 35 LBS. PER ROLL
2-PLY, WEIGHT 45 LBS. PER ROLL
3-PLY, WEIGHT 55 LBS. PER ROLL
GUARANTEED TO WEAR 2 YEARS
GUARANTEED TO WEAR 3 YEARS
GUARANTEED TO WEAR 5 YEARS

A strong and serviceable roofing which can be laid with the flint surface or the rubber finish to the weather, according to your preference. This roofing is ideally adapted to cover temporary shelters that will be removed in a year or two. Will also make an inexpensive covering for side walls of summer houses, poultry sheds, etc.

It comes in rolls 32 inches wide, containing 180 square feet of roofing, and each roll will cover 200 square feet of roof surface. Suitable nails and cement are packed inside the rolls for laying.

USE HEAVY WEIGHT ROOFING—IT'S GOOD ECONOMY

No. 10K387—1-PLY REVERSIBLE ROOFING, PER ROLL 108 SQ. FEET, PRICE $1.12
No. 10K388—2-PLY REVERSIBLE ROOFING, PER ROLL 108 SQ. FEET, PRICE $1.60
No. 10K389—3-PLY REVERSIBLE ROOFING, PER ROLL 108 SQ. FEET, PRICE $2.02

OUR GUARANTEE PROTECTS YOU

If laid properly and in accordance with our directions it will wear and give satisfaction for a longer term of years than guaranteed. Hercules guaranteed roofing will make good, or if it doesn't, we will make good to you.

SEND FOR FREE SAMPLES

We will gladly send you free a set of samples showing our complete line of roofing. If you prefer to see the roofing before buying, you can, however, select your roofing right from these pages. They show and describe our complete line. The descriptions are accurate and truthful. The weight given on each roll of Hercules guaranteed roofing is correct, and our selection may be made and shipped subject to our liberal binding guarantee.

THE ECONOMY OF THREE-PLY ROOFING

Knowing Hercules guaranteed roofing as we do, knowing the comparative strength of 1, 2 and 3-ply roofing, we want to suggest to you that you can cut your cost definitely, and decide which to order. Remember, that while 1-ply and 2-ply roofing cost a trifles less than 3-ply, for the right additional cost 3-ply roofing will return to you ten times the amount in longer wear and better protection to your roof.

FLINT SURFACED ROOFING

There is a real economy in Hercules guaranteed roofing. Its first cost is the only cost and you save all repair money and all paint money. Your roof will not require it.

Here's the reason why Hercules guaranteed roofing is superior to all others. All prepared roofings should be made from high grade roofing felt, the same as Hercules—some manufacturers make work in paper, which weakens the life of the roofing.

Pure asphalt is necessary to make a strictly high-grade, lasting roofing—here same manufacturers lower the grade by using cheaper substitues. Tar cracks in cold weather, melts in summer, oil evaporates, leaving the roof dry and brittle, so that it buckles and cracks.

Hercules Roofing contains no substitutes for pure asphalt or felt base. Whenever asphalt roofing is mentioned, the Hercules Guaranteed Flint Surfaced kind is always in the foreground. Its wearing qualities put it there.

When you buy Flint Surfaced Roofing you are guaranteed on honest, reliable, sound roofing, you will find complete satisfaction.

No. 10K390, 1-PLY, 55 LBS. PER ROLL, GUARANTEED TO WEAR 5 YEARS, PRICE $1.12
No. 10K391, 2-PLY, 65 LBS. PER ROLL, GUARANTEED TO WEAR 5 YEARS, PRICE $1.84

ONLY $2.97
Per Roll of 100 Sq. Ft.

Hercules Rock Surfaced Roofing will outlast and surpass in beauty any Roofing on the market.

Its popularity is increasing every day, but its unsurpassed qualities and beauty can be fully appreciated only after it has been laid and in use for a number of years.

You can buy roofing for less money—we list such on the preceding pages—but you cannot, at any price, buy any kind of roofing that will afford you better continuous satisfactory service and lasting beauty. These facts make our Hercules Rock Surfaced Roofing the most economical in which you can invest.

Hercules Rock Surfaced Roofing is made from a very high grade felt base. It is of extra heavy weight and strength. The fibre is carefully and mechanically saturated with the greatest waterproofing compound known to the Roofing World—Pure Asphalt. After the process of Pure Asphalt saturation is completed, it is given an additional mechanical treatment, requiring great time and care, to make it still more water-proof and durable.

THE COLORS DO NOT FADE—THEY’RE NATURE’S OWN PRODUCT

The next step in the process of manufacture is to give the roofing a half of especially prepared high grade coating which protects the fibre from the weather wear, after which it is coated on both sides with finely crushed rock. This rock surface which will never fade, produces the beautiful appearance shown in the illustration and also materially adds to the fire resistant and lasting qualities of the roofing.

Great Care is Used in the manufacture of this roofing, as it is necessary that the Rock Surfacing is so well imbedded into the coating as to make it difficult to remove or chip off.

WILL GIVE MORE THAN 15 YEARS OF ROOFING SATISFACTION

We cannot recommend too strongly the purchase of this roofing, for it will add to the appearance of any building—it is of high quality and manufactured from Pure Asphalt—it is far superior and far less expensive to apply than shingles or any other kind of roofing. It will retain its beautiful appearance—its water-proof qualities are the best because of the careful refining to which the asphalt solution is subjected—there is nothing which can be done to increase the saturation that will discolor the crushed rock finish. Our Fifteen Year Guarantee Protects You Fully.

You cannot possibly make a mistake in ordering this guaranteed ready roofing for your house, barn, sheds or any other buildings because it successfully withstands the elements. Summer heat or arctic cold has little or no influence on its wearing quality. If laid right to begin with, if our directions covering laying and cementing are followed, it will not warp, delaminate, or wear, heat or cold will not affect it in the slightest degree. While the Rock Surfacing is put on primarily for protection, it gives the roofing a beautiful appearance to be found in no other ready roofing.

MADE IN TWO COLORS:

Hercules Red Rock Surfaced Roofing

A natural deep red rock surface of remarkably striking beauty.

Hercules Green Rock Surfaced Roofing

A quiet, restful greyish green rock surface that is pleasing to the eye.

A COMPLETE KITCHEN OUTFIT is designed by every housewife, and if you were to purchase this fine, durable, practical seventeen-piece set, piece by piece, you would have to pay far more than the price quoted. Every article that is really essential to proper cooking is contained in this outfit. Don’t use inferior cooking utensils, because the health of the family depends upon what they eat, how their food is prepared and the kind of cooking utensils that are used. This aluminum will not corrode, chip or peel. Furthermore, it is easy to clean and easy to keep clean. It is light in weight, yet is almost indestructible; and with ordinary care will last for a great many years. Will not rust, ordinary kinds of utensils several times over. It heats quickly and therefore effects a big saving in fuel over the cheap types of cooking utensils. At a recent investigation it was declared that the use of aluminum cooking utensils was absolutely sanitary, non-polluting, safe and eliminates the possibility of any possible evil effects.

THESE 17 PIECES are made of pure sheet aluminum of a hard and heavy grade—unlike many cheap, thin aluminum utensils commonly sold. For the assurance of those unfamiliar with the proper care of aluminum we send with each set a reference card covering the care of aluminum utensils—so that the user will understand how to keep them properly. The free use of pure soap and hot water will keep them in perfect condition and make them the pride of every house-loving woman. They have no plating to wear off. Their heat-up curve prevents no stirring of foods and there is no danger of burning. If slight scratching should occur, food is affected only at the bottom. To the right we quote a complete list of the pieces that are included in this low price. It is second in quality to none on the market.

THE ASSORTMENT INCLUDES the seventeen pieces listed below. Each is either full or very complete.

1 qt. Lipped sauce Pan, 20 gauge, polished outside, nickel plated steel handle.
2 qt. Lipped sauce Pan, 20 gauge, polished outside, white slip finish nickel plated steel handle.
3 qt. Belfast Roaster Pan, 18 gauge, polished outside, white slip finish nickel plated steel handle. Cover, 24 gauge, polished outside, wooden knob. 2 pieces.
6 qt. Preserving Kettle, 14 gauge, polished outside, white slip finish nickel plated steel and tin handle.
Bread Pan, 22 x 5 x 2 1/2 in., polished outside, natural finish handle.
2 qt. Pudding Pan, 22 gauge, polished outside, white slip finish handle.
Bread Pan, 22 x 5 x 2 1/2 in., polished outside, natural finish handle.
3 qt. Double Fry Pan, 3/4 in. outside dimension, made of stain 12 gauge metal, natural finish.
1 pt. Deep, 22 gauge, polished outside, black enamel handle. Length 13 in., Measuring Spoon, white handle, 3 spoons in each box, marked with measures; capacity 1, 1/2 and 1 teaspoon.
Soup Strainer, white finish, 4 inches diameter.
2 qt. Coffee Pot, 18 gauge, black enameled handle. Black enameled knob on dome cover, patented spout.
1 qt. Mixing Bowl, 20 gauge, polished outside, natural finish handle.

FULL 20-PIECE SET contains following pieces: 1 qt. lipped sauce pan, polished finish outside, 20 gauge metal, steel handle; two 20-oz. cup having pot plates; 1 qt. each double roaster pan, 1 quart measuring cup, 1 pint measuring cup, 1 quart measuring cup; steamer; combination, slotted slotted, polished finish inside; 20 gauge metal, steel handled lipped sauce pan and cover (2 pieces); 26 gauge metal, steel handled soup strainer or colander, diameter of top outside 4 inches, handle 2 inches; 3 qt. rimmed刚需系列 coffee pot, black polished, seamless pot, with welded spout, ebony finished wooden handle, French deep style percolating from 12 pieces; 4 standard wooden handled pot with 1 quart aluminum rod and 4-inch percolating disc; 3 qt. 18 gauge, steel handled Boston sauce pan and matching aluminum sauce dish; 4 pieces; 8 3/4-inch bend base, polished finish outside; 14 pint size, polished finish bend base.

INCLUDED also is a stainless steel, polish finish (inside scratch finish), length
12", inside diameter of bowl 4 1/2 inches; 1 pint measuring cup, slip finish, lined to measure 1 and 1/2 pt.; 2 qt. 20 gauge metal polishing pot, polished finish, diameter of top 3 1/2 inches, handle 2 1/2 inches; lipped percolating coffee pot of 18 gauge metal, polish finish, steel handle, interlocking cast knob made of steel, polished steel strainer, capacity 6 cups; aluminum will not corrode, chip or peel. In baking, light in weight, wear-resisting. It heats quickly and is a source of pride.

THESE JOY PONIES

ADD ZEST TO PLAY

REMEMBER what your toys were to you when you were a child? Just how many little things are there in your own household, or among the families of your friends? There are some toys that have won your heart and that you would find it hard to play with some gift that came from you. It is true that a child's toys are what they are, but there are some that will be more to the child's liking than the "standard" models. To the left, you can see a galloping motion maker, which makes a fine gift for the child, and that they exercise hand and body. This attractive article is made in many sizes, with red, blue, and yellow handle. The horse is about 15 inches long, and is very attractive. Shipping weight, about 12 lbs.

$8.45

No. 8K1366, Nickel plated, 38 cal., 3-inch barrel, 5-shot, $6.48

A SPLENDID POCKET GUN
LONG RANGE, SINGLE BARREL

GUARANTEED, AMERICAN MADE, BREECH LOADING, SHELL EJECTING FIRE ARM

This gun is made for us by one of America's most expert manufacturers of firearms. Although we sell it at a very low price, it is not a cheaply constructed weapon, but a gun built for service and accurate shooting. It has a strong barrel and black barrel, full choke bored automatic shell ejector, top snap back, rebounding hammer, case hardened frame, finely tempered action, straight grip without pistol grip stock. The gun is made in 12 gauge and has a 3-inch barrel. We guarantee this gun. Order this single barrel action, examine and compare it carefully. If you don't find it exactly as described and illustrated you can return it to us and get your money back.

No. 8K1367. Price $7.98

SPLENDID GRADE AMERICAN BAR LOCK HAMMER GUN

FULL CHOKE BORED FOR EITHER BLACK OR NITRO POWDER

Has full choke bored barrels of de-carbonized blue steel, case hardened locks and frame, top snap back, rebounding hammer, walnut stock with checkered pistol grip. Special patent fore-end, positive action and finely tempered springs, gun is made in 12 gauge and has 3-inch barrels.

No. 8K1368. Price $15.89

HAS BREECH LOADING DOUBLE BARREL—HAMMERLESS

SHOT GUN
12 GAUGE

STANDARD LENGTH BARREL

HOW THIS GUN IS MADE

The barrels are standard length, made from standard gun barrel steel, turned out of solid bar, made heavy at the breech to withstand any factory kind of nitro powder. The RH is milled, extension rib is extra heavy. Barrels are finished and choked bored for shot and hard shooting. The stock is made from a fine straight grain, well seasoned walnut, handsomely shaped, with checkered pistol grip, fitted with fancy butt plate, and hand finished.

SATISFACTION IN WATCHES

ELGIN-WALTHAM-ROCKFORD FAMOUS WATCHES FOR MEN AND WOMEN

HARTMAN'S JEWELRY DEPARTMENT
39TH ST. & WENTWORTH AVE., CHICAGO, ILL.
HARTMAN’S
LEGAL WATCH GUARANTEE.

WATCH
Guarantee

We Hereby Guarantee every watch we sell
to be an accurate timepiece, in perfect run-
ing order and to correspond in every detail
as pictured and described in this catalog.
Cases and movements are positively guar-
anteed to wear as specified.

We Agree to replace and repair, free of
charge, at any time, any part or parts of any
watch purchased of us which may give out
because of defective material or workmanship.

We Guarantee to ship each and every
watch on approval, and if within 30 days
from its receipt it does not prove perfectly satis-
factory, we will accept its return and when
received by us, refund all moneys paid includ-
ing payment of transportation charges.

HARTMAN FURNITURE & CARPET CO.
JEWELRY DEPT. CHICAGO, ILLINOIS
OUR REASON for handling only the Elgin, Waltham and Rockford watches should be your reason for owning one of these dependable standard makes. We will not carry watches unless they have an established reputation—watches which time and usage have demonstrated to be the very best that the watchmaker's skill can produce—and you cannot afford to own any other than these makes—a watch which will give you a lifetime of satisfactory service; which becomes a family heirloom and can be handed down in perfect working order from generation to generation. Such a watch is either an Elgin, a Waltham or a Rockford.

We were practically forced into the watch selling business. At first we received an occasional request from some customer for a good, accurate timepiece. Later these requests became more numerous and finally they came so thick and fast that nothing was left but to add a complete Watch Department to our already enormous and extensively departmentized business—the largest of its kind in the world.

IN ORGANIZING our Watch Department, we set about it with the same thoroughness and well-being of our customers in mind, which has for 60 years made us leaders in the policy of the mammoth Hartman institution. We made a careful survey of the entire watch industry. We secured the services of some of the ablest watch experts in the business and placed the department in their entire charge. Personal visits to the leading watch factories were made to note their equipment, processes of manufacture and other phases of the watchmaking business. It might be said that every known make came up for consideration and was subjected to every conceivable test for reliability, dependability, durability—in fact, for every known watch quality.

WHY DID WE go to so much trouble and expense in establishing one of the many departments of this great business with its mammoth mail order department and more than one million, five hundred thousand satisfied customers? Simply because we were determined to carry no make of watch that would not stand up under the Hartman guarantee, and our instruction to our experts in the Watch Department was this:—"Take no chance. We are not in the business to make our profit off the watches and buy inferior makes on account of making a larger profit, because we expect to make friends by the very quality of the watch we sell; and if we sell anything but a dependable watch it will affect, to a certain extent, the balance of our enormous business."

THE RESULT of this investigation brought out two things—that the best watches in the world are made in America, and the best watches in America are those made by the Elgin, Waltham and Rockford Watch Companies. Therefore, those makes are the ones we selected. Every watch offered in this catalog (except a few bracelet watches) is either an Elgin, Waltham or Rockford watch. Any watch that you select is sent to you with our full assurance of absolute satisfaction. Every watch we show in this catalog is so good a watch that we unhesitatingly give it the protection of our legal binding guarantee, which means you could not possibly buy a better watch anywhere, no matter how much you paid for it, because the Hartman guarantee is the strongest document of its kind ever written. It is not within the power of written words to make it stronger.

We carry no freakish fads, which a person tires of in a month or two when the novelty wears off. The watches we show and offer are watches for a lifetime, guaranteed for lifetime satisfaction.

THE WATCH BUYING PUBLIC has endorsed our plan by making our Watch Department one of the largest watch selling establishments in the world. This is because our watches are right in price and quality, and the people of the country know and trust Hartman's, just as Hartman's knows and unhesitatingly trusts the people. Trust in a literal way by giving them absolutely free credit—free from all restrictions such as the giving of notes, mortgages and other red tape annoyances. Our credit is free. Our prices are lower than the lowest. Our terms are the most liberal ever offered. Those are the reasons why the people order their watches, as well as other merchandise, from Hartman's, and why it will pay you to do likewise.

THE PRICES WE QUOTE on the watches in this catalog are characteristic of the low prices which dominate the entire business of Hartman throughout its every department. That means that these prices are the very lowest at which these world-famous makes can possibly be sold. Our vast purchasing power of more than Ten Million Dollars, and because of it, our ability to undersell all competition, operates in our Watch Department to the same advantage to our customers as it does in every other department. When you buy a watch from Hartman's you not only get the benefit of the lowest price ever made on a watch of the particular make, size and style you select, but you also have a full year to pay for it if you wish. Search the world over and you could not possibly find the equal of the watch bargains here offered you.

</table>
T HE prices quoted herein are the very lowest at which these watches can be sold. That does not mean the lowest credit prices—it means lowest prices, either cash or credit. You may pay all cash for your watch purchase if you prefer to do so, but you will not save a penny by doing so. Our prices are rock bottom. They represent the very narrowest margin at which dependable watches purchased in stupendous quantities at the very lowest cash prices, can be placed in the hands of customers. Therefore, it doesn't make a bit of difference whether you pay all cash or in easy payments to suit your convenience. The price is exactly the same in either case.

WE WISH it to be distinctly understood that every watch sold by us is brand new, direct from the factory. Not a single one is a “rebuilt” watch—not an old watch which has seen service and been tinkered up, put into a case and sold as new. The watch we send you will be one that comes to you exactly as it leaves the factory—brand new and absolutely perfect in every respect.

We ask you to remember that when you buy a watch from us you have the addition of our guarantee to that of the manufacturer, and you take no risk whatever. You could not possibly ask for greater protection.

A LIFETIME REPAIR GUARANTEE

WE GUARANTEE to keep the watch in perfect order, absolutely free of charge, as long as you own it. This means exactly what it says—buying a watch from Hartman means an insurance policy that at any time your watch needs repairs, we will do it for you free of charge. The watches we sell you must give you lifetime service. This is a part of our guarantee. This is an added feature to our Watch Department, exclusive with us. When you purchase a watch from us you are fully protected in every respect.

If you would rather have some other make than the Eiger, Walther or Rockford tell us what make you wish, we will supply you at rock bottom price on our regular easy credit terms, providing that upon investigation it proves to be a reliable make and one that we can recommend. We are sure, however, that any one of the three makes here featured will please you perfectly, and the wide range of styles, sizes and prices makes possible any selection you may wish.

SENT ON APPROVAL. You may order us to send you any item you wish from this catalog. Send along remittance for the first payment as indicated in printed table on page 1, with the clear understanding that if for any reason you do not care to keep the watch, you are at liberty to return same as we will refund you money when you have paid. If you decide to keep the watch, then pay the small monthly payment as due. All watches are sent on 30 days' approval test and examination.

HOW TO START AN ACCOUNT. Pick out the goods you want and write your order on one of our printed order blanks. Be sure to mention the price, catalog number, name of the article and catalog page on which it appears, giving any additional information as listed in description. Refer to page 1 which tells you how much money to send with your order, and how to pay the balance. By giving us this information in full we will be able to avoid any possible misunderstanding or delays.

ENGRAVING Watches illustrated in this catalog with engraved or enameled monograms, furnished with your initials without extra cost.

Watches illustrated in this catalog without initials or monograms can be hand engraved as you may desire, providing there is suitable space for the engraving. Prices for various engravings are based upon amount of work necessary and range from 25c to $3.00, according to style and size. To prevent errors print the initials you desire engraved.

ABOUT WATCH CASES. All our 14-karat gold cases are extra fine in quality and pattern. They are better in construction, richer and heavier in gold, finer in every detail of quality and design than any other cases on the market. They are cases any man or woman is proud to own or exhibit—cases that are guaranteed to last a lifetime.

Our gold-filled cases, the 10, 20 and 25 year, are offered in an almost endless variety of fancy engraved designs, Roman, Plain and Polished cases, suitable for fancy initials or elaborate monograms. Stamped in every case is the period of time for which they are guaranteed. If any of these cases do not wear satisfactorily for the full length of time as guaranteed, we will replace the defective case with a brand new one. All our watches are adjusted and regulated before they are sent out to you, assuring time-keeping accuracy and perfect condition when you receive your watch.

CHARGES PREPAID. Whenever possible, we ship watches by express, otherwise by parcel post. We pay the delivery charges on watches and jewelry only. On small purchases (under $5.00) we request cash in full with your order, as we do not open charge accounts for less than $5.00. However, our legal, money-back guarantee remains the same in every case, whether you send cash in full on a small or a large order, or use our convenient credit system. We guarantee safe delivery and will replace any damaged watch with a new one, free of charge.

HOW TO SEND MONEY. The safest and best way to send money is by postoffice money-order, express money-order or bank draft. In any case, these must be made payable to the Hartman Furniture & Carpet Company. Curreny and coin should ALWAYS be sent by REGISTERED MAIL. We would ask you to kindly avoid sending personal checks. If you live on a R. F. D. route give your money and letter to the rural mail carrier and he will buy a money order for you and send it to us.

NAME AND ADDRESS. Be sure to write your name and address very plainly, giving town, county, state and street. If your present postoffice has a different name from your express office, please mention BOTH. If away from home when ordering, please give permanent as well as temporary address. Women should always prefix their name with Miss or Mrs. (Mrs. using husband's initials) as may be proper. Always write your name in full and the same way each time you write to us.
The New Thin Model watches illustrated on this page are most attractive in style and offer a selection of splendid designs in high grade Gold Filled Cases complete with factory tested and regulated Elgin, Waltham or Rockford movements at heretofore unheard of prices for these well and favorably known brands of Men's 16-Size Watches. The time keeping accuracy and durability of our watches are GUARANTEED both by ourselves and the Watch Manufacturers. REMEMBER, we offer you the choice of Elgin, Waltham or Rockford watches. When ordering be sure to mention the order the name of movement you desire.

Prices are for HUNTING CASES, fitted at the factory with the movements named.

**How To Select Your Watch**

Women never buy men’s watches for themselves, but men frequently make the mistake of buying a lady’s watch for their own use.

Some men say they only want a watch for Sundays. All watches illustrated in our Catalogs are for sale and we want to sell you the kind of watch you prefer but do not buy a “Sunday Watch.” A watch that is not durable enough to have with you every hour of every day in the week is not a good investment, no matter what its price may be.

**HARTMAN'S JEWELRY DEPARTMENT**

39th Street and Wentworth Avenue, Chicago
Bargain Watch Outfit

We especially recommend this Watch, Locket and Chain outfit and positively guarantee the wearing quality to give the utmost satisfaction. The watch is 18-size Open Face, new thin model. The case is dust and damp proof, finest quality, gold filled, guaranteed to wear twenty years, and you have the choice of engraved, plain or engine turned styles. Elgin’s highest grade, 7 Jewels, full nickel movement is fitted and re-tested in the case at the factory, insuring time keeping accuracy of the watch you receive. The Gold Filled Chain is regulation length, curb link pattern, made and finished in the best possible manner, and bears our unqualified endorsement for durability. The Locket is engraved, as illustrated. Has space for picture. You can order the outfit complete or each item separately, at the very low prices quoted.

No. 9J 2501A - Watch Only, Price $15.95
No. 9J 2501B - Chain Only, Price $2.28

Ladies’ Watch, Chatelaine and Bracelet Watch
Illustrated below, we show in actual size Elgin’s latest and most favorite Watch, Chatelaine and Bracelet Combination for Ladies. The Watch case is plain polished, highest grade Gold Filled, guaranteed for 25 years. The movement is solid nickel, has 7 Jewels, and is fitted at the factory and guaranteed for time keeping accuracy. The Bracelet is the newest style expansion link design and will fit any wrist. The Chatelaine is heavy weight, fine solid gold, with extra strong hook and patented locking device. The watch may be worn as a pendant on the chatelaine, on a chain, or as a wrist watch. The great beauty, utility and exceptional value of this outfit make it one of Hartman’s Greatest Offerings.

No. 9J 2503 - Price of Complete Outfit Only $19.75

Ladies’ Watch with Chatelaine

We offer here a Ladies’ extra small size Gold Filled Watch and beautiful Chatelaine that can positively be recommended for satisfactory service in every respect. The watch is exactly of the size as illustrated and although extra small and very compact, may be absolutely depended upon for timing accuracy. The case is dust and damp proof, plain polished rich gold filled, of highest quality, and guaranteed for 25 years. A famous Elgin or celebrated Waltham, full nickel, 7 Jewel movement is fitted and timed at the factory in each case. The Chatelaine is polished and Roman color fancy scroll, with extra strong hook and patented locking device. This splendid watch and beautiful chatelaine comes in a silk velvet presentation case and makes a handsome gift that will last a lifetime.

No. 9J 2502 Price Complete $13.98
